Lloyd's Register of Shipping 1823 Shipowners Nov 24 2021

The Lloyd's Register of Ships records the details of merchant vessels over 100 gross tonnes, which are self propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Monthly Labor Review Apr 29 2022 Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

Recent Trends in Thermal Engineering Feb 13 2021 This book presents select proceedings of the 3rd International Conference on Computational and Experimental Methods in Mechanical Engineering (ICCEMME 2021). It gives an overview of recent developments in the field of fluid dynamics and thermal engineering. Topics covered include case studies in thermal engineering, combustion engines, computational fluid dynamics (cfd), cooling systems, energy conservation, energy conversion, renewable energy, bio fuels, gas turbines, heat exchangers and heat transfer systems, heat pipes and pumps, heat transfer augmentation, refrigeration and HVAC systems, fluids

Bioenergy Research: Integrative Solution for Existing Roadblock

Feb 02 2020 This volume is fifth part of the five-part set on bioenergy research. This edited volume provides sustainable solution for all existing roadblocks in commercial bioenergy production. The book focuses on different types of obstacles involved in various bioenergy operations with detail remedy of the issue in a sustainable way. In spite of having number of potential advantages, all available bioenergy options are still far from smooth practical applicability, due to which they are still in pipeline phase to replace the fossil fuels. This book brings together the integrative approach to the readers, to connect with more viable bioenergy type on commercial scale, the existing issues and the feasible approaches to eliminate the bottlenecks in the process. Further, the book also uncovers the untouched area of bioenergy production technology by bringing forth unconventional methods, processes and parameters, which have scope to enhance biofuel production technology by "Lab to Land" methods. The book highlights aspect which are less studied or are very new in their industrial application of bioenergy production.

~~The book presents relevant reading material for global~~
