A Lady's Life in the Rocky Mountains      Nov 19 2021 A Lady's Life in the Rocky Mountains is a travel book, by Isabella Bird, describing her 1873 trip to the Rocky Mountains of Colorado. The book is a compilation of letters that Isabella Bird wrote to her sister, Henrietta. In 1872, Isabella left Britain, going first to Australia, then to Hawaii, which she refers to as the Sandwich Islands. In 1873 she travelled to Colorado, then the Colorado Territory. After living a time in Hawaii, she takes a boat, to San Francisco. She passed the area of Lake Tahoe, to Cheyenne, Wyoming, to ultimate Estes Park, Colorado, also elsewhere in and near the Rocky Mountains of the Colorado Territory. Early in Colorado, she met Rocky Mountain Jim, described as a desperado, but with whom she got along quite well. She described him as, "He is a man whom any woman might love but no sane woman would marry." She was the first white woman to stand atop Longs Peak, Colorado, pointing out that Jim "dragged me up, like a bale of goods, by sheer force of muscle." Rocky Mountain Jim treated her quite well, and it is sad to note, he was shot to death, seven months later. After many other adventures, Isabella Bird ultimately took a train, east. Upon publication, A Lady's Life in the Rocky Mountains proved an "instant bestseller" and is still considered to be her best work.

AARP The Inner Pulse      Aug 05 2020 AARP Digital Editions offer you practical tips, proven solutions, and expert guidance. In The Inner Pulse, Dr. Marc Siegel explores the secret code of sickness and health. Many doctors overlook the seemingly inexplicable tragedies and recoveries that happen in hospitals every day, opting to view them simply as aberrations from the medical norm. In this book, Dr. Siegel draws from his decades of experience treating patients and explores the sometimes miraculous effects that the spirit and emotion can have on disease and healing. The inner pulse is the essence that links the soul to the mind and body, the marker that predicts whether a person's life force is fading or strengthening. This book shows you how to tap into your inner pulse and even how to influence it. Explores how your inner pulse can alert you to what is going on in your body Offers a new perspective on the positive and negative effects of the mind on illness and healing Includes dramatic case stories of Dr. Siegel's work with his own patients—those who have healed and those who have not Exploring the uncanny world where expectation and outcome are driven by a patient's personal intuition, this book will give you a deeper understanding of how the mind relates to disease and how the mind and the body working in sync can help heal.

Ida: A Sword Among Lions      Mar 31 2020 Pulitzer Prize Board citation to Ida B. Wells, as an early pioneer of investigative journalism and civil rights icon From a thinker who Maya Angelou has praised for shining "a brilliant light on the lives of women left in the shadow of history," comes the definitive biography of Ida B. Wells—crusading journalist and pioneer in the fight for women's suffrage and against segregation and lynchings Ida B. Wells was born into slavery and raised in the Victorian age yet emerged—through her fierce political battles and progressive thinking—as the first "modern" black women in the nation's history. Wells began her activist career when she tried to segregate a first-class railway car in Memphis. After being thrown bodily off the car, she wrote about the incident for black Baptist newspapers, thus beginning her career as a journalist. But her most abiding fight would be the one against lynching, a crime in which she saw all the themes she held most dear coalesce: sexuality, race, and the law.

The Immortal Life of Henrietta Lacks      Sep 29 2022 For use in schools and libraries only. Documents the story of how scientists took cells from an unsuspecting descendant of freed slaves and created a human cell line that has been kept alive indefinitely, enabling numerous medical and scientific discoveries.

Teach Us to Sit Still      Dec 29 2019 "Teach Us to Sit Still is the visceral, thought-provoking, and inexplicably entertaining story of how Tim Parks found himself in serious pain, how doctors failed to help, and the quest he took to find his own way out. Overwhelmed by a crippling condition which nobody could explain or relieve, Parks follows a fruitless journey through the conventional medical system only to find relief in the most unexpected place: a breathing exercise that eventually leads him to take up

meditation. This was the very last place Parks anticipated finding answers; he was about as far from New Age as you can get. As everything that he once held true is called into question, Parks confronts the relationship between his mind and body, the hectic modern world that seems to demand all our focus, and his chosen life as an intellectual and writer. He is drawn to consider the effects of illness on the work of other writers, the role of religion in shaping our sense of self, and the influence of sports and art on our attitudes toward health and well-being. Most of us will fall ill at some point; few will describe that journey with the same verve, insight, and radiant intelligence as Tim Parks"--Provided by publisher.

