*The Innovation Navigator* Jan 25 2022 Innovation is a top strategic priority for firms across all industries. In *The Innovation Navigator*, Tucker J. Marion and Sebastian K. Fixson explore four innovation archetypes or modes - "specialist," "venture," "community," and "network" - which feature prominently in the expanding innovation landscape. Specialists employ technologies to achieve entirely new solutions and superior product performance. New corporate ventures lower the barriers for employees to self-select into entrepreneurial projects, while reducing the constraints of bureaucracy. The community brings new sources of knowledge by expanding past the firm's boundaries, dramatically increasing the number of participants. The network creates partnerships and ecosystems that create innovations that could not be developed by individual companies alone. The Innovation Navigator guides the reader in exploring and exploiting these different modes of innovation. Individual chapters provide key insights into the inherent opportunities and challenges from a number of vantage points: from the impact on organizational resources to the role of incentives. The book also provides a framework for how firms can leverage dynamic mode shifts and multimode strategies. Firms across the industrial spectrum are profiled, from new additive manufacturing companies such as Formlabs, community-based solution providers like Forth, to traditional firms exploring new modes like GE Appliances and their FirstBuild initiative. The Innovation Navigator will assist executives in building the capabilities for peak performance in this new innovation landscape.

**The King's Fifth** Oct 10 2020 A 1967 Newbery Honor Book While awaiting trial for murder and withholding from the king the obligatory fifth of the gold found in Cibola, Esteban, a seventeen-year-old cartographer, recalls his adventures with a band of conquistadors.

**The Fifth Domain** May 17 2021 An urgent new warning from two bestselling security experts--and a gripping inside look at how governments, firms, and ordinary citizens can confront and contain the tyrants, hackers, and criminals bent on turning the digital realm into a war zone. "In the battle raging between offense and defense in cyberspace, Clarke and Knake have some important ideas about how we can avoid cyberwar for our country, prevent cybercrime against our companies, and in doing so, reduce resentment, division, and instability at home and abroad."--Bill Clinton There is much to fear in the dark corners of cyberspace. From well-covered stories like the Stuxnet attack which helped slow Iran's nuclear program, to lesser-known tales like EternalBlue, the 2017 cyber battle that closed hospitals in Britain and froze shipping crates in Germany in midair, we have entered an age in which online threats carry real-world consequences. But we do not have to let autocrats and criminals run amok in the digital realm. We now know a great deal about how to make cyberspace far less dangerous--and about how to defend our security, economy, democracy, and privacy from cyber attack. This is a book about the realm in which nobody should ever want to fight a war: the fifth domain, the Pentagon's term for cyberspace. Our guides are two of America's top cybersecurity experts, seasoned practitioners who are as familiar with the White House Situation Room as they are with Fortune 500 boardrooms. Richard A. Clarke and Robert K. Knake offer a vivid, engrossing tour of the often unfamiliar terrain of cyberspace, introducing us to the scientists, executives, and public servants who have learned through hard experience how government agencies and private firms can fend off cyber threats. Clarke and Knake take us inside quantum-computing labs racing to develop cyber superweapons; bring us into the boardrooms of the many firms that have been hacked and the few that have not; and walk us through the corridors of the U.S. intelligence community with officials working to defend America's elections from foreign malice. With a focus on solutions over scaremongering, they make a compelling case for "cyber resilience"--building systems that can resist most attacks, raising the costs on cyber criminals and the autocrats who often lurk behind them, and avoiding the trap of overreaction to digital attacks. Above all, Clarke and Knake show us how to keep the fifth domain a humming engine of economic growth and human progress by not giving in to those who would turn it into a wasteland of conflict. Backed by decades of high-level experience in the White House and the private sector, *The Fifth Domain* delivers a riveting, agenda-setting insider look at what works in the struggle to avoid cyberwar.

