**Global Perspectives** Oct 03 2022 Firmly focused on developing core skills and assessment capabilities, this revised edition comprehensively matches the latest syllabus and saves you time in course preparation. The second edition has been restructured to focus even more on skills development with a particular emphasis on progressing those tricky - and essential - synthesis and evaluation skills, as well as research and reflection. Clearly differentiated for students at different ability levels, with clear language and instruction for EAL learners. This new edition of Global Perspectives will be available as a print book, an online book, or a print and online package, so you can choose the format that is right for you.

**Cities of Culture** Dec 25 2021 Culture now has a prominent place on the urban policy and re-profiling agendas of cities around the world. City-based cultural planning emphasising creativity in all its guises has emerged as a significant local policy initiative, while the notion of the 'creative city' has become an urban imaging cliché. The proliferation of local blueprints for cultural planning/creative cities has been remarkable, while supra-state bodies such as the European Union and UNESCO are also fostering the use of culture in strategies to revive cities and urban economies and to brand places as 'different'. Cities of Culture highlights significant trends in cultural planning since its inception, revealing and analysing key discourses and influential (globally-circulating) manifestos and processes, as well as their interpretation and implementation in specific places. With reference to examples drawn from Europe, Australia, Asia and North America, Cities of Culture provides insights into the application of urban cultural strategies in different local, national and international contexts, highlighting regularities, tensions and intersections as well as core underpinning assumptions. This book explores the now-pervasive expectation that cultural planning is capable of achieving a wide range of social, economic, urban and creative outcomes. It will be of interest for students and scholars of urban sociology, urban studies, cultural policy studies and human geography.

**Cambridge Lower Secondary Global Perspectives(TM) Stage 8 Learner's Skills Book** Feb 24 2022 This series has been developed for the Cambridge Lower Secondary Global Perspectives Curriculum Framework (1129). This Stage 8 learner's skills book helps students develop key 21st century skills including research, analysis and more. Written by experienced teacher and author, Keely Laycock, learners are encouraged to reflect on your chosen topics - such as sustainability and the digital world - at a personal, national and global level. This series enables students to develop skills for their future in a scaffolded and measurable way, and has been produced with feedback from teachers and students all around the world.

**Childhood in a Global Perspective** Jul 20 2021 The second edition of this compelling and popular book offers a unique global perspective on children's lives throughout the world. It shows how the notion of childhood is being radically re-shaped, in part as a consequence of globalization. Taking an engaging historical and comparative approach, the book explores social issues such as how children are constituted as raced, classed and gendered subjects; how children's involvement in war is connected to the globalization of capitalism and organized crime; and how school and work operate as sites for the governing of childhood. The book discusses wide-ranging topics including children's rights, the family, children and war, child labour and young people's activism around the globe. In addition to updated literature throughout, the revised edition includes new chapters on migration and trafficking, and the role of play. The book will continue to be of great value to students and scholars in the fields of sociology, geography, social policy and development studies. It will also be a valuable companion to practitioners of international development and social work, as well as to anyone interested in childhood in the contemporary world.

**Teaching with a Global Perspective** Sep 02 2022 This important book answers the growing call for US institutions to internationalize, create global citizens, and better serve diverse populations. Faculty are increasingly tasked with simultaneously encouraging a more inclusive worldview, facilitating classroom environments that harness the potential of students, and advising students who may need an array of university services or speak English as an additional language. Teaching with a Global Perspective is an accessible, hands-on tool for faculty and instructors seeking to facilitate global classroom environments and to offer diverse students the academic, language, and interpersonal support needed for success. Rich with practical features including Classroom Strategies, Assessments, Case studies, Discussion Questions, and suggestions for further reading in bibliographies, chapters address: developing a working understanding of global learning and inclusivity; identifying opportunities and barriers to helping students grow as global citizens; building confidence in teaching with a global perspective; facilitating courses and in-class participation that promote global and inclusive learning and communication between diverse populations; designing curricula, courses, assignments, and assessments that foster global and inclusive learning and support students with varied needs; and providing facilitative responses to students' academic work. Teaching with a Global Perspective bridges an important divide in discussions about globalizing curricula by developing readers' content knowledge while also helping them to develop more effective global communication strategies.

