people have a good grasp of the Bible's content. In this evolving situation, how would "the person on the street" read the Bible? Reading the Bible Outside the Church begins to answer this question. David Ford spent ten months at a chemical industrial plant providing non-churchgoing men with the opportunity to read and respond to five different biblical texts. Using an in-depth qualitative methodology, he charts how their prior experiences of religion, sense of (non)religious identity, attitudes towards the Bible, and beliefs about the Bible all shaped the readings that occurred.

Faith in Reading Sep 08 2020 This is the remarkable story of the unlikely origins of modern media culture. In the early 19th century, a few entrepreneurs decided the time was right to launch a true mass media in America. Though they were savvy businessmen, their publishing enterprises were not commercial businesses but nonprofit religious organizations.

Religions of Korea in Practice May 17 2021 Korea has one of the most diverse religious cultures in the world today, with a range and breadth of religious practice virtually unrivaled by any other country. This volume in the Princeton Readings in Religions series is the first anthology in any language, including Korean, to bring together a comprehensive set of original sources covering the whole gamut of religious practice in both premodern and contemporary Korea. The book's thirty-two chapters help redress the dearth of source materials on Korean religions in Western languages. Coverage includes shamanic rituals for the dead and songs to quiet fussy newborns; Buddhist meditative practices and exorcisms; Confucian geomancy and ancestor rites; contemporary Catholic liturgy; Protestant devotional practices; internal alchemy training in new Korean religions; and North Korean Juche ("self-reliance") ideology, an amalgam of Marxism and Neo-Confucian filial piety focused on worship of the "father," Kim Il Sung. Religions of Korea in Practice provides substantial coverage of contemporary Korean religious practice, especially the various Christian denominations and new indigenous religions. Each chapter includes an extensive translation of original sources on Korean religious practice, accompanied by an introduction that frames the significance of the selections and offers suggestions for further reading. This book will help any reader gain a better appreciation of the rich complexity of Korea's religious culture.

Princeton Readings in Religion and Violence Sep 20 2021 An anthology that examines the historical and contemporary relationship between religion and violence This groundbreaking anthology provides the most comprehensive overview for understanding the fascinating relationship between religion and violence—historically, culturally, and in the contemporary world. Bringing together writings from scholarly and religious traditions, it is the first volume to unite primary sources—justifications for violence from religious texts, theologians, and activists—with invaluable essays by authoritative scholars. The first half of the collection includes original source materials justifying violence from various religious perspectives: Hindu, Chinese, Christian, Muslim, Jewish, and Buddhist. Showing that religious violence is found in every tradition, these sources include ancient texts and scriptures along with thoughtful essays from theologians wrestling with such issues as military protection and pacifism. The collection also includes the writings of modern-day activists involved in suicide bombings, attacks on abortion clinics, and nerve gas assaults. The book's second half features well-known thinkers reflecting on why religion and violence are so intimately related and includes excerpts from early social theorists such as Durkheim, Marx, and Freud, as well as contemporary thinkers who view the issue of religious violence from literary, anthropological, postcolonial, and feminist perspectives. The editors' brief introductions to each essay provide important historical and conceptual contexts and relate the readings to one another. The diversity of selections and their accessible length make this volume ideal for both students and general readers.

[A Book of Faith Seeking Understanding](#) Aug 27 2019 Far too often, the God of the philosophers, those who for the most part had no appointment at a university, are the primary sources relied upon by many authors nowadays in their approach to the problem of evil. These fifty-two Lord's day or Sabbath day readings draw the reader into a dialogue with university professors of the late medieval era and sixteenth and early seventeenth centuries. The theme of these literary renditions of yesteryear's debates and disputations is the perennial quest by theologians to exonerate God from the charge that he is the author of evil. The sophistication and complexity of their scholastic method and solutions to the problem of evil may surprise, but hopefully will persuade, modern day readers to rethink their own conclusion about the problem, and to take up and read university theologians who were formerly unknown, all in the spirit of Anselm's faith seeking understanding.

[Readings from the Perspective of Earth](#) Nov 10 2020 This volume introduces the hermeneutical approach and ecojustice principles developed by the Earth Bible project team. Following this approach, biblical scholars illustrate how a reading of the biblical text from the perspective of Earth yields fresh insights. Though the text may seem anthropocentric, these studies are able to retrieve evidence of the living voice and intrinsic value of Earth. It is an approach that can be harmonized with other recognized critical approaches to the Bible, from historical criticism to ecofeminist criticism. The texts chosen are from many parts of the Bible (Psalms, Prophets, Gospels, Romans, Revelation) and the intertestamental literature (Tobit and Wisdom of Solomon).

