[Modern Art for a Modern China](#) Nov 05 2022 How did art reform fit into the many initiatives for social and cultural change that contributed to the New Cultural Movement that transformed the Chinese cultural landscape during the Republican period? "Modern art for a modern China" was the rallying cry of Chinese intellectuals, many of whom were artists, critics, writers, poets and educators. Wang describes how these groups discussed and implanted changes in China's conception and practice of art. She demonstrates how art reforms fit into the many initiatives for social and cultural change that contributed to the New Cultural Movement that transformed the Chinese cultural landscape during the Republican period. In doing so, she analyses two key areas in the intellectual history of Republican China: China's art reform in the early decades of the twentieth century; and the connection and intersection between colonialism, nationalism and cosmopolitanism, including their direct impact on the development of art and art practice in China. [Modern Art for a Modern China](#) is an invaluable resource for scholars and students of China's twentieth-century intellectual history and art history.

**Modern Art: A Very Short Introduction** Feb 25 2022 As public interest in modern art continues to grow, as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim, there is a real need for a book that will engage general readers, offering them not only information and ideas about modern art, but also explaining its contemporary relevance and history. This book achieves all this and focuses on interrogating the idea of 'modern' art by asking such questions as: What has made a work of art qualify as modern (or fail to)? How has this selection been made? What is the relationship between modern and contemporary art? Is 'postmodernist' art no longer modern, or just no longer modernist - in either case, why, and what does this claim mean, both for art and the idea of 'the modern'? Cottington examines many key aspects of this subject, including the issue of controversy in modern art, from Manet's *Dejeuner sur L'Herbe* (1863) to Picasso's *Les Femmes d'Alger*, and Tracey Emin's *My Bed*, (1999); and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Modern Art** Jun 07 2020 [Modern Art: A Critical Introduction](#) traces the historical and contemporary contexts for understanding modern art movements and the theories which influenced and attempted to explain them. This approach forgoes the chronological march of art movements and '-isms' in favour of looking at the ways in which art has been understood. It investigates the main developments in art interpretation from the same period, from Kant to post-structuralism, and draws examples from a wide range of art genres including painting, sculpture, photography, installation and performance art. The book includes detailed discussions of visual art practices both inside and outside the museum. This new edition has been restructured to make the key themes as accessible as possible and updated to include many more recent examples of art practice. An expanded glossary and notes section and a list of key figures and events provide definitions of the range of terms used within theoretical discussion and critical reference. Illustrated with a wide range of

visual examples, *Modern Art: A Critical Introduction* is a lively and accessible account of modern art and its histories.

**A Fable of Modern Art** Apr 17 2021 Dore Ashton's masterly analysis of modern art grows out of a consideration of Balzac's brilliant and little known 'philosophic' story *The Unknown Masterpiece* in which the concerns of Cézanne, Picasso, and the abstract expressionists are strikingly prefigured. Balzac's fable is discussed not only within the context from which it emerged--early nineteenth-century romanticism--but also in its embodiment of various attitudes towards art. Ashton illuminates a web of associations linking Balzac to Cézanne, Rilke, Schoenberg, Kandinsky and Picasso as they struggle with the yearning to express the inexpressible, to make concrete the abstract. As Professor Ashton develops the conjectures of her book she reveals the interrelations of literature, music, and art and the basic problems which engage or beset the contemporary artist and those who seek to understand and appreciate contemporary art. This is a book of extreme originality which ranges so widely and offers such valuable insights that it forms an important contribution not only to the history of art and culture, but also to the history of ideas.

[Hybridity in Early Modern Art](#) Oct 24 2021 This collection of essays explores hybridity in early modern art through two primary lenses: hybrid media and hybrid time. The varied approaches in the volume to theories of hybridity reflect the increased presence in art historical scholarship of interdisciplinary frameworks that extend art historical inquiry beyond the single time or material. The essays engage with what happens when an object is considered beyond the point of origin or as a legend of information, the implications of the juxtaposition of disparate media, how the meaning of an object alters over time, and what the conspicuous use of out-of-date styles means for the patron, artist, and/or viewer. Essays examine both canonical and lesser-known works produced by European artists in Italy, northern Europe, and colonial Peru, ca. 1400–1600. The book will be of interest to art historians, visual culture historians, and early modern historians.

