Better Get It in Your Soul Dec 21 2021 This book offers hope to parishes searching for a way to make their liturgies more meaningful in the local context. Written by a priest and a musician who have worked together for many years in the Canterbury House ministry at the University of Michigan, *Better Get It In Your Soul* describes methods that demonstrate a respect for others' gifts and skills, discernment of spiritual needs, and welcoming the creative force of the Holy Spirit into the planning process. Though thoroughly based in the Book of Common Prayer liturgy, the experience and ideas presented here are described in ways that will be useful to all liturgical denominations. Congregants at these liturgies have commented: "I only know that I believe in God – I'm not sure of much else. But I can worship here." "[It] is a perfect combination of music of the people and the mystical sense of Christ."

A Community Called Taize Apr 12 2021 Taize--the word is strangely familiar to many throughout the contemporary church. Familiar, perhaps, because the chanted prayers of Taize are well practiced in churches throughout the world. Strangely, however, because so little is known about Taize--from its historic beginnings to how the word itself is pronounced. The worship of the Taize community, as it turns out, is best understood in the context of its greater mission. On the day Jason Brian Santos arrived in the Taize community its leader was brutally murdered before his eyes. Instead of making Santos want to leave, the way the community handled this tragedy made him long to stay and learn more about this group of people who could respond to such evil with grace and love. In this book he takes us on a tour of one of the world's first ecumenical monastic orders, from its monastic origins in the war-torn south of 1940s France to its emerging mission as a pilgrimage site and spiritual focal point for millions of young people throughout the world. In *A Community Called Taize* you'll meet the brothers of the order and the countless visitors and volunteers who have taken upon themselves a modest mission: pronouncing peace and reconciliation to the church and the world.

Ancient Chant Hymns for Guitar Aug 24 2019 This is the first book to publish an extensive collection of pre-Renaissance music transcribed for guitar! Gregorian Chant melodies -- enormously popular in recent years -- form the basis for this volume. Inside, Garno argues that this music of the first 1500 years of Western history should no longer be ignored by guitarists. In support, he presents copious notes along with a myriad of single and multi-movement works, and concludes that such music is appropriately played on the guitar. A pioneering work that should be in every serious guitarist's library. Notation and tablature. Intermediate to advanced level. Includes access to online audio.

The Sources of Taizé Nov 07 2020 The "source book" on which the common life in Taize is based, this short volume is fundamental for understanding the vocation of Taize. It is presented like a letter that Brother Roger addresses personally to each reader, telling how in spite of discouragement and even doubt we can constantly find refreshment in returning again and again to the sources of faith. In the second part of the book, Brother Roger speaks particularly to the brothers of the community, recalling the essentials that make life together possible. In his own particular style, Taize's founder expresses himself in words that go straight to the heart. In page after page, he is careful not to write a single word that he has not first of all tried to live out himself.

Oral Literacies May 02 2020 This is the first book to focus exclusively on an examination of early 21st-century adult reading aloud. The dominant contemporary image of reading in much of the world is that of a silent, solitary activity. This book challenges this dominant discourse,

acknowledging the diversity of reading practices that adults perform or experience in different communities, languages, contexts and phases of our lives, outlining potential educational implications and next steps for literacy teaching and research. By documenting and analysing the diversity of oral reading practices that adults take part in (on- and offline), this book explores contemporary reading aloud as hugely varied, often invisible and yet quietly ubiquitous. Duncan discusses questions such as: What, where, how and why do adults read aloud, or listen to others reading? How do couples, families and groups use oral reading as a way of being together? When and why do adults read aloud at work? And why do some people read aloud in languages they may not speak or understand? This book is key reading for advanced students, researchers and scholars of literacy practices and literacy education within education, applied linguistics and related areas.

Mysterion Seeking Understanding Jun 22 2019 The common misconception is that first came the church and then came the sacraments. The reality is that first came God's grace and then came the church and then the church found visible ways to see the invisible grace God bestows. The resulting perspective shift puts Christ where Paul would have us put him, as the head of the church and author of our salvation. This book invites us to see and write about the sacraments not as mere band aids to the problems we face but as lenses for examining our church. Some of the authors delve deep into intellectual conceptions while others make plain what has always seemed so extravagant. The thread they all hold onto however is the desire to help the reader see sacramentality as something wondrous rather than archaic; and to find deep value for sacramentality and the visible signs of God's invisible grace.

Liturgical Music as Ritual Symbol Jul 16 2021 In this book, Sister Kubicki uses Jacques Berthier's Taize music to explore the nature of liturgical music as ritual symbol. She carries out a hermeneutical analysis of Berthier's chants and examines biographical and historical data related to the creator's of Taize music and the founding of the Taize community. The author draws on five areas of study to interpret the Taize chants as ritual symbol - symbol theory, semiotics, theologies of symbol, ritual theory, and performative language theory. The final chapter explores potential ecclesial meanings which may be mediated in the Taize liturgy and the role of Berthier's chants in mediating that meaning. The study concludes that it is music's symbolic property that enables it to be both ministerial and integral to the liturgy. As symbolic activity, music-making evokes participation, negotiates relationships, and enables the assembly to orient themselves and to find their identity and place within their world. Furthermore, music-making provides the illocutionary force to "do something" in the act of singing. Thus it is that as part of a complexus of ritual symbols, music interacts with other symbols, in mediating the liturgy's meaning.

The Emergent Psalter Jan 10 2021 Grounded in the liturgical tradition and scholarship, the author explores what he calls the "new traditionalism" that notes the recent resurgence of interest in ancient forms of liturgy and spiritual practice. Everett communicates the seriousness with which he approaches his subject by offering a brief history of psalms and an exegesis of selected psalm texts. As a composer, he speaks clearly about the process of capturing the essence of each psalm in the brief, but beautiful antiphons that accompany them. The psalter itself consists of musically notated antiphon melodies with chord symbols followed by the printed psalm text which is read aloud... Many alternative and emerging church communities have begun exploring ancient music and liturgical traditions despite a lack of high-quality, published liturgical music, which does not require (or even desire) an organ and a four-part choir. The *Emergent Psalter* serves to provide that resource. Featuring music written for two emerging communities (*Transmission* in New York and *Church of the Apostles* in Seattle), this book is an excellent resource for anyone producing alternative worship service or thinking of starting one.

Songs and Prayers from Taize Oct 31 2022

Ever Ancient, Ever New Feb 20 2022 For many years now, the church in North America has heard figure after figure concerning the steady flow of young people leaving the church. In the midst of these troubling figures, there remains a glimmer of hope for these youth as they transition into young adults. *Ever Ancient, Ever New* tells the story of a generation of younger Christians from different backgrounds and traditions who are finding a home and a deep connection in the church by embracing a liturgical expression of the faith. Author and teacher Winfield Bevins introduces you to a growing movement among younger Christians who are returning to historic, creedal, and liturgical reflections of Christianity. He unpacks why and how liturgy has beckoned them deeper into their experience of Jesus, and what types of churches and communities foster this "convergence" of old and new. Filled with stories illustrating the excitement and joy many young adults have found in these ancient expressions of Christianity, this book introduces you to practices and principles that may help the church as it seeks to engage our postmodern world.
