Kinyarwanda-English/English-Kinyarwanda Dictionary & Phrasebook Jul 25 2022 Kinyarwanda, also known as Rwandan, is a national language of Rwanda (along with French and English) and spoken by almost all of the 11 million inhabitants of the country. Kinyarwanda is the second most widely spoken Bantu language after Kiswahili. It is a sister dialect of Kirundi, the national language of Burundi, so Burundians can understand Kinyarwanda well. Kinyarwanda speakers are also found in Uganda, Tanzania and in parts of the Democratic Republic of Congo. There are an estimated 20 million native speakers of Kinyarwanda worldwide. Kinyarwanda has two major dialects: the northern dialect, Igikiga, and the southern dialect, Ikinyanduga, and both have sub-dialects. The differences among these dialects, however, are mainly lexical and phonetic.

Transformative Curricula, Pedagogies and Epistemologies May 31 2020 This volume focuses on current demands, challenges and expectations facing African higher education institutions in general, and those in South Africa in particular. Subsequently, transformative curricula, pedagogies and epistemologies that define diverse practices of access and inclusion within the context of transformation and decolonisation are explored.

The Rise of English in Post-Genocide Rwanda Nov 24 2019 In his work entitled THE RISE OF ENGLISH IN POST-GENOCIDE RWANDA AND ITS IMPACT ON THE USE OF KINYARWANDA AND FRENCH IN MAJOR DOMAINS, Jacques Kayigema critically explores the rise and spread of English in Rwanda after the 1994 genocide and its impact on Kinyarwanda and French. Using theories related to the sociology and politics of language,

Kayigema highlights major factors that led to the spread of English globally and in Rwanda in particular. Among them, the collapse of Russia as mega power in world politics that paved way for American presidents to visit Rwanda and other African countries. Given the popularity of English in Rwanda today, Kayigema recommends the development of English language skills to enable Rwandans to communicate efficiently with the rest of the world, without eliminating Kinyarwanda and French. Ladies and gentlemen, this research is a major contribution to the ecology of language.

Dictionaries. An International Encyclopedia of Lexicography Mar 09 2021 The basis for this additional volume are the three volumes of the handbooks Dictionaries. An International Encyclopedia of Lexicography (HSK 5.1-5.3), published between 1989 and 1991. An updating has been perceived as an important desideratum for a considerable time. In the present Supplementary Volume the premises and subjects of HSK 5.1-5.3 are complemented by new articles that take account of the practice-internal and theoretical developments of the last 15 years. Special attention has been given to the following topics: the status and function of lexicographic reference works, the history of lexicography, the theory of lexicography, lexicographic processes, lexicographic training and lexicographic institutions, new metalexigraphic methods, electronic and, especially, computer-assisted lexicography.

Lexical Conflict Jan 27 2020 This work explores the lexical richness of over 100 world languages and proposes solutions for instances of imperfect equivalence between them.

Our Lady of the Nile Dec 06 2020 For her most recent work and first novel - Notre-Dame du Nil, originally published in March 2012 with Gallimard in French - Mukasonga immerses us in a school for young girls, called "Notre-Dame du Nil." The girls are sent to this high school perched on the ridge of the Nile in order to become the feminine elite of the country and to escape the dangers of the outside world. The book is a prelude to the Rwandan

genocide and unfolds behind the closed doors of the school, in the interminable rainy season. Friendships, desires, hatred, political fights, incitation to racial violence, persecutions... The school soon becomes a fascinating existential microcosm of the true 1970s Rwanda.

Practical Challenges in Customary Law Translation Aug 22 2019 The Rwandan justice system know as Gacaca, originally preserved by word of mouth was revived, documented, tested and used successfully to handle millions of legal cases in the aftermath of the Rwandan genocide against the Tutsi. This monograph begins by depicting the general picture of customary law and ponders on the practical challenges in the production of the modern Gacaca law in three versions: Kinyarwanda, French and English. The author demonstrates that translation involves language use and transfer, as well as communication within a cultural setting. The book amply demonstrates that linguistic, textual, contextual and cultural cues in translation should

not be downplayed. It also shows that the cultural turn in translation has transformed and re-conceptualised the translation theory to integrate non-western thought about translation discipline since time immemorial. A major theme within the book is that translation as a mediating form between cultures and contexts should not overlook cultural differences because language is a marker of identity.

English and Development Jul 01 2020 This book investigates the relationship between English and personal and national development in the era of globalization. It addresses the effects that the increased use of English and the promotion of English-language education are having in developmental contexts, and their impact on broader educational issues.

Bilingualism as Interactional Practices Aug 02 2020 Foregrounds the practical usefulness of bilingualism, with specific reference to talk organisation. Research on bilingualism and on code-switching in particular has traditionally been geared towards rehabilitating bilingualism and bilingual language use. From being seen as a sign of lack of competence, code-switching is now seen as a sign of high competence in the languages involved. However, this rehabilitation of bilingualism raises an entirely new problem: Where to from here? How can the study of bilingualism continue to be interesting and relevant? In order to overcome the challenges the discipline faces as a result of its own success, here Joseph Gafaranga argues, the notion of bilingualism itself must be redefined. Bilingualism must be seen as consisting of diverse interactional practices and investigated as such. This book details the rehabilitation effort which has been undertaken to get us where we are today, proposes a methodology which can be used in moving forward and illustrates it with three case studies, all the while inviting other researchers to contribute to this new research direction. Key Features Demonstrates empirically how bilingualism can be thought of as a resource, drawing on data from a variety of sociolinguistic contexts Examines specific aspects of conversational organisation (such as turn-taking, sequence organisation, repair organisation) where language choice is used as a resource Investigates the role of language choice in bilingual conversation against the backdrop of clearly set out theoretical backgrounds

L'enseignement du français en colonies Feb 26 2020 Comment le français se constitue-t-il en tant que langue d'enseignement dans les contextes de confrontations sociales, linguistiques et culturelles inégalitaires que sont les contextes de colonisation ? Ces quinze contributions s'intéressent à l'introduction du français à l'école primaire. Trois directions de travail sont privilégiées : La mise en place des principes éducatifs qui instaurent le français comme langue de l'école, suivent des portraits d'instituteurs "passeurs du français". Enfin la fonction des manuels de français dans le processus de didactisation du français est étudiée.

