Wolfgang Tillmans Jun 19 2021 Few artists have changed the manner in which photographic images are made, read, and received over the past two decades as dramatically as German photographer Wolfgang Tillmans (b. 1968). One of the most important and distinctive artists to emerge in the 1990s, Tillmans' work is internationally recognized for its powerful reflections on the often overlooked objects and moments in everyday life. With images culled from the entirety of Tillmans' career, this generously illustrated book accompanies the artist's first retrospective exhibition in the United States and features the potent effects of his portraits, abstractions, and structural and sculptural motifs. Essays by leading scholars examine the context of the German art and pop cultural scene in which Tillmans first began working in the late 1980s; his use of magazines as both venue and source materials; his unique approach to portraiture; his ability to create a sense of intimacy between the viewer and subjects ranging from his friends to cultural figures and heads of

state; and his distinctive approach to presenting his images in displays and installations. A fascinating look at the breadth of Tillmans' career to date, including his most recent new work, this book demonstrates the renowned abilities of one of the art world's most revolutionary photographers.

Audrey: The 50s Mar 29 2022 A stunning photographic compilation showcasing Audrey Hepburn's iconic career in the 1950s—the decade that solidified her place as one of the world's greatest stars in film and fashion. Devoted to her most influential decade, *Audrey: The 50s* brings together in one volume the allure and elegance that made Audrey Hepburn the most iconic figure in modern fashion history. Photographed during the early days of her career, both on the sets of *Roman Holiday*, *Sabrina*, *Funny Face*, and other classic films, and in fashion photo shoots by top photographers who adored and immortalized her, these beautiful black-and-white and color images radiate with Audrey's waifish charm, ethereal beauty, and effortless style. Renowned author, curator and photographic preservationist David Wills has carefully selected this collection of two hundred museum-quality photos that capture Audrey in her prime as never before. *Audrey: The 50s* displays this star at her brightest, and brings her legacy into perfect focus. Among the highlights: Rare and classic images digitally restored from vintage photographic prints, original studio negatives and transparencies. Never-before-seen publicity photos, scene stills and work shots from the sets of *Roman Holiday*, *Sabrina*, *Funny Face*, *Love in the Afternoon*, and *The Nun's Story*. Plastic Cameras Feb 13 2021 In these days of high tech, high spec digital cameras even the rankest amateur can capture technically professional-looking images - but there's a growing trend of happy-go-lucky snappers who yearn for a more simplistic approach, a return to a time when photography was perhaps less predictable. Decidedly low-tech and highly idiosyncratic plastic, or 'toy' cameras such as the original 1984 Lomo Kompakt Automat (which spawned the term 'Lomography'), the Diana and the Holga, and the recently introduced Blackbird, Fly enable them to create images that - while not technically perfect - display a quirky sense of fun, spontaneity, and creative artiness. Whereas digital cameras and high spec film cameras boast the technology to eradicate undesirable optical 'faults' such as vignetting, barrel and pinchusion distortion, converging verticals and noise, the owners of their cheaper cousins - which have only rudimentary plastic lenses - relish the manifestation of such visual aberrations in their pictures. Colours are typically richly over-saturated, exposure frequently off-kilter, focus dreamily soft. Plastic cameras lack light meters, autofocus, auto film advance, adjustable shutters and digital sensors, notoriously leak light onto the 120 or 35mm roll film they employ, and there are some wacky versions: flamboyant wide-angle fish-eyes, stereo cameras with two lenses and two flashes, pinhole cameras that don't even possess a lens, and multi-lens cameras that create negatives combining up to nine images on a single 35mm frame. These unassuming cameras first emerged as toys created in Hong Kong in the 1980s but were adopted by US photography and art schools: because of their simplicity they could actually teach the user the basics of composition, perspective, exposure and so on. Now their appeal has spread and enterprising manufacturers continue to produce these lo-fidelity analog gizmos - with some exciting deviations that increase the fun element of pointing and shooting. This book offers a practical guide to shooting with a plastic camera, including hot tips and tricks on: * loading, advancing and unloading film * using the viewfinder * dealing with the light leaks that can fog or streak the film (while not necessarily discouraging these happy accidents!) * camera modifications and reinforcements. Although the rule of shooting with plastic cameras is that there are no rules, the book suggests ways to get the most from these unpredictable devices: * capturing movement * producing multiple exposures * shooting in low light conditions * dealing with flare * shooting close-

ups * using flash * using filters There's also sound, practical advice on: * experimenting with film types - film options include black-and-white, infrared, colour negative, transparency and instant * film processing - lab processing includes 'cross-processing', where colour transparency film is processed by the colour negative process (with awesome results!); hand processing in which photographer becomes developer; and push and pull processing, where images are tweaked in the darkroom. * printing your images.

