**Intro to Alien Invasion** Aug 22 2021 In this wildly entertaining collaboration, novelists Owen King and Mark Jude Poirier team up with illustrator Nancy Ahn to present a wickedly funny graphic novel about an alien invasion on a college campus. Stacey, a brilliant, overachieving astrobiology major at Fenton College, had planned on just another lonely Spring Break on campus. But when a hurricane batters the small college town, downing power lines and knocking out cell phone reception, Stacey and her friends are stranded with no way to communicate with the outside world at the worst possible moment: in the midst of an alien invasion. As space insects begin to burrow into students and staff, transforming them into slobbering, babbling monsters, a conglomeration of misfits must band together to prevent the infestation from spreading. Meanwhile, Stacey's long-stifled romantic feelings for her friend Charlotte begin to surface, while the professor she had admired and respected becomes the students' worst enemy. Illustrated with enormous wit and dynamism—mixing classic tropes from science fiction, indie comics, B-movies, and campus culture—this graphic novel is something different, a large-scale action/adventure story as seen from the point-of-view of a contemporary, realistic heroine. The result is a funny and singular work unlike anything else you've ever read.

**Vacation from Hell** Feb 13 2021 A bad day off is better than a good day at work. At least that's what Seth thought until his dream vacation of visiting a civil war battleground came to life. Unfortunately, the dead soldiers that had been lying in peace had a hundred-year hunger to feed. Follow Seth and his family to see if they can escape the dead.

**The War of the Worlds** Apr 17 2021 When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

**Her Alias** Oct 04 2022 Would you abandon your husband and daughter to live with your enemy, if it kept your loved ones safe? Not that she had much choice, since Jem threatened to kill her if she refused. But living in the house of the most powerful alien in the City meant her death too, if he ever discovered her true identity. In spite of the constant edge of her existence, she enjoys tremendous luxury living with High Commissioner A'den. She is able to keep Jem at bay, and her husband and daughter safe. Until it all goes horribly wrong.

**The Alien Invasion** Dec 02 2019 This book, written by W.H. Wilkins, is about immigration in Great Britain and efforts to restrict it.

**Alien Invasion** Nov 24 2021 Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! Solo\_Lobo is a gamer who prefers to play by himself. But then he winds up in a virtual game set aboard an alien space station with a know-it-all robot named Spec. Spec is supposed to help him find the rest of his crewmates who've also been captured by the aliens. Seems like a piece of cake until Solo\_Lobo learns the catch: he can't be seen by the aliens or he'll risk getting caught in their disassembler eye beams, which will send him right back to Level 1. Can he rescue his crew in time to win the game? And is there more to Spec than what she seems?

**Alien Invasion** Apr 29 2022 The ultimate survival guide for the ultimate attack – written by two top scientists who know their subject inside and out! An amazing journey through what we do – and do not – know about how to defend ourselves before, during and after an alien invasion from space. What if there really are aliens and they do attack? Read what two scientists reveal in this “how-to” survival manual for the space age. Alien invasion. Unlikely? As unlikely as Pearl Harbor? The extinction of the dinosaurs? A meteor strike that levels whole forests in Siberia? You get the drift. Some events produce such a massive setback to life, the Earth and to humanity that we must understand and prepare for them, even if the chances are low that they'll come about. In fact, it will be criminal and abrogation of our duty to future generations if we do not get ready! But where to begin? Drs. Travis S. Taylor and Bob Boan have the answers. Both are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with both the Department of Defense and NASA. These are intellectual heavyweights who have a clear idea of the possibilities of alien contact, the calculations of whether or not that contact will be friendly...and what to do if it's not. An amazing journey through what we do – and do not – know about how to defend ourselves from space. Sure, that day may never come in our lifetimes – but everyone should have a copy of this lying around JUST IN CASE. Heck, better yet, why not commit a few of these scientists solutions to memory! Just in case. About Travis S. Taylor's ground-breaking popular fiction: "...explodes with inventive action...dazzling, cutting edge scientific possibilities..." – Publishers Weekly About Alien Invasion: "In a business that strictly separates technology and conjecture, this is a well considered, very comprehensive work. United States Space is a serious business, but what IF there is an external threat?" – Dr Byron Knight, NRO Chief Scientist, MASINT "...the definitive book on the defense of earth against a potential alien incursion...the book also serves as an important primer on the potential future of warfare on every level. It is tightly threaded in current day realities of war and extrapolates thoughtfully but closely about future potentials. It should be on the reading list of anyone who is serious about national security and the future of war." — John Ringo, New York Times best-selling author of military SF "It looks like the time has come to take a serious look at planetary defense from all aspects. This book introduces the subject in a way to stir thoughtful and intelligent debate. Hats off to the authors." — Gerald B. Helman, former US Ambassador to the UN Geneva and Undersecretary of State for Political Affairs