Multilingual Corpora and Multilingual Corpus Analysis May 11 2021 This volume deals with different aspects of the creation and use of multilingual corpora. The term 'multilingual corpus' is understood in a comprehensive sense, meaning any systematic collection of empirical language data enabling linguists to carry out analyses of multilingual individuals, multilingual societies or multilingual communication. The individual contributions are thus concerned with a variety of spoken and written corpora ranging from learner and attrition corpora, language contact corpora and interpreting corpora to comparable and parallel corpora. The overarching aim of the volume is first to take stock of the variety of existing multilingual corpora, documenting possible corpus designs and uses, second to discuss methodological and technological challenges in the creation and analysis of multilingual corpora, and third to provide examples of linguistic analyses that were carried out on the basis of multilingual corpora.

Error Analysis Mar 29 2020 Errors are information. In contrastive linguistics, they are thought to be caused by unconscious transfer of mother tongue structures to the system of the target language and give information about both systems. In the interlanguage hypothesis of second language acquisition, errors are indicative of the different intermediate learning levels and are useful pedagogical feedback. In both cases error analysis is an essential methodological tool for diagnosis and evaluation of the language acquisition process. Errors, too, give information in psychoanalysis (e.g., the Freudian slip), in language universal research, and in other fields of linguistics, such as linguistic change. This bibliography is intended to stimulate study into cross-language, cross-discipline and cross-theoretical, as well as for language universal, use of the numerous, but sometimes hard to come by, error analysis studies. 5398 titles covering the period 1578 up to 1990 (with work in more than 144 languages and language families) are cited, cross-referenced, and described. The subject areas covered are numerous. For example: Theoretical Linguistics (Linguistic Typology, Cognitive Linguistics), Historical Linguistics (Language Change), Applied Linguistics (e.g. Speech Disorders), Translation, Mother Tongue Acquisition, Foreign Language Learning (Negative Transfer, Intralingual and Interlingual Errors), Psychoanalysis (Slips of the Tongue), Typography, Shorthand, Clinical Linguistics and Speech Pathology, Reading Research, Automatic Error Detection, Contact Linguistics (Code-switching, Interference), etc.

Historical Dictionary of Rwanda Jul 21 2019 Blessed with natural beauty and rich vegetation, Rwanda is often called the 'land of a thousand hills' (le pays des mille collines). A proud people, the Banyarwanda (Rwandans) possess a centric view of the world, believing that Imana (God) favors Rwanda, as conveyed through the saying 'Imana yirirwa ahandi igataha i Rwanda' (God spends the day some place else but goes back home to Rwanda to sleep) and the fact that Rwanda means 'the universe.' However, this idyllic view of Rwanda sharply contrasts with the sad history of ethnic strife that has unfolded in the country since the 1950s: the 1959 Hutu Revolution followed by years of anti-Tutsi pogroms, undemocratic regimes, the civil war of 1990-1994, and, more significantly, the April-July 1994 genocide against the Tutsi and Hutu who opposed the killings. This new edition of Historical Dictionary of Rwanda, through its chronology, introductory essays, appendixes, maps, bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions and significant political, economic, social, and cultural aspects, provides an important reference on this central African country.

Rwanda Genocide Stories Sep 15 2021 During what has become officially known as the genocide against the Tutsi, as many as one million Rwandan people were brutally massacred between April and July 1994. This book presents a critical study of fictional responses by authors inside and outside Rwanda to the 1994 genocide. Focusing on a large and original corpus of creative writing by African authors, including writers from Rwanda, *Rwanda Genocide Stories: Fiction After 1994* examines the positionality of authors and their texts in relation to the genocide. How do issues of 'ethnicity', nationality, geographical location and family history affect the ways in which creative writers respond to what happened in 1994? And how do such factors lead to authors and their texts being positioned by others? The book is organized around the principal subject positions created by the genocide, categories that have particular connotations and have become fraught with political tension and ambiguity in the context of post-genocide Rwanda. Through analysis of the figures of tourists, witnesses, survivors, victims and perpetrators, the book identifies the ways in which

readers of genocide stories are compelled to reevaluate their knowledge of Rwanda and take an active role in commemorative processes: as self-critical tourists, ethical witnesses, judges or culpable bystanders, we are encouraged to acknowledge and assume our own responsibility for what happened in 1994.

Initiation au kinyarwanda May 23 2022 Le présent manuel d'apprentissage de la langue rwandaise, dont nous présentons ici la quatrième édition, a prouvé sa valeur et son utilité depuis longtemps. Paru en première édition en 1975, il s'est imposé petit à petit pour l'apprentissage de la langue en remplaçant les autres manuels. La méthode réunit la linguistique et la pédagogie, deux disciplines dont les exigences sont parfois contradictoires. Elle présente une grammaire et un vocabulaire de base avec une saine progression, tout en gardant constamment le contact avec l'usage réel du langage quotidien. La grammaire inclut la hauteur (tonalité) et la longueur des voyelles, qui jouent un rôle capital dans la langue, mais dont l'orthographe et la grammaire traditionnelles ne tiennent pas compte. Cette voie est plus ardue, certes, mais à ceux que ne rebute pas un effort initial, elle ouvre l'accès à la connaissance approfondie du kinyarwanda.
