[The Oldest Soul - Animus](#) Nov 04 2022 Who knew that mapping the genome would lead to carbon dating the soul. And the oldest soul on earth - unbeknownst to her - is a seventeen-year-old girl named Evelyn O'Clairigh, Eve, living in present day North Dakota. With scientists on the brink of decoding our DNA to determine the number of lifetimes a soul has lived, Eve meets a spellbinding boy named Jude, the only brand new soul on earth in centuries, and finds herself fatefully drawn to both him and Roman, her apparent love of lifetimes. But how will she choose between her soul mate and her fate? With no idea that her choice will alter the course of history - Paving the way for a world war of old souls versus new. [www.theoldestsoul.com](#) - Take the test and find out if your SOUL is OLD or NEW.....

[Tracing the Emergence of Psychology. 1520–1750](#) Aug 01 2022 This book pursues the very first use of the term "psychology", which is traced back to 1520. The appearance of the term was not as a part of philosophy. Thus, the main hypothesis of this book is that psychology from the very beginning was a stranger to philosophy. It demonstrates that even Aristotle used his thesis on the soul to delineate philosophy from psychological aspects. It is therefore suggested that psychological wisdom and knowledge has been retained and in popular culture as long as humans have reflected upon themselves. There were, however, several reasons for why psychology appeared as a part of philosophy at around the year 1600. One important factor was Humanism, which among other things had challenged Aristotelian logic. Another important movement was Protestantism. Luther's emphasis on the need to confess one's sin, led to a certain interest to explore the human nature. His slogan, "the scripture alone" represented an attack on the close relationship that had existed between theology and philosophy. Yet when philosophy was thrown out of theology, it was left without the basic theological tenets that had guided philosophical speculations for centuries in Europe. Hence, this book pursues how philosophy gradually adopts and includes psychological aspects to rebuild the foundation for philosophy. This culminates partly with the British empiricists. Yet they did not apply the term psychology. It was the German and partly ignored philosopher Christian Wolff, who opened up modern understanding of psychology with the publication of *Psychologia empirica* in 1732. This publication had a tremendous impact on the enlightenment in the modern Europe.

[Steeped in Stories](#) Aug 09 2020 The stories we read as children shape us for the rest of our lives. But it is never too late to discover that transformative spark of hope that children's classics can ignite within us. Award-winning children's author Mitali Perkins grew up steeped in stories--escaping into her books on the fire escape of a Flushing apartment building and, later, finding solace in them as she navigated between the cultures of her suburban California school and her Bengali heritage at home. Now Perkins invites us to explore the promise of seven timeless children's novels for adults living in uncertain times: stories that provide mirrors to our innermost selves and open windows to other worlds. Blending personal narrative, accessible literary criticism, and spiritual and moral formation, Perkins delves into novels by Louisa May Alcott, C. S. Lewis, L. M. Montgomery, Frances Hodgson Burnett, and other literary "uncles" and "aunts" that illuminate the virtuous, abundant life we still desire. These novels are not perfect, and Perkins honestly assesses their critical frailties and flaws related to race, culture, and power. Yet reading or rereading these books as adults can help us build virtue, unmask our vices, and restore our hope. Reconnecting with these stories from childhood isn't merely nostalgia. In an era of uncertainty and despair, they lighten our load and bring us much-needed hope.

meanings, examples of usage of the word, phrases & idioms associated with the word make it an invaluable reference

John Brown, Abolitionist Nov 11 2020 An authoritative new examination of John Brown and his deep impact on American history. Bancroft Prize-winning cultural historian David S. Reynolds presents an informative and richly considered new exploration of the paradox of a man steeped in the Bible but more than willing to kill for his abolitionist cause. Reynolds locates Brown within the currents of nineteenth-century life and compares him to modern terrorists, civil-rights activists, and freedom fighters. Ultimately, he finds neither a wild-eyed fanatic nor a Christ-like martyr, but a passionate opponent of racism so dedicated to eradicating slavery that he realized only blood could scour it from the country he loved. By stiffening the backbone of Northerners and showing Southerners there were those who would fight for their cause, he hastened the coming of the Civil War. This is a vivid and startling story of a man and an age on the verge of calamity.