**The Fifth Wall** Oct 22 2021 "Art, grief, and technology churn in this excellent and raw novel about a conceptual artist's recovery from witnessing her mother's suicide." --Publishers Weekly In this debut novel, conceptual artist Sheila B. Ackerman heeds a mysterious urge to return to her estranged family home and arrives at the exact moment of her mother's suicide. In an attempt to cope with and understand her own self-destructive tendencies, Sheila plants a camera on the lawn outside the house to film 24/7 while workers deconstruct the physical object that encases so many of her memories. Meanwhile, as she begins to experience frequent blackouts, she finds herself hunting a robot drone through the San Francisco MOMA with a baseball bat, part of a provocative, technological show, *The Last Art*, and resuming a violent affair with her college professor. With a backdrop of post-9/11 San Francisco, Sheila navigates the social-media-obsessed, draught-ridden landscape of her life, exploring the frail line between the human impulse to control everything that takes place around us and the futility of excessive effort to do so. Combining the emotional depth of Eileen Myles with a plot worthy of a David Lynch film, this readable, literary, and thought-provoking work is for anyone who questions the status quo. Praise for *The Fifth Wall* "Through her vivid depiction of Sheila's emotional talspin, Nagelberg's novel profoundly explores the way we live with technology and how it informs our understanding of reality." --Publishers Weekly "A close artistic cousin to Joni Murphy's *Double Teenage* and Natasha Stagg's *Surveys*. . . Nagelberg's engrossing narration is littered with stunning perception: We look into the distance to be able to see what's right in front of us. She writes without affect, and with unselfconscious acuity. That is, she writes really well." --Chris Kraus, author of *Where Art Belongs*

**Two Truths** Jan 01 2020 On a wintry day long ago, Renee Morgan walked into the snowy mountains of Lake Tahoe, where she met a man who changed her world forever. Now, nearly half a century later, she must face the facts of who the man was and, ultimately, face the Truth about herself. After the mysterious death of her husband, Renee's daughters - Brett, Sara and Hadley - become increasingly determined to explore the circumstances of his death, and in doing so tread a dangerous path. If Renee is to protect them, she must evolve in a way she has spent a lifetime avoiding. As they follow the clues, Renee and her daughters come to terms with two Truths, taking each of them on a journey of self-discovery. Renee's discovery blooms in a romance, Sara's through history, Brett's through politics and Hadley's through spirituality, yet they all learn the same two Truths. Truths that can be traced back through time. Truths about who they are, where they come from, and the existence of an extraordinary power. *The Fifth Child* Aug 08 2020 Doris Lessing's contemporary gothic horror story--centered on the birth of a baby who seems less than human--probes society's unwillingness to recognize its own brutality. Harriet and David Lovatt, parents of four children, have created an idyll of domestic bliss in defiance of the social trends of late 1960s England. While around them crime and unrest surge, the Lovatts are certain that their old-fashioned contentment can protect them from the world outside--until the birth of their fifth baby. Gruesomely goblin-like in appearance, insatiably hungry, abnormally strong and violent, Ben has nothing innocent or infant-like about him. As he grows older and more terrifying, Harriet finds she cannot love him, David cannot bring himself to touch him, and their four older children are afraid of him. Understanding that he will never be accepted anywhere, Harriet and David are torn between their instincts as parents and their shocked reaction to this fierce and unlovable child whose existence shatters their belief in a benign world.

**Corporate Innovation in the Fifth Era** Nov 03 2022 The companies who have been most able to tap into new innovations have become the most highly valued companies in the world. To do so, they have created a new approach to corporate innovation. In this book, Silicon Valley insiders share the lessons they have learned from two decades of interaction with today's most valuable companies.