Legendary Authors and the Clothes They Wore Jun 07 2020 Discover the signature sartorial and literary style of fifty men and women of letters, including Maya Angelou; Truman Capote; Colette; Bret Easton Ellis; Allen Ginsberg; Patti Smith; Karl Ove Knausgaard; and David Foster Wallace; in this unique compendium of profiles—packed with eighty black-and-white photographs, excerpts, quotes, and fast facts—that illuminates their impact on modern fashion. Whether it ' s Zadie Smith ' s exotic turban, James Joyce ' s wire-framed glasses, or Samuel Beckett ' s Wallabees, a writer ' s attire often reflects the creative and spiritual essence of his or her work. As a non-linear sensibility has come to dominate modern style, curious trendsetters have increasingly found a stimulating muse in writers—many, like Joan Didion, whose personal aesthetic is distinctly "out of fashion." For decades, Didion has used her work, both her journalism and experimental fiction, as a mirror to reflect her innermost emotions and ideas—an originality that has inspired Millennials, resonated with a new generation of fashion designers and cultural tastemakers, and made Didion, in her eighties, the face of Celine in 2015. *Legendary Authors and the Clothes They Wore* examines fifty revered writers—among them Samuel Beckett; Quentin Crisp; Simone de Beauvoir; T.S. Eliot; F. Scott and Zelda Fitzgerald; Malcolm Gladwell; Donna Tartt; John Updike; Oscar Wilde; and Tom Wolfe—whose work and way of dress bears an idiosyncratic stamp influencing culture today. Terry Newman combines illuminating anecdotes about authors and their work, archival photography, first-person quotations from each writer and current designers, little-known facts, and clothing-oriented excerpts that exemplify their original writing style. Each entry spotlights an author and a signature wardrobe moment that expresses his or her persona, and reveals how it influences the fashion world today. Newman explores how the particular item of clothing or style has contributed to fashion ' s lingua franca—delving deeper to appraise its historical trajectory and distinctive effect. *Legendary Authors and the Clothes They Wore* is an invaluable and engaging look at the writers we love—and why we love what they wear—that is sure to captivate lovers of great literature and sophisticated fashion.

The First Book of Fashion May 31 2022 This captivating book reproduces arguably the most extraordinary primary source documents in fashion history. Providing a revealing window onto the Renaissance, they chronicle how style-conscious accountant Matthäus Schwarz and his son Veit Konrad experienced life through clothes, and climbed the social ladder through fastidious management of self-image. These bourgeois dandies' agenda resonates as powerfully today as it did in the sixteenth century: one has to dress to impress, and dress to impress they did. The Schwarzes recorded their sartorial triumphs as well as failures in life in a series of portraits by illuminists over 60 years, which have been comprehensively reproduced in full color for the first time. These exquisite illustrations are accompanied by the Schwarzes' fashion-focussed yet at times deeply personal captions, which render the pair the world's first fashion bloggers and pioneers of everyday portraiture. The First Book of Fashion demonstrates how dress – seemingly both ephemeral and trivial – is a potent tool in the right hands. Beyond this, it colorfully recaptures the experience of Renaissance life and reveals the importance of clothing to the aesthetics and every day culture of the period. Historians Ulinka Rublack's and Maria Hayward's insightful commentaries create an unparalleled portrait of sixteenth-century dress that is both strikingly modern and thorough in its description of a true Renaissance fashionista's wardrobe. This first English translation also includes a bespoke pattern by TONY award-winning costume designer and dress historian Jenny Tiramani, from which readers can recreate one of Schwarz's most elaborate and politically significant outfits.