To Repair a Broken World Apr 12 2021 The authoritative biography of Henrietta Szold, founder of Hadassah, introduces a new generation to a remarkable leader who fought for women's rights and the poor. Born in Baltimore in 1860, Henrietta Szold was driven from a young age by the mission captured in the concept of tikkun olam, "repair of the world." Herself the child of immigrants, she established a night school, open to all faiths, to teach English to Russian Jews in her hometown. She became the first woman to study at the Jewish Theological Seminary, and was the first editor for the Jewish Publication Society. In 1912 she founded Hadassah, the international women's organization dedicated to humanitarian work and community building. A passionate Zionist, Szold was troubled by the Jewish-Arab conflict in Palestine, to which she sought a peaceful and equitable solution for all. Noted Israeli historian Dvora Hachohen captures the dramatic life of this remarkable woman. Long before anyone had heard of intersectionality, Szold maintained that her many political commitments were inseparable. She fought relentlessly for women's place in Judaism and for health and educational networks in Mandate Palestine. As a global citizen, she championed American pacifism. Hachohen also offers a penetrating look into Szold's personal world, revealing for the first time the psychogenic blindness that afflicted her as the result of a harrowing breakup with a famous Talmudic scholar. Based on letters and personal diaries, many previously unpublished, as well as thousands of archival documents scattered across three continents, *To Repair a Broken World* provides a wide-ranging portrait of a woman who devoted herself to helping the disadvantaged and building a future free of need.

The Tidal Zone Jun 26 2022 Adam is a stay-at-home dad who is also working on a history of the bombing and rebuilding of Coventry Cathedral. He is a good man and he is happy. But one day, he receives a call from his daughter's school to inform him that, for no apparent reason, fifteen-year-old Miriam has collapsed and stopped breathing. In that moment, he is plunged into a world of waiting, agonising, not knowing. The story of his life and the lives of his family are rewritten and re-told around this shocking central event, around a body that has inexplicably failed. In this exceptionally courageous and unflinching novel of contemporary life Sarah Moss goes where most of us wouldn't dare to look, and the result is riveting - unbearably sad, but also miraculously funny and ultimately hopeful. *The Tidal Zone* explores parental love, overwhelming fear, illness and recovery. It is about clever teenagers and the challenges of marriage. It is about the NHS, academia, sex and gender in the twenty-first century, the work-life juggle, and the politics of packing lunches and loading dishwashers. It confirms Sarah Moss as a unique voice in modern fiction and a writer of luminous intelligence.

Summary of The Immortal Life of Henrietta Lacks May 26 2022 Summary of The Immortal Life of Henrietta Lacks Rebecca Skloot, a specialist in science and medicine, authored *The Immortal Life of Henrietta Lacks*, which has become one of her best-selling books. The book was published in 2010 and it remained on The New York Best seller list for a long time. This book is about the subjects of science and medicine, focusing on the story of a young woman who is struggling hard against cervical cancer. The story shows how this young patient and all around her are affected by the disease, and the benefits to scientific research that result from her disease. The book also brings into focus the social class and racism perspective which made the book a best seller. The author writes in the book that she got most of the information by studying the journal of the young woman's daughter. Because this did not provide enough information to produce the book, she did more research on other content so she could find enough detail to present the whole story. In addition, Oprah Winfrey came up with the idea to turn the story into a Home Box Office movie. Overall, the book is an interesting read, which revolves around social and race issues, highlighting the plight of African-American people who have suffered considerably in the United States. Here is a Preview of What You Will Get: ? A Full Book Summary ? An Analysis ? Fun quizzes ? Quiz Answers ? Etc. Get a copy of this summary and learn about the book.

