Ten Great Ideas from First Corinthians Sep 20 2021 First Corinthians is one of the most relevant NT documents for both younger churches seeking maturity in the majority world and older churches seeking renewal in the Western world in the twenty-first century. The reason this epistle is so relevant is that it focuses on renewing the church through believing and living out the good news that because of Jesus's death and resurrection God has begun his new creation agenda amid the broken world of today. This is not just another commentary (there are many very good ones) but rather we present a biblical theology of church renewal, based on solid exegesis, and our experience as teachers and pastors in both Africa and North America. This book will pull out the essential teaching of Paul on renewal in ten manageable principles, or "great ideas." Church renewal is not just following certain steps but results from nurturing a culture that practices both cross power and a life of new creation hope. When churches make the shift from traditionalism to radical community and evangelical activism through a new experience of the gospel seen as both personal liberation and the transformation of all things, the church begins to move, and the world begins to change.

Germany since 1789 Apr 03 2020 This essential text provides a clear and engaging introduction to the history of modern Germany. The updated and expanded new edition now takes the story back to 1789 and brings it right up to the present day, adopting a controversy-led approach throughout. Visual evidence, maps, documents and key event boxes support the text and aid learning.

Perfetae Caritatis Nov 03 2022 The sixteen official documents—constitutions, decrees, and declarations—of the Second Vatican Council are now available from Liturgical Press in the most popular and widely used inclusive-language edition translated by Irish Dominican Austin Flannery (+October 21, 2008). As the worldwide Church continues to celebrate the fiftieth anniversary of the Council (1962–65), there is a great need in college classrooms and parish faith formation groups—as well as for individuals—to again have access to these documents in contemporary English. As Flannery wrote in his introduction to the 1996 edition, "The translation of the texts of the Vatican documents in the present volume differs from that in the previous publication in two respects. It has been very considerably revised and, in place, corrected. It is also, to a very large extent, in inclusive language. 'I say to a very large extent, because we have used inclusive language in passages about men and women but not, however, in passages about God, except where the use of the masculine pronoun was easily avoidable.'

Journeys to Renewed Consecration Jan 31 2020 SEVERAL MEMBERS OF CATHOLIC RELIGIOUS INSTITUTES, who served as NGO representatives to the United Nations, began a reflection on "consecrated life." They soon invited a few other key individuals to join their reflection. The results, presented in this book, are prophetic and searching essays by five visionary women and five visionary men whose roots and experience spread into Africa, the Americas, and Europe. These ten authors undertook their prophetic and searching reflections in light of the fiftieth anniversary of two key documents from the Second Vatican Council. Those documents are "Perfetae Caritatis," the Decree on the Adaptation and Renewal of Religious Life, and "Lumen Gentium," the Dogmatic Constitution on the Church. The authors did so in response to a global invitation by Pope Francis for institutes of consecrated life to use the anniversaries as a reflective occasion to "look to the future." Since the Second Vatican Council, members of religious institutes across the Catholic Church have been tapping back into the prophet visions of their foundresses and founders, and seeking to renew their communities for future prophetic service. Paradoxically, in the Global North that renewal has been accompanied by decline in numbers, while in the Global South there has been an explosion of numbers, and especially in Africa. Everyone interested in the global future of religious life will gain from reading this book. Its prophetic and searching essays will inspire all who read them. - Joe Holland, Ph.D., President, Pax Romana /Catholic Movement for Intellectual & Cultural Affairs USA, Washington DC EMEKA XRIS OBIEZU & JOHN PAUL SZURA, co-editors of this book, are both priests in the Order of Saint Augustine, and both have lengthy experience at the United Nations, as well as in scholarly and pastoral work. Sculpture in Gotham Jun 05 2020 Public sculpture is a major draw in today's cities, and nowhere is this more the case than in New York. In the Big Apple, urban art has become synonymous with the municipal "brand," highlighting the metropolis as vibrant, creative, tolerant, orderly, and above all, safe. *Sculpture in Gotham* tells the story of how the City of New York came to be committed to public art patronage beginning in the mid-1960s. In that era of political turbulence, cultural activists and city officials for a time shifted away from traditional monuments, joining forces to sponsor ambitious sculptural projects as an instrument for urban revitalization. Focusing on specific people, agencies and organizations, and both temporary and permanent projects, from the 1960s forward, Michele H. Bogart reveals the changing forms and meanings of municipal public art. *Sculpture in Gotham* illustrates how such shifts came about at a time when art theories and styles were morphing markedly, and when municipalities were reeling from racial unrest, economic decline, and countercultural challenges—to culture as well as the state. While sculptural installations on New York City property took time and were not without controversy, Gotham's processes and policies produced notable results, providing precedents and lessons for cities the world over.

