Her eccentric taskmaster of a boss expects marketing miracles to happen on shoestring budgets and in record time, and surviving the job (and the city) means she'll have to master the local art of jugaad really fast. Worst of all, she's stuck being a publicist for Jishnu Guha, protein-shake lover, serial selfie-taker, and bestselling author of seven cheesy romance novels, the kind she wouldn't be caught dead reading. As Ruta struggles between work and life in a new city, she finds, much to her annoyance, that she needs Jishnu's help more than she cares to admit. But with her own parents getting a divorce, can Ruta dare to fall in love, especially with someone who's so impossibly different?

The Journal and Major Essays of John Woolman Nov 24 2021 In the latter part of the eighteenth century, the Quaker minister John Woolman journeyed and preached throughout the American colonies. His Journal, a recognized American classic, portrays an ethical sensitivity comparable to St. Francis or Albert Schweitzer; and his keen sense of social injustice speaks directly to our affluent and increasingly divided mass society. Woolman's essays widely influenced social thought in the United States, and in England as well, where he was esteemed by Lamb and Coleridge. This edition of the Journal includes Woolman's whole discussion of tax refusal as a form of anti-war protest and civil disobedience. Also included are "A Plea for the Poor" and "Considerations on Keeping Negroes" one of the earliest attacks on slavery.

Medical Journals and Medical Knowledge Feb 25 2022 Originally published in 1992 Medical Journals and Medical Knowledge examines both broad developments in print and media and the practice of particular journals such as the British Medical Journal. Essays on Individual Decision Making and Social Welfare Oct 31 2019 These essays by eminent economist Prasanta K. Pattanaik deal with two distinct areas. (i) the theory of decision making by individuals; and (ii) welfare economics and the theory of social choice. The papers in the first group are all concerned with situations outside the conventional frameworks of rational choice under perfect certainty and uncertainty. Essays in the second group are concerned with the classical problem of aggregation of preferences and welfare judgments. Some deal with the formal modeling of individual rights, and the measurement of freedom - concluding with measurement of living standards. The volume will be useful to researchers and students of welfare economics. Students First Dec 26 2021 Paul LeBlanc has re-imagined higher education, with a focus on the most fundamental of functions: student learning. In *Students First*, he advocates for an entire higher education ecosystem in which students have the flexibility to gain, assess, and certify their knowledge on their own terms and timelines. In a perceptive analysis, LeBlanc provides a clear-eyed view of how and why higher education is failing to reach and serve a great many potential students. He then deftly explores how reform can address systemic inequities, improve college affordability, and broaden accessibility. Through case studies, he highlights alternative delivery models such as online, distance, and just-in-time

learning, and envisions a learning environment that values competencies rather than credit hours. LeBlanc describes how these innovations and others will allow colleges and universities to help close the skills gap and respond to a rapidly evolving, technology-driven job market. Although a college education remains one of the great drivers of socioeconomic mobility, today's higher education industry has built financial, logistical, and practical barriers that keep out the very students who are most in need of opportunity. *Students First* makes a persuasive case that realigning US educational priorities will enable larger populations of graduates to enjoy return on investment in the form of good pay, meaningful work, and a stable future. As the book emphasizes, such change is imperative, for in better serving its students, higher education will better serve society.
