Anticipate the School You Want Jun 10 2021

Across America, especially in the aftermath of 9/11, parents rely on K12 schooling to prepare their children for the shocks, the perils, and especially the bright possibilities that are part of our warp-speed future. A new generation of school staffers is forging a fresh learning partnership with youngsters for whom creative computer-based schooling is as natural as breathing. Together, these staffers and students seek empowering ways to draw on futuristics, a pedagogy that makes the most of the study of tomorrow. *Anticipate the School You Want* offers pragmatic program ideas, along with many operational hints. Additionally, it shares a blueprint for developing the nation's first high school of the future and a design for conducting a biannual Futures Fair. America urgently needs an educational pathway for developing long-range forecasters, and Shostak provides recommendations for reaching that pathway. Strengthened by numerous annotated citations for articles, books, and Web sites, the book enables school staffers to draw on futuristics as they have always wanted to—ably, confidently, and with confidence that it makes a desirable, lasting difference.

The Perfect Neighbors Oct 14 2021 "The page-turning new novel from the internationally bestselling author known for her "conversational writing style and a knack for making readers care about her characters" (The Washington Post) takes us into the homes of an idyllic suburban neighborhood where we discover the burning secrets hiding just below the surface. Bucolic Newport Cove, where spontaneous block parties occur on balmy nights and all of the streets are named for flowers, is proud of its distinction of being named one the top twenty safest neighborhoods in the US. It's also one of the most secret-filled. Kellie Scott has just returned to work after a decade of being a stay-at-home mom. She's adjusting to high heels, scrambling to cook dinner for her family after a day at the office--and soaking in the dangerous attention of a very handsome, very married male colleague. Kellie's neighbor Susan Barrett begins every

day with fresh resolutions: she won't eat any carbs, she'll go to bed at a reasonable hour, and she'll stop stalking her ex-husband and his new girlfriend. Gigi Kennedy seems to have it all together--except her teenage daughter has turned into a hostile stranger and her husband is running for Congress, which means her old skeletons are in danger of being brought into the light. Then a new family moves to this quiet, tree-lined cul-de-sac. Tessa Campbell seems friendly enough to the other mothers, if a bit reserved. Then the neighbors notice that no one is ever invited to Tessa's house. And soon, it becomes clear that Tessa is hiding the biggest secret of all"--

U.S. and International Sales, Lease, and Licensing Law Nov 03 2020 In a logical and persuasive manner, this class-tested casebook first provides background information about UCC Article 2 and the CISG, then addresses key issues in the order in which a lawyer is likely to encounter them in practice: Which law is applicable? Has a contract been formed? What are the terms of the contract? Has the contract been performed? If not, what are the available remedies for the injured party? Finally, the text concludes by considering third parties involved in the sales transactions and the law governing their obligations. Many problems refer students to international collections found on the Internet, and the text provides references to both unrevised and revised UCC Article 1. The Second Edition has been updated to reflect the newer version of the INCOTERMS (INCOTERMS 2010), and the Uniform Customs and Practice for Documentary Credits (UCP 600). Goodnight, Nebraska Jan 25 2020 At the age of 17, Randall Hunsacker shoots his mother's boyfriend, steals a car and comes close to killing himself. His second chance lies in a small Nebraska farm town, where the landmarks include McKibben's Mobil Station, Frmka's Superette, and a sign that says The Wages of Sin is Hell. This is Goodnight, a place so ingrown and provincial that Randall calls it "Sludgeville"-until he starts thinking of it as home. In this pitch-perfect novel, Tom McNeal explores the currents of hope, passion, and

cruelty beneath the surface of the American heartland. In Randall, McNeal creates an outcast whose redemption lies in Goodnight, a strange, small, but ultimately embracing community where Randall will inspire fear and adulation, win the love of a beautiful girl and nearly throw it all away.
