Salt, Fat, Acid, Heat Jul 07 2020 Now a Netflix series New York Times Bestseller and Winner of the 2018 James Beard Award for Best General Cookbook and multiple IACP Cookbook Awards Named one of the Best Books of 2017 by: NPR, BuzzFeed, The Atlantic, The Washington Post, Chicago Tribune, Rachel Ray Every Day, San Francisco Chronicle, Vice Munchies, Elle.com, Glamour, Eater, Newsday, Minneapolis Star Tribune, The Seattle Times, Tampa Bay Times, Tasting Table, Modern Farmer, Publishers Weekly, and more. A visionary new master class in cooking that distills decades of professional experience into just four simple elements, from the woman declared "America's next great cooking teacher" by Alice Waters. In the tradition of *The Joy of Cooking* and *How to Cook Everything* comes *Salt, Fat, Acid, Heat*, an ambitious new approach to cooking by a major new culinary voice. Chef and writer Samin Nosrat has taught everyone from professional chefs to middle school kids to author Michael Pollan to cook using her revolutionary, yet simple, philosophy. Master the use of just four elements--Salt, which enhances flavor; Fat, which delivers flavor and generates texture;

Acid, which balances flavor; and Heat, which ultimately determines the texture of food--and anything you cook will be delicious. By explaining the hows and whys of good cooking, Salt, Fat, Acid, Heat will teach and inspire a new generation of cooks how to confidently make better decisions in the kitchen and cook delicious meals with any ingredients, anywhere, at any time. Echoing Samin's own journey from culinary novice to award-winning chef, Salt, Fat Acid, Heat immediately bridges the gap between home and professional kitchens. With charming narrative, illustrated walkthroughs, and a lighthearted approach to kitchen science, Samin demystifies the four elements of good cooking for everyone. Refer to the canon of 100 essential recipes--and dozens of variations--to put the lessons into practice and make bright, balanced vinaigrettes, perfectly caramelized roast vegetables, tender braised meats, and light, flaky pastry doughs. Featuring 150 illustrations and infographics that reveal an atlas to the world of flavor by renowned illustrator Wendy MacNaughton, Salt, Fat, Acid, Heat will be your compass in the kitchen. Destined to be a classic, it just might be the last cookbook you'll ever need. With a foreword by Michael Pollan.

The Nightmare Before Christmas: Official Advent Calendar: Ghoulish Delights Jul 31 2022 Tired of the same old thing? Celebrate Christmas with Jack Skellington in an advent calendar filled with ghoulish delights! Counting down to Christmas has never been more fun than with this frighteningly entertaining countdown calendar based on Disney's Tim Burton's The Nightmare Before Christmas. This special countdown calendar opens to reveal 25 gifts that include mini books, note cards, ornaments, and other surprises to take readers through the 25 days of the happiest holiday of the year. **DECK THE HALLS** Includes stickers, ornaments, and holiday greetings to display or share with friends. **READING FUN** Discover trivia, fun film facts, and more entertaining surprises in mini-books sprinkled throughout the month. **COUNTDOWN TO CHRISTMAS** Uncover a new holiday surprise each day of December with exclusive collectibles from The Nightmare Before Christmas. **UNIQUE HOLIDAY DECORATION** Display this sturdy advent calendar alongside traditional holiday decor for a ghoulish holiday delight.

Smart Design Sep 08 2020 This book tackles the emerging smart urbanism to advance a new way of urban thinking and to explore a new design approach. It unravels several urban transformations in dualities: economic relationality and centrality, technological flattening and polarisation, and spatial division and fusion. These dualities are interdependent; concurrent, coexisting, and contradictory, they are jointly disrupting and reshaping many aspects of contemporary cities and spaces. The book draws on a suite of international studies, experiences, and observations, including case studies in Beijing, Singapore, and Boston, to reveal how these processes are impacting urban design, development, and policy approaches. The COVID-19 pandemic has accelerated many changes already in motion, and provides an extreme circumstance for reflecting on and imagining urban spaces. These analyses, thoughts, and visions inform an urban imaginary of smart design that incorporates change, flexibility, collaboration, and experimentation, which together forge a paradigm of urban thinking. This paradigm builds upon the modernist and postmodernist urban design traditions and extends them in new directions, responding to and anticipating a changing urban environment. The book proposes a smart design manifesto to stimulate thought, trigger debate, and, hopefully, influence a new generation of urban thinkers and smart designers. It will be of interest to scholars, students, and practitioners in the fields of urban design, planning, architecture, urban development, and urban studies.

