**Neo-Kantianism and Cultural Sciences** Mar 05 2020 Il volume si propone di indagare, dal punto di vista sia storiografico che teoretico, la peculiare relazione che si instaurò tra le diverse scuole di pensiero neokantiane e quelle discipline che tra fine Ottocento e inizio Novecento furono rubricate sotto il titolo di scienze della cultura o scienze dello spirito. Il neokantismo svolse, difatti, un ruolo di primissimo piano nella formazione dello scenario filosofico e culturale tedesco del secolo scorso, divenendo, da un lato, una fonte inesauribile di idee e metodi per le cosiddette Kulturwissenschaften, e accogliendo, dall'altro lato, entro il suo poliedrico sviluppo, alcune decisive istanze veicolate da tali scienze. Il volume prova a circoscrivere questa vasta problematica mediante incursioni storico-problematiche intorno ad alcune figure e problemi centrali della vasta costellazione neokantiana. I temi affrontati nei saggi concernono gli assetti sistematici della metodologia di impronta neokantiana e il loro riflettersi nelle molteplici applicazioni disciplinari, dalla giurisprudenza alla linguistica, dall'estetica alla storiografia filosofica, dalla sociologia alla psicologia. Non mancano infine contributi che provano ad isolare i motivi filosofici ultimi della riflessione neokantiana sulla Kultur.

[Soundtracks](#) Jan 03 2020 First published in 1998, music scored for film has only relatively recently received the critical attention which it merits. Many composers in the twentieth century have written works for films or documentaries, a number feeling that this aspect of their output has been undervalued. This dictionary complements other studies which have appeared in recent years which look at the technical and theoretical issues concerned with film music composition. Arranged alphabetically by composer, the volume comprises over 500 entries covering all nationalities. Each entry includes very brief biographical information on the composer, followed

by a list of the films (with dates) for which he or she has composed. Details of recordings are also given. The dictionary's international coverage ensures that it will become a standard reference work for all those interested in the history of twentieth-century music and the development of film.

**Il Drago, Il Sole E La Pantera** Dec 26 2021 Questo è un libro forte, intenso, profondo; e un testo impegnativo, ma non tanto per lo stile di scrittura, che ho cercato di rendere sempre il più fluido e scorrevole possibile, quanto piuttosto per i suoi contenuti: ho voluto infatti rivisitare il percorso di ricerca interiore che ho portato avanti per lungo tempo, per arrivare a spiegare, esponendomi in prima persona e senza riserve, chi sono oggi e perché, anche se questo ha talvolta comportato il dover mettere in discussione anche quello che solitamente si tende a dare per scontato, e affrontare determinati aspetti dell'esistenza con cui non è propriamente indolore trovarsi a fare i conti

[Ennio Morricone](#) Jan 15 2021 Master composer Ennio Morricone's scores go hand-in-hand with the idea of the Western film. Often considered the world's greatest living film composer, and most widely known for his innovative scores to *The Good, the Bad, and the Ugly* and the other Sergio Leone's movies, *The Mission*, *Cinema Paradiso* and more recently, *The Hateful Eight*, Morricone has spent the past 60 years reinventing the sound of cinema. In *Ennio Morricone: In His Own Words*, composers Ennio Morricone and Alessandro De Rosa present a years-long discussion of life, music, and the marvelous and unpredictable ways that the two come into contact with and influence each other. The result is what Morricone himself defines: "beyond a shadow of a doubt the best book ever written about me, the most authentic, the most detailed and well curated. The truest." Opening for the first time the door of his creative laboratory, Morricone offers an exhaustive and rich account of his life, from his early years of study to genre-defining collaborations with the most important Italian and

international directors, including Leone, Bertolucci, Pasolini, Argento, Tornatore, Malick, Carpenter, Stone, Nichols, De Palma, Beatty, Levinson, Almodóvar, Polanski and Tarantino. In the process, Morricone unveils the curious relationship that links music and images in cinema, as well as the creative urgency at the foundation of his experimentations with "absolute music". Throughout these conversations with De Rosa, Morricone dispenses invaluable insights not only on composing but also on the broader process of adaptation and what it means to be human. As he reminds us, "Coming into contact with memories doesn't only entail the melancholy of something that slips away with time, but also looking forward, understanding who I am now. And who knows what else may still happen."

