**Pomegranates & Pine Nuts Aug 14 2021 New Cookbook from Former 'Miss Lebanon' Explores Modern Middle Eastern Cooking The Middle East cradles an ancient cuisine—one of the oldest in the world. Despite its pedigree, conflict in the region has largely kept it under wraps to a wider audience. Hummus, tabbouleh, and stuffed vine leaves now receive global recognition, but there still exists this vast and distinct culinary heritage that remains unexplored: wholesome stews, exotic casseroles and a range of home cooking which revolves around humble, yet delicious vegetables and grains. It is these that routinely welcome home hungry school children and soothe the appetites of tired workers. They too must be shared with the world. For the past five years, Lebanese-American Bethany Kehdy has sought to demystify Middle Eastern food through her blog DirtyKitchenSecrets.com and her Taste of Lebanon tours. In her debut book, Pomegranates & Pine Nuts, she provides 100+ new recipes that will introduce you to the wonders of the Middle East and change any thought you might have had that this hearty cuisine is complicated or laborious.**

**Science and Technology of Fruit Wine Production Mar 29 2020 Science and Technology of Fruit Wine Production includes introductory chapters on the production of wine from fruits other than grapes, including their composition, chemistry, role, quality of raw material, medicinal values, quality factors, bioreactor technology, production, optimization, standardization, preservation, and evaluation of different wines, specialty wines, and brandies. Wine and its related products have been consumed since ancient times, not only for stimulatory and healthful properties, but also as an important adjunct to the human diet by increasing satisfaction and contributing to the relaxation necessary for proper digestion and absorption of food. Most wines are produced from grapes throughout the world, however, fruits other than grapes, including apple, plum, peach, pear, berries, cherries, currants, apricot, and many others can also be profitably utilized in the**

**production of wines. The major problems in wine production, however, arise from the difficulty in extracting the sugar from the pulp of some of the fruits, or finding that the juices obtained lack in the requisite sugar contents, have higher acidity, more anthocyanins, or have poor fermentability. The book demonstrates that the application of enzymes in juice extraction, bioreactor technology, and biological de-acidification (MLF bacteria, or de-acidifying yeast like *Schizosaccharomyces pombe*, and others) in wine production from non-grape fruits needs serious consideration. Focuses on producing non-grape wines, highlighting their flavor, taste, and other quality attributes, including their antioxidant properties Provides a single-volume resource that consolidates the research findings and developed technology employed to make wines from non-grape fruits Explores options for reducing post-harvest losses, which are especially high in developing countries Stimulates research and development efforts in non-grape wines**

**The Ivory Pomegranate Jan 27 2020 Devorah, a rabbi prison chaplain, is attracted to Greg, a prisoner. Audrey, a middle-aged archeology graduate with little interest in her Jewish heritage, is in love with Yitz, a convert and former cult member. This Jewish-American fiction portrays a place in the Southwest (USA) and comes close to being a reflection of the Jewish condition of today. A compelling story of today's times.**

**Kabbalistic Revolution Sep 03 2020 The set of Jewish mystical teachings known as Kabbalah are often imagined as timeless texts, teachings that have been passed down through the millennia. Yet, as this groundbreaking new study shows, Kabbalah flourished in a specific time and place, emerging in response to the social prejudices that Jews faced. Hartley Lachter, a scholar of religion studies, transports us to medieval Spain, a place where anti-Semitic propaganda was on the rise and Jewish political power was on the wane. Kabbalistic Revolution proposes that, given this context, Kabbalah must be understood as a radically empowering political discourse. While the era's Christian preachers claimed that Jews were blind to the true meaning of scripture and had been abandoned by God, the Kabbalists countered with a doctrine that granted Jews a uniquely privileged relationship with God. Lachter demonstrates how Kabbalah envisioned this increasingly marginalized group at the center of the universe, their mystical practices serving to maintain the harmony of the divine world. For students of Jewish mysticism, Kabbalistic Revolution provides a new approach to the development of medieval Kabbalah. Yet the book's central questions should appeal to anyone with an interest in the relationships between religious discourses, political struggles, and ethnic pride.**