The Palgrave Handbook of Reproductive Justice and Literature Sep 01 2022 This handbook offers a collection of scholarly essays

that analyze questions of reproductive justice throughout its cultural representation in global literature and film. It offers analysis of specific texts carefully situated in their evolving historical, economic, and cultural contexts. Reproductive justice is taken beyond the American setting in which the theory and movement began; chapters apply concepts to international realities and literatures from different countries and cultures by covering diverse genres of cultural production, including film, television, YouTube documentaries, drama, short story, novel, memoir, and self-help literature. Each chapter analyzes texts from within the framework of reproductive justice in an interdisciplinary way, including English, Japanese, Italian, Spanish, and German language, literature and culture, comparative literature, film, South Asian fiction, Canadian theatre, writing, gender studies, Deaf studies, disability studies, global health and medical humanities, and sociology. Academics, graduate students and advanced undergraduate students in Literature, Gender, Sexuality and Women's Studies, Cultural Studies, Motherhood Studies, Comparative Literature, History, Sociology, the Medical Humanities, Reproductive Justice, and Human Rights are the main audience of the volume.

Only the Rich Can Play May 29 2022 In a Winners Take All meets This Town narrative, a New York Times bestselling author tells the story of the creation of a massive tax break, in which political and economic elites attend to the care and feeding of the super-rich, and inequality compounds. David Wessel's incredible tale of how Washington works-and why the rich keep getting richer-starts when a Silicon Valley entrepreneur develops an idea intended as a way to help poor people that will save rich people money on their taxes. He organizes and pays for an effective lobbying effort that pushes his idea into law with little scrutiny or fine-tuning by congressional or Treasury tax experts-and few safeguards against abuse. With an unbeatable pair of high-profile sponsors, bumper-sticker simplicity and deft political marketing, the Opportunity Zone became an unnoticed part of the 2017 Trump tax bill. The gold rush followed immediately thereafter. David Wessel follows the money to see who profited from this plan that was supposed to spur development of blighted areas and help people out of poverty: the Las Vegas strip, the Portland (Oregon) Ritz-Carlton, the Mall of America, and self-storage facilities-lucrative areas where the one percent can park money profitably and avoid capital gains taxes. And the best part: unlike other provisions for eliminating capital gains taxes (inheritance, for example) you don't have to die to take advantage of this one. Wessel provides vivid portraits of the proselytizers, political influencers, motivational speakers, consultants, real estate dealmakers, and individual money-seekers looking to take advantage of this twenty-first century bonanza. He looks at places for which Opportunity Zones were supposedly designed (Baltimore, for example) and how little money they've drawn. And he finds a couple of places (Erie, PA) where zones are actually doing what they were supposed to, a lesson on how a better designed program might have helped more left-behind places. But what Wessel reveals is the gritty reality: The dark underbelly of a system tilted in favor of the few, with the many left out in the cold

Mathematics 2022: Your Daily Epsilon of Math Aug 27 2019 Keep your mind sharp all year long with Mathematics 2022: Your Daily Epsilon of Math, a 12" x 12" wall calendar featuring 12 images relating to math concepts! Let mathematicians Rebecca Rapoport and Dean Chung tickle the left side of your brain by providing you with a math challenge for every day of the year. The solution is always the date, but the fun lies in figuring how to arrive at the answer, and possibly discovering more than one method of arriving there. Some of the most tricky problems require only middle school math applied cleverly. With entry-level algebra, word problems, math puns, and interesting math definitions added into the mix, this calendar will intrigue you for the whole year. End the year with more brains than you

had when it began with Mathematics 2022: Your Daily Epsilon of Math.