Ethical & Legal Issues in Canadian Nursing Jul 24 2019 The only Canadian nursing book available that fully covers the often intertwined Ethical and Legal issues that healthcare professionals face today! Focused solely on the ever-changing, and often complex healthcare landscape in Canada, *Ethical & Legal Issues in Canadian Nursing, Third Edition*, expertly offers readers an uncomplicated discussion and practical approach to this multifaceted topic. The book aims to prepare students for the moral and legal realities they will face in practice, and to provide them with the necessary tools to confidently face the most challenging and difficult situations they will encounter. . Written in a clear, straightforward style . Appropriate coverage of both ethical and legal issues . Provides a comprehensive introduction to the theoretical background of the topic . Presents information in a practical way - the way students will encounter it in day-to-day practice . Numerous case studies and examples, all nursing-specific . Incorporation of the revised CNA Code of Ethics . Discussion of privacy/confidentiality issues that accompany the increased use of technology in healthcare settings . Addition of community health nursing examples . Broad coverage of the ethical considerations unique to Canada's culturally diverse population . New suite of electronic tools for both instructors and students

Given to the Sea Aug 24 2019 Kings and queens rise and fall, loyalties collide, and romance blooms in a world where the sea is rising--and cannot be escaped. The first of an expansive fantasy duology from an up-and-coming YA author.

The Skeleton Cupboard: The Making of a Clinical Psychologist Dec 21 2021 The gripping, unforgettable, and deeply affecting story of a young clinical psychologist learning how she can best help her patients, The Skeleton Cupboard is a riveting and revealing memoir that offers fascinating insight into the human mind. In The Skeleton Cupboard, Professor Tanya Byron recounts the stories of the patients who most influenced her career as a mental health practitioner. Spanning her years of training—years in which Byron was forced her to contend with the harsh realities of the lives of her patients and confront a dark moment in her own family's past—The Skeleton Cupboard is a compelling and compassionate account of how much health practitioners can learn from those they treat. Among others, we meet Ray, a violent sociopath desperate to be shown tenderness and compassion; Mollie, a talented teenager intent on starving herself; and Imogen, a twelve-year old so haunted by a secret that she's intent on killing herself. Byron brings the reader along as she uncovers the reasons each of these individuals behave the way they do, resulting in a thrilling, compulsively readable psychological mystery that sheds light on mental illness and what its treatment tells us about ourselves.

The Best American Science and Nature Writing 2015 Feb 29 2020 Presents a collection of nature and science essays published in American periodicals in 2014.

King's Mistress, Queen's Servant Jun 22 2019 Henrietta Howard, later Countess of Suffolk, was the long-term mistress and confidante of King George II. She was also, as Tracy Borman's wonderfully readable biography reveals, a dedicated patron of the arts; a lively and talented intellectual in her own right; a victim of adultery; a passionate advocate for the rights of women long before the dawn of feminism. Above all she was a woman of reason in an Age of Reason. The mark that this enigmatic and largely neglected royal mistress left on the society and culture of early Georgian England was to resonate well beyond the confines of the court, and can still be felt today.

Acres of Skin Sep 25 2019 At a time of increased interest and renewed shock over the Tuskegee syphilis experiments, Acres of Skin sheds light on yet another dark episode of American medical history. In this disturbing expose, Allen M. Hornblum tells the story of Philadelphia's Holmesburg Prison.

Summary and Analysis of The Immortal Life of Henrietta Lacks Oct 19 2021 So much to read, so little time? Get an in-depth summary of The Immortal Life of Henrietta Lacks, the #1 bestseller about science, race, and medical ethics. For decades, scientists have been using "HeLa" cells in biological research, from developing the polio vaccine and studying the nature of cancer to observing how human biology behaves in outer space. This famous cell line began as a sample taken from a poor African American mother of five named Henrietta Lacks. A cancer patient, Henrietta Lacks went through medical testing but never gave consent for the use of her cells. She died of cervical cancer in 1951, without ever knowing that the samples were intended for extensive medical research. This summary of the #1 New York Times bestseller by Rebecca Skloot tells Henrietta's story and reveals what happened when her family found out that her cells were being bought and sold in labs around the world. With historical context, character profiles, a timeline of key events, and other features, this summary and analysis of The Immortal Life of Henrietta Lacks is intended to complement your reading experience and bring you closer to a great work of nonfiction.

