Wonderful Blood Jun 26 2022 Bynum argues that Christ's blood as both object and symbol was central to late medieval art, literature, and religious life. As cult blood provided a focus of theological debate about the nature of matter, body, and God and an occasion for Jewish persecution; as motif, blood became a central in popular devotion.

Fascism, Aviation and Mythical Modernism Sep 05 2020 Flying and the pilot were significant metaphors of fascism's mythical modernity. [Jewish Church](#) Apr 24 2022 The idea of a Jewish Church has been banned from the Christian horizon for almost two millennia. But things are changing. Since the middle of the 70s the Messianic Jewish movement has strived to build an ecclesial home for all Jewish believers in Christ. This new phenomenon brings to life what had disappeared since the first centuries of the Church. What does it mean to be a Jew in the Church? Should there be a distinction between Jews and non-Jews in Christ? Is such a distinction compatible with the unity of the whole Body of Christ so ardently preached by Paul? What lifestyle should this Church promote? In his various works, Mark Kinzer, a prominent Messianic Jewish theologian, has attempted to provide substantial answers to these questions. Antoine Lévy, a Dominican priest. With Kinzer, Lévy has launched the "Helsinki Consultation", a cross-denominational gathering of Jewish theologians. In *Jewish Church: A Catholic Approach to Messianic Judaism*, Lévy examines Kinzer's positions critically, bringing forward an alternative vision of what a "Jewish Church" could and should be. This is only the beginning of what promises to be a fascinating discussion.

A vida inteira de Poppy se revelou uma mentira. Do homem que acreditou amar ao papel que ocupava em um reino decadente tudo não passava de uma farsa. E tudo o que Poppy conquistou foi o ódio do povo de Atlântia e um noivado com seu maior inimigo, o Príncipe das Trevas. Casteel Da'Neer é um homem de muitos nomes e muitos desejos. Suas mentiras são tão sedutoras quanto o seu toque. Suas verdades são sensuais quanto a sua raiva. Poppy se tornou uma mera peça de xadrez do tabuleiro do jogo, mas sabe que não pode confiar nele, mas o noivado com Casteel é a única maneira de descobrir o paradeiro de seu irmão e entender se ele se transformou em um Assassino Inescrupuloso. Unidos em um casamento de conveniência, o casal tem muitos desafios pela frente. Precisam convencer dois reinos partidos da legitimidade da união para evitar uma guerra. Mas trabalhar lado a lado com o inimigo apresenta riscos perigosos demais, e voltar a se apaixonar por Casteel é um deles. Em *Um reino de carne e fogo*, as traições cortam mais fundo do que a lâmina e a paixão arde mais quente do que o fogo. Mas será o amor mais forte do que a vingança? "Jennifer L. Armentrout repetiu a dose. Um reino de carne e fogo é tão divertido quanto *De sangue e cinzas* e, em alguns aspectos, é ainda melhor." — BookishWayfarer

[Hebrew Scholasticism in the Fifteenth Century](#) Mar 12 2021 Thus, in fifteenth century Italy and Spain there came into being what we may call a "Hebrew Scholasticism": Jewish authors composed philosophical treatises in which they discussed the same questions and used the same methods as contemporary Christian Schoolmen. These thinkers were not simply influenced by Scholasticism: they were real Schoolmen who tried to participate (in a different language) in the philosophical debate of contemporary Europe. A history of "Hebrew Scholasticism" in the fifteenth century is yet to be written. Most of the sources themselves remain unpublished and their contents and relationship to Latin sources have not yet been studied in detail. What is needed is to present, edit, translate and comment on some of the significant texts of "Hebrew Scholasticism", so that scholars can attain a more precise idea of its extent and character. This book aims to respond to this need.

[Holy Feast and Holy Fast](#) Dec 29 2019 In the period between 1200 and 1500 in western Europe, a number of religious women gained widespread veneration and canonization as saints for their extraordinary devotion to the Christian eucharist, supernatural multiplications of food and drink, and miracles of bodily manipulation including stigmata and inedia (living without eating). The occurrence of such phenomena sheds much light on the nature of medieval society and medieval religion and also forms a chapter in the history of women. Previous scholars have occasionally noted the various phenomena in isolation from each other and have sometimes applied modern medical or psychological theories to them. Using materials based on saints' lives and the religious and mystical writings of medieval women and men, Catherine Walker Bynum uncovers the pattern lying behind these aspects of women's religiosity and behind the fascination men and women felt for such miracles and devotional practices. She argues that food lies at the heart of much of women's piety. Women renounced ordinary food through fasting in order to prepare for receiving extraordinary food in the eucharist. They also offered themselves as food in miracles of feeding and bodily manipulation. Providing both functionalist and phenomenological explanations, Bynum explores the ways in which food practices enabled women to exert control within the family and to define their religious vocations. She also describes what women meant by seeing their own bodies and God's body as food and what men meant when they too associated women with flesh. The author's interpretation of women's piety offers a new view of the nature of medieval asceticism and, drawing upon both anthropology and feminist theory, illuminates the distinctive features of women's use of symbols. Rejecting presentist interpretations of women as exploited or masochistic, she shows the power and creativity of women's writing and women's lives.

[The Poetics of Conflict Experience](#) Oct 16 2021 Seventy years after the end of the Second World War we still do not fully appreciate the intensity of the lived experience of people and communities involved in resistance movements and subjected to German occupation. Yet the enduring conjunction between individuals, things and places cannot be understated: from plaques on the wall to the beloved yellowing relics of private museums, materiality is paramount to any understanding of conflict experience and its poetics. This book reasserts the role of the senses, the imagination and emotion in the Italian war experience and its remembrance practices and offers a cultural geography of the everyday material worlds of the conflict, and by digging deep into the multifaceted interweaving of place, person and conflict dynamics. Loneliness, displacement and paranoia were all emotional states shared by resistance activists and their civilian supporters. But what about the Fascists? And the Germans? In a civil war and occupation where shifting allegiances and betrayal were frequent, traditional binary codes of friend-foe cannot exist uncritically. This book incorporates these different actors' perceptions, their competing and discordant materialities, and their shared – yet different – sense of loss and placelessness through witness accounts, storytelling and memoirs.