Festivals and the City Jan 01 2020 This book explores how festivals and events affect urban places and public spaces, with a particular focus on their role in fostering inclusion. The 'festivalisation' of culture, politics and space in cities is often regarded as problematic, but this book examines the positive and negative ways that festivals affect cities by examining festive spaces as contested spaces. The book focuses on Western European cities, a particularly interesting context given the social and cultural pressures associated with high levels of in-migration and concerns over the commercialisation and privatisation of public spaces. The key themes of this book are the quest for more inclusive urban spaces and the contested geographies of festival spaces and places. Festivals are often used by municipal authorities to break down symbolic barriers that restrict who uses public spaces and what those spaces are used for. However, the rise of commercial festivals and ticketed events means that they are also responsible for imposing physical and financial obstacles that reduce the accessibility of city parks, streets and squares. Alongside addressing the contested effects of urban festivals on the character and inclusivity of public spaces, the book addresses more general themes including the role of festivals in culture-led regeneration. Several chapters analyse festivals and events as economic development tools, and the book also covers contested representations of festival cities and the ways related images and stories are used in place marketing. A range of cases from Western Europe are used to explore these issues, including chapters on some of the world's most significant and contested festival cities: Venice, Edinburgh, London and Barcelona. The book covers a wide range of festivals, including those dedicated to music and the arts, but also events celebrating particular histories, identities and pastimes. A series of fascinating cases are discussed - from the Venice Biennale and Dublin Festival of History, to Rotterdam's music festivals and craft beer festivals in Manchester. The diverse and innovative qualities of the book are also evident in the range of urban spaces covered: obvious examples of public spaces – such as parks, streets, squares and piazzas – are addressed, but the book includes chapters on enclosed public spaces (e.g., libraries) and urban blue spaces (waterways) too. This reflects the interpretation of public spaces as socio-material entities: they are produced informally through their use (including for festivals and events), as well as through their formal design and management.

The Rough Guide to Shanghai Dec 12 2020 The ultimate insider's guide, covering everything from the huge new art galleries of the West Bund to the chic eating places of the renovated Cool Docks. Shanghai is the twenty-first-century city par excellence - the financial centre of the world's new superpower. Expanding wildly in all directions, it's a vibrant place, making waves in everything from contemporary art to cutting-edge architecture. Cutting through the hype, The Rough Guide to Shanghai reveals the best places to shop, from fake markets to backstreet tailors; to sleep, whether you want a quirky hostel, Art Deco cool or a luxury sky scraping suite; and to eat, from destination restaurants to humble dumpling stalls. Day-trips include quaint canal towns, the new Chinese Disneyland and lovely Nanxiang, made newly accessible by the expanding metro network. An updated metro map shows all the new stops, while every hotel, restaurant, bar, club and shop is marked on our easy-to-read, full-colour city maps.

Armenia's Velvet Revolution May 05 2020 In April 2018, Armenia experienced a remarkable popular uprising leading to the resignation of Prime Minister Serzh Sargsyan and his replacement by protest leader Nikol Pashinyan. Evoking Czechoslovakia's similarly peaceful overthrow of communism 30 years previously, the uprising came to be known as Armenia's 'Velvet Revolution': a broad-based movement calling for clean government, democracy and economic reform. This volume examines how a popular protest movement, showcasing civil disobedience as a mass strategy for the first time in the post-Soviet space, overcame these unpromising circumstances. Situating the events in Armenia in their national, regional and global contexts, different contributions evaluate the causes driving Armenia's unexpected democratic turn, the reasons for regime vulnerability and the factors mediating a non-violent outcome. Drawing on comparative perspectives with democratic transitions across the world, this book will be essential reading for those interested in the regime dynamics, social movements and contested politics of contemporary Eurasia, as well as policy-makers and practitioners in the fields of democracy assistance and human rights in an increasingly multipolar world.

Water-supply Paper Jun 17 2021

Joanne Woodward Apr 15 2021 ? In her 60-year career, Joanne Woodward has been a film, television and stage actress, television producer and director, stage director, and film director. She won the Best Actress Academy Award for her performance in *The Three Faces of Eve* and was nominated for *Rachel, Rachel*, *Summer Wishes*, *Winter Dreams* and *Mr. & Mrs. Bridge*. She also won the Best Actress Emmy Award for *See How She Runs* and *Do You Remember Love*. This book is the first to be solely devoted to Woodward's life and career, which were often overshadowed by the successes of her late husband, Paul Newman.

