Momo has a problem of his own and it involves getting ready for his bedtime routine. Marty placed his fear of monsters behind him and helped Momo by sharing the entertaining side of bedtime. Vegan and vegetarian restaurants in Tokyo, and across the rest of Japan, may first appear to be few and far between, but in fact, Japan has a long history of plant-based cuisine. Japanese traditionally eat a highly vegetable-centric diet. Organic, pesticide and fertilizer-free fruits and vegetables that are farmed with care, are at the heart of each restaurant's menus. Combined with fermented foods that have been passed down from generation to generation, make for a uniquely Japanese approach to plant-based cookery. Because Japan is a hyper-seasonal country, the earth's bounty evolves in accords to the poetry that is the traditional Japanese microseasonal calendar. Through PLANT-BASED TOKYO, Tokyoites as well as visitors, can be sure to find delicious, quality, thoughtful food, that most anyone can enjoy without hesitation or concern. A few of Rice Girl's favorite greengrocers and farmers markets are also noted, for those who are interested in cooking at home, or picking up gifts for friends.
