Leading Lesson Study Mar 27 2022 Use this team-centered approach to directly enhance teaching and learning in your school! First introduced in Japan, lesson study has gained enthusiastic advocates in US educational circles as a powerful, collaborative approach. This "how-to" guide leads a beginning team through the lesson study cycle and provides an experienced team with new perspectives. Using examples from U.S. classrooms, this handbook: Encourages educators to generate and share knowledge Inspires a teacher-researcher stance Illustrates both the process and substance of lesson study Encourages collaboration Provides guidelines for avoiding common pitfalls

Stepping up Lesson Study Nov 03 2022 This is a much-needed book for educators who want to learn more than just the surface features of lesson study, to deepen the process and learning. Bringing together current knowledge and resources from lesson study practitioners and researchers all over the world, this book provides models and examples of how teachers can learn more deeply and how to support them to learn more in lesson study. The chapters connect current research/educational theories to classroom practices and are filled with examples to illustrate how deeper learning looks with lesson study; for example, highlighting the research process, paying attention to educative talk, using of case pupils (students) as the teachers' focus, doing kyozai kenkyuu well, facilitating mock-up lessons and so forth. This is not a basic "how-to" handbook of lesson study, and readers can choose chapters with topics of interest to learn and use the new ideas promptly in their work. Coming from the global network of lesson study educators, the book not only provides new learning guides but also provides stories of how lesson study has been adopted in different cultures and educational contexts.