Coming Home to Math Oct 29 2019 We use numbers here, there and everywhere -- Numbers are some of my favorite things -- Linking numbers : operations on numbers -- Words and numbers : being careful -- Writing really big and really small numbers, and those in-between -- Touching all bases, at times with logs -- Numbers need to be exact, but it ain't necessarily so -- The different types of numbers have not evolved, but our understanding of them has -- Really, really big and really, really small numbers -- The whole truth of whole numbers -- The math of the digital world : modular arithmetic (or using number leftovers) -- The math of what will be : progressions of growth and decay -- Untangling the worlds of probability and statistics -- The math of what might be : probability - what are the odds? -- The math of what was : statistics - the good, the bad, and the evil -- The math of big data -- The math of optimization, ranking, voting, and allocation -- The math of gaming -- The math of risk.

Code of Federal Regulations Dec 24 2021 Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

Yoga Dogs May 17 2021 Learn how to sit, stay, and roll over with this fully illustrated, "delightful" guide to yoga starring man's best friend (Shutterbug magazine). Inspired by a friend's mastiff who would imitate his master's morning yoga routine, photographer Dan Borris created *Yoga Dogs*, a full-color collection of forty-five different dogs and puppies doing human yoga poses. Don't worry: No animals were harmed during the making of these images; their extreme flexibility is the result of clever digital trickery. The curious, humorous, and distinctly original pictures are paired with useful information about the poses, as well as some funny canine meditations. "A fresh and highly entertaining visual treat," *Yoga Dogs* is perfect for any yogi of the two or four-legged variety (Shutterbug magazine).

Glossy Jun 25 2019 'Dame Anna Wintour might be one of the best-known and most successful journalists on the planet. But it wasn't

always like that. When she started out on Vogue she was often so miserable she had to phone her husband for help. This is just one of countless fascinating tidbits in this zippy story of dizzying fortune, out-of-this-world fashion, ingenuity, passion, sex and power. And, this being fashion, some intense bitchiness too. Started as a gossip magazine for snobbish New Yorkers in 1892, Vogue is now one of the most recognisable brands in the world. Spanning London, New York and Paris, this is a high-speed, fun read full of fascinating though not always likeable people.' Daily Mail Glossy is a story of more than a magazine. It is a story of passion and power, dizzying fortune and out-of-this-world fashion, of ingenuity and opportunism, frivolity and malice. This is the definitive story of Vogue. Vogue magazine started, like so many great things do, in the spare room of someone's house. But unlike other such makeshift projects that flare up then fizzle away, Vogue burnt itself onto our cultural consciousness. Today, 128 years later, Vogue spans 22 countries, has an international print readership upwards of 12 million and nets over 67 million monthly online users. Uncontested market leader for a century, it is one of the most recognisable brands in the world and a multi-million dollar money-making machine. It is not just a fashion magazine, it is the establishment. But what - and more importantly who - made Vogue such an enduring success? Glossy will answer this question and more by tracing the previously untold history of the magazine, from its inception as a New York gossip rag, to the sleek, corporate behemoth we know now. This will be a biography of Vogue in every sense of the word, taking the reader through three centuries, two world wars, plunging failures and blinding successes, as it charts the story of the magazine and those who ran it.

Business Cat: Hostile Takeovers Aug 20 2021 After clawing his way to the top of the corporate world, Business Cat's professional standing is secure — or is it? Following a surprise audit from the IRS and some nefarious scheming by his executive rival, a business dog named Howard, things go downhill fast. Business Cat's exile from the C-suite isn't always pretty — he winds up in temp jobs, alleys, foster homes, and the kennel — but it is always entertaining. Author Tom Fonder's story of Business Cat's remarkable journey provides a thrilling conclusion to the series, and one office workers, cat lovers, and comics fans will cheer on to the finish.

Supercharge Power BI Nov 10 2020 Data analysis expressions (DAX) is the formula language of Power BI. Learning the DAX language is key to empower Power BI users so they can take advantage of these new Business Intelligence (BI) capabilities. This volume clearly explains the concepts of DAX while at the same time offering hands-on practice to engage the reader and help new knowledge stick. This third edition has been updated for the new Power BI Ribbon interface while still providing a bridge for readers wanting to learn DAX in the Power BI, Power Pivot, or Excel.