Religious Renewal in France, 1789-1870 Jun 25 2019 This book provides a study of the manner in which the Roman Catholic Church in France responded to successive revolutions between 1789 and 1870 as well as to the cultural upheaval associated with accelerating socio-economic change. It focuses on the Church as an institution engaged in a dynamic process of (re)Christianization and determined, as the only repository of the true faith of Jesus Christ, to fortify belief, and to combat the 'Satanic' forces of moral corruption and revolutionary chaos and create a 'counter society', the *société parfaite*. Discussion of the Church as an institution in crisis, of the recruitment, instruction and mind-sets of its bishops, parish clergy, and the members of religious orders, of its hierarchical structures and internal discipline, and of the need to compensate for the losses suffered during a period of revolutionary upheaval, provides the basis for an exploration of its evolving doctrine(s) and sense of purpose; for an assessment of the pastoral care provided to parish communities; and of the leadership and moral qualities of the clergy; before final consideration of the reception of the religious message(s).

Vision Nov 30 2019 This collection of essays by the late Mark Searle provides insights for liturgical study and application. Introductions by current scholars precede each essay and provide background and introductory information. Chapters are: "Serving the Lord with Justice," "Liturgy as Metaphor," "The Pedagogical Function of the Liturgy," "Reflections on Liturgical Reform," "New Tasks, New Methods: The Emergence of Pastoral Liturgical Studies," "Images and Worship," "Infant Baptism Reconsidered," "Private Religion, Individualistic Society, and Common Worship," "Fons Vitae: A Case Study in the Use of Liturgy as a Theological Source," "Marriage Rites as Documents of Faith: Notes for a Theology of Marriage," "Mark Searle: A Chronology 1941-1992," and "Mark Searle: A Bibliography 1966-1995."

The Renewal of Pagan Antiquity Sep 01 2022 A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

Sisters in Crisis, Revisited Oct 10 2020 Fifty years ago, nearly 200,000 religious sisters worked in Catholic schools, hospitals and other institutions throughout the United States. American Catholics honored these women of faith who founded and built these flourishing works of mercy. Then came the ideological shifts and moral upheavals of the 1960s, and ever since, most women's orders in the United States have been in a state of crisis. Now the sisters are aging, with fewer and fewer younger women to take their place. Perhaps related to this demographic shift is the continuing doctrinal confusion that has come under the scrutiny of the Vatican. Using the archival records of the Leadership Conference of Women Religious and other prominent groups of sisters, journalist and author Ann Carey shows how feminist activists unraveled American women's religious communities from their leadership positions in national organizations and large congregations. She also explains the recent and necessary interventions by the Vatican. After examining the many forces that have contributed to the crisis, Carey reports on a promising sign of renewal in American religious life: the growing number of young women attracted to older communities that have retained their identity and newly formed, yet traditional, congregations.

Pentecostalism and Christian Unity Sep 08 2020 This volume of ecumenical documents, key texts, and critical essays is the first collection of its kind exclusively dedicated to Pentecostalism and its contributions to Christian unity. In the first part, a cadre of internationally renowned scholars addresses the ecumenical heritage and perspectives of the Pentecostal movement since the early twentieth century. Part 2 offers a collection of final reports from international dialogues with Pentecostal participation. The final part contains programmatic essays in response to *The Nature and Mission of the Church*, a major study on the doctrine of the church published by the World Council of Churches. Most of these essays were first presented by the ecumenical-studies group of the Society for Pentecostal Studies, currently the only organized ecumenical think tank among Pentecostals in North America. Since its formation in 2001, the group has encouraged Pentecostal participation in ecumenical concerns, has hosted Roman Catholic-Pentecostal conversations at the annual meeting of the Society, has invited international scholarly debates on ecumenical matters, and has engaged in the study of ecumenical consensus statements. The essays and documents in this collection model the dedication and commitment among Pentecostals today that engage the challenges and opportunities of Christian unity from the perspective of a tradition that has often been falsely accused of being anti-ecumenical. This collection presents an invaluable resource for teachers, scholars, and pastors interested in engaging the global Christian arena from the worldwide and ecumenical image of Pentecostalism. Agents of World Renewal Mar 27 2022 This volume examines a category of Japanese divinities that centered on the concept of "world renewal" (yonaoshi). In the latter half of the Tokugawa period (1603–1867), a number of entities, both natural and supernatural, came to be worshipped as "gods of world renewal." These included disgruntled peasants who demanded their local governments repeal unfair taxation, government bureaucrats who implemented special fiscal measures to help the poor, and a giant subterranean catfish believed to cause earthquakes to punish the hoarding rich. In the modern period, yonaoshi gods took on more explicitly anti-authoritarian characteristics. During a major uprising in Saitama Prefecture in 1884, a yonaoshi god was invoked to deny the legitimacy of the Meiji regime, and in the late nineteenth and early twentieth centuries, the new religion Ōmoto predicted an apocalyptic end of the world presided over by a messianic yonaoshi god. Using a variety of local documents to analyze the veneration of yonaoshi gods, Takashi Miura looks beyond the traditional modality of research focused on religious professions, their institutions, and their texts to illuminate the complexity of a lived religion as practiced in communities. He also problematizes the association frequently drawn between the concept of yonaoshi and millenarianism, demonstrating that yonaoshi gods served as divine rectifiers of specific economic injustices and only later, in the modern period and within the context of new religions such as Ōmoto, were fully millenarian interpretations developed. The scope of world renewal, in other words, changed over time. Agents of World Renewal approaches Japanese religion through the new analytical lens of yonaoshi gods and highlights the necessity of looking beyond the boundary often posited between the early modern and modern periods when researching religious discourses and concepts.