Divine Fury Oct 23 2021 Genius. With hints of madness and mystery, moral license and visionary force, the word suggests an almost otherworldly power: the power to create, to divine the secrets of the universe, even to destroy. Yet the notion of genius has been diluted in recent times. Today, rock stars, football coaches, and entrepreneurs are labeled 'geniuses,' and the word is applied so widely that it has obscured the sense of special election and superhuman authority that long accompanied it. As acclaimed historian Darrin M. McMahon explains, the concept of genius has roots in antiquity, when men of prodigious insight were thought to possess -- or to be possessed by -- demons and gods. Adapted in the centuries that followed and applied to a variety of religious figures, including prophets, apostles, sorcerers, and saints, abiding notions of transcendent human power were invoked at the time of the Renaissance to explain the miraculous creativity of men like Leonardo and Michelangelo. Yet it was only in the eighteenth century that the genius was truly born, idolized as a new model of the highest human type. Assuming prominence in figures as varied as Newton and Napoleon, the modern genius emerged in tension with a growing belief in human equality. Contesting the notion that all are created equal, geniuses served to dramatize the exception of extraordinary individuals not governed by ordinary laws. The phenomenon of genius drew scientific scrutiny and extensive public commentary into the 20th century, but it also drew religious and political longings that could be abused. In the genius cult of the Nazis and the outpouring of reverence for the redemptive figure of Einstein, genius achieved both its apotheosis and its Armageddon. The first comprehensive history of this elusive concept, *Divine Fury* follows the fortunes of genius and geniuses through the ages down to the present day, showing how -- despite its many permutations and recent democratization -- genius remains a potent force in our lives, reflecting modern needs, hopes, and fears.

The Individual in the Religions of the Ancient Mediterranean Nov 23 2021 Ancient religions are usually treated as collective and political phenomena and, apart from a few towering figures, the individual religious agent has fallen out of view. Addressing this gap, the essays in this volume focus on the individual and individuality in ancient Mediterranean religion. Even in antiquity, individual religious action was not determined by traditional norms handed down through families and the larger social context, but rather options were open and choices were made. On the part of the individual, this development is reflected in changes in 'individuation', the parallel process of a gradual full integration into society and the development of self-reflection and of a notion of individual identity. These processes are analysed within the Hellenistic and Imperial periods, down to Christian-dominated late antiquity, in both pagan polytheistic as well as Jewish monotheistic settings. The volume focuses on individuation in everyday religious practices in Phoenicia, various Greek cities, and Rome, and as identified in institutional developments and philosophical reflections on the self as exemplified by the Stoic Seneca.

Aristotle's On the Soul Oct 11 2020 In this timeless and profound inquiry, Aristotle presents a view of the psyche that avoids the simplifications both of the materialists and those who believe in the soul as something quite distinct from body. On the Soul also includes Aristotle's idiosyncratic and influential account of light and colors. On Memory and Recollection continues the investigation of some of the topics introduced in *On the Soul*. Sachs's fresh and jargon-free approach to the translation of Aristotle, his lively and insightful introduction, and his notes and glossaries, all bring out the continuing relevance of Aristotle's thought to biological and philosophical questions.

Soulcraft Jul 08 2020 Since 1980, depth psychologist Bill Plotkin has been guiding women and men into the wilderness — the redrock canyons and snow-crested mountains of the American West — but also into the wilds of the soul. He calls this work soulcraft. There's a great longing in all people to uncover the secrets and mysteries of our individual lives, to find the unique gift we were born to bring to our communities, and to experience our full membership in the more-than-human world. This journey to soul is a descent into layers of the self much deeper than personality, a journey meant for each one of us, not just for the heroes and heroines of mythology. A modern handbook for the journey, *Soulcraft* is not an imitation of indigenous ways, but a contemporary nature-based approach born from wilderness experience, the traditions of Western culture, and the cross-cultural heritage of all humanity. Filled with stories, poems, and guidelines, *Soulcraft* introduces over 40 practices that facilitate the descent to soul, including dreamwork, wilderness vision fasts, talking across the species boundaries, council, self-designed ceremony, nature-based shadow work, and the arts of romance, being lost, and storytelling.

Humans and Animals: Intersecting Lives and Worlds Jan 26 2022 Addressing the non-human animal from the standpoint of various social and cultural constructions from a global and multidisciplinary perspective, this volume seeks to draw attention to the complexity of the underlying issues and the manifold dimensions of the animal-human bond.

Psyche Mar 04 2020 First published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Nature and the Human Soul Feb 01 2020 Addressing the pervasive longing for meaning and fulfillment in this time of crisis, *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us. Depth psychologist and wilderness guide Bill Plotkin presents a model for a

human life span rooted in the cycles and qualities of the natural world, a blueprint for individual development that ultimately yields a strategy for cultural transformation. If it is true, as Plotkin and others observe, that we live in a culture dominated by adolescent habits and desires, then the enduring societal changes we so desperately need won't happen until we individually and collectively evolve into an engaged, authentic adulthood. With evocative language and personal stories, including those of elders Thomas Berry and Joanna Macy, this book defines eight stages of human life — Innocent, Explorer, Thespian, Wanderer, Soul Apprentice, Artisan, Master, and Sage — and describes the challenges and benefits of each. Plotkin offers a way of progressing from our current egocentric, aggressively competitive, consumer society to an ecocentric, soul-based one that is sustainable, cooperative, and compassionate. At once a primer on human development and a manifesto for change, *Nature and the Human Soul* fashions a template for a more mature, fulfilling, and purposeful life — and a better world.