Staging Fashion Jun 05 2020 The fashion show and its spaces are sites of otherness, representing everything from rebellion and excess through to political and social activism. This conceptual and stylistic variety is reflected in the spaces they occupy, whether they are staged in an industrial warehouse, on a city street, or out in the open landscape. Staging Fashion is the first collection of essays about the presentation and staging of fashion in runway shows in the period from the 1960s to the 2010s. It offers a fresh perspective on the many collaborations between artists, architects and interior designers to reinforce their interdisciplinary links. Fashion, architecture and interiors share many elements, including design, history, material culture, aesthetics and trends. The research and ideas

underpinning Staging Fashion address how fashion and the spatial fields have collaborated in the creation of the space of the fashion show. The 15 essays are written by fashion, interior, architecture and design scholars focusing on the presentation of fashion within the runway space, from avant-garde practices and collaboration with artists, to the most spectacular and commercial shows of recent years, from Prada to Chanel.

West African Studies The Geography of Conflict in North and West Africa Jul 27 2019 African governments are increasingly confronted with new forms of political violence. This study maps the evolution of violence across North and West Africa, with a particular focus on Mali, Lake Chad and Libya.

Chase's Calendar of Events 2018 Nov 03 2022 Founded in 1957, Chase's observes its 60th anniversary with the 2018 edition! Users will find everything worth knowing and celebrating for each day of the year: 12,500 holidays, historical milestones, famous birthdays, festivals, sporting events and much more. "One of the most impressive reference volumes in the world."--Publishers Weekly.

Designing the Global City Jul 19 2021 This text explores how architectural and urban design values have been co-opted by global cities to enhance their economic competitiveness by creating a superior built environment that is not just aesthetically memorable but more productive and sustainable. It focuses on the experience of central Sydney through its policy commitment to 'design excellence' and more particularly to mandatory competitive design processes for major private development. Framed within broader contexts that link it to comparable urban policy and design issues in the Asia-Pacific region and globally, it provides a scholarly but accessible volume that provides a balanced and critical overview of a policy that has changed the design culture, development expectations, public realm and skyline of central Sydney, raising issues surrounding the uneven distribution of benefits and costs, professional practice, representative democracy, and implications of globalization.

RRB Group D Level 1 Guide Apr 03 2020 1. Guide divides the entire syllabus into 4 parts 2. Every section is provided with 3 section for quick revision 3. Special section given to current affairs 4. 2 Practice Sets are given at the end of the book Candidates who are preparing for the Railway examinations, to fulfill their dream in making careers at Indian Railways. RRB has brought the golden opportunity by announcing 1,03,769 seats for Group D Level 1 in the various posts of Track Maintainer Grade-IV, Helper/Assistant in various technical departments (Electrical, Mechanical and S&T departments), Assistant Pointsman, Level-I posts in other departments of Indian Railways. Grab this opportunity with the current edition of "Study Package Level 1 Railways Recruitment Boards (RRBs) Group D" that has been designed carefully to help aspirants for the computer based test 2021. Following the latest pattern of the exam, this book is divided into chapters that have been categorized under 4 sections; Mathematics, General Intelligence, General Science and General Awareness. Each chapter of every section is well explained in detail providing complete understanding of the concepts. Each section is accompanied by 3 section tests for thorough practice. A special section is provided for Current Affairs. Apart from Sectionwise – Chapterwise learning, this book provides 2 practice sets to get the insights of the paper pattern. Enclosed with a good set of study resources, this book is a complete success package for aspirants gearing up for RRBs Group - D CBT 2021. TOC Current Affairs, Mathematics, General Intelligence, General Science and General Awareness, 2 practice sets.

Geological Survey Water-supply Paper Jan 31 2020

The Pirate's Wife Aug 08 2020 The dramatic and deliciously swashbuckling story of Sarah Kidd, the wife of the famous pirate Captain Kidd, charting her transformation from New York socialite to international outlaw during the Golden Age of Piracy Captain Kidd was one of the most notorious pirates to ever prowl the seas. But few know that Kidd had an accomplice, a behind-the-scenes player who enabled his plundering and helped him outpace his enemies. That accomplice was his wife, Sarah Kidd, a well-to-do woman whose extraordinary life is a lesson in reinvention and resourcefulness. Twice widowed by twenty-one and operating within the strictures of polite society in seventeenth- and eighteenth-century New York, Sarah secretly aided and abetted her husband, fighting alongside him against his accusers. More remarkable still was that Sarah not only survived the tragedy wrought by her infamous husband's deeds, but went on to live a successful and productive life as one of New York's most prominent citizens. Marshaling in newly discovered primary-source documents from archives in London, New York and Boston, historian and journalist Daphne Palmer Geanacopoulos reconstructs the extraordinary life of Sarah Kidd, uncovering a rare example of the kind of life that pirate wives lived during the Golden Age of Piracy. A compelling tale of love, treasure, motherhood and survival, this landmark work of narrative nonfiction weaves together the personal and the epic in a sweeping historical story of romance and adventure.