The Upside of Down Apr 27 2022 From the author of the #1 bestselling and Governor General's Literary Award-winning *The Ingenuity Gap* – an essential addition to the bookshelf of every thinking person with a stake in our world and our civilization. This is a groundbreaking, essential book for our times. Thomas Homer-Dixon brings to bear his formidable understanding of the urgent problems that confront our world to clarify their scope and deep causes. *The Upside of Down* provides a vivid picture of the immense stresses that are simultaneously converging on our societies and threatening a breakdown that would profoundly shake civilization. It shows, too, how we can choose a better route into the future. With the immediacy that characterized his award-winning international bestseller, *The Ingenuity Gap*, Homer-Dixon takes us on a remarkable journey – from the fall of the Roman empire to the devastation of the 9/11 attacks in New York, from Toronto in the 2003 blackout to the ancient temples of Lebanon and the wildfires of California. Incorporating the newest findings from an astonishing array of disciplines, he argues that the great stresses our world is experiencing – global warming, energy scarcity, population imbalances, and widening gaps between rich and poor – can't be looked at independently. As these stresses combine and converge, the risk of breakdown rises. The first signs are appearing in the wastelands of the Arctic, the mud-clogged streets of Gonaïves, Haiti, and the volatile regions of the Middle East and Asia. But while the consequences of denial in our more perilous world are dire, Homer-Dixon makes clear that we can use our emerging understanding of the complex systems in which we live to avoid catastrophic collapse in a way the Roman empire could not. This vitally important new book shows how, in the face of breakdown, we can still provide for the renewal of our global civilization. We are creating the conditions for catastrophe, but by understanding the underlying principles that make human and natural systems resilient – and by working together to put those principles into effect – we can still limit the severity of collapse and foster regeneration, innovation, and renewal.

Barriers and Bridges to the Renewal of Ecosystems and Institutions Jul 19 2021 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

Vatican II Oct 02 2022 From 1962 to 1965, in perhaps the most important religious event of the twentieth century, the Second Vatican Council met to plot a course for the future of the Roman Catholic Church. After thousands of speeches, resolutions, and votes, the Council issued sixteen official documents on topics ranging from divine revelation to relations with non-Christians. In many ways, though, the real challenges began after the council was over and Catholics began to argue over the interpretation of the documents. Many analysts perceived the Council's far-reaching changes as breaks with Church tradition, and soon this became the dominant bias in the American and other media, which lacked the theological background to approach the documents on their own terms. In *Vatican II: Renewal Within Tradition*, an international team of theologians offers a different reading of the documents from Vatican II. The Council was indeed putting forth a vision for the future of the Church, but that vision was grounded in two millennia of tradition. Taken together, these essays demonstrate that Vatican II's documents are a development from an established antecedent in the Roman Catholic Church. Each chapter contextualizes Vatican II teachings within that rich tradition. The resulting book is an indispensable and accessible companion to the Council's developments, one that focuses on theology and transcends the mass-media storyline of "liberal" versus "conservative."

