**Jumptown** Oct 08 2020 A fascinating blend of music, politics, and social history, Jumptown sheds light on a time and place overlooked by histories of Portland and jazz. For a golden decade following World War II, jazz talent and musical activity flourished in Portland. A thriving African American neighborhood--that would soon be bulldozed for urban renewal--spawned a jazz heyday rarely rivaled on the West Coast. Such luminaries as Duke Ellington, Charlie Parker, Oscar Peterson, Dave Brubeck, and Wardell Gray headlined Portland clubs and traded chops with the up-and-coming local talent. The Dude Ranch. Lil' Sandy's McClendon's Rhythm Room. The Frat Hall. The Chicken Coop. The Uptown Ballroom. Jazz historian Bob Dietsche leads a guided tour of the main jazz spots--from supper club to dance hall--capturing the emotion, excitement, and energy of an evening on the town. His book for the first time collects hundreds of pieces of local jazz history--photographs, personal recollections, reviews, maps, handbills--to create "an anatomy of a jazz village." Dietsche's compendium of stories and moments brings to life the citizens of the jazz village--the musicians and dancers, the disc jockeys and promoters, the critics and music teachers, the club owners and patrons. Jumptown celebrates and preserves this rich cultural past and showcases its continuing influence. In an afterword, Lynn Darroch recaps the highlights in Portland jazz since 1968 and shows how "Portland's twenty-first-century jazz scene reflects the city's original golden age, and the spirit of the Avenue remains in the sounds of today."

**The Organic Globalizer** Apr 25 2022 The Organic Globalizer is a collection of critical essays which takes the position that hip-hop holds political significance through an understanding of its ability to at once raise cultural awareness, expand civil society's focus on social and economic justice through

institution building, and engage in political activism and participation. Collectively, the essays assert hip hop's importance as an "organic globalizer:" no matter its pervasiveness or reach around the world, hip-hop ultimately remains a grassroots phenomenon that is born of the community from which it permeates. Hip hop, then, holds promise through three separate but related avenues: (1) through cultural awareness and identification/recognition of voices of marginalized communities through music and art; (2) through social creation and the institutionalization of independent alternative institutions and non-profit organizations in civil society geared toward social and economic justice; and (3) through political activism and participation in which demands are articulated and made on the state. With editorial bridges between chapters and an emphasis on interdisciplinary and diverse perspectives, *The Organic Globalizer* is the natural scholarly evolution in the conversation about hip-hop and politics.

*Murder by Injection* Jul 25 2019 The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every

aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

**The Movement Made Us** Nov 28 2019 SOUTHERN INDEPENDENT BOOKSELLERS ALLIANCE BESTSELLER "The Movement Made Us takes literature to a momentous Southern Black space to which I honestly never thought a book could take us. Stunning."—Kiese Laymon, author of *Heavy* A dynamic family exchange that pivots between the voices of a father and son, *The Movement Made Us* is a unique work of oral history and memoir, chronicling the extraordinary story of the Civil Rights Movement of the 1960s and its living legacy embodied in Black Lives Matter. David Dennis Sr, a core architect of the movement, speaks out for the first time, swapping recollections both harrowing and joyful with David Jr, a journalist working on the front lines of change today. Taken together, their stories paint a critical portrait of America, casting one nation's image through the lens of two individual Black men and their unique relationship. Playful and searching, anxious and restorative, fearless and driving, this intimate memoir features scenes from across David Sr's life, as he becomes involved in the movement,

**Texts from Bennett** Sep 30 2022 A family story for the twenty-first century, based on the phenomenally popular Texts from Bennett Tumblr blog, this epistolary novel chronicles the year that Bennett and the rest of his freeloading family moved into his cousin Mac's household. Hardworking Kansas City rapper Mac Lethal has a problem, and its name is Bennett. His wannabe gangsta cousin is seventeen, uses drugs and foul language, claims to be 13 percent black, and swears he speaks "da female language." (Strangely that last one sort of seems true.) But as different as they are, when Bennett and his mom lose their home, Mac's got their backs. They're family after all. Sure, it takes patience to live with the eternally smoked-out Bennett and the pill-popped Aunt Lily, but he can handle it. You know who can't? Mac's very pretty, very WASPy, very uptight girlfriend. So as his once-peaceful household gets completely crazy, Mac learns that wanna-be-Crips are thicker than water, that his little cousin—flawed, irreverent, and basically a Saturday morning cartoon gone horribly wrong—has become his mentor, and that he really has no idea what's up with girls.

John Jacobus, the Leon E. Williams Professor of Art at Dartmouth College, New Hampshire, tells the fascinating story of Matisse's life, exploring the relation of his work to the art of the past and showing how it contributed to the art of today. In this volume's forty stunning colour plates the artists most important paintings are reproduced, and each is accompanied by a detailed commentary on the page facing the illustration. With 105 illustrations, 40 in colour.