**After the Coup** Mar 15 2021 After the Coup brings together the work of a group of leading Thai intellectuals of several generations to equip readers to anticipate and understand the developments that lie ahead for Thailand. Contributors offer findings and perspectives both on the disorienting period following the Thai coup of May 2014 and on fundamental challenges to the country and its institutions. Chapters address regionalism and decentralization, the monarchy and the military, the media, demography and the economy, the long-running violence in Southern Thailand, and a number of surprising social and political trends certain to shape the future of Thailand. The volume will serve as a valuable resource for all those concerned with that future. "This highly acclaimed collection of scholars' answers to basic questions about the political situation after the 2014 military coup in Thailand offers a comprehensive analysis of many crucial institutions and sensitive issues that no other work has touched. The book covers the intricate relationships among conflicting classes, political movements, the military, and, above all, the monarchy. It puts on the table many important debates about the crisis of democratization in the country, including the struggle of Malay-Muslims in Southern Thailand, the transformation of electoral violence, the dilemma of political decentralization, the changing roles of the media, and the impact of slowing economic growth and an ageing society on the future of Thailand." --Kanakrat Lertchoosakul, Chulalongkorn University, author of *The Rise of the Octobrists in Contemporary Thailand* "After the Coup should be read by anyone interested in understanding the current state of Thailand's political affairs, tracing the historical origins of the current challenges and conflicts, or looking for clues about what may be to come. This outstanding set of scholars explores how Thailand's disparate collective identities are at the root of the current political and social conflict. These collective identities carry with them different visions of what it means to be 'Thai', what democracy is and how it should function, and the sources of political legitimacy. The chapter authors describe how those behind Thailand's 'ambitious coup' have attempted to crush, co-opt, quell, and contain these competing visions." --Allen Hicken, University of Michigan, author of *Building Party Systems in Developing Democracies* "Featuring a collection of essays authored by many of the field's leading lights, expertly curated and edited by one of the most knowledgeable scholars in Thai Studies, *After the Coup* is a vital contribution to the study of contemporary Thai politics. The depth and sophistication of its analysis, and the variety of viewpoints represented, make it a must-read for anyone wishing to understand the significance of the events set in motion by the military coup staged in Thailand on 22 May 2014, one in crucial respects quite unlike the series of coups d'etat that punctuate the country's modern political development." --Federico Ferrara, City University of Hong Kong, author of *The Political Development of Modern Thailand* "This book covers many of the most important current aspects of the Thai political problem, to help readers better understand why Thailand continues in its struggle to democracy. For example, it provides for a very insightful sense of an emergent middle class that has been one of the main obstacles in Thai democratic progress, both before and since the military coup d'etat of 2014." --Titipol Phakdeewanich, Dean, Faculty of Political Science, Ubon Ratchathani University

*Grow from Within: Mastering Corporate Entrepreneurship and Innovation* Dec 12 2020 Create Business and Generate Profits in New Markets through Innovation! "The best account I have read about how companies can enable and support internal entrepreneurs to achieve innovation-led growth." Philip Kotler, S.C. Johnson & Son Professor of International Marketing, Kellogg School of Management "An essential resource for both private and public sector leaders seeking to align new business creation with an organization's mission and strategy . . . and achieve results." William J. Perry, former U.S. Secretary of Defense "Wolcott and Lippitz are not only insightful, they are spot on. This is exactly the book corporate leaders--from CEOs and functional executives to corporate entrepreneurial teams--need to help them navigate the exceptional challenges of organic growth and innovation." Betsy Holden, Senior Advisor, McKinsey & Company, and former Co-CEO, Kraft Foods, Inc. About the Book: IBM reports \$15 billion of annual new revenues from 22 Emerging Business Opportunities. In 2008, \$4 billion in revenues from companywide innovation efforts allowed Whirlpool to maintain its top line, despite global recession and the steep drop in housing markets. A DuPont business group leader, Ellen Kullman, backed an ambitious new business creation program and later became DuPont's CEO. Each of these companies has learned how to create new businesses on a repeatable basis. In *Grow from Within*, two leading scholars from the Kellogg School of Management explain how your company can discover the right approach to corporate entrepreneurship and make it profitable. Taking innovation to the next level, corporate entrepreneurship is the process of building new businesses within an established organization--new businesses that are distinct from the core company but that leverage some of its most powerful assets. *Grow from Within* examines: The fundamentals of designing a new business The four dominant models of corporate entrepreneurship Ways to align your innovation program with your strategy Leadership requirements for developing new businesses Innovation is critical to business success and growth, but it's only the first step. Without strategically driven processes to turn insights into growing businesses, even the best ideas can fail. Creativity is often serendipitous; innovation management should not be. *Grow from Within* provides the knowledge you need to conceive and design valuable new businesses that breathe life into ideas and dramatically improve your top and bottom lines.

