International Private Equity May 03 2020 Bringing a unique joint practitioner and academic perspective to the topic, this is the only available text on private equity truly international in focus. Examples are drawn from Europe the Middle East, Africa and America with major case studies from a wide range of business sectors, from the prestigious collection of the London Business School's Collier Institute of Private Equity. Much more than a simple case book, however, International Private Equity provides a valuable overview of the private equity industry and uses the studies to exemplify all stages of the deal process, and to illustrate such key topics as investing in emerging markets; each chapter guides the reader with an authoritative narrative on the topic treated. Covering all the main aspects of the private equity model, the book includes treatment of fund raising, fund structuring, fund performance measurement, private equity valuation, due diligence, modeling of leveraged buyout transactions, and harvesting of private equity investments.

Master Class May 27 2022 In Master Class: Teaching Advice for Journalism and Mass Communication Instructors, members of the AEJMC Elected Standing Committee on Teaching take readers behind the scenes to explain the teaching strategies, preparation tips, exercises, and project ideas that have, in many cases, earned them university and national teaching awards. It is designed to benefit everyone from instructors-in-training who are about to teach their first class to more experienced professors who are looking for ways to freshen their approach in the classroom. Filling the Ranks Sep 06 2020 The war in Iraq and the problematic military occupation of that country have called into question the adequacy of America's all-volunteer force. Politicians and others have expressed doubts about its equity and capability; some have called for the reinstatement of the draft. Yet over the past twenty years the all-volunteer military has become a technologically advanced force that has contributed to America's overall military advantage. This book analyzes current military pay and personnel policies and identifies changes needed to maintain and improve America's all-volunteer force. Filling the Ranks argues that to attract qualified and motivated volunteers, the armed forces need to offer better tangible inducements—pay, benefits, and training—to accompany such intangible rewards as pride in serving one's country. Many of the policies related to tangible rewards were established shortly after World War II and are no longer effective. Filling the Ranks presents detailed assessments of US military pay and personnel policies in light of the strategic, demographic, economic, and labor realities of the future. It identifies specific problems that today's military career patterns, training, pay, and benefits pose for officers and enlisted men and women in both active duty and reserve forces, discussing such issues as competition with the private sector for talent, the need to restructure compensation, and provision of family support. It offers recommendations for more flexible, adaptive, and effective policies and a blueprint for achieving them.

Master Class Jul 05 2020 Imagine sitting beside a world-class bridge player and being able to listen to his thoughts as each hand develops... you can help but improve your own game! Every hand in this fascinating book comes from actual play; many of them are taken from the author's own experience in world-level competition. Fred Gitelman believes that there is something to be learned from every bridge hand, whether you are a novice or an expert, and he proves it here. Just as fascinating as the bridge, however, are Fred's observations on his partners and opponents, who range from world champions to famous amateurs like Bill Gates and Warren Buffett. Fred Gitelman (Las Vegas) has a trophy case full of world championship medals, many of them earned playing for his native Canada. He is known throughout the world as a leading designer and producer of bridge software, while his web site, Bridge Base Online, is the most popular bridge-playing site on the Net.

Analyzing Influences Sep 26 2019 Editorial Board: Deborah Blair VanderLinde, Oakland University. William Bauer, University of Florida. Lisa R. Hunter, The State University of New York at Fredonia. Ronald Kos, Boston University. Joshua A. Russell, The Hartt School, University of Hartford. Peter Whiteman, Institute of Early Childhood, Macquarie University. Analyzing Influences: Research on Decision Making

and the Music Education Curriculum examines influences on research in music teacher preparation, practices, and policies. These influences include administrators' perspectives, preservice music educators' beliefs, and in-service teachers' practices. Invited essays offer insights into past and present trends in music teacher preparation. This collection of studies represents best thinking in the field and serves as an impetus for further research and action. Each author's analysis on the influences affecting their specific areas provides insights into key issues affecting decision making processes. This volume is a significant addition to the libraries of Colleges of Education and Schools of Music, as well as an important reference for music scholars and educators, researchers, and graduate students who are concerned with advancing both the scope and quality of research in the study of music teaching and learning.

