Geriatric Neurology

Aug 14 2021 Aging affects neurological function leading to neurological disease As society grows older, so do the neurological problems associated with aging. These can be new neurological deficits due to the aging process itself, or the effect of aging on already existing neurological conditions. Neurologists will spend increasing amounts of time managing patients with age-related neurological complications.

Oct 04 2020 after heated and often bitter debates, SIEBENMANN'S opinion finally prevailed, i. e. , a contribution to cochlear lesions due to vibrations of the floor transmitted via bone conduction could not be demonstrated. For one thing, it was hard to see how appreciable amounts of energy could reach the ears in this manner, considering the attenuation that is bound to occur across each of the many joints along

the pathway involved. In some older audiological surveys conducted in industry (e. g. , TEMKIN, 1933), groups of workmen were found who displayed signs of apical-turn lesions, i. e. , low-tone hearing losses for air and for bone. Such lesions could not be expected to results from exposure to airborne sounds because of the low-frequency attenuation of the middle ear. Although WITTMACK'S explanation, which was frequently invoked in such reports, does no longer appear tenable, such apical-turn lesions could conceivably be caused by bone conduction

high-intensity noise in the sense of BEKESY (1948). - As far as I am aware of, no newer studies have been conducted in this problem area, and the older experiments and/or surveys were done at times before signal parameters could be precisely controlled or measured. A detailed, critical review of the older studies on the potential contribution of bone-conducted energy to industrial hearing loss and its underlying pathology may be found in Werner (1940) who, incidently, favored SIEBENMANN'S point of View.

Dec 18 2021 This study describes data that was gathered in 2004 from fieldwork conducted by students from four schools in Singapore, around tasks of wayfinding and debate. The fieldwork tasks were designed specifically to permit participants to exercise their powers of observation, as opposed to more traditional tasks of collection of empirical data. To this end, the study was constructed

such that students were given opportunities to collaboratively explore and navigate unfamiliar environments using text- and picture-messaging, as well as to engage in debate, and use multimedia evidence recorded in the field to defend their positions both to peers in the field and in the classroom, regarding various issues of concern to these environments, with specific links being made to their studies in geography. The data was used to shed light on those elements in urban and suburban environments which adolescents in Singapore find

The nature of the collaborative discourse which emerged as participants engaged in the intervention was also investigated, using a proprietary taxonomy of discourse types. This thesis is grounded in neo-Vygotskyian socio-cultural activity theory. Primary findings include the suggestion that key elements in adolescents' local

The data also reveals differences between the genders in their preference for text over pictures in conveying such information. Adolescents who are more successful in participating in and applying spatial discourse also tend to exhibit certain habits of mind, such as perseverance, as well as to scaffold their exchanges more. Finally, the study suggests that certain fieldwork interventions can indeed augment spatial intelligence and mapping skills. Convert Every Click Jul 21 2019 A holistic approach to conversion rate optimization that encompasses an entire business—online and offline—to drive more sales and referrals, and increase bottom-line profits In order for your business to survive, you must convert anonymous traffic into sales. The better you do that, the more

money you make. The science of tweaking and testing webpages to convert the maximum number of people is known as conversion rate optimization (CRO). Convert Every Click introduces an expanded vision of CRO that the author, Benji Rabhan, calls "holistic conversion rate optimization." Internet technology and innovation have changed the way you should be optimizing your business, your marketing, and your websites. The book looks at the psychology behind this new way of optimizing an entire business for more profits. It examines how your website plays a role in your overall business

Bing Crosby Jul 25
2022 "The best thing to happen to Bing Crosby since Bob Hope," (WSJ) Gary Giddins presents the second volume of his masterful multi-part biography. Bing Crosby dominated American popular culture in a way that few artists ever have. From the dizzy era of Prohibition through the dark days of the Second World War, he was a desperate nation's most beloved entertainer. But he was more than just a charismatic crooner: Bing Crosby redefined the very foundations of modern music, from the way it was recorded to the way it was orchestrated

and performed. In this much-anticipated follow-up to the universally acclaimed first volume, NBCC Winner and preeminent cultural critic Gary Giddins now focuses on Crosby's most memorable period, the war years and the origin story of *White Christmas*. Set against the backdrop of a Europe on the brink of collapse, this groundbreaking work traces Crosby's skyrocketing career as he fully inhabits a new era of American entertainment and culture. While he would go on to reshape both popular music and cinema more comprehensively

than any other artist, Crosby's legacy would be forever intertwined with his impact on the home front, a unifying voice for a nation at war. Over

a decade in the making and drawing on hundreds of interviews and unprecedented access to numerous

archives, Giddins brings Bing Crosby, his work, and his world to vivid life -- firmly reclaiming Crosby's central role in American cultural history.