Playing and Learning Outdoors Oct 02 2022 Fully updated to reflect the current status and understandings regarding outdoor provision within early childhood education frameworks across the UK, this new edition shows early years practitioners how to get the very best from outdoor play and learning for the enjoyment, health and education of young children up to age seven. This invaluable resource gives sound practical guidance for providing: play with water, sand and other natural materials; experiences with plants, growing and living things; movement and physical play; construction, imaginative and creative play; and explorations into the locality and community just beyond your garden. This full-colour third edition has been further developed to act as a comprehensive source book of relevant materials, books and resources supporting the core ingredients of high-quality outdoor provision, while each chapter also includes extensive collections of children's picture books relating to the themes within each chapter. Playing and Learning Outdoors has become the essential practical guide to excellence in outdoor provision and pedagogy for all early years services. This lively, inspiring and accessible book will help every educator to develop truly successful and satisfying approach to learning through play outdoors for every child.

Empowering Teachers to Build a Better World Nov 22 2021 This open access book presents a comparative study on how large-scale professional development programs for teachers are designed and implemented. Around the world, governments and educators are recognizing the need to educate students in a broad range of higher order cognitive skills and socio-emotional competencies, and providing effective opportunities for teachers to develop the expertise needed to teach these skills is a crucial aspect of effective implementation of curricula which include those goals. This study examines how large-scale efforts to empower teachers for deeper instruction have been designed, how they have been implemented, and their outcomes. To do so, it investigates six programs from England, Colombia, Mexico, India, and the United States. Though all six are intended to broaden and deepen students' curricular

aspirations, each takes this expansion of curricular goals in a different direction. The ambitious education reforms studied here explicitly focus on building teachers' capacity to teach on a broader set of goals. Through a discerning analysis of program documents, evaluations, and interviews with senior leaders and participants in the programs, the book identifies the various theories of action used in these programs, examines how they were implemented, and discusses what they achieved. As such, it offers an indispensable resource for education leaders interested in designing and implementing professional development programs for teachers that are aligned with ambitious instructional goals.

Computational Intelligence and Soft Computing Applications in Healthcare Management Science Sep 28 2019 In today's modernized world, the field of healthcare has seen significant practical innovations with the implementation of computational intelligence approaches and soft computing methods. These two concepts present various solutions to complex scientific problems and imperfect data issues. This has made both very popular in the medical profession. There are still various areas to be studied and improved by these two schemes as healthcare practices continue to develop. Computational Intelligence and Soft Computing Applications in Healthcare Management Science is an essential reference source that discusses the implementation of soft computing techniques and computational methods in the various components of healthcare, telemedicine, and public health. Featuring research on topics such as analytical modeling, neural networks, and fuzzy logic, this book is ideally designed for software engineers, information scientists, medical professionals, researchers, developers, educators, academicians, and students.

A Book Mar 03 2020 This book contains ordering of the months progressive reset yearly cycling; reasoning on how we live among the physics year 2017, 2018, 2019, etc.; and depicting how dipitchipational beings are the only physiological, visual, vocal, sound wave, vibrational beings to comprehend reasoning(s), as when a lazy humans mass effort(s) are particulate. From literary and commercial book productions, this books tells you how to refine a collected genetic population from Americas factory refinement residential and commercial market productions by email, cell phone, home phone, blogs, written personal observations, extrospective interactive encounters, physics tectonic elemental refinement reasoning, etc. The book also includes conversing consciously, as how each fact remains in a humanistic physiological sensation, motivation, and purpose for understanding why circulating dollars, cents, debits, credits remain important/significant because of how humans objectively/subjectively live amid existing.