The Humanity of Private Law Jun 15 2021 The Humanity of Private Law presents a new way of thinking about English private law. Making a decisive break from earlier views of private law, which saw private law as concerned with wealth-maximisation or preserving relationships of mutual independence between its subjects, the author argues that English private law's core concern is the flourishing of its subjects. THIS VOLUME - presents a critique of alternative explanations of private law; - defines and sets out the key building blocks of private law; - sets out the vision of human flourishing (the RP) that English private law has in mind in seeking to promote its subjects' flourishing; - shows how various features of English private law are fine-tuned to ensure that its subjects enjoy a flourishing existence, according to the vision of human flourishing provided by the RP; - explains how other features of English private law are designed to preserve private law's legitimacy while it pursues its core concern of promoting human flourishing; - defends the view of English private law presented here against arguments that it does not adequately fit the rules and doctrines of private law, or that it is implausible to think that English private law is concerned with promoting human flourishing. A follow-up volume will question whether the RP is correct as an account of what human flourishing involves, and consider what private law would look like if it sought to give effect to a more authentic vision of human flourishing. The Humanity of Private Law is essential reading for students, academics and judges who are interested in understanding private law in common law jurisdictions, and for anyone interested in the nature and significance of human flourishing.

The Art of War - a Samurai Master Class Aug 18 2021 Few books have continued their bestselling status centuries after their author's death. Like other classics, such as the Gospels of Jesus, and Lao Tze's Tao Te Chung, there is much discussion of who actually wrote them and how. What is important is how such books are used. Because only extremely useful books continue in demand at bookstores, especially over generations. This book is entitled A Samurai Master Class, as two additional classics, "The Book of Five Rings" and "Bushido, the Soul of Japan" have been included. No study of this period would be complete without understanding the strategies, tactics, and ethics of the Samurai. All of us have our journey to follow. In this, the Art of War can become the Way of Peace. This is presented as the old Japanese proverb told, "There are many paths up the mountain." In that spirit, this book is humbly presented for your use. Scroll Up and Get Your Copy Today!

Moviemakers' Master Class Nov 01 2022 From Scorsese and Lynch to Wenders and Godard, interviews with twenty of the world's greatest directors on how they make films--and why Each great filmmaker has a secret method to his moviemaking--but each of them is different. In Moviemaker Master Class, Laurent Tirard talks to twenty of today's most important filmmakers to get to the core of each director's approach

to film, exploring the filmmaker's vision as well as his technique, while allowing each man to speak in his own voice. Martin Scorsese likes setting up each shot very precisely ahead of time--so that he has the opportunity to change it all if he sees the need. Lars Von Trier, on the other hand, refuses to think about a shot until the actual moment of filming. And Bernardo Bertolucci tries to dream his shots the night before; if that doesn't work, he roams the set alone with a viewfinder, imagining the scene before the actors and crew join him. In these interviews--which originally appeared in the French film magazine *Studio* and are being published here in English for the first time--enhanced by exceptional photographs of the directors at work, Laurent Tirard has succeeded in finding out what makes each filmmaker--and his films--so extraordinary, shedding light on both the process and the people behind great moviemaking. Among the other filmmakers included are Woody Allen, Tim Burton, Joel and Ethan Coen, and John Woo.

Learning How to Learn Mar 01 2020 A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* *A Mind for Numbers* and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. A Master Class in Brand Planning Apr 25 2022 In 1988, on Stephen King's retirement JWT published 'The King Papers' a small collection of Stephen King's published writings spanning 1967-1985. They remain timelessly potentially valuable but are an almost unexploited gold mine. This book is comprised of a selection of 20-25 of Stephen King's most important articles, each one introduced by a known and respected practitioner who, in turn, describes the relevance of the particular original idea to the communications environment of today. The worth of this material is that, although the context in which the original papers were written is different, the principles themselves are appropriate to marketing communications in today's more complex media environment. The book will serve as a valuable reference book for today's practitioners, as well as a unique source of sophisticated, contemporary thinking.

