Brazil's Migration Law Nov 05 2022

Migration and Social Protection in Europe and Beyond (Volume 1) Apr 05 2020 This first open access book in a series of three volumes provides an in-depth analysis of social protection policies that EU Member States make accessible to resident nationals, non-resident nationals and non-national residents. In doing so, it discusses different scenarios in which the interplay between nationality and residence could lead to inequalities of access to welfare. Each chapter maps the eligibility conditions for accessing social benefits, by paying particular attention to the social entitlements that migrants can claim in host countries and/or export from home countries. The book also identifies and compares recent trends of access to welfare entitlements across five policy areas: health care, unemployment, family benefits, pensions, and guaranteed minimum resources. As such this book is a valuable read to researchers, policy makers, government employees and NGO's.

The Geostationary Ring Aug 22 2021 The Geostationary Ring: Practice and Law by Martha Mejía-Kaiser addresses numerous physical aspects of this highly sought-after orbital region and analyses in unprecedented detail the evolution of its use, coordination and related disputes and efforts to keep it operational by clearing it of space debris.

European Family Law in Action Jun 19 2021 This volume contains detailed information concerning the law on parental responsibilities in twenty-two European jurisdictions. The expert members of the CEFL have drafted national reports on the basis of a detailed questionnaire. These national reports, together with the relevant legal provisions, are available on CEFL's web site (www.law.uu.nl/priv/cefl). This book integrates all the given answers in order to provide an overview and a straightforward simultaneous comparison of the different solutions chosen within the national systems. On the basis of this reliable and comprehensive comparative material the CEFL will be able to draft Principles of European Family Law regarding Parental Responsibilities.

Human Rights Law and Regulating Freedom of Expression in New Media Dec 02 2019 The Nordic countries are well known globally for their high human rights standards and, at the same time, high degree of internet freedom. This edited collection reveals how the Nordic countries have succeeded in the task of protecting freedom of expression in the new media. It contains an overview of public policy choices and best practices of domestic online companies, which have the aspiration of finding global acceptance. Reviewing the topic of freedom of expression in new media within Nordic and Baltic countries, this book incorporates both general themes and interesting country-specific themes that will provide wider knowledge on the development of freedom of expression and media law in the online media era. A comprehensive analysis of regulation of online media, both at the level of legislation and application of law in courts and other authorities, are included. This book will contribute to the ongoing discussion as to whether there is a need to modify prevailing interpretation of freedom of expression. Human Rights Law and Regulating Freedom of Expression in New Media focuses on the multi-layered and complicated relationship between internet and human rights law. It contributes to the ongoing discussion regarding the protection of freedom of expression on the internet in the context of various doctrines of constitutional law, including the proliferation of constitutional adjudication. It will be of interest to researchers, academics, policymakers, and students in the fields of human rights law, internet law, political science, sociology, cultural studies, media and communications studies and technology.

Indonesian Law Nov 24 2021 Indonesia has a growing population of almost 300 million people, it is increasingly involved in world affairs, and has a booming economy. The need to better understand its unique, complex, and often obscure legal system, has become pressing. This is true across a wide range of sectors including, but not limited to, trade and investment, crime and terrorism, and human rights. Indonesia's democratization after the fall of Soeharto in 1998 triggered massive social and political changes that opened up this diverse, and formerly tightly-controlled, society. Law reform was a key driver of Indonesia's transformation and its full effect remains to be seen. This book offers clear and detailed explanations of the foundations of Indonesia's legal system in the context of its legal reform and rapid development. It offers succinct commentaries on a wide range of issues, examining the judicial process, the constitution, corruption and the court system, contract law, administrative law, foreign investment, taxation, Islamic law, and family law. It examines current substantive law and judicial interpretation and presents case studies of how the system operates in practice. Written in an accessible and engaging style, this book is an essential guide for readers seeking quick and clear answers to questions regarding the law and its application in Indonesia.