**My Alien Invasion** Sep 22 2021 "My Alien Invasion" is the story of a female who finds love in the most unexpected place. She has to deal with being ostracized by her own race for her choice. **The Alien Invasion Survival Handbook** Jan 03 2020 Resistance is Your Prime Directive Have you ever experienced a sensation of missing time? Have you ever found a metallic implant somewhere in your body? It's likely that you're a victim of alien abduction, and you don't even know it. Aliens are among us. While the true intentions of these mysterious intruders from outer space are unknown, there's no doubt that their actions are nefarious. It's your right - your civic responsibility - to learn the skills necessary to protect yourself, your loved ones and ultimately your planet. Aliens want to whisk you away in the night to perform terrifying experiments on you. Isn't it time you learn how to use your MP3 player to defend yourself from their paralyzing powers? Shouldn't you know how to evade the pursuit of a flying saucer? Wouldn't you sleep better at night knowing some proven hand-to-hand combat techniques guaranteed to stop your extraterrestrial foe in its tracks? Make no mistake - our world is under attack and this handbook may be the only thing standing between the human race and total annihilation. Read it and join the resistance.

**The Counterstrike** Sep 03 2022 Earth is dying... Cities and landscapes that have not yet been destroyed by crashed spaceships and orbiting debris are being devastated by radiation and localized changes in the laws of physics near the alien ship remnants. While extraterrestrial spaceships divide and exploit the solar system among themselves, Europe desperately tries to preserve it's chances of survival for the remnants of humanity. They have a pawn in hand that they must play. When they finally do, an opportunity opens up that humanity must immediately seize... but at what cost? Book 2 in Bestseller Joshua T. Calvert's next Science Fiction epic. A story of survival, invasion, and war that's perfect for fans of Jay Allan, Joshua Dalzelle, and S.M. Anderson.

**Base Zero** Jun 27 2019 SAM When the monsters came, I lost all hope. None of us expected we would get help. That we would be saved... And that help would come from a most unlikely source. The Vullan are huge. Scary. They look like demons...yet, they saved us. They saved me. But the fight isn't over yet. We're still being invaded. Destroyed. I have to focus on surviving and helping the Vullan save my planet...my race. There is no space for any other thoughts. So why do the eyes of a certain demon catch my gaze? And why doesn't his attention make me want to flee? GA'VAR The little female is tenacious but that does not erase that fact that she is...little. Smaller than the others. There is no room for bonding. That alone should dissuade me. Yet, she draws my attention. And when she sticks out that tiny pink tongue of hers right at me, I know I cannot stop the wheels she set in motion. Whether she likes it or not, I want her even if I must not have her. When the scourge that has invaded her planet come to get her, my decision is easy. They will not take what is mine. \*\*\* Base Zero is a full-length apocalyptic sci-fi alien invasion romance featuring a resourceful heroine and a badass alien hero who will destroy everything in his path to protect what is his. There are triggers in this story: graphic scenes involving violence and death, dark themes, and scenes of a sexual nature. Contains forced proximity and aliens with interesting tools. This book/series is not for the easily offended.