**The Memoirs of John Addington Symonds Dec 26 2019 This edition is the first to reproduce John Addington Symonds's Memoirs in its entirety. It offers a panoramic view of middle-class Victorian life, shedding light upon sexual cultures and life histories too often hidden from history. Symonds (1840-93) began writing his Memoirs in 1889. It was, he confessed, 'a foolish thing to do.' Symonds was a respected man of letters, an historian, translator, essayist and poet; he was also married with children. But rather than unfold a simple tale of public and private achievement, the Memoirs record his struggle to reconcile his homosexuality with these professional and familial identities. His autobiography offers a confessional account of relationships beyond the accepted bounds of nineteenth-century social mores, presenting an alternative case study that contests the legal and medical authorities that would label his desires a crime or disease. Yet being so eloquent on matters of heterodox sexuality, the Memoirs were suppressed. The manuscript survives because Symonds recognised its import, however 'foolish': he instructed his literary executor to preserve the text, a duty ultimately discharged by placing the manuscript under embargo in the care of the London Library.**

**Pomegranate Sep 27 2022 Supple but crunchy, sweet but tart—with its strange construction of seeds filled with delicious garnet juice so vibrant it's hard not think it is some otherworldly blood—no wonder the pomegranate has appealed so much to the human imagination throughout the centuries. Holding aloft this singular fruit in the light of human history, Damien Stone offers a unique look at an alluring fruit that has figured in our culinary consciousness from the gardens of the ancient world to the health-food section of supermarkets. Stone takes us back to the early polytheistic religions and the important role that pomegranates had in their rituals. From there he shows how they came to be held in high esteem in Judaism, Christianity, and Islam alike,**

**examining exciting new findings that further cement their importance: for instance, many historians believe now that it was a pomegranate, not an apple, that was the forbidden fruit in the Garden of Eden. Stone examines the allure that the pomegranate has had to a fascinating cast of famous figures, from ancient Assyrian King Ashurnasirpal to Tudor Queen Anne Boleyn, from Sandro Botticelli to Salvador Dalí. Drawing on text, image, and taste, Pomegranate is a cornucopia of strange and fascinating stories about a very special fruit.**

**Personalized Food Intervention and Therapy for Autism Spectrum Disorder Management Feb 26 2020 The book focuses on implications of traditional and processed foods for autism spectrum disorder (ASD) intervention and management. Numerous phytonutrients and pharmacologically active compounds in edible natural products and diet could influence and offer protection to neuronal dysfunction that occurs due to ASD. The neuroprotective effects of various fruits, vegetables, nuts and seeds phytochemicals, and other natural bioactive ingredients against ASD and related conditions are discussed. Topics such as the possible neuroprotective mechanism of action of these foods and the therapeutic role of antioxidants in relation to ASD are addressed. This book also highlights the scope of using anti-inflammatory agents and antioxidants to promote neurogenesis and improve other symptoms in ASD. It emphasizes personalized nutritional approaches with dietary management of neurodevelopmental disorders/ASD cases. Information in this book is relevant to researchers in the field of complementary and alternative medicine, nutraceuticals, neuroscience, agriculture, nutrition, and food science. This volume is beneficial to students of varying levels, and across multiple disciplines.**

**Sacred Scents in Early Christianity and Islam Jan 07 2021 Medieval scholars and cultural historians have recently turned their attention to the question of "smells" and what olfactory sensations reveal about society in general and holiness in particular. Sacred Scents in Early Christianity and Islam contributes to that conversation, explaining how early Christians and Muslims linked the "sweet smell of sanctity" with ideals of the body and sexuality; created boundaries and sacred space; and imagined their emerging communal identity. Most importantly, scent—itsself transgressive and difficult to control—signaled transition and transformation between categories of meaning. Christian and Islamic authors distinguished their own fragrant ethical and theological ideals against the stench of oppositional heresy and moral depravity. Orthodox Christians ridiculed their 'stinking' Arian neighbors, and Muslims denounced the 'reeking' corruption of Umayyad and Abbasid decadence. Through the mouths of saints and prophets, patriarchal authors labeled perfumed women as existential threats to vulnerable men and consigned them to enclosed, private space for their protection as well as society's. At the same time, theologians praised both men and women who purified and transformed their bodies into aromatic offerings to God. Both Christian and Muslim pilgrims venerated sainted men and women with perfumed offerings at tombstones; indeed, Christians and Muslims often worshipped together, honoring common heroes such as Abraham, Moses, and Jonah. Sacred Scents begins by surveying aroma's quotidian functions in Roman and pre-Islamic cultural milieus within homes, temples, poetry, kitchens, and medicines. Existing scholarship tends to frame 'scent' as something available only to the wealthy or elite; however, perfumes, spices, and incense wafted through the lives of most early Christians and Muslims. It ends by examining both traditions' views of Paradise, identified as the archetypal Garden and source of all perfumes and sweet smells. Both Christian and Islamic texts explain Adam and Eve's profound grief at losing access to these heavenly aromas and celebrate God's mercy in allowing earthly remembrances. Sacred scent thus prompts humanity's grief for what was lost and the yearning for paradisiacal transformation still to come.**