**Cambridge IGCSE® and O Level Global Perspectives Coursebook** Nov 23 2021 Skills-focused resources to support the study of Cambridge IGCSE® and O Level Global Perspectives, for first examination in 2018. Feel confident exploring key global issues from multiple perspectives with Cambridge IGCSE® and O Level Global Perspectives, a brand new coursebook from Cambridge University Press to support study of the Cambridge IGCSE® and O Level Global Perspectives syllabuses, for first examination in 2018. Taking a completely skills-based approach, and written by a Global Perspectives specialist, the coursebook is structured around the key skills students must demonstrate, with references to

relevant syllabus set topics. Each chapter contains multiple activities to encourage active engagement, assessment practice opportunities and differentiation support so that teachers can focus on the particular needs of their class.

***Shrinking Cities*** Oct 30 2019 This book examines a rapidly emerging new topic in urban settlement patterns: the role of shrinking cities. Much coverage is given to declining fertility rates, ageing populations and economic restructuring as the factors behind shrinking cities, but there is also reference to resource depletion, the demise of single-company towns and the micro-location of environmental hazards. The contributions show that shrinkage can occur at any scale – from neighbourhood to macro-region - and they consider whether shrinkage of metropolitan areas as a whole may be a future trend. Also addressed in this volume is the question of whether urban shrinkage policies are necessary or effective. The book comprises four parts: world or regional issues (with reference to the European Union and Latin America); national case studies (the United States, India, China, Korea, Taiwan, Germany, Romania and Estonia); city case studies (Detroit, Buffalo, Cleveland, Naples, Belfast and Halle); and broad issues such as the environmental consequences of shrinking cities. This book will be of interest to scholars and practitioners working in the fields of urban studies, economic geography and public policy.

***Water Sustainability*** Sep 29 2019 Using the latest mapping techniques, J.A.A. Jones, Chair of the IGU Commission for Water Sustainability, examines water availability, the impact of climate change and the problems created for water management worldwide as well as possible solutions. *Water Sustainability: A Global Perspective* is one of the first textbooks to meld the physical and human aspects affecting the world's water resources. Part One outlines the challenges and investigates the human factors: population growth; urbanization and pollution; the commercialization of water, including globalization and privatization; and the impacts of war, terrorism and the credit crunch. Part Two examines the physical aspects: the restless water cycle, the impact of past and future climate change and the problems change and unreliability create for water management. Part Three discusses current and future solutions including improved efficiency and water treatment systems, desalination, weather modification and rainwater harvesting, and improved legal and administrative frameworks. Jones concludes by asking how far technical and financial innovations can overcome the limitations of climatic resources and examining the human and environmental costs involved in such developments. This book is the ideal text for any student of water sustainability whether approaching the subject from the point of view of international relations, geography or environmental management.

***Global Perspectives on Home Education in the 21st Century*** Oct 23 2021 Home education is the fastest growing educational movement in the world, yet the research remains limited on why and how it has become so popular. As more and more families seek to homeschool, it is imperative that further studies are undertaken to understand how students' lives are impacted, as well as the challenges and opportunities that arise from this method of schooling. *Global Perspectives on Home Education in the 21st Century* is an edited collection that focuses on the major factors behind the global rise of the home education movement and explores many of the current issues faced in relation to homeschooling. The book examines key themes that include parents' and children's experiences of home education, how and why families choose to home educate, and what happens to home educated children once they are finished. Including topics such as unschooling, self-directed learning, willed learning, and holistic education, this book is primarily intended for home educators, school administrators, policymakers, researchers, academicians, and students.

