[French Art Song](#) Feb 29 2020 A ground-breaking study of the musical and literary priorities, professional practices and creative interactions that shaped one of the most adventurous artforms of the Belle Époque.

[Ravel](#) Jun 02 2020 This new biography of Maurice Ravel (1875-1937), by one of the leading scholars of nineteenth- and twentieth-century French music, is based on a wealth of written and oral evidence, some newly translated and some derived from interviews with the composer's friends and associates. As well as describing the circumstances in which Ravel composed, the book explores new evidence to present radical views of the composer's background and upbringing, his notorious failure in the Prix de Rome, his incisive and often combative character, his sexual preferences, and his long final illness. It also contains the most detailed account so far published of his hugely successful American tour of 1928. The world of Maurice Ravel—including friendships (and some fallings-out) with Debussy, Faur, Diaghilev, Gershwin, and Toscanini—is deftly uncovered in this sensitive portrait.

[Ravel: The Illustrated Lives of the Great Composers](#). May 14 2021 It has been said that no music amplifies the French ideals of precision and good taste better than the work of Maurice Ravel, yet his background could scarcely have been more cosmopolitan. The son of a Swiss father and a Basque mother, he was born near St. Jean de Luz in 1875; he died in Paris at the age of sixty-two. His primary inspiration, and in consequence the character of his best music, came from art and life. He was exceptionally sensitive to the new current of thought and the aesthetic changes in the Arts following the First World War. Indeed, the music of Ravel is an accurate reflection of the man himself. This lavishly illustrated book which sets the work and achievements of Ravel in the context of the events of his time, will appeal to the general music lover and also to the serious student.

[Classical Music](#) Jul 16 2021 MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's "Rite of Spring" cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, Classical Music provides such essential information as: * Rankings of the top 50 composers (Bach is #1. Borodin is #50) * A detailed and anecdotal look at each composer's life and work * The five primary works of each composer and specific recommended CDs for each. * Further great works of each composer--if you really like him * Concise explanations of musical terminology, forms, and periods * A guide to the parts and history of the symphony orchestra "This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads." --The Washington Post "One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature...[He] has raised music appreciation from a racket to a service." --The Arizona Daily Star

[A French Song Companion](#) Jan 28 2020 A French Song Companion is an indispensable guide to the modern repertoire and the most comprehensive book of French mélodie in any language. Noted accompanist Graham Johnson provides repertoire guides to the work of over 150 composers--the majority of them from France but including British, American, German, Spanish, and Italian musicians who have written French vocal music. The book contains major articles on Fauré, Duparc, Debussy, Ravel, and Poulenc, as well as essays on Bizet, Chabrier, Gounod, Chausson, Hahn, and Satie, and important reassessments of such composers as Massenet, Koehlin, and Leguérney. The book combines these articles with the complete texts in English of over 700 songs, all translated by Richard Stokes, making it also a treasury of French poetry from the fifteenth through the twentieth centuries. The translations alone will prove invaluable to music lovers and performers; combined with the biographical articles, they become the ideal map for exploring this exciting and diverse repertoire.

[Sounding Authentic](#) Jun 22 2019 Sounding Authentic considers the intersecting influences of nationalism, modernism, and technological

innovation on representations of ethnic and national identities in twentieth-century art music. Author Joshua S. Walden discusses these forces through the prism of what he terms the "rural miniature": short violin and piano pieces based on folk song and dance styles. This genre, mostly inspired by the folk music of Hungary, the Jewish diaspora, and Spain, was featured frequently on recordings and performance programs in the early twentieth century. Furthermore, *Sounding Authentic* shows how the music of urban Romany ensembles developed into nineteenth-century repertoire of virtuoso works in the style honrogris before ultimately influencing composers of rural miniatures. Walden persuasively demonstrates how rural miniatures represented folk and rural cultures in a manner that was perceived as authentic, even while they involved significant modification of the original sources. He also links them to the impulse toward realism in developing technologies of photography, film, and sound recording. *Sounding Authentic* examines the complex ways the rural miniature was used by makers of nationalist agendas, who sought folkloric authenticity as a basis for the construction of ethnic and national identities. The book also considers the genre's reception in European diaspora communities in America where it evoked and transformed memories of life before immigration, and traces how many rural miniatures were assimilated to the styles of American popular song and swing. Scholars interested in musicology, ethnography, the history of violin performance, twentieth-century European art music, the culture of the Jewish Diaspora and more will find *Sounding Authentic* an essential addition to their library.