Culturing Life Dec 09 2020 How did cells make the journey, one we take so much for granted, from their origin in living bodies to something that can be grown and manipulated on artificial media in the laboratory, a substantial biomass living outside a human body, plant, or animal? This is the question at the heart of Hannah Landecker's book. She shows how cell culture changed the way we think about such central questions of the human condition as individuality, hybridity, and even immortality and asks what it means that we can remove cells from the spatial and temporal constraints of the body and "harness them to human intention." Rather than focus on single discrete biotechnologies and their stories--embryonic stem cells, transgenic animals--Landecker documents and explores the wider genre of technique behind artificial forms of cellular life. She traces the lab culture common to all those stories, asking where it came from and what it means to our understanding of life, technology, and the increasingly blurry boundary between them. The technical culture of cells has transformed the meaning of the term "biological," as life becomes disembodied, distributed widely in space and time. Once we have a more specific grasp on how altering biology changes what it is to be biological, Landecker argues, we may be more prepared to answer the social questions that biotechnology is raising.

Henrietta Lacks the Untold Story Jun 14 2021 New Author Ron Lacks, tells a behind the scenes story of what happened in the past 9 years to his family in his new book Henrietta Lacks The Untold Story Ron Lacks is the oldest grandson of Henrietta Lacks. He takes you on the inside of a story that has haunted him for the past 9 years! This book will definitely answer your questions as to how the family is really doing now. From Clover to Baltimore... giving you an inside look at what happen behind closed doors, that ultimately divided a once strong family.

Henrietta Lacks Jan 10 2021 Who Was Henrietta Lacks? On a bright day of August 1st, in the year of 1920, Eliza and Johnny Pleasant brought forth a girl Loretta Pleasant, who's name was later on changed to Henrietta Lacks for reasons unknown to the family. As she grew up, she was given the nickname Hennie. At four years of age her birth mother died of birth complications from her tenth child. Following the hardship of taking care of the children solely, after the demise of his wife, Johnny moved to Clover, Virginia. He then gave guardianship of his children to his folks. Lacks moved in with her grandfather Tommy Lacks, in a two-story log cabin initially owned by her great grandfather and great uncle (it once served as slaves' quarter on the farm). She shared a room with David 'Day' Lacks, nine years old at the time. He was her cousin, who would later be her husband, and had been there since 1905.

The Immortal Life of Henrietta Lacks Sep 17 2021 How to Use This Book This book is to be used alongside the bestselling book, The Immortal Life of Henrietta Lacks by Rebecca Skloot for anyone interested in

learning about one of the most important tools in medicine, vital for developing the polio vaccine, cloning, gene mapping, and more, the HeLa cells. This is also the story of the collision between ethics, race, and medicine; of scientific discovery and faith healing; and a daughter consumed with questions about the mother she never knew. For students: The study questions are in order and follow Rebecca Skloot's narrative. Answer questions as you read the book. Answers follow each question. For teachers: This is an easy and interesting resource to help your students learn about a specific tool used in medicine, the HeLa cell and how it originated and the impact its discovery had on medicine and the population. Use your own unique teaching style to supplement the Pembroke Notes with engaging activities and links for further investigating. With the new Common Core standards and a push to increased rigor, I have added a Writing Workshop section at the end of my book to help you with writing assignments. For homeschools: Your high school student will love the easy guide to help him/her in her reading *The Immortal Life of Henrietta Lacks*. Parents, be prepared for active discussions with your teenager while you read along. A Writing Workshop is supplied at the end of the book as a guide."

Life, Death, and Immortality Aug 17 2021 Explains the purpose of material and spiritual existence. Begins and ends by examining the purpose of life and death, achieving happiness, and developing loving relationships.