***Economics from a Global Perspective*** Apr 28 2022 Normal 0 0 1 198 1134 9 2 1392 11.1539 1280x1024 0 0 0 Economics from a Global Perspective was the first textbook on IB Diploma economics in the market (originally launched in 1995) helping define the syllabus in terms of breadth and depth for teachers, and constituting the main reference source for students. Over 50,000 copies have been sold to date. With Forewords by Gareth Rees, Manuel Fernandez Canque & Andrew Maclehorse. Features of the Third Edition | Covers the entire IB Diploma syllabus – for exams in 2013 onward | Each topic covered in the appropriate breadth, depth & sequence | Learning Outcomes listed for each subsection, with corresponding exercises & multiple choice questions | International perspective throughout | Treats world poverty and development in depth | Numerous case studies, readings & profiles | Higher Level material colour coded | Supported by two student workbooks (Multiple Choice Questions for Economics and Data Response Questions for Economics) The text is thorough and authoritative whilst maintaining a student friendly approach. The clarity of expression is a significant feature, recognising that IB students have many demands upon their time and that many are also studying in a foreign language. Economics from a Global Perspective is written to give the student a clear understanding and a real enjoyment of economics. Alan Glanville has 32 years experience as an IB teacher, examiner and author. Jacob Glanville has 20 years experience as a professional economist.

***Sales Management*** Oct 11 2020 Designed to prepare upper-level undergraduate and graduate business students for work in the exciting field of global sales management, this text focuses upon the managerial and cross-cultural aspects necessary for leading the global sales force.

***Bauhaus Women: A Global Perspective*** Dec 01 2019 Forty five key women of the Bauhaus movement. *Bauhaus Women: A Global Perspective* reclaims the other half of Bauhaus history, yielding a new understanding of the radical experiments in art and life undertaken at the Bauhaus and the innovations that continue to resonate with viewers around the world today. The story of the Bauhaus has usually been kept narrow, localized to its original time and place and associated with only a few famous men such as Walter Gropius, Marcel Breuer, Paul Klee, Wassily Kandinsky, and László Moholy-Nagy. *Bauhaus Women: A Global Perspective* bursts the bounds of this slim history by revealing fresh Bauhaus faces: Forty-five Bauhaus women unjustifiably forgotten by most history books. This book also widens the lens to reveal how the Bauhaus drew women from many parts of Europe and beyond, and how, through these cosmopolitan female designers, artists, and architects, it sent the Bauhaus message out into the world and to a global audience.

***A Global Perspective on Real Estate Cycles*** Mar 28 2022 In March 1999, New York University Salomon Center in association with the Department of Finance at NYU Stern held a one-day conference on the impact of real estate cycles on the real estate industry both from a domestic as well as an international perspective. The conference featured the leading research on this topic in the United States, Europe and Asia. Currently, the real estate industry is at a critical point. New development projects around the world are being put on hold given recent developments in the international capital markets. The industry is hard hit by the decline in real estate investment trust (REIT) share prices and a shrinking pool of capital for real estate ventures. This has unfortunately coincided with serious financial problems of very large hedge funds and other institutional investors in the market for commercial mortgage backed securities. There is need for new insights into the implications of U. S. and global real estate cycles on real estate securities including REITs and mortgage-backed securities as well as direct real estate investment. This global orientation is important given the high mobility of capital into the real estate, the increasing integration of real estate markets, and the proposed expansion of real estate investment trusts (REIT) into international real estate. The process of globalization has resulted in increased competition between cities for the attraction of investment.

***Principles of Advertising*** Jul 28 2019 The authors present an integrated marketing approach to contemporary advertising. This new edition has been substantially updated to take account of the changes in the advertising industry that have marked the advent of the 21st century.

***Personal Wealth from a Global Perspective*** Apr 16 2021 This volume looks beyond the distribution of income by examining the assets, debts, and net worth of individuals and households to create a global picture of wealth, its distribution and concentration. Unlike previous studies, this study includes material on a number of transition and developing countries as well as high income OECD countries.