*Spaghetti Westerns at the Crossroads* Aug 29 2019 What links Italian neorealism to Django Unchained, French comic books to Third-World insurgency, and Bollywood song-and-dance to Eastern Bloc film distribution? As this volume illustrates, the answers lie in the Spaghetti Western genre. As the reference points of American popular culture became ever more prominent in post-war Europe, the hundreds of films that make up the Italian (or 'Spaghetti') Western documented profound shifts in their home country's cultural outlook, while at the same time denying specifically national discourses. An object of fascination and great affection for fans, filmmakers and academics alike, the Western all-Italiana arose from a diverse confluence of cultural strands, and would become a pivotal moment in cinematic history. Reappraising a diverse selection of films, from the internationally famed works of Sergio Leone to the cult cachet of Sergio Corbucci and the more obscure outputs of such directors as Giuseppe Colizzi and Ferdinando Baldi, this comprehensive study brings together leading international scholars in a variety of disciplines to both revisit the genre's cultural significance and consider its on-going influence on international film industries.

**Radical Frontiers in the Spaghetti Western** Jul 09 2020 Ever more popular in the age of DVDs, eBay and online fandom, the Spaghetti Westerns of the 1960s have undergone a mainstream renaissance which has nevertheless left their intimate relationship to the troubled politics of 1960s Italy unexamined. *Radical Frontiers* reappraises the

genre in relation to the revolutionary New Left and the events of 1968 to uncover the complexities of a cinematic milieu too often dismissed as formulaic and homogeneous. Establishing the backdrop of post-war Italy in which the Roman studio system actively blended Italian and American culture, Austin Fisher looks in detail at the works of Damiano Damiani, Sergio Sollima, Sergio Corbucci, Giulio Questi and Giulio Petroni and how these directors reformatted the Hollywood Western to yield new resonance for militant constituencies and radical groups. *Radical Frontiers* identifies the main variants of these militant Westerns, which brazenly endorsed violent peasant insurrection in the 'Mexico' of the popular imagination, turning the camera on the hitherto heroic colonialists of the West and exposing the brutal mechanisms of a society infested with latent fascism. The ways in which the films' artistic failures reflect the ideological confusions of the radical groups is examined and the genre's legacy is reappraised, as the revolutionary energy of Italy's New Left becomes subsumed amidst the conflicting agendas of New Hollywood, blaxploitation and the 'grindhouse' revival of Tarantino, Rodriguez and Raimi. Reclaiming the Spaghetti Western from the domain of the merely cool and repositioning it within the spectrum of late-1960s radical cinema, *Radical Frontiers* analyses the genre's narrative and cinematographic inscriptions in their political context to uncover Far Left doctrines in these tales of outlaws and sheriffs, banditry and redemptive violence.

*TAV, la resa dei conti* Aug 02 2022 TAV TORINO-LYON, LA RESA DEI CONTI - Si parla di Torino-Lyon da trent'anni ma non è detto che ciò sia servito a capire veramente di cosa si tratta, anzi! Queste pagine raccontano in che modo e per quali ragioni un cittadino della valle di Susa abbia cercato in questi ultimi venticinque anni di approfondire l'argomento. L'autore, ex amministratore locale valsusino ed ex bancario, analizza la vicenda con l'obiettivo di comprendere meglio tanti aspetti misteriosi e magari mai svelati, osservando anche i risvolti politici e mediatici che rendono la Grande Opera una suggestione dei tempi moderni. Un qualcosa che viene descritto come salvifico dai favorevoli, ma che evidenzia criticità nascoste e numeri per nulla convincenti. La lettura delle pagine si sviluppa come il percorso di un sentiero prima oscuro e poi via via sempre più panoramico non solo sul TAV valsusino ma anche sul meccanismo delle Grandi Opere e, per conseguenza sulle enormi spese che coinvolgerebbero tutti i cittadini. Speranze e delusioni, numeri e slogan si affrontano costantemente come in una scazzottata giovanile, mentre documenti ufficiali ed articoli di vari giornalisti e studiosi costringono il lettore a interrogarsi e guardare oltre la propaganda.

