[Beyond Falling Stars](#) Nov 22 2021 Epic Sci-Fi drama meets steamy paranormal romance! Being hunted by alien mutants totally sucks. And the threat of imprisonment in a secret underground lab? Even suckier. Now that Sloane Masterson knows the truth about why Hayden's been so secretive, she's ready to put all that epic craziness behind her. Besides, Sloane's got bigger problems to deal with, like protecting her family from Sector Thirteen and getting Hayden's snobby parents to accept her as one of them. And what better way to win over Hayden's parents and evade Sector Thirteen than an intergalactic vacay with her smoking hot boyfriend? Sloane and her bestie, Viola Saks, are invited to join the Lancaster brothers for a family reunion on their home planet, an oasis of wicked cool beaches, warm dual suns, and clear blue seas. But danger lurks in paradise... Even in this beautiful utopia, Sloane and Hayden's relationship is never far from higher levels of suckage. They might be vacationing in a galaxy far, far away, but someone still wants her dead. Please scroll up and click the buy button now!

Labor Relations Nov 03 2022 *Labor Relations, 13/e*, the most accurate, readable, timely, and valuable book of its kind on the market, provides readers with a basic understanding of unionism in its natural habitat and a fundamental appreciation of the union-management process. It focuses on the negotiation and administration of labor agreements, and emphasizes the more significant bargaining issues. The 13th edition includes new material and an extensively revised and updated bibliography. For vice-presidents and directors of labor relations, union presidents, and others who are full-time labor-management professionals for either managements or unions.

French and English Polyphony of the 13th and 14th Centuries Jun 29 2022 First published in 1998, this volume brings together the most part of the author's work on medieval polyphony. The most significant advance in music during the period in the High Gothic was the development of a system of rhythm and of its notation, the modern understanding of which was to a considerable extent obscured by an undue emphasis on the so-called rhythmic modes. The investigation of this topic forms the centre of this book, and a related essay deals with rhythmic Latin poetry. Other pieces survey the accomplishments of Europe's first great composer and the flourishing of the medieval motet, whose rise he stimulated, while several essays focus on English polyphony, and on what remains of the motets of Philippe de Vitry, a major figure in Parisian intellectual circles of the 14th century.

Effective Police Supervision Mar 27 2022 Good police officers are often promoted into supervisory positions with little or no training for what makes a good manager. *Effective Police Supervision* is a core text used in college-level classes on supervisory practices in criminal justice. This popular book combines behavioral theory with case studies that allow the reader to identify and resolve personal and organizational problems. It provides readers with an understanding of group behaviors and organizational dynamics, with a focus on effectiveness as well as proficiency, and on how a supervisor can help to create an effective organization. This book is also a vital tool in the preparation of police officers for promotional exams. Each chapter includes important key terms and opens with a case study to illustrate important concepts. New material has been added throughout the textbook on police accountability, police involvement with news media, dealing with social media, and avoiding scandals. Used nationwide for police promotional exams. A study guide including learning objectives, key terms, chapter summaries, and review questions is available for purchase (ISBN: 9780323280044)

The Obsession Jul 19 2021 The Hale family is obsessed with status, power, and control. No problem is too big their money can't solve. Royce Hale manipulated me into giving him everything. My virginity. My hand in marriage. My heart. And as soon as he got what he wanted, he callously sold me off for a cool ten million. In the boardroom and the twisted game his family plays, he says the only rule is to win at all costs. Yesterday I

learned a painful lesson not to trust the prince of Cape Hill. Today I'll destroy his carefully laid plans and show him just how badly he's already lost. All the money in the world won't be able to stop me. The Obsession is the second book of the Filthy Rich Americans trilogy and should be read following The Initiation.