Political Participation of Minorities May 07 2020 It also considers effective participation in relation to the right to full and effective equality, as well as the legal entrenchment of these provisions and implementation mechanisms. Individual chapters then consider each of the principal mechanisms aimed at enhancing political participation, ranging from procedures covering minority representation in political institutions to consultative mechanisms and autonomy solutions. The Commentary draws on a team of experts. All of whom are recognized authorities in this specialized area of minority issues. Readership: Scholars of minority issues, political participation, and conflict resolution; legal officers of NGOs in this field; post-graduate students.

Enforcing European Union Law on Exports of Dual-use Goods Dec 14 2020 Export controls on dual-use goods -- goods that can be used for both civilian and military purposes -- are an essential tool in combating the proliferation of weapons of mass destruction (WMD). This report examines the role of national law enforcement and criminal justice systems in the effective enforcement of export controls, focusing on the enforcement of European Union export control rules in the member states. Enforcing European Union Law on Exports of Dual-Use Goods introduces the often complex international, European and national legislation and arrangements governing the control of dual-use exports in the EU in a clear and methodical manner. Case studies describe the dual-use export control legislation and enforcement systems in four EU member states along with real-life investigations and prosecutions. The book also offers recommendations for enhancing national export control systems and their enforcement.

Civil Procedure in Norway May 19 2021 Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient volume provides comprehensive analysis of the legislation and rules that determine civil procedure and practice in Norway. Lawyers who handle transnational matters will appreciate the book's clear explanation of distinct terminology and application of rules. The structure follows the classical chapters of a handbook on civil procedure: beginning with the judicial organization of the courts, jurisdiction issues, a discussion of the various actions and claims, and then moving to a review of the proceedings as such. These general chapters are followed by a discussion of the incidents during proceedings, the legal aid and legal costs, and the regulation of evidence. There are chapters on seizure for security and enforcement of judgments, and a final section on alternative dispute resolution. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Succinct, scholarly, and practical, this book will prove a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Norway will welcome this very useful guide, and academics and researchers will appreciate its comparative value as a contribution to the study of civil procedure in the international context.

Bodenschutzrecht in Der EU Apr 17 2021 In view of the Thematic Strategy for Soil Protection of the European Commission and the draft of the European Soil Protection Framework Directive, a symposium on the topic «Strategies for legislating soil protection in the European Union» was held in March 2007 at the Technische Universität (TU) Berlin. At the centre of the symposium were reports on EU thematic soil protection strategies and the soil protection framework presented in the draft by six different European countries (Spain, Poland, Finland, Denmark, Austria, and Germany), providing an overview of the state of soil protection laws in these member states. The conference transcript includes these individual reports as well as the symposium's most important findings. Ausgehend von der thematischen Bodenschutzstrategie der EU und der im Entwurf vorliegenden Bodenschutz-Rahmenrichtlinie hat im März 2007 an der Technischen Universität Berlin ein Symposium unter dem Thema «Strategien für den gesetzlichen Bodenschutz in der Europäischen Union» stattgefunden. Im Mittelpunkt des Symposiums standen Berichte aus sechs verschiedenen europäischen Ländern (Spanien, Polen, Finnland, Dänemark, Österreich und Deutschland), die einen Überblick zum Stand des Bodenschutzrechts in diesen Mitgliedstaaten gaben und Anforderungen an eine künftige Europäische Bodenschutz-Rahmenrichtlinie formulierten. Die einzelnen Länderberichte sowie die wichtigsten Ergebnisse, die im Rahmen des Symposiums erarbeitet wurden, enthält dieser Tagungsband.

National Education Act of R.F. 2542 (1999). Aug 02 2022

Green Finance and Investment Promoting Clean Urban Public Transportation and Green Investment in Kyrgyzstan May 31 2022 This report discusses the main results of a project on how an influx of funds could spur development of cleaner public transport, and reduce air pollution and greenhouse gas (GHG) emissions in large urban centres in Kyrgyzstan, by providing an analysis for designing a green public investment programme in this sector.