***Economics from a Global Perspective*** Jun 06 2020

***Colonialism in Global Perspective*** Aug 01 2022 A provocative, breath-taking, and concise relational history of colonialism over the past 500

years, from the dawn of the New World to the twenty-first century.

**Environmental Chemistry** Jan 14 2021 Chemical processes shape the world we live in; the air we breathe, the water we drink, the weather we experience. *Environmental Chemistry: a global perspective* describes those chemical principles which underpin the natural processes occurring within and between the air, water, and soil, and explores how human activities impact on these processes, giving rise to environmental issues of global concern. Guiding us through the chemical composition of the three key environmental systems - the atmosphere, hydrosphere, and terrestrial environment - the authors explain the chemical processes which occur within and between each system. Focusing on general principles, we are introduced to the essential chemical concepts which allow better understanding of air, water, and soil and how they behave; careful explanations ensure that clarity is not sacrificed at the expense of thorough coverage of the underlying chemistry. We then see how human activity continues to affect the chemical behaviour of these environmental systems, and what the consequences of these natural processes being disturbed can be. *Environmental Chemistry: a global perspective* takes chemistry out of the laboratory, and shows us its importance in the world around us. With illuminating examples from around the globe, its rich pedagogy, and broad, carefully structured coverage, this book is the perfect resource for any environmental chemistry student wishing to develop a thorough understanding of their subject.

**Public Spending in the 20th Century** Feb 01 2020 After a detailed account of reform experiences in several countries and the public debate regarding government reform, the study closes with an outlook on the future role of the state, a period when globalization may require and people may want "leaner" but not "meaner" states."--Jacket.

**Architecture of First Societies** Dec 13 2020 "This book is the most comprehensively global and critically sensitive synthesis of what we now know of the material and socio-cultural evolution of the so-called First Societies. Written by a distinguished architectural historian and theorist, this truly remarkable and indispensable study shows how the material culture of our forebears, from building to clothing, food, ritual and dance, was inextricably bound up with the mode of survival obtained in a particular place and time...It is a study that will surely become required reading for every student of material culture."--Kenneth Frampton Starting with the dawn of human society, through early civilizations, to the pre-Columbian American tribes, *Architecture of First Societies: A Global Perspective* traces the different cultural formations that developed in various places throughout the world to form the built environment. Looking through the lens of both time and geography, the history of early architecture is brought to life with full-color photographs, maps, and drawings. Drawing on the latest research in archaeological and anthropological knowledge, this landmark book also looks at how indigenous societies build today in order to help inform the past.

**Top Incomes** Jun 18 2021 This volume brings together an exciting range of new studies of top incomes in a wide range of countries from around the world. The studies use data from income tax records to cast light on the dramatic changes that have taken place at the top of the income distribution. The results cover 22 countries and have a long time span, going back to 1875.

**Cambridge Lower Secondary Global Perspectives Stage 9 Learner's Skills Book** Nov 04 2022 This series has been developed for the Cambridge Lower Secondary Global Perspectives Curriculum Framework (1129). This Stage 9 learner's skills book helps students develop key 21st century skills, including research, analysis and more. Written by experienced teacher and author, Keely Laycock, learners are encouraged to reflect on your chosen topics - such as sport and recreation or language and communication - at a personal, national and global level. This series enables students to develop skills for their future in a scaffolded and measurable way, and has been produced with feedback from teachers and students all around the world.

**Cambridge Lower Secondary Global Perspectives(TM) Stage 7 Learner's Skills Book** Jun 30 2022 This series has been developed for the Cambridge Lower Secondary Global Perspectives Curriculum Framework (1129). This learner's skills book for Stage 7 has been created to help students develop key 21st century skills. Written by experienced teacher and author, Keely Laycock, students are encouraged to reflect on topics at a personal, national and global level, while developing skills for their future in a scaffolded and measurable way. Produced with feedback from teachers and students all around the world, teachers will benefit from a flexible resource that they can tailor to their classroom needs.

