Book Feb 21 2022 Emphasizing safe and effective drug administration, Introduction to Clinical Pharmacology, 10th Edition, helps you understand the principles of pharmacology and prevent medication errors. It promotes safety by showing how drugs and drug classes work, so you can understand why drugs are given, as well as the adverse effects and drug interactions that may occur. A thorough nursing process section with each drug class outlines the nurse's role when administering drugs. The updated Get Ready for the Next Generation NCLEX® Examination! feature offers case studies with Next Generation NCLEX-format questions to help you prepare for the new licensure examination. Ideal scope of content and readability for LPN/LVN programs includes basic, need-to-know pharmacology content. Safety Alert boxes highlight important nursing considerations for safe medication administration and monitoring. Lifespan Considerations boxes for children and older adults draw attention to information that would be especially important when giving a specific drug to patients of those age groups. A focus on understanding drug classes helps students understand the actions and uses of drug classes and provides a framework for safe, effective practice as new drugs are introduced to the market. Video clips on medication administration procedures provide students with a visual reference for safe medication administration. Key terms with phonetic pronunciations and text page references help

Keeping the Republic Mar 01 2020 Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to think critically about "who gets what, and how" while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Eighth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power - the ability to create and share their own narratives - while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election