**pomegranate's curative and preventive qualities, the exalted status of this fruit goes back as far as the history of agriculture itself. Allusions to the pomegranate are readily found in the oldest cultures of the Indus Valley, ancient China, and classical Greece, as well as in the Old Testament. To modern scientists, the biochemistry of the pomegranate is as equally fascinating as its storied place in literature and religion. Providing an unprecedented compilation of scientific information, Pomegranates: Ancient Roots to Modern Medicine offers an exploration of the biochemistry, health effects, and cultivation of the pomegranate that is as authoritative as it is unparalleled. Featuring the contributions of a multidisciplinary and international team of prominent researchers, it presents the latest findings on the potential human health benefits of this exceptionally polyphenol-rich fruit. As the research indicates, the physiological effects of pomegranate juice constituents are remarkable in their preventive potential against two of the major chronic diseases of aging - heart disease and cancer. Many of the pioneering researchers responsible for initiating our newfound fascination with pomegranates discuss its biochemistry, detailing the location and action of the phytochemicals found in the fruit's flesh, peels and seeds. They present evidence of the pomegranate's impact on heart disease, including its ability to enhance nitric oxide production in endothelial cells. They also reveal the significant antiproliferative and proapoptotic effects attributed to the pomegranate in battling several different types of cancer cells, as well as its ability to retard tumor growth in animals. Recognizing that the pomegranate is only as valuable as it is available, the editors include a substantial section on commercialization and another on plant growth and improvement. These additions make this text as uniquely essential for botanists and agriculturists as it is for nutritionists, cancer researchers, natural product chemists, botanical supplement producers and consumers, and pharmacognosists seeking to evaluate both the pomegranate's legacy and future as a powerful natural healing agent.**

**The Shark Club Nov 24 2019 "A quintessential summer read." —Marie Claire A warm and wonderfully vivid novel about taking second chances—in life and in the sea One summer day on the beach in Florida, two extraordinary things happen to Maeve Donnelly. First, she is kissed by Daniel, the boy of her dreams. Then, she is bitten by a blacktip shark. Eighteen years later, Maeve has thrown herself into her work as a world-traveling marine biologist discovering more about the minds of misunderstood sharks. But when Maeve returns home to the legendarily charming and eccentric Hotel of the Muses where she was raised by her grandmother, she finds more than just the blood orange sunsets and key lime pies she's missed waiting for her. While Maeve has always been fearless in the water, on land she is indecisive. A chance meeting on the beach with a plucky, irresistible little girl who is just as fascinated by the ocean as Maeve was growing up leaves her at a crossroads: Should she re-kindle her romance with Daniel, the first love she left behind when she dove into her work? Or indulge in a new romance with her colleague, Nicholas, who turns up in her hometown to investigate an illegal shark-finning operation? Set against the intoxicating backdrop of palm trees, calypso bands, and perfect ocean views, *The Shark Club* is a story of the mysterious passions of one woman's life: her first love and new love; the sea and sharks that inhabit it.**

**Sonam and the Silence Sep 22 2019 In Taliban-ruled Afghanistan, Sonam's world is dark and silent. **Pitchfork Jul 21 2019** "The first have come, and they seek the last." The Oracle Of Delphi prophesied those words in the dead of night, carving ancient runes into the temple's stone with her own blood, but she has no memory of her midnight trance. She knows not who spoke through her, yet one thing is certain. It was not an Olympian. Alkaios and the Olympians are at a loss, the Oracle's foretelling igniting unease in their holy ranks, but Hades finds herself drawn to those words, haunted by those words. This prophecy plagues her nightmares and consumes her mind, yet they just might hold the key to who Hades truly is... or herald an ancient terror that could destroy the earth and end the reign of the Olympians. The Evils of the Underworld are no match for what is coming. *Pitchfork* is the epic second installment of the Pomegranate series, a Greek Mythology reimagining with a gender-swapped Hades and Persephone. Perfect for fans of Madeline Miller, Sarah J. Maas, and *The Witcher*.