**Handbook of Research on Foreign Language Education in the Digital Age** Jul 08 2020 The role of technology in the learning process can offer significant contributions to help meet the increasing needs of students. In the field of language acquisition, new possibilities for instructional methods have emerged from the integration of such innovations. The *Handbook of Research on Foreign Language Education in the Digital Age* presents a comprehensive examination of emerging technological tools being utilized within second language learning environments.

Highlighting theoretical frameworks, multidisciplinary perspectives, and technical trends, this book is a crucial reference source for professionals, curriculum designers, researchers, and upper-level students interested in the benefits of technology-assisted language acquisition.

**Sales Management** Feb 12 2021 Designed to prepare upper-level undergraduate and graduate business students for work in the exciting field of global sales management, this text focuses upon the managerial and cross-cultural aspects necessary for leading the global sales force.

**The Business of Wine** May 18 2021 "The enjoyable nectar of grapes and the business of bringing it to consumers have already had a long history, but never before has the wine industry seen so much change. *The Business of Wine* is aimed at anyone with an interest in broadening his or her view of wine to encompass some of the fascinating complexities of the business side of this international industry." "It is also the intention that it provides substantive reading for the professional, the academic, or the student seeking to gain deeper insight into the structure and economics of the industry as well as into the various trends and pressures which are currently affecting it."--BOOK JACKET.

**Business to Business Marketing Management** Aug 28 2019 Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

**A Global Perspective on Private Higher Education** Mar 16 2021 *A Global Perspective on Private Higher Education* provides a timely review of the significant growth of private higher education in many parts of the world during the last decade. The book is concurrent with significant changes in the external operating environment of private higher education, including government policy and its impact on the ongoing growth of the sector. The title brings together the trends relating to the growth and the decline of private higher education providers, also including the key contributing factors of the changes from 17 countries. Provides a timely review of the significant growth of private higher education in many parts of the world during the last decade Presents the significant changes in the external operating environment of private higher education Brings together the trends relating to the growth and the decline of private higher education providers

**Gender Equality in a Global Perspective** Aug 21 2021 *Gender Equality in a Global Perspective* looks to discuss whether Gender Equality can be

adopted as it has been defined in international documents anywhere, or whether it needs to be adapted in a more local context; discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts; suggest research approaches for studies on whether a universal (Western) concept of Gender Equality fits in certain specific contexts; and finally suggests challenges to the existing interpretation of Gender Equality (e.g., theory of intersectionality); and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing (or not implementing) gender equality, this book studies and compares whether or not (and to what extent) a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE, which will be presented within the book, and discuss the possibilities and constraints related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts. Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars and students with an interest in Gender issues, Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization and other management sub-disciplines.

**EU Policies in a Global Perspective** Sep 21 2021 Recent decades have seen a rise in the significance of governance layers beyond the nation state and even Europe. Nonetheless, few efforts have been made thus far to systematically examine the EU's interaction with global policy regimes. This book maps the relative importance of EU policies in the multi-level global governance system, in comparison with national and global activities. It provides a unique comparative analysis of the EU's capacity for projecting its policies outward. Focusing on trade policy, agriculture, food safety, competition, social rights, environmental policy, transport, migration, nuclear non-proliferation, or financial regulation, each chapter contributes to a better understanding of the EU's role in shaping global policies, the mechanisms it uses and the conditions leading to success or failure. The contributors' comparative research highlights that policy export is a demanding phenomenon that faces severe limitations and frequently comes with drawbacks. Still, EU policy export played a key role in shaping the rules of the global trade regime and influenced global policy outcomes – at least to a minor extent or in technical aspects – in the majority of the covered policy areas. Overall however, this book reveals that the EU not only aims to export its policies, but interacts with its global environment in a number of distinct ways, including policy import and policy protection, to shield it from global pressures. Concluding with a comparison of all policies on the meta-level and relevant policy recommendations, this book will be of interest to students, scholars and practitioners of European politics, European public policy, global governance and international relations.