Information Systems -- Creativity and Innovation in Small and Medium-Sized Enterprises Jun 25 2019 This book contains the collection of papers presented at the conference of the International Federation for Information Processing Working Group 8.2 "Information and Organizations." The conference took place during June 21-24, 2009 at the Universidade do Minho in Guimarães, Portugal. The conference entitled "CreativeSME - The Role of IS in Leveraging the Intelligence and Creativity of SME's" attracted high-quality submissions from across the world. Each paper was reviewed by at least two reviewers in a double-blind review process. In addition to the 19 papers presented at the conference, there were five panels and four workshops, which covered a range of issues relevant to SMEs, creativity and information systems. We would like to show our appreciation of the efforts of our two invited keynote speakers, Michael Dowling of the University of Regensburg, Germany and Carlos Zorrinho, Portuguese coordinator of the Lisbon Strategy and the Technological Plan. The following organizations supported the conference through financial or other contributions and we would like to thank them for their engagement:

Richard Hillary Aug 20 2021 Richard Hillary was born in Australia in 1919 and brought up in England. Oxford educated, he was a writer foremost who was also a fighter pilot. When World War Two came he joined 603 Sqn and became an ace in the Battle of Britain. His life changed when he was shot down in September 1940, suffering severe burns to his face and hands. During a long and painful recovery he wrote the wartime classic *The Last Enemy*, an outstanding literary contribution. Anxious to return to flying, he pushed himself to the limit and was killed when his Blenheim crashed in 'mysterious' circumstances on 8 January 1943. He was aged only 23. He had by then become a legend, a courageous hero, not without his faults, around whom a cult following has developed. Over years, David Ross patiently researched all relevant papers and documents, including from the Richard Hillary Trust Archive in Oxford, and talked at length to Hillary's contemporaries. This eminently readable, first complete biography with many previously unseen photos sets the record straight, and now appears in paperback for the first time, with new photographic material. David Ross is currently working on a definitive history of 603 (City of Edinburgh) Squadron RauxAF and his biography of Gerald Stapleton, Stapme, is also being published in 2002 by Grub Street.

White Rabbit Apr 03 2020 All his life Gabriel has struggled with childhood memories. Or better said; the absence of them. Now a young man and married to the beautiful Alaina, the memories begin to surface in wild and terrifying nightmares. Tormented by the dark images of a faceless man, he discovers an inner strength found only in the delicate fibers that connect what is real and what is not. A thousand miles away Professor O'Bannon, Homicide Detective with the Los Angeles Police Department, is hunting a sadistic and cunning killer who preys on the city's most innocent. He too, tormented by a faceless man who displays his victims with devastating affect. Soon fate intervenes, and worlds of the Professor and Gabriel collide in a jarring, mind-bending thrill ride that will change both their lives forever.

This Is Not a Test Mar 15 2021 It's the end of the world. Six students have taken cover in Cortège High but shelter is little comfort when the dead outside won't stop pounding on the doors. One bite is all it takes to kill a person and bring them back as a monstrous version of their former self. To Sloane Price, that doesn't sound so bad. Six months ago, her world collapsed and since then, she's failed to find a reason to keep going. Now seems like the perfect time to give up. As Sloane eagerly waits for the barricades to fall, she's forced to witness the apocalypse through the eyes of five people who actually want to live. But as the days crawl by, the motivations for survival change in startling ways and soon the group's fate is determined less and less by what's happening outside and more and more by the unpredictable and violent bids for life—and death—inside. When everything is gone, what do you hold on to?

Catching Orion Jan 01 2020 ***PREVIOUSLY PUBLISHED AS PART OF AN ANTHOLOGY***This SHORT STORY (15k words) was previously published as part of the Heart2Heart Anthology but is now being offered as a single title since the anthology is no longer available. Please make sure you haven't already purchased this story as part of that anthology unless your intent is to own two copies of the story. There is no new content. Ryan Dressed appropriately for quiet night at home? Check. Spoiled, needy cat present? Check. Gorgeous, mysterious stranger randomly showing up at my door claiming to have a date with me? Wait... what? Knox is exactly the kind of guy my ugly past has taught me to avoid, but when the heavily tattooed biker shows up at my door with flowers and a gentle touch, I'm kind of a goner. But agreeing to the blind date I knew nothing about is just the start of a crazy night of ogres, onions, wine and dangly bits. Way too many dangly bits. Knox I knew letting myself get set up on a blind date was a bad idea, but I can't deny that there's a little part of me that really wants to find Mr. Right. Especially after having been with Mr. Wrong for so long. And everything about Orion "Ryan" Abernathy screams right. But when the cute, young social worker has no idea who I am or what I'm talking about, I know we've both been set up. I fully expect my chance at finding out if Ryan is my Mr. Right to go up in smoke, but when he agrees to go out with me, I'm certain not even the hint of a haunted past can come between us. Problem is, it's not his past that comes between us, but a whole lot of naked old man. Leave it to me to manage to finally find Mr. Right only to scare him off when our first date goes oh so wrong. Or does it? Please note that this story was previously part of an anthology so it was intended (and required) to be a certain length. Although it is a complete story with an HEA, if you don't care for short stories, Ryan and Knox's tale may not be for you. This story was formerly titled "Atlanta" and was part of the Heart 2 Heart Vol. 2 Charity Anthology. There have been no changes to the content of the story.