In the Shadow of Memory Jun 02 2020 In December 1988 Floyd Skloot was stricken by a virus that targeted his brain, leaving him totally disabled and utterly changed. In *The Shadow of Memory* is an intimate picture of what it is like to find oneself possessed of a ravaged memory and unstable balance and confronted by wholesale changes in both cognitive and emotional powers. Skloot also explores the gradual reassembling of himself, putting together his scattered memories, rediscovering the meaning of childhood and family history, and learning a new way to be at home in the world. Combining the author's skills as a poet and novelist, this book finds humor, meaning, and hope in the story of a fragmented life made whole by love and the courage to thrive.

Grace Williams Says It Loud Nov 07 2020 This isn't an ordinary love story. But then Grace isn't an ordinary girl. 'Disgusting,' said the nurse. And when no more could be done, they put her away, aged eleven. On her first day at the Briar Mental Institute, Grace meets Daniel. He sees a different Grace: someone to share secrets and canoodle with, someone to fight for. Debonair Daniel, who can type with his feet, fills Grace's head with tales from Paris and the world beyond. This is Grace's story: her life, its betrayals and triumphs, disappointment and loss, the taste of freedom; roses, music and tiny scraps of paper. Most of all, it is about the love of a lifetime.

The Red Market May 02 2020 "An unforgettable nonfiction thriller, expertly reported...A tremendously revealing and twisted ride, where life and death are now mere cold cash commodities." —Michael Largo, author of *Final Exits* Award-winning investigative journalist and contributing *Wired* editor Scott Carney leads readers on a breathtaking journey through the macabre underworld of the global body bazaar, where organs, bones, and even live people are bought and sold on *The Red Market*. As gripping as *CSI* and as eye-opening as *Mary Roach's Stiff*, Carney's *The Red Market* sheds a blazing new light on the disturbing, billion-dollar business of trading in human body parts, bodies, and child trafficking, raising issues and exposing corruptions almost too bizarre and shocking to imagine.

Mother of Modern Evangelicalism Jul 04 2020 Although she was never as prominent as Billy Graham or many of the other iconic male evangelists of the twentieth century, Henrietta Mears was arguably the single most influential woman in the shaping of modern evangelicalism. Her seminal work *What the Bible Is All About* sold millions of copies, and key figures in the early modern evangelical movement like Bill Bright, Harold John Ockenga, and Jim Rayburn frequently cited her teachings as a formative part of their ministry. Graham himself stated that Mears was the most important female influence in his life other than his mother or wife. *Mother of Modern Evangelicalism* is the first comprehensive biography of Henrietta Mears. Arlin Migliazzo uses previously overlooked archival sources and dozens of interviews with Mears associates to assemble a detailed portrait of her life and legacy, including the way she helped steer conservative theology between fundamentalism and liberal modernism with her relentless focus on the Christian life as an act of consecrated service. Readers will find here a religious leader worthy of emulation in today's world—one who sought an alternative to the divisive polemics of her own day, staying fiercely committed to the faith while fighting against the anti-intellectualism and cultural parochialism that had characterized the fundamentalist movement of the early twentieth century. While she never technically delivered a Sunday morning message from the pulpit and refused to be called a preacher, Henrietta Mears's life stands here as a sermon about graceful leadership and faithful engagement with the world.

Summary, Analysis, and Review of Rebecca Skloot's *The Immortal Life of Henrietta Lacks* Oct 07 2020

PLEASE NOTE: This is a key takeaways and analysis of the book and NOT the original book. Start Publishing Notes' Summary, Analysis, and Review of Rebecca Skloot's *The Immortal Life of Henrietta Lacks* includes a summary of the book, review, analysis & key takeaways, and detailed "About the Author" section. PREVIEW: *The Immortal Life of Henrietta Lacks* is a creative non-fiction book that explores the source of HeLa, the most commonly used human cell line in the world. In order to bring its origin to light, Rebecca Skloot weaves together several narrative threads. One is primarily focused on Henrietta Lacks, the woman who, without her knowledge, became central to 20th century biomedical research. Another is the birth of modern biomedical research itself, and its roots in the American eugenics movement. Finally, there is the impact of this research, both of the Lacks Family and on society at large. Skloot divides the book into 3 parts: *Life, Death, and Immortality*, which intertwines a complicated cast of characters and jumps between dramatized historical anecdotes, Skloot's first-person detective work, and a layman's explanations of complicated matters of modern cell biology and medical ethics.