**Faith and the Fighter** Oct 24 2021 A rogue spaceship captain. A human scientist. An explosive attraction. Faith has spent the past eight years as a scientist locked in an alien research lab. When she finally manages to escape and finds out what the aliens are doing with her work, she is appalled and determined to stop their plans. The alien spaceship captain who unknowingly assisted her escape is going to help her shut down the lab - whether he wants to or not. And she's not going to let his massive body or the kind heart hidden behind his gruff facade distract her. Captain Athtar finally has his life exactly the way he wants it - he has his ship, his crew, and his freedom. No mouthy little human is going to interfere with any of that, no matter how much she tempts him or how much his instincts demand that he claim her. If only he weren't as tempted as much by her brilliant mind as by her luscious body. Can Faith and Athtar fight their overwhelming attraction long enough to defeat the elite scientists and stay ahead of the Imperial Fleet? And when the battle is over, can there be a future for the two of them? Each book in the Alien Abduction series features a different couple and can be enjoyed as a standalone romance. Intended for mature readers.

**Can You Survive an Alien Invasion?** Jul 21 2021 "A You Choose adventure about surviving an alien invasion!"-

**Alien Invasion Short Stories** Jun 19 2021 New authors and collections. Visitors from other planets have long obsessed us. H.G. Wells' War of Worlds spawned a huge wave of speculative fiction but the roots of such fears run deep in our literature, where the mysteries of other cultures have long threatened the familiar and the comfortable. Did aliens build the ancient pyramids? do they live amongst us today? what happens when they invade? And are they just the people from the next valley? or country? or planet? Would it be an inevitable act of aggression, one of assistance and care, or simply a reminder of our paltry existence in a crowded universe? Flame Tree's successful Gothic Fantasy series brings a brilliant new mix of classic and new writing, in this beautiful edition. These new authors appear alongside the following classic and essential writers: George Tomkyns Chesney, George Allan England, Austin Hall, H.P. Lovecraft, A. Merritt, Robert Potter, Garrett P. Serviss, Jonathan Swift, Voltaire, H.G. Wells; along with text from The Taking of Ireland (retold tales from The Book of Invasions).

**Judgment** Aug 29 2019 Continue the journey with the fifth book in the blockbuster Alien Invasion series; the breakout sci-fi series with over 1000 5-star reviews. THEY KNOW WHAT WE'VE DONE... Cameron Bamister and his group of survivors have endured the fall of their great city, gone searching for what they once believed to be a weapon ... but found to be something else entirely. It's something that will decide the fate of all humanity — innocent or guilty — if Cameron can summon the will to start the doomsday clock ticking. Accompanied by a strange wanderer with a hidden past, they must confront the judgment archive at its new location in the “capital of capitals”, Embat Flats, on the former site of Giza, beyond the infamously unpassable wasteland known as Hell's Corridor. But when they arrive, all is not as it seems ... and the victory, along with the secret society hiding within her government, is keeping secrets that keep the city calm — while unrest boils beneath its skin.