Iceland Mineral & Mining Sector Investment and Business Guide Jul 29 2019 Iceland Mineral & Mining Sector Investment and Business Guide - Strategic and Practical Information

ASEAN Law in the New Regional Economic Order Jun 27 2019 This book provides a contextual analysis of ASEAN law and its impact on the business and commercial aspect of laws.

Translation Policies in Legal and Institutional Settings Jun 07 2020 This edited volume documents the state of the art in research on translation policies in legal and institutional settings. Offering case studies of past and present translation policies from several parts of the world, it allows for a compelling comparison of attitudes towards translation in varying contexts. The book highlights the virtues of integrating different types of expertise in the study of translation policy: theoretical and applied; historical and modern; legal, institutional and political. It effectively illustrates how a multidisciplinary perspective furthers our understanding of translation policies and unveils their intrinsic link with topics such as multilingualism, linguistic justice, minority rights, and citizenship. In this way, each contribution sheds new light on the role of translation in the everyday interaction between governments and multilingual populations.

Excessive Pricing and Competition Law Enforcement Aug 29 2019 This volume examines the controversy surrounding the use of competition law to combat excessive pricing. While high or monopolistic pricing is not regarded as an antitrust violation in the US, employing abuse of dominance provisions in competition laws to fight excessive pricing has gained popularity in some BRICS jurisdictions and a number of EU-member states in recent years. The book begins by discussing the economic arguments for and against the prohibition of excessive or unfair prices by firms with market power. It then presents various country studies, focusing on developed countries (such as the UK and Israel) and on the BRICS countries, to highlight various practical challenges involved in recognizing excessive prices as abusive conduct on the part of dominant firms, including how to define, measure and identify excessive prices. The contributors also discuss other policy options that can be used to fight excessive prices in order to protect consumer welfare.

Competition Law in Finland Jan 27 2022 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in the Finland covers every aspect of the subject – the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities' powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in the Finland will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law.

Transfer Pricing and the Arm's Length Principle in International Tax Law Aug 10 2020 The arm's length principle serves as the domestic and international standard to evaluate transfer prices between members of multinational enterprises for tax purposes. The OECD has adopted the arm's length principle in Article 9 of its Model Income Tax Convention in order to ensure that transfer prices between members of multinational enterprises correspond to those that would have been agreed between independent enterprises under comparable circumstances. The arm's length principle provides the legal framework for governments to have their fair share of taxes, and for enterprises to avoid double taxation on their profits. This timely book contains a comparative analysis of the legal basis for the arm's length principle and the contents of the arm's length rules in US tax law as well as in the OECD Model Tax Convention and Transfer Pricing Guidelines. It includes a thorough review of international case law on transfer pricing from the United States, Canada, Australia, United Kingdom, Germany, France, the Netherlands, Denmark, Sweden, and Norway. The book ends with an analysis of the issues associated with the application of the arm's length principle for multinational enterprises in a global economy.

Employment Privacy Law in the European Union Sep 30 2019 Information and knowledge have become crucial factors in modern labour markets. In this context, labour-management relations are characterised by an increasing and considerable flow of information. These developments are influenced by new management techniques, such as human resources management, in which the individual is identified as a key element in business success. Furthermore, there is the globalisation of the economy, the increase of international corporate mergers and the unfolding of the network society, which goes hand in hand with technological innovations. These developments not only multiplied the needs for information and the flow of data in employment relations, but also improved techniques of data processing revealing sensitive data of employees. This book deals with employment privacy law, a field of knowledge that increasingly gains influence in legal theory and daily practice. It concentrates on the legal regulation of general human resources data as well as sensitive data in the employment context. The book is developed within a comparative perspective, providing an overview and analysis of the Law of each Member State of the European Union in the field of study. It is completed by a comparative summary. Information and insights in this book will be of great value for practicing lawyers, human resources managers, academics, interest groups and policy makers. The specific issue of monitoring and surveillance in the workplace is covered in another highly recommended book,