Food, Health and Happiness Feb 08 2021 Oprah Winfrey has spent her life trying to make peace with food, which has been such a source of pleasure and meaning for her. Now Oprah has found ways to have her favorite meals while also controlling her weight, and in Food, Health and Happiness she shares not only her struggles with food but also the recipes that have allowed food to be a source of joy for her again. With help from the chefs who have cooked for her over the years such as Rosie Daley, Art Smith, Mei Lin, Taryn Huebner, and Sonny Sweetman, this is an extraordinarily personal cookbook while also being an invitation to Oprah's many fans to eat both healthfully and happily. From simple pleasures such as 'Unfried Chicken' or 'Turkey Chili' to such celebrations of freshness as 'Farro With Peas, Asparagus, Pesto and Cured Olives' and 'Chilean Sea Bass with Lemon Fennel Chutney,' this is food as it should be: a source of happiness, a ritual to be shared, a celebration of life.

The Immortal Life of Henrietta Lacks Oct 31 2022 #1 NEW YORK TIMES BESTSELLER • "The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly."—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE "MOST INFLUENTIAL" (CNN), "DEFINING" (LITHUB), AND "BEST" (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.

Praying for Sheetrock Jan 28 2020 Finalist for the 1991 National Book Award and a New York Times Notable book, Praying for Sheetrock is the story of McIntosh County, a small, isolated, and lovely place on the flowery coast of Georgia--and a county where, in the 1970s, the white sheriff still wielded all the power, controlling everything and everybody. Somehow the sweeping changes of the civil rights movement managed to bypass McIntosh entirely. It took one uneducated, unemployed black man, Thurnell Alston, to challenge the sheriff and his courthouse gang--and to change the way of life in this community forever. "An inspiring and absorbing account of the struggle for human dignity and racial equality" (Coretta Scott King)

Study Guide: the Immortal Life of Henrietta Lacks by Rebecca Skloot (SuperSummary) May 14 2021 SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 38-page guide for "The Immortal Life of Henrietta Lacks" by Rebecca Skloot includes detailed chapter summaries and analysis covering 38 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 10 important quotes, discussion topics, and key themes like Scientific Ethics and Informed Consent.

The Ghost Map Sep 05 2020 A National Bestseller, a New York Times Notable Book, and an Entertainment Weekly Best Book of the Year from the author of Extra Life "By turns a medical thriller, detective story, and paean to city life, Johnson's account of the outbreak and its modern implications is a true page-turner." —The Washington Post "Thought-provoking." —Entertainment Weekly It's the summer of 1854, and London is just emerging as one of the first modern cities in the world. But lacking the infrastructure--garbage removal, clean water, sewers--necessary to support its rapidly expanding population, the city has become the perfect breeding ground for a terrifying disease no one knows how to cure. As the cholera outbreak takes hold, a physician and a local curate are spurred to action--and ultimately solve the most pressing medical riddle of their time. In a triumph of multidisciplinary thinking, Johnson illuminates the intertwined histories of the spread of disease, the rise of cities, and the nature of scientific inquiry, offering both a riveting history and a powerful explanation of how it has shaped the world we live in.

The Monkey Wars Oct 26 2019 The controversy over the use of primates in research admits of no easy answers. We have all benefited from the medical discoveries of primate research--vaccines for polio, rubella, and hepatitis B are just a few. But we have also learned more in recent years about how intelligent apes and monkeys really are: they can speak to us with sign language, they can even play video games (and are as obsessed with the games as any human teenager). And activists have also uncovered