**A History of Contemporary Chinese Art** Apr 05 2020 Chinese art has experienced its most profound metamorphosis since the early 1950s, transforming from humble realism to socialist realism, from revolutionary art to critical realism, then avant-garde movement, and globalized Chinese art. With a hybrid mix of Chinese philosophy, imported but revised Marxist ideology, and western humanities, Chinese artists have created an alternative approach – after a great ideological and aesthetic transition in the 1980s – toward its own contemporaneity though interacting and intertwining with the art of rest of the world. This book will investigate, from the perspective of an activist, critic, and historian who grew up prior to and participated in the great transition, and then researched and taught the subject, the evolution of Chinese art in modern and contemporary times. The volume will be a comprehensive and insightful history of the one of the most sophisticated and unparalleled artistic and cultural phenomena in the modern world.

[Mapping Paradigms in Modern and Contemporary Art](#) Aug 22 2021 *Mapping Paradigms in Modern and Contemporary Art* defines a new cartographic aesthetic, or what Simonetta Moro calls carto-aesthetics, as a key to interpreting specific phenomena in modern and contemporary art, through the concept of poetic cartography. The problem of mapping, although indebted to the "spatial turn" of poststructuralist philosophy, is reconstructed as hermeneutics, while exposing the nexus between topology, space-time, and memory. The book posits that the emergence of "mapping" as a ubiquitous theme in contemporary art can be attributed to the power of the cartographic model to constitute multiple worldviews that can be seen as paradigmatic of the post-modern and contemporary condition. This book will be of particular interest to scholars in art history, art theory, aesthetics, and cartography.

**Modern Art in Cold War Beirut** Sep 03 2022 *Modern Art in Cold War Beirut: Drawing Alliances* examines the entangled histories of modern art and international politics during the decades of the 1950s and 1960s. Positing the Cold War as a globalized conflict, fraught with different political ideologies and intercultural exchanges, this study asks how these historical circumstances shaped local debates in Beirut over artistic pedagogy, the social role of the artist, the aesthetics of form, and, ultimately, the development of a national art. Drawing on a range of archival material and taking an interdisciplinary approach,

Sarah Rogers argues that the genealogies of modern art can never be understood as isolated, national histories, but rather that they participate in an ever contingent global modernism. This book will be of particular interest to scholars in art history, Cold War studies, and Middle East studies.

[The Art of Looking](#) Sep 22 2021 A veteran art critic helps us make sense of modern and contemporary art The landscape of contemporary art has changed dramatically during the last hundred years: from Malevich's 1915 painting of a single black square and Duchamp's 1917 signed porcelain urinal to Jackson Pollock's midcentury "drip" paintings; Chris Burden's "Shoot" (1971), in which the artist was voluntarily shot in the arm with a rifle; Urs Fischer's "You" (2007), a giant hole dug in the floor of a New York gallery; and the conceptual and performance art of today's Ai Weiwei and Marina Abramovic. The shifts have left the art-viewing public (understandably) perplexed. In *The Art of Looking*, renowned art critic Lance Esplund demonstrates that works of modern and contemporary art are not as indecipherable as they might seem. With patience, insight, and wit, Esplund guides us through the last century of art and empowers us to approach and appreciate it with new eyes. Eager to democratize genres that can feel inaccessible, Esplund encourages viewers to trust their own taste, guts, and common sense. *The Art of Looking* will open the eyes of viewers who think that recent art is obtuse, nonsensical, and irrelevant, as well as the eyes of those who believe that the art of the past has nothing to say to our present.