The Holy Spirit, the Church, and Pneumatological Renewal May 05 2020 "While belief in God the Father, the Son and the Holy Spirit is at the very core of the Christian faith, the significance of the Spirit in particular is sometimes overlooked in faith practice and theological reflection, resulting in what theologians call Geisvergessenheit. In this context, *Lumen Gentium*, one of the most important documents of the Second Vatican Council (1962-1965), is usually praised for its pneumatological renewal. The current volume, however, argues that this renewal is no more than modest. The Holy Spirit is still conceived of predominantly as an adjunct to Christ. To substantiate that claim, Jos Moons has developed a novel method of close reading on the basis of which he compares *Lumen gentium's* conception of the Spirit to that of *Mystici corporis* (1943). He also analyzes the reduction-historical development of the former and concludes with a plea to envisage the Spirit more boldly: as actively guiding the church, especially by means of the sensus fidelium, its charisms and the discernment of spirits"--

Standing Up with Ga'axsta'las Jan 01 2020 *Standing Up with Ga'axsta'las* tells the remarkable story of Jane Constance Cook (1870-1951), a controversial Kwakwaka'wakw leader and activist who lived during a period of enormous colonial upheaval. Working collaboratively, Robertson and Cook's descendants draw on oral histories and textual records to create a nuanced portrait of a high-ranked woman, a cultural mediator, devout Christian, and aboriginal rights activist who criticized potlatch practices for surprising reasons. This powerful meditation on memory and cultural renewal documents how the Kwag'ul Gixsam have revived their long-dormant clan in the hopes of forging a positive cultural identity for future generations through feasting and potlatching.

Pope Francis, Evangelii Gaudium, and the Renewal of the Church Jul 07 2020 This book focuses exclusively on *Evangelii Gaudium* as interpreted from a variety of interdisciplinary and denominational perspectives, with a sharper focus on the ecclesiological as well as the ecumenical potentialities for the reform and renewal of the church contained within this re-orientation and re-appreciation of the church's primary mission to evangelization in the modern world.

Vatican II Renewal, Path to the Future of the Church Aug 27 2019 *Vatican II Renewal, Path to the Future of the Church* is a prophetic call for change in the Catholic Church today. It presents the 1962-65 Second Vatican Council's revolutionary vision of renewal/reform of the church as the sure path to her restored credibility and promising future for her members today. Readers will find a clear treatment of its seven most important documents and the critical evaluation of their varied implementation in today's church valuable in understanding Vatican II. The book is also a rich source of information on the contemporary Catholic Church. Individual chapters treat Christian ecumenism, moral theology questions, the developing Catholic social thought, the church as people of God and a mystery, current liberation theologies, American women religious "nuns," contemporary spiritualities. Issues treated are church governance, celibacy and married priests, women deacons, church polarization, sexual morality, dialogue with other Christian churches and world religions, and Vatican II's renewal of liturgy and of the sacraments of baptism, reconciliation and marriage. The author discusses with 'utmost honesty' church problems and challenges as well as her rich tradition and values. Early Christianity Scholar Professor Hamilton Hess, University of San Francisco, writes: "A marvelous book. Joseph Eagan has provided us with a masterly exposition of the problems facing the Catholic Church today and of the ecclesial renewal mandated by the Second Vatican Council. Thoroughly researched and clearly expressed for a variety of readers, this book comes at the ideal time of the beginning of new papal leadership." Maureen Bennett, teacher and housewife, comments: "Catholics saw in the decrees of Vatican II an exciting vision of the future Church. For many, that promise remains unfulfilled. Fr. Eagan restores our hope for change still to come and illustrates the path to achieving that bright future." Dr. Harvey Egan, Boston College, states: "Clearly written, concisely and with nuance . . . a great aid for those teaching students or for anyone interested in contemporary Catholicism." Some readers' comments: "We treasure the book and find it so exciting, courageous and compelling. Francis, bishop of Rome, should keep it at his bedside." "An enormous contribution to forming a foundation for our faith today." "Optimism and hope permeate the pages." "It has given me hope again." Both young and older Catholics, students and parish discussion groups, and fellow Christians will find this book stimulating and full of hope.

Emperor and Aristocracy in Japan, 1467-1680 Jan 13 2021 An institution in decline, possessing little power in an age dominated by warriors? Or a still-potent symbol of social and political legitimacy? Emperor and Aristocracy in Japan traces the fate of the imperial Japanese court from its lowest point during the turbulent, century-long sengoku, when the old society, built upon the strength and influence of the court, the priesthood, and a narrow warrior elite, was shaken to its foundations, to the Tokugawa era, when court culture displayed renewed vitality, and tea gatherings, flower arranging, and architecture flourished. In determining how the court managed to persist and survive, Butler looks into contemporary documents, diaries, and letters to reveal the court's internal politics and protocols, hierarchies, finances, and ceremonial observances. Emperor and courtiers adjusted to the prominence of the warrior elite, even as they held on to the ideological advantages bestowed by birth, tradition, and culture. To this historical precedent the new wielders of power paid dutiful homage, ever mindful that ranks and titles, as well as the political blessing of the emperor, were advantageous marks of distinction.