widespread and unnecessarily callous treatment of animals by researchers (in 1982, a Silver Spring lab was charged with 17 counts of animal cruelty). It is a complex issue, made more difficult by the combative stance of both researchers and animal activists. In *The Monkey Wars*, Deborah Blum gives a human face to this often caustic debate--and an all-but-human face to the subjects of the struggle, the chimpanzees and monkeys themselves. Blum criss-crosses America to show us first hand the issues and personalities involved. She offers a wide-ranging, informative look at animal rights activists, now numbering some twelve million, from the moderate Animal Welfare Institute to the highly radical Animal Liberation Front (a group destructive enough to be placed on the FBI's terrorist list). And she interviews a wide variety of researchers, many forced to conduct their work protected by barbed wire and alarm systems, men and women for whom death threats and hate mail are common. She takes us to Roger Fouts's research center in Ellensburg, Washington, where we meet five chimpanzees trained in human sign language, and we visit LEMSIP, a research facility in New York State that has no barbed wire, no alarms--and no protesters chanting outside--because its director, Jan Moor-Jankowski, listens to activists with respect and treats his animals humanely. And along the way, Blum offers us insights into the many side-issues involved: the intense battle to win over school kids fought by both sides, and the danger of transplanting animal organs into humans. "As it stands now," Blum concludes, "the research community and its activist critics are like two different nations, nations locked in a long, bitter, seemingly intractable political standoff....But if you listen hard, there really are people on both sides willing to accept and work within the complex middle. When they can be freely heard, then we will have progressed to another place, beyond this time of hostilities." In *The Monkey Wars*, Deborah Blum gives these people their voice.

*The Immortal Life of Henrietta Lacks* Aug 29 2022 THE IMMORTAL LIFE OF HENRIETTA LACKS, NOW AN HBO FILM STARRING OPRAH WINFREY & ROSE BYRNE "No dead woman has done more for the living . . . A fascinating, harrowing, necessary book" Hilary Mantel, *The Guardian* Her name was Henrietta Lacks, but scientists know her as HeLa. Born a poor black tobacco farmer, her cancer cells - taken without her knowledge - became a multimillion-dollar industry and one of the most important tools in medicine. Yet Henrietta's family did not learn of her 'immortality' until more than twenty years after her death, with devastating consequences . . . Rebecca Skloot's fascinating account is the story of the life, and afterlife, of one woman who changed the medical world forever. Balancing the beauty and drama of scientific discovery with dark questions about who owns the stuff our bodies are made of, *The Immortal Life of Henrietta Lacks* is an extraordinary journey in search of the soul and story of a real woman, whose cells live on today in all four corners of the world. "An extraordinary mix of memoir and science reveals the story of how one woman's cells have saved countless lives" *Daily Telegraph* "A heartbreaking account of racism and injustice . . . Moving and magnificent" *Metro*

*The Mayo Clinic* Feb 20 2022 Based on the PBS documentary by Ken Burns, Erik Ewers, and Christopher Loren Ewers. On September 30, 1889, W.W. Mayo and his sons Will and Charlie performed the very first operation at a brand-new Catholic hospital in Rochester, Minnesota. It was called Saint Marys. The hospital arose out of the devastation of a tornado that had struck the town six years earlier. After the storm, Mother Alfred Moes of the Sisters of Saint Francis told the Mayos that she had a vision of building a hospital

that would "become world renowned for its medical arts." Based on the film by acclaimed documentary filmmaker Ken Burns, *The Mayo Clinic: Faith, Hope, Science* chronicles the history of this unique organization, from its roots as an unlikely partnership between a country doctor and a Franciscan order of nuns to its position today as a worldwide model for patient care, research, and education. Featuring more than 400 compelling archival and modern images, as well as the complete script from the film, the book demonstrates how the institution's remarkable 150-year history continues to inspire the way medicine is practiced there today. In addition, a series of case studies reveals patients, doctors, and nurses in their most private moments as together they face difficult diagnoses and embark on uncertain treatments. The film and this companion book tell the story of an organization that has managed to stay true to its primary value—the needs of the patient come first. Together, they make an important contribution to the critical discussions about the delivery of health care today in America ... and the world.

