Monsters: The 1985 Chicago Bears and the Wild Heart of Football Jul 23 2022 The gripping account of a once-in-a-lifetime football team and their lone championship season For Rich Cohen and millions of other fans, the 1985 Chicago Bears were more than a football team: they were the greatest football team ever—a gang of colorful nuts, dancing and pounding their way to victory. They won a Super Bowl and saved a city. It was not just that the Monsters of the Midway won, but how they did it. On offense, there was high-stepping running back Walter Payton and Punky QB Jim McMahon, who had a knack for pissing off Coach Mike Ditka as he made his way to the end zone. On defense, there was the 46: a revolutionary, quarterback-concussing scheme cooked up by Buddy Ryan and ruthlessly implemented by Hall of Famers such as Dan "Danimal" Hampton and "Samurai" Mike Singletary. On the sidelines, in the locker rooms, and in bars, there was the never-ending soap

opera: the coach and the quarterback bickering on TV, Ditka and Ryan nearly coming to blows in the Orange Bowl, the players recording the "Super Bowl Shuffle" video the morning after the season's only loss. Cohen tracked down the coaches and players from this iconic team and asked them everything he has always wanted to know: What's it like to win? What's it like to lose? Do you really hate the guys on the other side? Were you ever scared? What do you think as you lie broken on the field? How do you go on after you have lived your dream but life has not ended? The result is *Monsters: The 1985 Chicago Bears and the Wild Heart of Football*, a portrait not merely of a team but of a city and a game: its history, its future, its fallen men, its immortal heroes. But mostly it's about being a fan—about loving too much. This is a book about America at its most nonsensical, delirious, and joyful.

City Stages Jan 05 2021 In every major city, there exists a complex exchange between urban space and the institution of the theatre. *City Stages* is an interdisciplinary and materialist analysis of this relationship as it has existed in Toronto since 1967. Locating theatre companies ? their sites and practices ? in Toronto?s urban environment, Michael McKinnie focuses on the ways in which the theatre has adapted to changes in civic ideology, environment, and economy. Over the past four decades, theatre in Toronto has been increasingly implicated in the civic self-fashioning of the city and preoccupied with the consequences of the changing urban political economy. *City Stages* investigates a number of key questions that relate to this pattern. How has theatre been used to justify certain forms of urban development in Toronto? How have local real estate markets influenced the ways in which theatre companies acquire and use performance space? How does the analysis of theatre as an urban phenomenon complicate Canadian theatre historiography? McKinnie uses the St. Lawrence Centre for the Arts and the Toronto Centre for the Performing Arts as case studies and considers theatrical companies such as Theatre Passe Muraille, Toronto Workshop Productions, Buddies in Bad Times, and Necessary Angel in his analysis. *City Stages* combines primary archival research with the scholarly literature emerging from both the humanities and social sciences. The result is a comprehensive and empirical examination of the relationship between the theatrical arts and the urban spaces that house them.