When a double-cross threatens the group's center, only a risky plan might save the species before judgment comes ... or bring the walls crashing down as the epoch ends in extinction. ★★★★★ “Platt and Truant take the alien invasion theme, mix in the ancient astronaut theme, add some religion and metaphysics and stir. If you choose to begin reading, hold on to your hat. What comes out is full of unexpected twists and turns that leaves the reader hanging on and asking for more.” — Farnboy ★★★★★ “I had a very hard time putting this book down. It takes a left turn when I was expecting a right, and I am really mad at the authors because of all the sleep I lost staying up way too late to read “just one more” chapter. You need to read this series.” — Ken Rodgers ★★★★★ “I just couldn't put these books down! Talk about a head trip! Cameron Bamister and his group of survivors have endured the fall of their great city, gone searching for what they once believed to be a weapon ... but found to be something else entirely. It's something that will decide the fate of all humanity — innocent or guilty — if Cameron can summon the will to start the doomsday clock ticking.” — C. A. Brekke (nee Isabella) ★★★★★ “Judgment is entertaining, surprising, and occasionally even enlightening as questions about humanity's sense of self, sense of purpose, and collective consciousness are visited throughout the novel. I love great literature, I love poetry, and I love a good, solid, fun ride through a sci-fi/fantasy tale that prods me to open my mind a little further to consider some unfamiliar possibilities. Platt and Truant have managed to create just such romp!” — Marcia ★★★★★ “It's a teeth grinding, grab you by the seat of your pants gripping book. Have no doubts, it will be hard to put down and it will grab onto you until the end where you will be saying “Damn! Now I've got to get book 6 to finish what I started and find out what happens next!” — Vicki W. This relentless, page-turning tale of colonization and alien empire is the fifth in the completed Alien Invasion series.

**Landscape with Invisible Hand** Dec 14 2020 National Book Award winner M. T. Anderson returns to future Earth in a sharply wrought satire of art and truth in the midst of colonization. When the vuvv first landed, it came as a surprise to aspiring artist Adam and the rest of planet Earth — but not necessarily an unwelcome one. Can it really be called an invasion when the vuvv generously offered free advanced technology and cures for every illness imaginable? As it turns out, yes. With his parents' jobs replaced by alien tech and no money for food, clean water, or the vuvv's miraculous medicine, Adam and his girlfriend, Chloe, have to get creative to survive. And since the vuvv care anything they deem classic Earth culture (doo-wop music, still life paintings of fruit, true love), recording 1950s-style dates for the vuvv to watch in a pay-per-minute format seems like a brilliant idea. But it's hard for Adam and Chloe to sell true love when they hate each other with every passing episode. Soon love, Adam must decide how far he's willing to go — and what he's willing to sacrifice — to give the vuvv what they want.

**Alien - Invasion** Dec 26 2021 For centuries Weyland-Yutani has tried to weaponize the aliens. Now someone has beaten them to it, sweeping through Yautja space and turning predator into prey. Faced with the overwhelming forces of the Rage, Earth envoys forge an unprecedented alliance with the Predators. Yet even the combined might of two races may not be enough to stop the carnage, as an unstoppable swarm of Xenomorphs topples planet after planet, penetrating ever deeper into the Human Sphere.

**Alien Invasion and Other Inconveniences** May 19 2021 A polite race of telepathic killer aliens, a ten-second world conquest, and one teenage boy collide in this wry, gutsy adventure. (Ages 14 and up) Jesse is in history class when a formidable, efficient race of aliens quietly takes over the earth in less time than it takes him to brush his teeth. Most humans simply fall asleep and never wake up. In moments, everyone Jesse knows and loves is gone, and he finds that he is now a slave to an inept alien leader. On the bright side, Jesse discovers he's developing telepathic powers, and he's not the only one. Soon he's forging new friendships and feeling unexpectedly hopeful. When a mysterious girl appears in his dreams, talking about escaping, Jesse begins to think the aliens may not be invincible after all. But if Jesse and his friends succeed, is there anywhere left to go? Brian Yansky offers a funny, grim novel packed with everything boys and sci-fi fans love: aliens, humor, action, and a healthy dose of triumph.

**How to Draw and Save Your Planet from Alien Invasion!** Mar 17 2021 This humorous guide uses a cartoonish style and clever captions to show kids how to draw—and defend Earth from intergalactic invaders. Simple, step-by-step instructions help aspiring artists use basic shapes and their own imaginations to create a host of alien creatures, flying saucers, and evil robots, as well as heroes who will help save the planet.