**The Life of Henrietta Anne** Mar 24 2022 Henrietta Anne Stuart, youngest child of Charles I and Henrietta Maria, was born in June 1644 in the besieged city of Exeter at the very height of the English Civil War. The hostilities had separated her parents and her mother was on the run from Parliamentary forces when she gave birth with only a few attendants on hand to give her support. Within just a few days she was on her way to the coast for a moonlit escape to her native France, leaving her infant daughter in the hands of trusted supporters. A few years later Henrietta Anne would herself be whisked, disguised as a boy, out of the country and reunited with her mother in France, where she remained for the rest of her life. Henrietta's fortunes dramatically changed for the better when her brother Charles II was restored to the throne in 1660. After being snubbed by her cousin Louis XIV, she would eventually marry his younger brother Philippe, Duc d'Orleans and quickly become one of the luminaries of the French court, although there was a dark side to her rise to power and popularity when she became embroiled in love affairs with her brother in law Louis and her husband's former lover, the dashing Comte de Guiche, giving rise to several scandals and rumors about the true parentage of her three children. However, Henrietta Anne was much more than just a mere court butterfly, she also possessed considerable intelligence, wit and political acumen, which led to her being entrusted in 1670 with the delicate negotiations for the Secret Treaty between her brother Charles II and cousin Louis XIV, which ensured England's support of France in their war against the Dutch.

**Random Family** Nov 27 2019 This New York Times bestseller intimately depicts urban life in a gripping book that slips behind cold statistics and sensationalism to reveal the true sagas lurking behind the headlines of gangsta glamour. In her extraordinary bestseller, Adrian Nicole LeBlanc immerses readers in the intricacies of the ghetto, revealing the true sagas lurking behind the headlines of gangsta glamour, gold-drenched drug dealers, and street-corner society. Focusing on two romances—Jessica's dizzying infatuation with a hugely successful young heroin dealer, Boy George, and Coco's first love with Jessica's little brother, Cesar—*Random Family* is the story of young people trying to outrun their destinies. Jessica and Boy George ride the wild adventure between riches and ruin, while Coco and Cesar stick closer to the street, all four caught in a precarious dance between survival and death. Friends get murdered; the DEA and FBI investigate Boy George; Cesar becomes a fugitive; Jessica and Coco endure homelessness, betrayal, the heartbreaking separation of prison, and, throughout it all, the insidious damage of poverty. Charting the tumultuous cycle of the generations—as girls become mothers, boys become criminals, and hope struggles against deprivation—LeBlanc slips behind the cold statistics and sensationalism and comes back with a riveting, haunting, and true story.

**The Tale of Jemima Puddle-Duck** Mar 12 2021 Her sister-in-law, Mrs. Rebecca Puddle-duck, was perfectly willing to leave the hatching to some one else—"I have not the patience to sit on a nest for twenty-eight days; and no more have you, Jemima. You would let them go cold; you know you would!"

**Irrepressible** Jul 16 2021 Raised like a princess in one of the most powerful families in the American South, Henrietta Bingham was offered the helm of a publishing empire. Instead, she ripped through the Jazz Age like an F. Scott Fitzgerald character: intoxicating and intoxicated, selfish and shameless, seductive and brilliant, endearing and often terribly troubled. In New York, Louisville, and London, she drove both men and women wild with desire, and her youth blazed with sex. But her love affairs with women made her the subject of derision and caused a doctor to try to cure her queerness. After the speed and pleasure of her early days, the toxicity of judgment from others coupled with her own anxieties resulted in years of addiction and breakdowns. And perhaps most painfully, she became a source of embarrassment for her family—she was labeled "a three-dollar bill." But forebears can become fairy-tale figures, especially when they defy tradition and are spoken of only in whispers. For the biographer and historian Emily Bingham, the secret of who her great-aunt was, and just why her story was concealed for so long, led to *Irrepressible: The Jazz Age Life of Henrietta Bingham*. Henrietta rode the cultural cusp as a muse to the Bloomsbury Group, the daughter of the ambassador to the United Kingdom during the rise of Nazism, the seductress of royalty and athletic champions, and a pre-Stonewall figure who never buckled to convention. Henrietta's audacious physicality made her unforgettable in her own time, and her ecstatic and harrowing life serves as an astonishing reminder of the stories lying buried in our own families.
