Understand Hadoop's architecture from an administrator's standpoint Create simple and fully distributed clusters Run MapReduce and Spark applications in a Hadoop cluster Manage and protect Hadoop data and high availability Work with HDFS commands, file permissions, and storage management Move data, and use YARN to allocate resources and schedule jobs Manage job workflows with Oozie and Hue Secure, monitor, log, and optimize Hadoop Benchmark and troubleshoot Hadoop

**Flow Cytometry Protocols** Apr 22 2022 This thoroughly revised and updated edition of a widely used practical guide to flow cytometry describes in step-by-step detail an array of time proven and cutting-edge techniques much needed in today's advanced laboratories. These readily reproducible methods deploy emerging flow cytometry technologies in many new applications, especially in the field of stem cells, functional genomics and proteomics, and microbiology. Here, the aspiring investigator will find methods for the characterization of stem/progenitor cells by monitoring the efflux of fluorescent dyes and the elucidation of signal transduction pathways using phospho-specific antibodies. There are also techniques for monitoring gene transfer and expression using fluorescent protein technology, high throughput screening for discovery of novel protein interactions, phenotypic and functional characterization of T cell subsets and precursors, and microbial flow cytometry, to highlight but some of the many useful procedures.

**Chants of a Lifetime** Jan 19 2022 Learn the overwhelming strength and calm that comes over you when you practice the ancient art of chanting. Chants of a Lifetime offers an intimate collection of stories, teachings, and insights from Krishna Das, who has been called "the chant master of American yoga" by the New York Times. Since 1994, the sound of his voice singing traditional Indian chants with a Western flavor has brought the spiritual experience of

chanting to audiences all over the world. He has previously shared some of his spiritual journey through talks and workshops, but now he offers a unique book-with-audio download combination that explores his fascinating path and creates an opportunity for just about anyone to experience chanting in a unique and special way. Chants of a Lifetime includes photos from Krishna Das's years in India and also from his life as a kirtan leader—and the audio that is offered exclusively in the book consists of a number of "private" chanting sessions with the author. Instead of just being performances of chants for listening, the recordings make it seem as if Krishna Das himself is present for a one-on-one chanting session. The idea is for the listener to explore his or her own practice of chanting and develop a deepening connection with the entire chanting experience.