Money Raising Masterclass Aug 30 2022 There are a total of 46.8 million millionaires worldwide at the beginning of the year 2020, and they collectively own approximately \$158.3 trillion. There are millions of

millionaires in the world and the number is increasing with each year. The only question that you should ask yourself, is why you are not one of them yet? How did those people become millionaires or even billionaires? Did they have a great 9 to 5 job that paid them really well? Most definitely not! They are all business owners and own shares of their own public company. No one becomes a billionaire by simply earning a salary from a job each year. People become wealthy by owning a significant share position in a company that is listed in the stock market. But how did they start out? How do you become a multi millionaire? They all started with a business idea. Then they incorporated a corporation, issued shares for themselves and raised money from investors. Eventually, they took the company public in the stock market and it was valued a several hundred millions of dollar. I have raised \$40 million in 2.5 years from 500 investors and his company was valued at over \$300 million in the stock market. Actually, I raised over \$400 million from private investors and \$600 million from institutional investors in my career since 1995. But the goal of this book is to teach you the things that you need to know to raise the first one or two million dollars by yourself so that you can take your company public in the stock market and attract millions more afterwards. This book will teach you everything about this process and how I have done it.

Horses Heal PTSD Jul 25 2019 Dr. Anita Shkedi founded Therapeutic Horseback Riding in Israel in 1985 and developed Israel's official diploma curriculum for therapeutic horseback riding at the Nat Holman School of Coaches at the Wingate Institute of Physical Education in 1988, which became the springboard for multiple other related therapeutic studies. She has a Doctorate in Education specializing in curriculum building for EAA/T. She is the author of the book Traumatic Brain Injury and Therapeutic Riding and has authored many articles. She lectures and consults worldwide in the areas of equine assisted activities and therapies, PTSD, and traumatic brain injuries, and provides clinics and workshops through her new website, anitashkedi.com. Horses Heal PTSD: Walking New Paths will captivate readers who want to know more about the human-horse bond, the condition of PTSD and how to treat it. This book will appeal to clients with PTSD, the medical community of clinical care and public health as well as researchers, the veteran community, people studying Equine Assisted Activities and/or Therapy (EAA/T) and horse lovers. Horses Heal PTSD: Walking New Paths expertly addresses the power of the horse to heal this often misunderstood and difficult to treat condition. It will deepen the reader's knowledge of PTSD and demonstrate how partnering with horses is a profoundly effective physical, psychological, and meta-physical therapy that has long-lasting results. I loved all the episodes, the history of the horses and learning about the way they shared their majestic qualities with mankind. It has been years since I read words written by someone who understands the world of post-trauma, and who also knows how to describe the feelings, thoughts and life trajectory of people who are injured by post-trauma.

Musical Improvisation Apr 01 2020 A musical practice used for centuries the world over, improvisation too often has been neglected by scholars who dismiss it as either technically undissectible or inexplicably mysterious. At different times and in different cultures, performing music that is not "precomposed" has constituted an artful expression of the performer's individuality (the Baroque); a wild, unthinking form of expression (jazz antagonists); and the best method to train inexperienced musicians

to use their instruments (the Middle East). This wide-ranging collection of essays considers musical improvisation from a variety of approaches, including ethnomusicology, education, performance, historical musicology, and music theory. Laying the groundwork for even further research into improvisation, the contributors of this volume delve into topics as diverse as the creative minds of Mozart and Beethoven, the place of improvised musics in Western and non-Western societies, and the development of jazz as a musical and cultural phenomenon.

The Mind of the Master Class Jan 23 2022 The Mind of the Master Class tells of America's greatest historical tragedy. It presents the slaveholders as men and women, a great many of whom were intelligent, honorable, and pious. It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves. The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist ('free-labor') society. Blending classical and Christian traditions, they forged a moral and political philosophy designed to sustain conservative principles in history, political economy, social theory, and theology, while translating them into political action. Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times - and ours - beginning with the virtues and failings of their own society and culture.