The Mirror of Pharos Sep 09 2020 An action-packed, high concept, time-travelling adventure. Full of animal magic and with an epic wolf character. Linked to a website with 'Meet the Character' profiles, book excerpt and background stories. Jack Tidswell's parents died in a tragic diving accident while exploring the underwater ruins of the Pharos lighthouse in Egypt. So Jack wants nothing to do with adventure. Until, that is, a seagull delivers a strange disc – addressed to him in his own handwriting – and he's catapulted briefly into another time. In the blink of an eye, all kinds of magic are let loose, and Jack finds himself aboard an ocean liner in the throes of a Titanic-like disaster. It all links back to Pharos, the seventh wonder of the world. An ancient power needs to be restored. Can Jack learn to navigate time before it's too late to save the one person who can help him unravel the secrets of the disc? Whether he likes it or not, there's no more hiding away. And no looking back. Especially when Alpha is watching. A wolf who sees all there is to see... For readers aged 10 plus, *The Mirror of Pharos* is a contemporary fantasy with the inventiveness of Philip Reeve's sci-fi, the excitement of J.K. Rowling's plots and the timeless quality of a Philippa Pearce classic. 'A wonderful mix of magic and reality that reminds me of the early books in the Harry Potter series.' *The Bookbag*

The Celts Feb 24 2022 Introduces the archeology, art history, folklore, history, linguistics, literature, music, and mythology of the Celts and examines the global influence of their legacy. The content is accessible without being simplistic. Unlike other texts in the field, this set celebrates all of the cultures associated with Celtic languages at all periods, providing for a richer and more comprehensive examination of the to.

Psychology of the Spirit Sep 21 2021 While not all aspects of Carl Gustav Jung's work have aged well, many of his ideas remain consistent with current concepts in behavioral psychology and neuroscience. *Psychology of the Spirit* reviews the lasting effects of Jung's work and how it integrates with modern neuroscience, cognitive and behavioral studies, and Christian theology. It combines the mystical insights developed by Eastern Orthodox Christian theology with Jung's vision of the psyche and the concept of the collective unconscious and its archetypes. Though written as a contribution to the field of psychology and as a tool for clinical practice, it is also accessible to lay readers interested in the relationship between the mind and the brain...

Methodist Review Dec 13 2020

Jacob Wackernagel, *Lectures on Syntax* Jul 20 2021 This book is an English version of two series of highly acclaimed introductory lectures given by the great Swiss linguist and classical philologist Jacob Wackernagel (1853-1938) at the University of Basle in 1918-19 on aspects of Greek, Latin, and German as languages. Out of print in German since 1996, these lectures remain the best available introduction, in any language, not only to Greek, Latin, and comparative syntax but also to many topics in the history and pre-history of Greek and Latin, and their relations with other languages. Other subjects, such as the history of grammatical terminology, are also brilliantly dealt with. This new edition supplements the German original by providing a translation of all quotations and examples, a large number of detailed footnotes offering background information and suggestions for further reading, and a single bibliography which brings together Wackernagel's references and those added in the notes.

Jacob Wackernagel, *Lectures on Syntax* Aug 21 2021 This comprehensively annotated English edition of two series of lectures by the linguist and classical philologist Jacob Wackernagel offers an introduction not only to Greek, Latin, and comparative syntax but also to many topics in the history and pre-history of Greek and Latin, and their relations with other languages.

The Tragedy of Gia Jan 02 2020 An angel falls from heaven, to the desolate planet purgatory. This angel, named Gia must defeat the four "Kings of Purgatory" to release souls wrongfully imprisoned there, and to free himself. The kings are not the only things Gia has to fear in the dark, deep caves below the terrible planet's surface. A Tragic tale of Action, brotherhood, hope, and the strength of human will depicts the first book in the "Story of Gia" storyline.

Broken Worlds Mar 16 2021 The world breaks everyone, and afterward, some are strong at the broken places... In a future of bleakness and roboticism, a totalitarian government enforces upon the people a lifestyle that lulls them into a state of obedience. Your career and social status are predestined and you cannot alter it - this is a reality that walks a fine line between evoking sensations of fear and inducing a sense of futility. A dystopian reality can sometimes turn out to be as powerful and strong as it can be fragile, collapsing in on itself from one second to the next. As a race, we are fascinated with what comes next, what's over the hill and, inevitably, what happens if we're left all alone. How can things go on? What lessons can we learn?