**Captured: a Sci-Fi Alien Invasion Romance** Oct 12 2020 She's everything I shouldn't want. I capture her anyway. What humans call an invasion we call Garrison Earth: a mission to save our species from extinction. But while my warriors will soon have the stomachs of their new mates swell with daughters, I know this planet holds nothing for me. Until a fierce, red-haired female points her gun with her eyes blazing fire, and I know I have found my mate. A bullet and a tranquilizer pad later, I carry her in my arms. With my better judgment. But who argues fate? With a mission at the brink of failure, I have no time to wait around until Eden is willing to bond. I took her freedom. Might have taken her family. Taking her body is my obligation. I am a male without conscience. Incapable of love. No one has ever pierced my cold heart. No one ever will. Not even her. Captured is the first book in this interconnected romance series, following the Vetusian invasion and how it changes Earth over the course of two decades. If you enjoy strong women, devoted aliens, fated mates, and hard-earned happily ever after's with no cliffhangers, you'll love Garrison Earth. Author Note: The entire Garrison Earth series touches on subjects such as captivity, drug abuse, forced prostitution, loss of loved ones, human trafficking, rough handling, and violence. Any reader uncomfortable with the harsh realities of an alien invasion should please consider before purchase.

**Contact** Feb 02 2020 Continue the journey with Book 2 of the blockbuster Alien Invasion series, the breakout sci-fi series with over 1000 5-star reviews. FIND THE MISSING. FEAR THE FOUND... Three months have passed since the space fleet's arrival, but very little has changed in the skies above planet Earth. Motherships still hover without word, impervious to attack and communication. Spherical shuttles still ferry about, their intentions unclear. But the abductions of select humans have ended, and most of those taken have been returned — dazed, incoherent, and prophesying glory or doom — but back home where they belong. All but nine. Worldwide, only nine seemingly unconnected people remain missing. Trapped in their besieged bunker outside Vail, Piper, Trevor, Lila, and Heather wait for one of them. All of this has happened before... For his entire life, Benjamin Bannister has sought the connections that unite the planet's wonders: Egypt's pyramids and Stonehenge, the Band of Holes in Peru and the Cambay Ruins. For years he's pursued evidence that extraterrestrial life is not new to Earth, but has left its footprints in the archeological records over and over again. For years, he was dismissed as a fool. But now the spheres have arrived and Benjamin has found his vindication... along with troubling theories as to what it all means. Benjamin's research facility rests on a paranormal hotspot in Moab, Utah — but Vail, Colorado is where his interests lie. He's sent an emissary to Meyer Dempsey's ranch to find the answer to a question: What makes the Missing Nine so special to the planet's silent invaders? What news will those Nine bring when they return? And what, as the motherships again begin to move like pieces finding positions on a chessboard, will happen next? ...and it will all happen again. Vail and Moab, Moab and Vail — two epicenters in the cold alien war. The locations' fates (and the fates of those bunkered at each) seem somehow intertwined as Earth's clock ticks toward midnight. The roads and communications have been closed, but now it seems that the planet's future might depend on a journey from one to the other at all costs. Humanity must find the value of those who have been taken... or become mere fossil evidence for the archaeologists of the future to puzzle over. ★★★★★ "I am addicted to the characters and plot of this sci-fi series! I just can't seem to put my book down always looking for "what's next"." — BoxerMom ★★★★★ "This has got to be made into a movie! I can already see in my mind who would play the characters. Movie, Movie, Movie this would be a box office smash hit for sure!" — Randbubba ★★★★★ "This series has absolutely been one of my favorites... I truly love the pull of our past into our current/future in this story." — jesdenm ★★★★★ "I could barely contain myself as I waited impatiently for 'Contact' to hit stands. It's here! WOOT! Anyway, totally worth the wait. 'Contact' begins with a "BANG!" and immediately starts into the mind-bending twists and turns I love so much from Realm & Sands. I LOVED IT!" — Adam Bailey ★★★★★ "Holy Cr\*p I was riveted until the last page... How these guys manage to take an idea as old as sci-fi itself and make it fresh, compelling, and something you can't put down is beyond me. All I know is they do it every time in every series for me." — JoniJ This relentless, page-turning tale of first contact is the second book in the completed Alien Invasion series.