Locating Classed Subjectivities Jun 23 2019 Locating Classed Subjectivities explores representations of social class in British fiction through the lens of spatial theory and analysis. By analyzing a range of class-conscious texts from the nineteenth-, twentieth-, and twenty-first centuries, the collection provides an overview of the way British writers mobilized spatial aesthetics as a means to comment on the intricacies

of social class. In doing so, the collection delineates aesthetic strategies of representation in British writing, tracing the development of literary forms while considering how authors mobilized innovative spatial metaphors to better express contingent social and economic realities. Ranging in coverage from early-nineteenth-century narratives of disease to contemporary writing on the working-class millennial, Locating Classed Subjectivities offers new perspectives on literary techniques and political intentions, exploring the way class is parsed and critiqued through British writing across three centuries. As such, the project responds to Nigel Thrift and Peter Williams's claim that literary and cultural production serves as a particularly rich yet unexamined access point by which to comprehend the way space and social class intersect.

Whiskey Master Class Dec 10 2020 Go beyond the glass and discover the secrets behind your favorite style of whiskey. Over the past three decades, Lew Bryson has been one of the most influential voices in whiskey—a longtime editor of *Whisky Advocate* and author of the definitive guide *Tasting Whiskey*. In this book, Lew shares everything he's learned on his journey through the worlds of bourbon, Scotch, rye, Japanese whiskey, and more (yes, there are tasty Canadian and Irish whiskeys as well!). In this book, you'll find it all: An overview of the different types of whiskeys, including the rules and identities of each. He also includes information on craft whiskeys, which tend to be more creative and freewheeling than the styles made by traditional producers. Exploration of the key whiskey ingredients, with a close look at the flavor contributions of malt, peat, corn, rye, wheat—even water matters. Distillation for non-distillers and the beauty of barrels: Whiskey is both an art and a science, and what's in the glass is affected by things like pot stills vs. column stills, barrel char, and of course, time. Numerous interviews with master distillers, still makers, and other artisans at the top of their field. Tasting notes throughout so you can identify the whiskeys you might want to try next. Every chapter contains a variety of unique, often behind-the-scenes photography. And with whiskey as the subject, this is a class where you'll want to do the homework!

RAMAYANA The Poisonous Tree Oct 20 2021 As the title indicates, this book is a critical study of an Indian epic, the *Ramayana*. It proceeds in the same order as that of Sanskrit original consisting of : Bala kanda, Ayodhya kanda, Aranya kanda, Kishkindha kanda, Sundara kanda, Yuddha kanda and Uttara

kanda. While Valmikiís Ramayana is composed of about 24,000 slokas (verses), ëRamayana the Poisonous Treeí consists of 16 stories, long and short, accompanied by 11 ëlinksí (narratives that ëlinkí the stories) and 504 foot-notes that show evidence from the Sanskrit original in support of the critique. Besides the main components of the text, this book has a long ëPrefaceí discussing the social essence of the epic in the context of history of evolution of human society from the ancient times to the modern times. The book also offers a critical review of the works of ësome earlier critics of Ramayanaí. The authoress describes Ramayana as a Poisonous Tree because it defends the autocratic rule of the kings against the people, their imperial expansion by invading other weak kingdoms, exploitation of the poor by the rich, oppression of lower castes by upper castes, aggression of the civilized non-tribal communities against primitive tribal communities, male chauvinism against women, superstitious beliefs against the rational thinking, fathersí domination over sons, elder brothersí superiority over younger brothers and so on. She substantiated her arguments by providing hundreds of foot notes from the Sanskrit original. She characterizes the culture of Ramayana as predominantly ëfeudalí in nature with an admixture of remnants of primitive ëtribalí culture. The book, it is hoped, will be of interest to both academic and non-academic circles. It is relevant to the students, teachers and researchers who are connected with such disciplines as South Asian Studies, Cultural Studies, Comparative Literature, Comparative Religions, Indology, Literary Criticism and so on. It is also relevant to the social and political activists who would like to disseminate ëprogressiveí ideas among the people who are subjected to various forms of inequality: Class, Caste, Gender, Race, Ethnicity. Ranganayakamma (born 1939) is a writer of novels, stories and essays in Telugu. She has published about 60 books.