Greatest Stories of Henry James Jul 07 2020

Obsessed Feb 23 2022 I wanted him from the moment I laid eyes on him and from that point on, the question wasn't if I'd have him but when...Thirty-five-year-old Matias de la Vega is good at one thing and one thing only. Though he doesn't officially carry the title of killer when it comes to his role in an underground vigilante group, he's got no problem getting his hands dirty if it means getting justice for those who can't get it on their own. Such is the case when single dad Sam Wittier is confronted by a stalker bent on murder. While neutralizing the threat is all in a day's work for Matias, what comes after is anything but. Although Matias isn't particularly surprised by his attraction to the older Sam, his inability to walk away from the still-grieving widower is a complication. An unexpected and dangerous complication...Nothing about the mysterious Matias makes sense to me. The emotionally distant soldier says what he means and takes what he wants. And for whatever reason, what he wants is me. That should have me running for the hills. It should, but it doesn't...For fifty-something Sam Wittier, life is as good as it's been since he lost the man of his dreams more than two decades earlier. After handing the reins of his successful business over to his older son, Sam is happy to settle into the quiet, simple life of being a full-time single dad to his newly adopted little boy. Unfortunately, life didn't get the message. After nearly losing everything to a deranged stalker, Sam finds himself face to face with a man who is anything but quiet and simple. There's no reason he should want the unpredictable, take-no-prisoners Matias in his life or his bed, but just like life, his body isn't getting the message. One night with Sam is all I need to get him out of my head for good. One night will be enough to end my obsession with him. It has to be...While Sam and Matias share a white-hot chemistry that neither has ever known before, that's about all they have in common. But as one passionate encounter leads to another and the line between obsession and need begins to blur, will Matias and Sam find that maybe they aren't so different after all? And what will that mean for the ghosts of the past that have haunted each man for so long? The ghosts that are willing to be buried as well as the ones that aren't...***Although not required, it is highly recommended that you read *Protecting Elliot: A Protectors Novella* prior to reading *Obsessed*. The books feature separate couples but overlap when it comes to timeline/plot.

Labor Relations Oct 02 2022 *Labor Relations*, the most accurate, readable, timely, and valuable book of its kind on the market, provides readers with a basic understanding of unionism in its natural habitat and a fundamental appreciation of the union-management process. It focuses on the negotiation and administration of labor agreements, and emphasizes the more significant bargaining issues. The 11th edition includes much new material and an extensively revised and updated bibliography. For vice-presidents and directors of labor relations, union presidents, and others who are full-time labor-management professionals for either managements or unions.

Anti-Communist Solidarity Sep 28 2019 Since the 1960s, many influential Latin Americans, such as the leaders of student movements and unions, and political authorities, participated in exchange programs with the United States to learn about the American way of life. In Brazil, during the international context of the Cold War, when Brazil was governed by a military dictatorship ruled by generals who alternated in power, hundreds of union members were sent to the United States to take union education courses. Did they come back “Americanized” and able to introduce American trade unionism in Brazil? That is the question this book seeks to answer. It is a subject that is as yet little explored in the history of Latin American labor and international relations: the influence of foreign union organizations on national union politics and movements. Despite the US’s investment in advertising, courses, films and trips offered to Brazilian union members, most of them were not convinced by the American ideas on how to organize an “authentic” union movement - or, at least, not committed to applying what they learned in the States.