**Circular Economy: Recent Trends in Global Perspective** Jan 26 2022 This book presents the advantages of the circular economy as a powerful - and inevitable - model for tackling the current challenges against shrinking resources and establishing the resource efficient economy. The experienced contributors present the status and strategies of circular economy implementation in several countries with hands on experience to protect the environment while promoting the circular economy through legislative requirements, best practices adopted and popularizing the idea of circulation of resources amongst the researchers & academia, policy makers, industry, and the general public at large. The book advocates model that consists of designing products and processes with a view to endlessly recycling them evolving a greater scope of sustainable development.

**Human Rights and Social Justice in a Global Perspective** May 06 2020 This thoroughly revised edition provides an updated introduction to a variety of issues in the Global South relating to international social work, including AIDS, forced labor and war and conflict. United Nations human rights documents are used as a framework to examine issues in their cultural contexts.

**Migration and Development** May 30 2022 The first text that specifically links both international and internal migration with development at a global level. The world is divided into a series of functionally integrated development zones which are identified, not simply on the basis of their level of development, but also through their spatial patterns and historical experience of migration. Migration and Development stresses the importance of migration in discussing regional, rather than simply country, differences. These variations in mobility are placed within the context of a global hierarchy, although regional, national and local cultural and social conditions are certainly not ignored in this wide-ranging work.

**Cambridge Lower Secondary Complete Global Perspectives: Student Book** Jan 02 2020 The Cambridge Lower Secondary Complete Global Perspectives Student Book provides a clearly defined route through the subject that completely covers the three-year programme and all the required skills, making it fantastic value for money. This resource helps students to get the most out of Global Perspectives and supports them in developing the outlook of global citizens. It contains materials and exercises that become increasingly challenging as learners make progress, and develops key skills - research, analysis, evaluation, reflection, collaboration and communication - with engaging exercises. There are extension activities throughout, which stretch high-achieving students. End of stage reviews give learners the chance to consider and reflect on the knowledge and skills they have covered. It is written by Karem Roitman, who brings a wealth of valuable experience from her own teaching to the subject. The approach has been reviewed and informed by a team of international experts in the subject.

**Global Perspectives on Social Capital and Health** Sep 09 2020 This book is a follow up to Social Capital and Health (2008), edited by Kawachi, Subramanian & Kim. Global Perspectives on Social Capital and Health provides a timely update on emerging topics in a fast-growing field, and features contributions from an outstanding international team of scholars, selected from a diverse range of disciplinary backgrounds including: social epidemiology, medical geography, social psychology, social welfare and gerontology, pediatrics, political science, economics, and medical sociology. The book is organized in three parts: Part 1. Emerging directions in social capital research. This section highlights novel directions in social capital research. These include: a) novel settings for conducting research on social capital (workplaces, schools), b) new approaches for causal inference in social capital (instrumental variable analysis, twin fixed effects designs); c) cutting-edge directions for social capital research, including studies of the origins of community social capital, the use of social network analysis to investigate social capital, and novel methods for investigating the link between social capital and crime. Part 2. Social capital and health policy. The three chapters in this section highlight implications of social capital for interventions and health policy. Part 3. Social capital and health in global perspective The four chapters in this section look at research on social capital and health from a global perspective. The authors summarize the empirical studies on social capital and health conducted in each country/region, or each population group; discuss how the concept of social capital "translates" across different cultures; and identify challenges and future directions for research.