**Invasion** Jan 15 2021 Start the first book in the blockbuster Invasion series; the breakout sci-fi series with over 1000 5-star reviews. THEY ARE COMING. THE COUNTDOWN HAS BEGUN... The discovery of objects approaching from Jupiter's orbit sets humanity on edge, sending cities into panic. Most is unknown, but thanks to the popular Astral space app, everyone knows the few facts the government has tried to hide: The objects are enormous spheres numbering in the dozens, maybe hundreds. They are on an approach vector toward Earth... and they will arrive in six days. Entrepreneur Meyer Dempsey is in New York, realizing the time has come to act on all the preparations he's made without ever consciously knowing why. For years Meyer has been preoccupied with a dreamlike sense of coming peril and knows where he must take his family... if that is, they can make it before society eats itself alive with fear. The end is only beginning... ★★★★★ "This is a real page-turner. The action is fast paced, with lots of twists and turns. It's very hard to put down, and I'm pretty much exhausted from staying up every night until the wee hours of the morning." — DBStevens ★★★★★ "I stayed up late Christmas Eve reading this book; I finished it Christmas morning. I hadn't planned on doing that. It just sort of happened. Why? The reason's simple: I couldn't put it down." — Terrance A. Crow ★★★★★ "Invasion fully deserves its five stars for its thoughtful and grounded portrayal of life and love under duress. The authors integrated a great deal of prepper culture into the story, and every detail was carefully considered." — Steven Pratt ★★★★★ "This is clearly the beginning of a huge series, and should be read as such...if you don't have the patience to watch a complex tapestry of events unfold over several books, you probably don't want to start this story. If, on the other hand, you LOVE big sci-fi stories with multiple threads and more than one mystery...you'll love Invasion." — B. Johnson ★★★★★ "The tension and suspense is top-notch and kept me reading far into the night. These guys know how to write a thriller. I'm telling you. This is probably the best thriller I've read all year. I would pick this book over anything written by Stephen King or Dean Koonz, no question." — Mark Messick This relentless, page-turning tale of first contact is the first book in the completed Alien Invasion series.

**Alien Reptiles and Amphibians** Sep 30 2019 Transportation of species to areas outside their native ranges has been a feature of human culture for millennia. During this time such activities have largely been viewed as beneficial or inconsequential. However, it has become increasingly clear that human-caused introductions of alien biota are an ecological disruption whose consequences rival those of better-known insults like chemical pollution, habitat loss, and climate change. Indeed, the irreversible nature of most alien-species introductions makes them less prone to correction than many other ecological problems. Current reshuffling of species ranges is so great that the present era has been referred to by some as the "Homogocene" in an effort to reflect the unique magnitude of the changes being made. These alien interlopers often cause considerable ecological and economic damage where introduced. Species extinctions, food-web disruptions, community alterations, ecosystem conversion, changes in nutrient cycling, fisheries collapse, watershed degradation, agricultural loss, building damage, and disease epidemics are among the destructive — and frequently unpredictable — ecological and economic effects that invasive alien species can inflict. The magnitude of these damages continues to grow, with virtually all environments heavily used by humans now dominated by alien species and many "natural" areas becoming increasingly prone to alien invasion as well. Attention to this problem has increased in the past decade or so, and efforts to prevent or limit further harm are gaining wider scientific and political acceptance.

**Alien Invasion! Mazes** Jul 01 2022 Who knew that being invaded by aliens could be so much fun? Kids can help wacky extraterrestrials find the United Nations, capture a runaway brain, and more. 33 mazes plus solutions.