21st Century Economics: A Reference Handbook Jun 17 2021 Interest in economics is at an all-time high. Among the challenges facing the nation is an economy with rapidly rising unemployment, failures of major businesses and industries, and continued dependence on oil with its wildly fluctuating price. Americans are debating the proper role of the government in company bailouts, the effectiveness of tax cuts versus increased government spending to stimulate the economy, and potential effects of deflation. Economists have dealt with such questions for generations, but they have taken on new meaning and significance. Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed, 21st Century Economics: A Reference Handbook is intended to meet the needs of several types of readers. Undergraduate students preparing for exams will find summaries of theory and models in key areas of micro and macroeconomics. Readers interested in learning about economic analysis of an issue as well students embarking on research projects will find introductions to relevant theory and empirical evidence. And economists seeking to learn about extensions of analysis into new areas or about new approaches will benefit from chapters that introduce cutting-edge topics. To make the book accessible to undergraduate students, models have been presented only in graphical format (minimal calculus) and empirical evidence has been summarized in ways that do not require much background in statistics or econometrics. It is thereby hoped that chapters will provide both crucial information and inspiration in a non-threatening, highly readable format.

Under Sunless Skies May 29 2022 Epic Sci-Fi drama meets steamy paranormal romance! True love is hard. And a doomed relationship with shady secrets? Even harder. For Sloane Masterson, her forbidden love with Hayden Lancaster has been a series of highs and lows, which is overly complicated by those annoying interstellar dating laws. But once Sloane discovers a shocking family secret, she won't let those lame rules get in her way--she's on a mission to win back her hybrid! Too bad convincing her stubborn ex that they belong together isn't Sloane's only problem. After receiving blackmail threats, Sloane's life becomes a real-life horror movie. And as if that wasn't bad enough, Hayden slimes her with alien ectoplasm and scary mutants start tracking her every move. Insert one more major disaster, the unexpected arrival of Sector Thirteen. If she hopes to survive, Sloane needs to get that potent residue off her skin and--fast. Because with Sector Thirteen's monsters hunting her, Sloane's not going down without a fight, even if that means trusting the one boy who broke her heart. Please scroll up and buy your copy now! *The Starlight Saga is a complete series intended for upper-YA and adult readers and is a mix of swoony romance and snarky humor. This book ends with a minor cliffhanger.

Washington Representatives Nov 30 2019 Membership meetings budgets contact information records for 7,800+ associations, professional societies and labor unions and their 20,000+ executives have been updated. Indexed nine ways so you can look up associations by subject, budget, geographic area, acronym, executive director and more.

In the new edition, Glen Broom continues the work of Cutlip and Center by providing the most up-to-date reference for students.

National Labor Relations Board V. Aladdin Industries, Incorporated Jul 31 2022

Smoke & Mirrors Mar 03 2020 Life for Dexter J. Daley has never been easy, but he's always found a way to pick himself back up with a smile on his face. Taken from his home, and the arms of his boyfriend and THIRDS partner, Sloane Brodie, Dex finds himself in a situation as mysterious and lethal as the Therian interrogating him. Dex learns what he's secretly believed all along: his parents' death wasn't an accident. Discovering the whole truth about John and Gina Daley's homicide sets off a series of events that will change Dex and Sloane's lives forever. As buried secrets rise to the surface and new truths are revealed, Dex and Sloane's love for each other is put to the test, with more than their relationship on the line. If traversing the waters of murder and secret government agencies wasn't enough, something inexplicable has been happening to Dex-and nothing will ever be the same.

Applied Algebra, Algebraic Algorithms and Error-Correcting Codes Dec 24 2021 This book constitutes the refereed proceedings of the 19th International Symposium on Applied Algebra, Algebraic Algorithms and Error-Correcting Codes, AA ECC-13, held in Honolulu, Hawaii, USA in November 1999. The 42 revised full papers presented together with six invited survey papers were carefully reviewed and selected from a total of 86 submissions. The papers are organized in sections on codes and iterative decoding, arithmetic, graphs and matrices, block codes, rings and fields, decoding methods, code construction, algebraic curves, cryptography, codes and decoding, convolutional codes, designs, decoding of block codes, modulation and codes, Gröbner bases and AG codes, and polynomials.

