So in this book, I'm going to show you 10 websites where you can actual start making some side cash or if you are really serious, some good Money! isn't that amazing! On some of these websites you can actually make as much as a 100 dollars a day or even more, and the best part is, you don't have to quit your 9 - 5 job, you can make this money, working in your free time. On the internet, there are two distinct ways of making money. The first way is active income. With active income, its like your normal 9 -5 job. You only get paid for the work you do. If you do not work, you don't make money, as simple as that. The second way is through passive income. This is my favorite method because, with active income, all you do is put in the work once, and the money in theory should keep rolling in, without you having to do any more work other then maybe promoting what you have made, or in some cases what other people have made.

So, I tried a few tactics out there before I was finally able to "crack the code." Are you keen on creating another stream of income for yourself? Then do not hesitate to get a copy, even if you're a beginner. Make Money Online Today reveals a very detailed Step-By-Step approach that will help you succeed in your Amazon business.

intermediate and also for the advanced person that is already working from home. We will show you step-by-step some secret tactics that you can use in 24-48 hours to help start your online journey. Earning an income from home is not as difficult as some might claim it is. Many people are earning a part-time or a full-time income while working from their home. As a bonus to you today I will tell you this - that once you start your online journey, you have to be PERSISTENT to start seeing results/ sales. A lot of us, especially when we first start out online, we might start promoting different things online, and when we don't see results right away, we quit. A lot of times, when people start their online/internet business, they start setting their website up or whatever it is that they are doing, it might seem to them that they are taking action in their online business, but they're actually not taking the action that they need to take in order to get the sales to happen. You need to also start driving traffic to that website or to that affiliate website/affiliate link. You need to start taking the action that needs to be taken in order to see the results. You need to start providing VALUE to people because it all comes down to how much value you provide to people out there - to your followers or maybe to your list that you started to build. Because the more value you provide to people, the more money you're going to make. If you're not providing any value, if you're not sharing anything with people, sharing the things that you're learning, if you're not helping

people out, don't expect a lot of sales to happen for you. You need to focus on providing that VALUE and that's one thing obviously that you need to do to see some sales happening. And just remember to be PERSISTENT. Maybe it takes you a month or two to set everything up, to go through the training and to actually start getting some traffic to your site. Don't think that just because it might take you a month longer and you're not seeing results yet that you're just gonna quit. A lot of newbies do that because they haven't seen any results yet within a month, or within a couple of months, and they just think that it doesn't work for them so they quit. But the fact is that you need to be persistent, you need to be consistently promoting it, driving traffic consistently, daily to your website, in order to start seeing some results in the future days or weeks ahead or even in months. For some people it takes shorter, for some people it takes longer, it all comes down to a lot of things, it really depends on a lot of things. For me, it took about 2-3 months to get my first sale, my first online sale on autopilot to happen. It's different for everyone. You just need to stay persistent in whatever you're doing and you will see that sale happen. Your first sale and your second sale. Just be persistent. Make sure you're doing the things that you need to do in order to see the sales because if you are being not being persistent than don't expect the sales to happen. Another bonus I have for you in starting out with your online journey is to find a

MENTOR. Someone who will actually take you step-by-step and who will show you how it's done because someone who has achieved the results that you want to achieve is going to show you exactly what to do to succeed in your online journey. Don't try to figure it out all by yourself because it could take years for you to figure it out on your own. If you try to figure it out on your own, you might get stuck in one place, so you need a mentor, someone who will show you how to get to the next level and how it's done. So persistence is number one to start getting those sales happen & having a mentor is number 2.

EXPERIENCE REQUIRED. ALL INSTRUCTIONS ARE FULLY DETAILED AND STEP-BY-STEP SO ANYONE CAN FOLLOW THEM EASILY. Online passive income is the ultimate dream. Making money while you sleep. Everybody wants it. But is it really possible? The short answer is "YES" The longer answer is "yes, but it isn't easy to accomplish." If it was, wouldn't everyone be doing it? In my ebook, I give you a step-by-step plan on how to develop a passive income online business and show you how making money online actually works (with links to supporting lessons for extra clarity). The specific plan I teach is designed to make you \$5,000+ per month in passive income earnings, based on Blogging, Affiliate Marketing, Freelancing and Selling of Digital Products. Once you understand the process though, you can decide to work with any of them or with all. When you stop is up to you (and yes, there are people making tens of thousands of dollars per month on the Internet based on these concepts-they just love the work and don't ever stop. understand the fundamentals of keyword research & analysis, traffic & lead generation, social & affiliate marketing, monetization & conversion testing, and traffic analysis. These skills will help you immensely in ANY business you ever decide to start (online or not, passive or not). Generating an online passive income won't happen overnight and takes a lot of hard work, but going through the process is completely worth it and having an exact plan of action is the ONLY way to ensure success. Let me put it this way: if you were offered no pay for six months for 40+ hours of work per week, but after those six months, you got \$5,000+ per month for the rest of your life, would that be worth it to you? If that idea isn't unbelievably exciting to you, then this isn't the business for you. This isn't a get rich quick scheme. This is a business. Except with this business, instead of trading your time for money (like most jobs), you are investing your time. You work hard now and continue to reap the benefits indefinitely. Building an online business takes a lot of work and a lot of patience, but the rewards can be amazing. That's the kind of business that I teach you in this ebook. Here's what you will learn 1. The Truth Behind the Internet and making money online 2. The only ways you can truly make money online 3. Blogging - What is blogging? 4. Affiliate Marketing - What is Affiliate Marketing? 5. Freelancing - what is freelancing? and much more things you will learn.

2019 Imagine waking up every day with the freedom to decide where you want to travel to, and how much you want to work the next week. Imagine making six-figures a MONTH, rather than a YEAR. Well, what if I told you you could be making \$2,000 extra each month within 30 days? You'd think I was some kind of scam artist, right? I've read over 100 books on online money making and freelancing in the last two years alone. I've also interviewed dozens of experts who agreed to speak to me about the topic and how they got to where they are today. Don't get me wrong, it's not like I have some magic ability for getting people to make money online and start working remotely. It's just that I know one thing lots of other people don't: It's all about mindset. Top freelancers, remote workers and location independent entrepreneurs are willing to take risks, learn new skills, and sell solutions that customers really want. They don't care if they have credentials. They don't care if they've done this before. They don't even care if they have the necessary skills (yet). The bottom line? They shift their frame of mind away from the self and concentrate on what people out in the market are saying they want.