[Philosophy of Religion](#) Aug 08 2020 Incorporating ten new readings and expanded pedagogical features, the fourth edition of Philosophy of Religion: Selected Readings is the most complete--and economically priced--introductory anthology in the philosophy of religion. It presents seventy-eight selections (more than any other collection) organized into fourteen thematic sections, providing instructors with great flexibility in organizing their courses. Addressing both classical concepts and a host of contemporary issues, the readings cover all of the standard subjects--including religious experience, divine attributes, theistic arguments, the problem of evil, and miracles--as well as more recent topics like reformed epistemology, process theism, the kalam cosmological argument, the religion-science controversy, religious ethics, and the diversity of world religions. While it deals primarily with the Western and analytic traditions in philosophy, the book also incorporates readings representing continental, feminist, and Asian perspectives. The fourth edition offers enhanced pedagogy including substantially expanded section introductions, numerous new glossary terms, and updated suggestions for further reading. It also provides ten new selections, including pieces by Daniel Dennett, Stephen T. Davis, and Gottfried Leibniz, and work on various issues in religion and science by William Dembski, Philip Kitcher, John Lennox, and John Polkinghorne. As in the

previous edition, study questions appear at the end of each selection. An excellent stand-alone text for courses in the philosophy of religion, *Philosophy of Religion: Selected Readings, Fourth Edition*, is also a perfect companion to the editors' textbook, *Reason and Religious Belief, Fifth Edition* (OUP, 2012), as the two books share the same topical organization.

Reading the Bible in Islamic Context Nov 22 2021 In the current political and social climate, there is increasing demand for a deeper understanding of Muslims, the Qur'an and Islam, as well as a keen demand among Muslim scholars to explore ways of engaging with Christians theologically, culturally, and socially. This book explores the ways in which an awareness of Islam and the Qur'an can change the way in which the Bible is read. The contributors come from both Muslim and Christian backgrounds, bring various levels of commitment to the Qur'an and the Bible as Scripture, and often have significantly different perspectives. The first section of the book contains chapters that compare the report of an event in the Bible with a report of the same event in the Qur'an. The second section addresses Muslim readings of the Bible and biblical tradition and looks at how Muslims might regard the Bible - Can they recognise it as Scripture? If so, what does that mean, and how does it relate to the Qur'an as Scripture? Similarly, how might Christian readers regard the Qur'an? The final section explores different analogies for understanding the Bible in relation to the Qur'an. The book concludes with a reflection upon the particular challenges that await Muslim scholars who seek to respond to Jewish and Christian understandings of the Jewish and Christian scriptures. A pioneering venture into intertextual reading, this book has important implications for relationships between Christians and Muslims. It will be of significant value to scholars of both Biblical and Qur'anic Studies, as well as any Muslim seeking to deepen their understanding of the Bible, and any Christian looking to transform the way in which they read the Bible.

Classical and Contemporary Readings in the Philosophy of Religion Oct 02 2022 This book is designed primarily for use in courses in philosophy of religion. Because such courses are sometimes arranged historically and sometimes in terms of topics or problems the material is presented here in two different tables of contents adapted to these two uses. The readings themselves are printed in chronological sequence, mainly in order that discussions by the same writer of different but related topics may conveniently be studied together- for example, Kant's critique of the three traditional theistic proofs.

"Bible Readings for the Home Circle" will be found an excellent aid to private, family, and public study of the Word of God.

Religious Reading Jun 29 2022 What social conditions and intellectual practices are necessary in order for religious cultures to flourish? Paul Griffiths finds the answer in "religious reading" --- the kind of reading in which a religious believer allows his mind to be furnished and his heart instructed by a sacred text, understood in the light of an authoritative tradition. He favorably contrasts the practices and pedagogies of traditional religious cultures with those of our own fragmented and secularized culture and insists that religious reading should be preserved.

Reading, Desire, and the Eucharist in Early Modern Religious Poetry Mar 15 2021 The courtly love tradition had a great influence on the themes of religious poetry—just as an absent beloved could be longed for passionately, so too could a distant God be the subject of desire. But when authors began to perceive God as immanently available, did the nature and interpretation of devotional verse change? Ryan Netzley argues that early modern religious lyrics presented both desire and reading as free, loving activities, rather than as endless struggles or dramatic quests. *Reading, Desire, and the Eucharist* analyzes the work of prominent early modern writers—including John Milton, Richard Crashaw, John Donne, and George Herbert—whose religious poetry presented parallels between sacramental desire and the act of understanding written texts. Netzley finds that by directing devotees