China's New Governing Party Paradigm May 29 2022 For the first time since its founding in 1921, the Chinese Communist Party (CCP) has adopted a new paradigm for its role in China. Abandoning its former identity as a 'revolutionary party', the CCP now regards itself as a 'governing party' committed to meeting the diverse needs of its people and realizing China's revitalization as a great power. To enhance its ability to realize these aims, the CCP has enacted extensive political and ideological reforms. Central to that effort are changes to how the party develops and oversees strategy and policy. Few studies are available on the CCP's adoption of this new identity and of its political implications. This book remedies that oversight by explaining the historic context, drivers, and meaning of the governing party paradigm. It explains how adoption of this paradigm is transforming the processes through which the CCP develops strategy and policy. Furthermore, it differs from many other books in that it is the first to derive its analysis primarily from the study of authoritative Chinese sources. The book also provides an extensive array of helpful references, including chronologies, lists of major strategy documents, a glossary, and more. Accurately understanding the CCP's new role as a governing party requires a firm grasp of how China's leadership formulates, documents, and implements strategies and policies to improve its governance and further the nation's rejuvenation. This book provides such valuable information in one handy volume.

Changing Urban Renewal Policies in China Dec 24 2021 "This is a very rich monograph, based on impressive fieldwork in China, which demonstrates excellent qualitative and ethnographic research skills, research integrity, and cultural perceptiveness in the analysis. This book will make a great contribution to the literature on policy transfer and on urban politics in contemporary China, as it offers a rich understanding of the nitty-gritty practices of transferring and learning 'from abroad'." Claire Colomb, Professor of Urban Studies and Planning at the University College London, UK. This book explores the concept of Careful Urban Renewal, a concept of urban renewal that originated in Berlin in the 1980s and that was proposed to Yangzhou, a Chinese city of the wealthy province of Jiangsu, in the early 2000s. It sets out to understand whether knowledge and ideas originating in a specific setting can be transferred to another locality thousands of miles away from the point of origin, and have the chance to change the policies and the practices of the destination city. The book shows that foreign ideas can inspire ambitious reforms of the policies of a single city, but that there also exist multiple challenges to policy learning and to the rooting of new ideas in local practices. To explore these challenges, this book develops an analysis of the micro-dynamics of policy transfer, showing that there exist multiple hierarchies to which a Chinese city can be subjected, intermittently opening or closing "windows for policy learning".

Letters and Documents Jul 27 2019 'I send you fondest thoughts on your birthday. On this day I will think a lot of all the beautiful things which were, and are contained in our work together, and which now always stand so beautifully before my inner eye when I describe them. Let me assure you that I write this description with love.' – Rudolf Steiner to Marie Steiner, 13 March 1925 Containing all the correspondence between Rudolf and Marie Steiner to be found in their respective estates, this volume provides unique insight into the couple's pivotal relationship. The years 1901-25 were a time of struggle, as Rudolf Steiner – faithfully supported by the young Marie von Stivers (later to become Marie Steiner in 1914) – endeavoured to build a completely new spiritual movement on earth. Their letters cover everything from the esoteric view of evolution and human advancement to dealing with organizational details, challenging personalities and, of course, their own relationship. In addition to the correspondence, a number of documents have been inserted chronologically throughout the text. The famous 'notes' written by Rudolf Steiner for Edouard Schure, for example, provide a unique introduction to the volume, giving profound insights into the development of the

anthroposophical movement. Also included are the many versions of Rudolf Steiner's will. Comprehensive notes are provided, as well as an index of persons and an itinerary giving dates of relevant lectures and eurythmy performances.

Creative Fidelity Dec 12 2020 An important part of the theologians' task is to make the church's dogmas meaningful to the faithful of their own time. The attitude with which a theologian should undertake this task of communicating a contemporary understanding of the faith is well described as one of creative fidelity. Two basic sources for Catholic theology are scripture and the documents of the Magisterium. Just as Catholic theologians must know how to distinguish among the various literary genres in the bible and how to interpret scriptural texts, they must also know how to determine the relative degree of authority exercised in the various documents issued by popes or councils and how to apply the principles of hermeneutics in interpreting them. This book offers guidelines that will help those interested in Catholic theology to make sound judgments about the authority and meaning of the documents in which the church has expressed its faith over the centuries. Making such judgments requires a knowledge of the correct level of response these documents call for from the faithful and the ability to offer to today's faithful a contemporary understanding of their faith. The task of the interpreter is one of creative fidelity, requiring a delicate balance between being faithful to the original meaning of the text and creative in finding the concepts and terms that make it meaningful today.