**Colonization** Jul 09 2020 HUMANITY ISN'T ALL THEY LEFT BEHIND. Two years later, the world lives in fragile peace. But a clandestine search has begun... and a clock has started ticking. Two years after first contact, Astral forces have established their fragile kingdom around the globe. Motherships occupy the cities. Shuttles patrol the lawless outlands. The pacifist class of Astrals known as Titans assist humans in running their alien empire, while bloodthirsty Reptar peacekeepers ensure that order is kept. And unseen in the ships above, a third class of visitor calls the shots—the unseen Divinity, worshipped and feared by citizens in equal measure. Meyer Dempsey sits on his plinth as Viceroy of Heaven's Veil, on the old site of Vail, Colorado. As with other Viceroy's in the eight other world capitals, humanity's remains reverent Meyer almost as a god. But below the surface, both colonies and outlands have begun to crumble with unrest. Until now, the rebellion has been quiet. Now, desperation bubbles as they learn the Astrals have begun digging for an ancient device buried beneath the glowing blue Apex at Heaven's Veil. But twin truths of the forthcoming alien war (or a possible alien apocalypse) have dawned at Benjamin Bannister's facility in Moab, sending plans into action: The Astrals have lost what they hoped to uncover. And humanity's only chance is to find it first. This relentless, page-turning tale of colonization and alien empire is the third in the Alien Invasion series by masters of story Truant and Platt, authors of The Beam, Robot Proletariat, the Dream Engine series, and many more.

**Invasion** Nov 05 2022 First visible only as blips on a telescope image, the discovery of objects approaching from Jupiter sets humanity on edge.

Prepare for 1,700+ pages of rip-roaring sci-fi shenanigans... "Extremely entertaining!!" "This author KNOWS HOW TO WRITE AN ADVENTURE STORY!!!" "Suspenseful, funny, and compelling." "Sci-fi, dystopia, vampires, Star Wars references, and style. It has it all." In a world devastated by alien invasion, Jarek and Rachel were never paragons of heroism. They survived, same as anyone else. They protected what was dear—Jarek with his exosuit and beloved AI companion, Rachel with her brother. They kept things simple... until the raknoth came and took it all away. Now, Jarek and Rachel will stop at nothing to protect what's theirs, even if it means swallowing their pride and working together to survive. Because it turns out the raknoth are only the beginning of the bad news for Mother Earth... What do a smart-mouthed sword-slinger and a surly arcanist have in common? Neither of them signed up for this crap. But together, they might just be strong enough to finish it. Assuming they don't kill each other first... Are you ready to suit up and save the world? Grab the COMPLETE 8-Story Collection today, and prepare for a high-octane sci-fi romp you won't forget! Included in this set: Soldier of Charity (Jarek's prequel) - Cursed Blood (Rachel's prequel; exclusive to this collection) - Red Gambit (Harvesters Book 1) - Hell to Pay (Harvesters Book 2) - Reaping Day (Harvesters Book 3) - Retribution (Harvesters Book 4) - Plus 2 more exclusive new Harvesters short stories: Scorched Earth, and Jarek Slater and the Ballad of the Broken Glass Kids

**Invasion: The Complete Series** Jan 27 2022 For the first time get the complete collection of all 7 books of the blockbuster Alien Invasion series; the breakout sci-fi series with over 1000 5-star reviews! THEY ARE COMING. THE COUNTDOWN HAS BEGUN... The discovery of objects approaching from Jupiter orbit sets humanity on edge, sending cities into panic. Most is unknown, but thanks to the popular Astral space app, everyone knows the few facts the government has tried to hide: The objects are enormous spheres numbering in the dozens, maybe hundreds. They are on an approach vector toward Earth... and they will arrive in six days. Entrepreneur Meyer Dempsey is in New York, realizing the time has come to act on all the preparations he's made without ever consciously knowing why. For years Meyer has been preoccupied with a dreamlike sense of coming peril and knows where he must take his family... if, that is, they can make it before society eats itself alive with fear. This relentless, page-turning tale of apocalyptic dawn is the complete collection of the seven books that make up the completed Alien Invasion series.
