Innovation Through Cooperation Jun 14 2021 Many people have great ideas. Without the necessary skills and means most never get to realize them. If they could cooperate with competent firms and entrepreneurs together both could achieve much and this is increasingly happening. Mechanisms are being established making a division of labour between inventors and implementers a reality. This is changing the nature of innovation from an internal R&D, or purely entrepreneurial attempt, to a more cooperative innovation. An Idea Economy emerges, where anyone has the possibility to profit from their ideas, and everyone will benefit from more and better innovation. This book presents us the emergence and structure of the Idea Economy by extending the seminal concepts of Entrepreneurial Society and Open Innovation. Part I describes the big picture on how innovation is evolving, where we are today, and what an Idea Economy will look like. Part II points the way forward, discussing in detail on how cooperation in the innovation process works, and why this is only recently becoming possible. ?

The Japanese Tea Ceremony – An Introduction Oct 19 2021 This book provides a comprehensive introduction to chado, the Japanese tea ceremony. Unlike other books on the subject, which focus on practice or historical background or specific issues, this book considers the subject from multiple perspectives. It discusses Japanese aesthetics and philosophy, outlines how the tea ceremony has developed, emphasizing its strong links to Zen Buddhism and the impact of other religion influences, and examines how chado reflects traditional gender and social status roles in Japan. It goes on to set out fully the practice of chado, exploring dress, utensils, location – the garden and the tea house – and the tea itself and accompanying sweets. Throughout, the book is illustrated both with images and with examples of practice. The book will be of interest to a wide range of people interested in chado – university professors and students, tourists and people interested in traditional Japanese arts.

Life's a Puppy Party Jan 10 2021 Make the most of every day with your dog using this fun collection of healthy recipes, easy DIYs, and Pinterest-worthy party plans that you and your pup can enjoy together. Our dogs are more of a part of our lives than ever, but it's still hard to find cute treats, toys, and accessories for them that you can make yourself. When Heather Hunt brought home her dachshund, Dave, she scoured the internet for all the info she could find about being a great dog owner. And although she found plenty of factual guides to being a good pup parent, she was shocked that the fun and silly parts of owning a dog were completely missing—how to create a comfortable Halloween costume without buying a sewing machine, how to bake a nutritious barkday cake, or how to host a party for other pup friends. Heather eventually launched TheDapple.com as a place to share great pet products and simple, creative activities for modern dog parents. In Life's a Puppy Party, Heather has created a handbook for having fun with your dog. Grouped by season, it features easy, cost-efficient, Instagrammable, and vet-approved recipes, crafts, and no-sew costume ideas to make your pup a part of every type of celebration.
