Body Love: A Companion Journal to The Invitation Sep 06 2020 The journal pages contain a checklist of suggestions on how to show your body love on a daily basis. There are also blank boxes for you to write in your answers. You might add other boxes for other actions and rituals--like "doing my physical therapy exercises," or even highly targeted interventions like "massaging the scar tissue on my knee." It's our perspective that humans are incarnate spirits, woven of consciousness and energy. While we have a permanent consciousness (or "soul") that isn't anchored to the body, we are living in a body. Our bodies' health responds to our thoughts, as well as to the thoughts of the collective culture. When those thoughts are negative, they can limit our freedom and happiness. Those beliefs can be unwound. Body Love Journaling, and the suggested self-care practices in the checklists, are designed to support a reintegration: a restitching together of the body, mind, and spirit. In addition to these exercises, questions are sprinkled throughout the book. They were created to help you evoke and examine the cultural beliefs that you've inherited about your body. They are questions about sex, shape, size, function, illness, and aging. About who your body belongs to, and who can make decisions about it. About what it can eat or drink or ingest. About what medical procedures are allowed and disallowed--even about how your body should be dressed. We ask things like: "Is your body here to please others?" "How is a body's quality related to a person's worth?" Our hope is that, upon examination, there are some beliefs you might like to leave behind forever!

The Story of the Human Body Sep 18 2021 *Story of the Human Body* explores how the way we use our bodies is all wrong. From an evolutionary perspective, if normal is defined as what most people have done for millions of years, then it's normal to walk and run 9 -15 kilometers a day to hunt and gather fresh food which is high in fibre, low in sugar, and barely processed. It's also normal to spend much of your time nursing, napping, making stone tools, and gossiping with a small band of people. Our 21st-century lifestyles, argues Dan Lieberman, are out of synch with our stone-age bodies. Never have we been so healthy and long-lived - but never, too, have we been so prone to a slew of problems that were, until recently, rare or unknown, from asthma, to diabetes, to - scariest of all - overpopulation. *Story of the Human Body* asks how our bodies got to be the way they are, and considers how that evolutionary history - both ancient and recent - can help us evaluate how we use our bodies. How is the present-day state of the human body related to the past? And what is the human body's future? Daniel Lieberman is the Chair of the Department of Human Evolutionary Biology at Harvard and a leader in the field. He has written nearly 100 articles, many appearing in the journals *Nature* and *Science*, and his cover story on barefoot running in *Nature* was picked up by major media the world over. His research and discoveries have been highlighted in newspapers and magazines, including *The New York Times*, *The Boston Globe*, *Discover*, and *National Geographic*.

Miss Marple Bundle Aug 06 2020 The Murder at the Vicarage is Agatha Christie's first mystery to feature the beloved investigator Miss Marple—as a dead body in a clergyman's study proves to the indomitable sleuth that no place, holy or otherwise, is a sanctuary from homicide. Miss Marple encounters a compelling murder mystery in the sleepy little village of St. Mary Mead, where under the seemingly peaceful exterior of an English country village lurks intrigue, guilt, deception and death. Colonel Protheroe, local magistrate and overbearing land-owner is the most detested man in the village. Everyone—even in the vicar--wishes he were dead. And very soon he is--shot in the head in the vicar's own study. Faced with a surfeit of suspects, only the inscrutable Miss Marple can unravel the tangled web of clues that will lead to the unmasking of the killer.