**Global Perspectives on Education Research** Jun 26 2019 Global Perspectives on Education Research echoes the breadth and scope of education research worldwide. It features the work of established and emerging scholars from a range of universities and research institutions in Africa, Europe, and North America. The book's ten chapters are organized around four themes: Education Policy, Teaching and Learning, School Context and Student Outcomes, and Assessment and Measurement. Each chapter offers cross-cultural, transnational, or comparative insights on some of the most pressing challenges and promising opportunities for improving education around the world. Across thematic areas, these perspectives shape new ways of understanding context as an influence on, and a framework for, conceptual insights into education policy and practice at the international, national, and local levels. With chapters on topics including the cultural complexities of literacy, the effect of socioeconomic inequality on student learning, and the tension between education for global competitiveness and education for global citizenship

as national policy strategies, Global Perspectives on Education Research addresses issues and questions that will interest education researchers, educators, policy makers, and societal leaders worldwide. This volume is a publication of the World Education Research Association (WERA). WERA is an association of major national, regional, and international specialty research associations dedicated to advancing education research as a scientific and scholarly field. WERA undertakes initiatives that are global in nature and thus transcend what any one association can accomplish in its own country, region, or area of specialization.

*Development and Social Change* Nov 11 2020 In this new Sixth Edition of *Development and Social Change: A Global Perspective*, author Philip McMichael describes a world undergoing profound social, political, and economic transformations, from the post-World War II era through the present. He tells a story of development in four parts--colonialism, developmentalism, globalization, and sustainability--that shows how the global development "project" has taken different forms from one historical period to the next. Throughout the text, the underlying conceptual framework is that development is a political construct, created by dominant actors (states, multilateral institutions, corporations and economic coalitions) and based on unequal power arrangements. While rooted in ideas about progress and prosperity, development also produces crises that threaten the health and well-being of millions of people, and sparks organized resistance to its goals and policies. Frequent case studies make the intricacies of globalization concrete, meaningful, and clear. *Development and Social Change: A Global Perspective* challenges us to see ourselves as global citizens even as we are global consumers.

*Public Management in Global Perspective* Apr 04 2020 Written by two authors with a wide range of experience in international affairs, this introductory text addresses both the commonalities and diversity of administrative practice around the world, including a succinct but thorough overview of PA in the United States. It combines solid conceptual foundations with strong coverage of nuts-and-bolts "how to" topics, such as personnel management, procurement, and budgeting, and covers both developed countries and developing and transitional economies. The book's chapters are organized into four major sections: government functions and organization; management of government activity; interaction between government and citizens; and prospects of administrative reform. Plentiful illustrations and examples throughout the book, and "What to Expect" sections and discussion questions in each chapter, make this an ideal text for any PA course that takes a global perspective.

**Gender Equality in a Global Perspective** Aug 09 2020 Gender Equality in a Global Perspective looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere, or whether it needs to be adapted in a more local context; discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts; suggest research approaches for studies on whether a universal (Western) concept of Gender Equality fits in certain specific contexts; and finally suggests challenges to the existing interpretation of Gender Equality (e.g., theory of intersectionality); and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing (or not implementing) gender equality, this book studies and compares whether or not (and to what extent) a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE, which will be presented within the book, and discuss the possibilities and constraints related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts. Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars and students with an interest in Gender issues, Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization and other management sub-disciplines.

**Luxury in Global Perspective** Mar 04 2020 Machine generated contents note: Luxury and global history Bernd-Stefan Grewe and Karin Hofmeester; 1. Precious things in motion: luxury and the circulation of jewels in Mughal India Kim Siebenhuner; 2. Diamonds as a global luxury commodity Karin Hofmeester; 3. Gold in twentieth-century India - a luxury? Bernd-Stefan Grewe; 4. Chinese porcelain local and global context: the imperial connection Anne Gerritsen; 5. Luxury or commodity? The success of Indian cotton cloth in the first global age Giorgio Riello; 6. The gendered luxury of wax prints in South Ghana: a local luxury good with global roots Silvia Ruschak; 7. From Venice to East Africa: history, uses and meanings of glass beads Karin Pallaver; 8. Imports and autarky: tortoiseshell in early modern Japan Martha Chaiklin; 9.