Uneasy Lies the Crown Oct 29 2019 Lady Emily must stop a serial killer whose sights are set on the new king . . . Lying on her deathbed, Queen Victoria asks to speak privately with trusted royal agent Colin Hargreaves, slipping him a letter with her last command: Une sanz plus. Sapere aude. 'One and no more. Dare to know.' The year is 1901 and the death of Britain's longest-reigning monarch has sent all the Empire into mourning. But for Lady Emily and her dashing husband Colin, the grieving is cut short as another royal death takes centre stage. A body has been found in the Tower of London, posed to look like the murdered medieval king Henry VI. And soon after, a second corpse is discovered in London's exclusive Berkeley Square, the mutilated remains staged to evoke the violent demise of Edward II. It becomes evident that the individual behind the crimes plans to kill again and again. The quest to find the murderer takes Emily deep into the capital's underbelly. But clues leading to the killer are elusive, and even more puzzling are the anonymous letters Colin has been receiving since Victoria's death. Could the killer be targeting her successor, Edward VII? Praise for Tasha Alexander: 'Tasha Alexander has created Victorian London's most colourful sleuth' Jacqueline Winspear 'Tasha Alexander is one to watch - and read . . . she knows how to construct a compelling plot . . . there's depth and sensitivity which sets her apart' Huffington Post

Mother May I May 17 2021 Yago has a master plan for the Meanies that will put everyone at risk and potentially keep them from finding the piece of earth that may remain after its destruction.

Empty Planet Aug 27 2019 Cars sit in the road, abandoned; the hedge has grown several meters taller. Weeds, long grasses and small shrubs grow where the road should be. The whole neighbourhood stands derelict and you are alone. A pack of dogs catch your scent. They growl and race towards you. You run back into your house and slam the door... it falls off its hinges. You look around, heart pounding, knees shaking, flinching at the slightest noise. Damp, mouldy wallpaper peels off the wall, the curtain rail falls onto the rotten floorboards. Your furniture is covered by ceiling plaster and strips of wood fallen from the gaping hole above you. Outside, the ravenous hounds bark, reminding you you need a place to hide. Moments later, normality returns, and your house is once more pristine. The hole in the roof has gone, the floorboards are polished; the curtains hang in the window. This is a glimpse of what Steve encounters each time he visits his Empty Planet. Join him in his adventure and discover the origin of this time shift. What readers have said: 'I found Empty Planet hard to put down'. 'Empty Planet is written with suspense, humour and descriptive flare that makes you feel a part of the adventure'. 'Well written, touching, and with a message mankind is even now beginning to face. 'Enjoyable and believable'. 'Would make a cracking television series.' 'The characters were real, each with their own quirks, strengths, and problems.' 'Sucks you in right from the beginning'. 'I didn't want it to end!'

Effective Police Supervision Apr 27 2022 Outstanding first-line supervisors are essential to the success of any law enforcement agency, yet many officers lack the supervision training necessary to excel. Effective Police Supervision immerses readers in the group behaviors and organizational dynamics supervisors must master in order to lead their teams and to help create an effective police department. Combining behavioral theory and updated case studies, this core text, now in its eighth edition, is a vital tool for all college students pursuing criminal justice courses on supervisory practices, as well as police officers preparing for promotional exams.

The Commonwealth Relations Office Year Book Nov 10 2020

Excavation of the Late Saxon and Medieval Churchyard of St Martin's, Wallingford, Oxfordshire Feb 11 2021 This volume presents the results of excavations by MOLA (Museum of London Archaeology) undertaken in 2003-4 at the former St Martin's churchyard, Wallingford, Oxfordshire.

A Medieval Book of Beasts Dec 12 2020 Text, translation, and critical study of one of the most important medieval bestiaries.

Foreign Affairs Federalism Apr 15 2021 Challenging the myth that the federal government exercises exclusive control over U.S. foreign-policy-making, Michael J. Glennon and Robert D. Sloane propose that we recognize the prominent role that states and cities now play in that realm. Foreign Affairs Federalism provides the first comprehensive study of the constitutional law and practice of federalism in the conduct of U.S. foreign relations. It could hardly be timelier. States and cities recently have limited greenhouse gas emissions, declared nuclear free zones and sanctuaries for undocumented immigrants, established thousands of sister-city relationships, set up informal diplomatic offices abroad, and sanctioned oppressive foreign governments. Exploring the implications of these and other initiatives, this book argues that the national interest cannot be advanced internationally by Washington alone. Glennon and Sloane examine in detail the considerable foreign affairs powers retained by the states under the Constitution and question the need for Congress or the president to step in to provide "one voice" in foreign affairs. They present concrete, realistic ways that the courts can update antiquated federalism precepts and untangle interwoven strands of international law, federal law, and state law. The result is a lucid, incisive, and up-to-date analysis of the rules that empower-and limit-states and cities abroad.