Bolero - The Life of Maurice Ravel Aug 24 2019 A charming biography of Maurice Ravel, showing the relationships and events that shaped the music of France's most successful composer. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Piano in Chamber Ensemble, Third Edition Aug 17 2021 In this expanded and updated edition, *The Piano in Chamber Ensemble: An Annotated Guide* features over 3200 compositions, from duos to octets, by more than 1600 composers. Maurice Hinson and Wesley Roberts catalog published works for piano with two or more instruments with information on performance level, length, individual movements, overall style, and publisher. Divided into sections according to the number and types of instruments involved, *The Piano in Chamber Ensemble* then subdivides entries according to the actual scoring. Keyboard, string, woodwind, brass, and percussion players and teachers will find a wealth of chamber works from all periods in this invaluable guide.

Composing for Voice May 02 2020 *Composing for Voice: Exploring Voice, Language and Music, Second Edition*, elucidates how language and music function together from the perspectives of composers, singers and actors, providing an understanding of the complex functions of the voice pedagogically, musicologically and dramatically. *Composing for Voice* examines the voice across a wide range of musical genres (including pop, jazz, folk, classical, opera and the musical) and explores the fusion of language and music that is unique to song. This second edition is enlarged to attract a wider readership amongst all music and theatre professionals and educators, whilst also engaging an international audience with the introduction of new co-author Maria Huesca. New to the second edition: A review of the history of singing An overview of the development of melisma A chapter to help performers understand each other, as singers and actors often receive disparate educations Case studies and qualitative research around song, lyric and meaning A discussion of the synthetic voice An introduction to the concept of embodied composition Interviews with composers and singers Summaries of various vocal styles A website with links to performances discussed, as well as related workshops: www.composingforvoice.com *Composing for Voice: Exploring Voice, Language and Music, Second Edition*, articulates possibilities for the practical exploration of language, music and voice by composers, singers and actors.

Famous Composers - Diseases Reloaded Sep 25 2019 The life and death, but also the creative work of famous musicians is closely linked to their personal medical histories. In "Famous Composers - Diseases Reloaded" these case histories are vividly reconstructed on the basis of authentic biographical testimonies and closely linked to the personalities of the musicians. The latest research findings on the pathophysiology of these composers will be woven into the overall picture. Was Paganini's "devilishness" caused by a hereditary disease? Did Scarlatti have strange signs of illness on his fingers? What did Bach really die of? How did "Christel" from a dubious milieu change Schumann's entire life? What aggravated Ravel's underlying illness so that he did not complete a single composition in the last five years before his death? How did Tárrega manage to play the guitar again after his stroke with hemiplegia? Did the Brazilian Villa-Lobos' worldwide reputation help him live longer thanks to the best treatment available to him? Andreas Otte, physician and musician, has incorporated the latest medical history research into the composers' pathographies. This book is an exciting and "well-tempered" reading experience not only for physicians, music lovers, musicologists and musicians, but for all readers who want to develop a basic understanding of the pathophysiology and life scores of these great masters under current conditions from today's perspective.

Songs 1896-1914 Jan 22 2022 As a young composer in the years preceding World War I, Maurice Ravel brought to the art of the song that distinctive fusion of classicism and the modern spirit that characterized all his musical works and helped earn him a reputation as one of the most important modern French song composers. This superb collection includes many of his most admired and performed songs and song cycles, edited and introduced by Arbie Orenstein, the world's leading Ravel scholar, and eloquently displays the artistry that has made Ravel a favorite of 20th-century singers and their audiences. Many of the songs are settings of texts by such major poets as Paul Verlaine and Stéphane Mallarmé. Reprinted here from authoritative French editions and provided with new English translations of the original French texts, they include: Sainte; Epigrammes de Clément Marot; Manteau de fleurs; Sheherazade; Cinq Melodies populaires grecques; Noël des jouteurs; Histories naturelles; Vocalise-Etude en forme de Habanera; Les Grands Vents venus d'outremer; Sur l'herbe; Chants popularizes; Trois Poemes de Stéphane Mallarmé; and Deux Melodies hebraïques."

The Classical Music Lover's Companion to Orchestral Music Oct 19 2021 An invaluable guide for lovers of classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.