Hastings International and Comparative Law Review Sep 03 2022

The Right To Be Forgotten Nov 12 2020 This book examines the right to be forgotten and finds that this right enjoys recognition mostly in jurisdictions where privacy interests impose limits on freedom of expression. According to its traditional understanding, this right gives individuals the possibility to preclude the media from revealing personal facts that are no longer newsworthy, at least where no other interest prevails. Cases sanctioning this understanding still abound in a number of countries. In today's world, however, the right to be forgotten has evolved, and it appears in a more multi-faceted way. It can involve for instance also the right to access, control and even erase personal data. Of course, these prerogatives depend on various factors and competing interests, of both private and public nature, which again require careful balancing. Due to ongoing technological evolution, it is likely that the right to be forgotten in some of its new manifestations will become increasingly relevant in our societies.

Anti-Discrimination Law in Civil Law Jurisdictions Sep 10 2020 This collection of essays explores the evolution of anti-discrimination law in European civil law jurisdictions. Historically, scholarship in this area has focused on the common law, which has also taken the lead in developing the theory and practice of anti-discrimination law. This volume breaks new ground by offering a sustained, critical, legal and socio-legal, comparative look at how anti-discrimination is faring in European civil law environments. While it is true that anti-discrimination law is seen as a foreign transplant in some regions, it does not fare poorly across the board. As shown by the case studies herein, the success of anti-discrimination law is found to vary according to its national context, the actors involved, and the evolution of the particular concept or ground of discrimination in question.

Sessional Papers Jul 01 2022

Legislating for Equality Sep 22 2021 This publication consists of a comprehensive collection of all UN member states' legislation on non-discrimination, protection of minorities, prohibition of hate-crimes and hate speech. The book, divided into four volumes, provides a legal model for combating discrimination through national legislation.

Trust Law in Asian Civil Law Jurisdictions Feb 02 2020 This book analyses and compares Asian trust laws to critically evaluate Asian approaches to the reception of the trust.

Strengthening the Human Right to Sanitation as an Instrument for Inclusive Development Mar 29 2022 Over a third of the current 7.3 billion people worldwide are burdened with poor sanitation services. The resulting social, relational and ecological exclusion make the realisation of the human right to sanitation (HRS) a critical concern development concern. However, the literature has evolved in a largely compartmentalised manner, focusing on the formal recognition of the HRS in domestic legal systems, without sufficiently addressing the drivers of poor sanitation services. This research expounds on the impact of the HRS on human wellbeing and the environment within the context of a developing country like Nigeria as a case study. The findings show that contrary to the focus in the literature, the drivers of poor sanitation services are not confined to legal factors, such as the formal recognition of the HRS within domestic legal systems. Rather, the drivers include social, economic and environmental limitations to improved sanitation services. Based on the findings, the book argues that the focus in the literature on the formal recognition of the HRS in national legal systems is insufficient for tackling the main drivers of poor sanitation services. It is therefore necessary to reformulate the HRS discourse using complementary governance instruments that advance social, relational and ecological inclusion.

Challenging Identities Jul 09 2020 Identity is a keyword in a number of academic fields as well as in public debate and in politics. During the last decades, references to identity have proliferated, yet there is no simple definition available that corresponds to the use of the notion in all contexts. The significance of the notion depends on the conceptual or ideological constellation in which it takes part. This volume on one hand demonstrates the role of notions of identity in a variety of European contexts, and on the other hand highlights how there may be reasons to challenge the use of the term and corresponding social, cultural, and political practices. Notions of national identity and national politics are challenged by European integration, as well as by the increasing demographic heterogeneity due to migration, and migrants experience conflicts of identification stemming from clashes between cultural heritage and the cultures of the new habitat. European horizons - frames of mind, historical memories, and expectations at the level of groups or communities, at the national level, and at the general European level - are at odds. Analyzing a series of issues in European countries from Turkey to Spain and from Scandinavia to the Balkans, the contributions demonstrate uses and abuses of the notion of identity.