*Modern Art Culture* Mar 29 2022  
Modern Art Culture: A Reader provides an essential resource for understanding the culture of modern art since the 1960s. In recent years, media theorists and historians have asked whether works of imaginative art can have any impact in our image-saturated culture. Given the power of institutions, how do radical artists produce effective cultural interventions? In the aftermath of September 11th, 2001, many argue that pressing questions about works of art and their meanings are inseparable not only from contemporary social and political issues but also from major debates and developments in the last four decades. To explore such questions and issues, the Reader is divided into six related parts with articles from journals, magazines and exhibition catalogues that exemplify important interventions from the 1960s onwards: Histories, Representations and Remembrance; Art and Visual/Mass/Popular Culture; Institutions; Inclusions/Exclusions; Bodies and Identities; Power and Permissibility. Texts range from artists' engagement with the veil and veiling as metaphors for post-colonialist understandings of representation and contemporary art to early debates about, for example, 'activist art', discourses of the 'body', civil rights, ethnicity, and cultural power. Importantly these selected texts offer examples of analysis that can enable readers to examine, critically, their own selection of representations produced in a variety of contexts.

Modern Art and Modernism

offers firsthand material for the study of issues central to the development of modern art, its theory, and criticism. The history of modern art is not simply a history of works of art, it is also a history of ideas interpretations. The works of critics and theorists have not merely been influential in deciding how modern art is to be seen and understood, they have also influenced the course it has taken. The nature of modern art cannot be understood without some analysis of the concept of Modernism itself. Modern Art and Modernism presents a selection of texts by the major contributors to debate on this subject, from Baudelaire and Zola in the nineteenth century to Greenberg and T. J. Clark in our own times. It offers a balanced section of essays by contributors to the mainstream of Modernist criticism, representative examples of writing on the themes of abstraction and expression in modern art, and a number of important contributions to the discussion of aesthetics and the social role of the artist. Several of these are made available in English translation for the first time, and others are brought together from a wide range of periodicals and specialized collections. **How Folklore Shaped Modern Art** Aug 29 2019 Since the 1990s, artists and art writers around the world have increasingly undermined the essentialism associated with notions of "critical practice." We can see this manifesting in the renewed relevance of what were previously considered "outsider" art practices, the emphasis on first-person accounts of identity over critical theory, and the proliferation of exhibitions that refuse to distinguish between art and the productions of culture more generally. How Folklore Shaped Modern Art: A Post-Critical History of Aesthetics underscores how the cultural traditions, belief systems and performed exchanges that were once integral to the folklore discipline are now central to contemporary art's "post-critical turn." This shift is considered here as less a direct confrontation of critical procedures than a symptom of art's inclusive ideals, overturning the historical separation of fine art from those "uncritical" forms located in material and commercial culture. In a global context, aesthetics is now just one of numerous traditions informing our encounters with visual culture today, symptomatic of the pull towards an impossibly pluralistic image of art that reflects the irreducible conditions of identity.

**Art and Copyright** Dec 02 2019 This is the first text to specifically examine in detail the intellectual property rights protecting artistic works and artists' rights in the UK.

The Meanings of Modern Art Jul 29 2019 "This book is based on two beliefs," says John Russell in his preface "One is that in art, as in the sciences, ours is one of the big centuries. The other is that the history of art, if properly set out, is the history of everything." It is in this spirit that the book deals with the major movements in art and the major artists since the 1860s, and it also interweaves the central historical and cultural events and themes of the modern period. The Meanings of Modern Art is the work of a critic who has lived with modern art for almost half a century and has been close to many of those who have created the masterworks of our time. The book contains a choice of illustrations as exacting as it is generous, and the 328 illustrations in color and in black and white are integrated with the text. The history of art as presented here is truly "the history of everything." In the words of the College Art Association, which in 1978 gave John Russell its Mather Award for art criticism, "John Russell can illuminate everything from the stones of Egypt to the bricks of Carl Andre."--Publisher's description.