Broken Worlds takes a peep into an all too possible future. Narration and style change from story to story, but the core of this volume is human emotion. Coloured by their cultures and backgrounds, the storytellers featured in this volume take the idea of a society at extremes and weave a variety of outcomes. We invite you to read and hope you enjoy this collection. *The Sad Man* by Thomas Brown (competition winner) From the fifth-floor window of his inner-city flat, a man keeps watch for his friend, the Sad Man. Pioneer by Joe Saxon Lidia lives in the waterworks, always hungry, until she receives a message from the supervisors of the upper floors. *The Insects* by Gavin Bryce Thia is a city with millions of electronic eyes. On his retirement day, Roman Huxley has planned a special retirement present for the entire megacity. Screens by Alix Owen A story inspired by the advent of Google Glass; when one young man contracts a biomechanical disease, he is forced to see what the world has become while everybody else was social networking. *Machinations* by Shira Hereld A marriage is slowly falling apart as both partners become more and more reliant on mechanical Andros for everything from housework to intimacy. *The Architect* by Gavin Haran A local obituarist tracks the sinister transformation of his town through the introduction of mysterious architectural constructions with unexpected consequences *The Deepening Well* by Sam Hurcom Can a state of mind be considered dystopian - how would the end of history affect the last surviving individual? *3AM Job* by Mark Schultz On a future Earth, where absolute free market capitalism controls the globe, a freelance butcher accepts an early morning job which turns out to be far more profitable than it seems at first glance. *The Farm* by George Vernon A farmer and his family are threatened by their rebellious herd. Also in the collection... *Vision of Paradise* by Clare Banks *The Last CanvaS* by Paul Dawson *The Leadership Gene* by Francis Beckett *Watch* by Miles Gatrell *Water Rats* by Terry Holland *The Rebel's Daughter* by Virginia Ballesty *Meat is Murder* by David Turnbull *Equity Lamp* by Adam "Bucho" Rodenburger *Dreg Town* by Steph Minns *It was the Best of Times* by Konstantine Paradias *Carved in Ice* by Doxa J. Zannou *Silva's Plague* by Ian Green *Urbanova* by Christian Cook *Cover art*, *Broken Worlds* by Daniel Tyka

Norwegian Runes and Runic Inscriptions Jun 18 2021 An accessible account of Norwegian runic inscriptions from their first appearance around AD200 until their demise around 1400.

ElderSpeak Jun 30 2022 There are many words relating to old age, aging, and the elderly, and this compendium of words seeks to help you understand almost two thousand of them. Most of these words are unusual, rare, obsolete, archaic, wonderful, marvelous, arcane, and even preposterous. All of them apply to the aged, a group that makes up an increasing portion of the population—particularly in the United States, Europe, and Japan. Here are just a few of the interesting words you'll learn: • *Cenotaph*: a monument erected as a memorial to a dead person or dead people buried elsewhere, especially those killed fighting a war • *Lethonomia*: a tendency to forget, or inability to recall, names • *Oligoria*: disinterest in former friends or hobbies Listed alphabetically with pronunciation keys, the words are categorized under forty-eight headings. For example, in the "end-of-life" category, you'll find the word *feuillemorte*, which is the wan, yellow color of death. Under "retirement," you'll find *ecesis*, which is the acclimatization to retirement, and *Opagefaengris*, a prison for retired male criminals in Singen, Germany. Boost your vocabulary, indulge in a love of language, and improve the way you communicate with seniors and medical professionals. It starts with learning *ElderSpeak*.

Dictionary of Quotations from Ancient and Modern, English and Foreign Sources Sep 02 2022 This dictionary results from the titanic work by Rev. James Wood who collected quotations from ancient and modern English and foreign sources and put them in alphabetic order. The dictionary contains phrases, mottoes, maxims, proverbs, definitions, aphorisms, and sayings of different prominent people.

The law lexicon; or dictionary of jurisprudence, etc May 18 2021

The American Heritage Dictionary of Indo-European Roots Apr 28 2022 Discusses the nature, origins, and development of language and lists the meanings and associated word for more than thirteen thousand Indo-European root words.

Tracking the White Rabbit Oct 30 2019 Since its beginning, depth psychology has attempted to change the status quo of individual and cultural life by probing beneath surface appearances. Lyn Cowan explores a number of subjects, considering what possible meanings and implications for change might lie behind the conventional attitudes toward such subjects as: * *Abortion* * *Gender and sexuality* * *Language* * *Memory* * *Melancholy* The author puts forward the argument that, although "psychology" and "subversion" are not usually thought of as belonging together, they should be. Such a view, presented clearly with humour and insight, offers a way to think differently about usual things, and yield fresh meaning to some of the pressing dilemmas of our time and how we as individuals may respond to them.