Piccole storie personali, tanti pensieri e molti documenti di chi segue la questione da anni, con un approfondito esame di coscienza finale che diventa la "prova del 9", che in questo caso permette di farsi un'idea precisa su cosa sia in realtà la Torino-Lyon e capire se realizzare la Torino-Lyon possa portare qualche beneficio e soprattutto a chi. Le ragioni dei favorevoli e contrari alla Torino-Lyon vengono analizzate e confrontate considerando solo la buona fede delle parti, ma quando i dati emergono... il panorama potrebbe essere molto diverso da come lo raccontavano.

**The Oxford Handbook of Sound and Image in Digital Media** Feb 02 2020 The Oxford Handbook of Sound and Image in Digital Media surveys the contemporary landscape of audiovisual media.

Contributors to the volume look not only to changes brought by digital innovations, but to the complex social and technological past that informs, and is transformed by, new media. This collection is conceived as a series of dialogues and inquiries by leading scholars from both image- and sound-based disciplines. Chapters explore the history and the future of moving-image media across a range of formats including blockbuster films, video games, music videos, social media, digital visualization technologies, experimental film, documentaries, video art, pornography, immersive theater, and electronic music. Sound, music, and noise emerge within these studies as integral forces within shifting networks of representation. The essays in this collection span a range of disciplinary approaches (film studies, musicology, philosophy, cultural studies, the digital humanities) and subjects of study (Iranian documentaries, the Twilight franchise, military combat footage, and Lady Gaga videos). Thematic sections and direct exchanges among authors facilitate further engagement with the debates invoked by the text.

The Re-invention of the European Radical Right Mar 17 2021

Combining an in-depth case study of the Italian Northern League with a comparative focus on other parties, Andrej Zaslove employs a socio-economic, institutional, and ideological analysis to argue that the new wave of right-wing parties in Western Europe converged into a radical right populist party family in the 1990s. He examines the transformation of the Northern League from its regionalist roots while focusing on the party's nationalism, authoritarianism, support for a market economy, opposition to globalization, and scepticism regarding Italian integration into the European Union. He also scrutinizes the Northern League's participation in political power between 2001 and 2006 and its influence on federalism, immigration, economic policy, and European integration. A thorough and thought-provoking work, *The Re-invention of the European Radical Right* offers remarkable insight into the ongoing effects of radical right populism on politics and public policy in Europe.

**La resa dei conti con la Repubblica Sociale Italiana** Jul 01 2022 È vero che in Italia non c'è mai stata una "resa dei conti" con i crimini commessi dai membri della Repubblica Sociale Italiana?

L'interrogativo muove la ricerca esposta in questo libro, che, sulla base di fonti d'archivio finora poco esplorate, prova a ricostruire la difficile attività dei tribunali istituiti il 22 aprile del 1945 per punire i reati di collaborazionismo: le Corti d'Assise Straordinarie. La tesi che emerge dal volume sfuma il giudizio della "mancata resa dei conti col fascismo", restituendo il contesto complesso entro cui le corti lombarde si trovarono ad operare e gli sforzi effettuati dal fronte ciellenista per dare corso ad una giustizia "legale", all'insegna di una ricostruzione in senso democratico del Paese.

**Deliciae Fictiles V. Networks and Workshops** Jul 29 2019 Temples are the most prestigious buildings in the urban landscape of ancient Italy, emerging within a network of centres of the then-known Mediterranean world. Notwithstanding the fragmentary condition of the buildings[] remains, these monuments [] and especially their richly decorated roofs [] are crucial sources of information on the constitution of political, social and craft identities, acting as agents in displaying the meaning of images. The subject of this volume is thematic and includes material from the Eastern Mediterranean (including Greece and Turkey). Contributors discuss the network between patron elites and specialized craft communities that were responsible for the sophisticated terracotta decoration of temples in Italy between 600 and 100 BC, focusing on the mobility of craft people and craft traditions and techniques, asking how images, iconographies, practices and materials can be used to explain the organization of ancient production, distribution and consumption. Special attention has been given to relations with the Eastern Mediterranean (Greece and Anatolia). Investigating craft communities,

workshop organizations and networks has never been thoroughly undertaken for this period and region, nor for this exceptionally rich category of materials, or for the craftspeople producing the architectural terracottas. Papers in this volume aim to improve our

understanding of roof production and construction in this period, to reveal relationships between main production centres, and to study the possible influences of immigrant craftspeople.