**the first time, the authors challenge the reader's assumptions about Judaism in the Second Temple period, late antiquity, and the early medieval era. Arranged in chronological order according to the period of time they focus on, the essays analyze texts such as the Hebrew Bible, Greco-Roman Egyptian texts, Greek and Latin works, the Dead Sea Scrolls, early and late midrashic texts, the New Testament, the Church fathers' writings, the Jerusalem and the Babylonian Talmuds, and Zoroastrian texts.**

**Eating Pomegranates Oct 16 2021 After a troubled upbringing that saw the early death of her mother from cancer, Sarah Gabriel had created a happy home life with her partner and two beautiful daughters. Then, at 44, she was diagnosed with breast cancer and learned that while you can turn your back on your past, you can't escape your genetic legacy. The problem was MI8T, a rare and deadly genetic mutation that was responsible for the death of her mother and countless female ancestors. In Gabriel's struggle for survival, she takes us on a white-knuckle ride through contemporary genetics, the rigours of her treatment for cancer, and the impact of the disease on her family's dynamics. It is a fight not just for physical survival, but for identity, for sanity, for hope. Laced with black humour, written with a mixture of passion and clinical accuracy, Eating Pomegranates is an intensely powerful and moving memoir about mothers, daughters and breast cancer that is as beautiful as it is brutal.**

The second section, Other Literary, Historical, and Linguistic Studies, includes twenty-four essays, primarily dealing with interpretive issues in the Hebrew Bible.**

**Pomegranate Soup Apr 29 2020 Beneath the holy mountain Croagh Patrick, in damp and lovely County Mayo, sits the small, sheltered village of Ballinacroagh. To the exotic Aminpour sisters, Ireland looks like a much-needed safe haven. It has been seven years since Marjan Aminpour fled Iran with her younger sisters, Bahar and Layla, and she hopes that in Ballinacroagh, a land of "crazed sheep and dizzying roads," they might finally find a home. From the kitchen of an old pastry shop on Main Mall, the sisters set about creating a Persian oasis. Soon sensuous wafts of cardamom, cinnamon, and saffron float through the streets—an exotic aroma that announces the opening of the Babylon Café, and a shock to a town that generally subsists on boiled cabbage and Guinness served at the local tavern. And it is an affront to the senses of Ballinacroagh's uncrowned king, Thomas McGuire. After trying to buy the old pastry shop for years and failing, Thomas is enraged to find it occupied—and by foreigners, no less. But the mysterious, spicy fragrances work their magic on the townsfolk, and soon, business is booming. Marjan is thrilled with the demand for her red lentil soup, abgusht stew, and rosewater baklava—and with the transformation in her sisters. Young Layla finds first love, and even tense, haunted Bahar seems to be less nervous. And in the stand-up-comedian-turned-priest Father Fergal Mahoney, the gentle, lonely widow Estelle Delmonico, and the headstrong hairdresser Fiona Athey, the sisters find a merry band of supporters against the close-minded opposition of less welcoming villagers stuck in their ways. But the idyll is soon broken when the past rushes back to threaten the Aminpours once more, and the lives they left behind in revolution-era Iran bleed into the present.**

***Infused with the textures and scents, trials and triumphs of two distinct cultures, Pomegranate Soup is an infectious novel of magical realism. This richly detailed story, highlighted with delicious recipes, is a delectable journey into the heart of Persian cooking and Irish living.***

***Promises and Pomegranates Oct 28 2022 A dark, contemporary romance based loosely on the myth of Hades and Persephone.***

***Ancient Greek Love Magic Oct 04 2020 The ancient Greeks commonly resorted to magic spells to attract and keep lovers. Surveying and analyzing various texts and artifacts, the author reveals that gender is the crucial factor in understanding love spells.***