**Reframing Human Rights in a Turbulent Era** Jul 07 2020 In recent years, human rights have come under fire, with the rise of political illiberalism and the coming to power of populist authoritarian leaders in many parts of the world who contest and dismiss the idea of human rights. More surprisingly, scholars and public intellectuals, from both the progressive and the conservative side of the political spectrum, have also been deeply critical, dismissing human rights as flawed, inadequate, hegemonic, or overreaching. While acknowledging some of the shortcomings, this book presents an experimentalist account of international human rights law and practice and argues that the human rights movement remains a powerful and appealing one with widespread traction in many parts of the globe. Using three case studies to illuminate the importance and vibrancy of the movement around the world, the book argues that its potency and legitimacy rest on three main pillars: First, it is based on a deeply-rooted and widely appealing moral discourse that integrates the three universal values of human dignity, human welfare, and human freedom. Second, these values and their elaboration in international legal instruments have gained widespread - even if thin - agreement among states worldwide. Third, human rights law and practice is highly dynamic, with human rights being activated, shaped, and given meaning and impact through the on-going mobilization of affected individuals and groups, and through their iterative engagement with multiple domestic and international institutions and processes. The book offers an account of how the human rights movement has helped to promote human rights and positive social change, and argues that the challenges of the current era provide good reasons to reform, innovate, and strengthen that movement, rather than to abandon it or to herald its demise.

**The Plight of Rome in the Fifth Century AD** Jun 25 2019 *The Plight of Rome in the Fifth Century AD* argues that the fall of the western Roman Empire was rooted in a significant drop in war booty, agricultural productivity, and mineral resources. Merrony proposes that a dependency on the three economic components was established with the Principate, when a precedent was set for an unsustainable threshold on military spending. Drawing on literary and archaeological data, this volume establishes a correspondence between booty (in the form of slaves and precious metals) from foreign campaigns and public building programmes, and how this equilibrium was upset after the Empire reached its full expansion and began to contract in the third century. It is contended that this trend was exacerbated by the systematic loss of agricultural productivity (principally grain, but also livestock), as successive barbarian tribes were settled and wrested control from the imperial authorities in the fifth century. Merrony explores how Rome was weakened and divided, unable to pay its army, feed its people, or support the imperial bureaucracy - and how this contributed to its administrative collapse.

**Mobile Design and Development** Jul 19 2021 Mobile devices outnumber desktop and laptop computers three to one worldwide, yet little information is available for designing and developing mobile applications. *Mobile Design and Development* fills that void with practical guidelines, standards, techniques, and best practices for building mobile products from start to finish. With this book, you'll learn basic design and development principles for all mobile devices and platforms. You'll also explore the more advanced capabilities of the mobile web, including markup, advanced styling techniques, and mobile Ajax. If you're a web designer, web developer, information architect, product manager, usability professional, content publisher, or an entrepreneur new to the mobile web, *Mobile Design and Development* provides you with the knowledge you need to work with this rapidly developing technology. *Mobile Design and Development* will help you: Understand how the mobile ecosystem works, how it differs from other mediums, and how to design products for the mobile context Learn the pros and cons of building native applications sold through operators or app stores versus mobile websites or web apps Work with flows, prototypes, usability practices, and screen-size-independent visual designs Use and test cross-platform mobile web standards for older devices, as well as devices that may be available in the future Learn how to justify a mobile product by building it on a budget

**The Fifth Era** Oct 02 2022

**Blockchain Competitive Advantage** Dec 24 2021 Blockchain is moving into a new competitive phase that requires a clearer future view and more focused strategies for competing. Whether you are an entrepreneur, investor, or established company, learn how to win the battle for blockchain competitive advantage. This book provides clear advice from two experts in strategy, technology investing and blockchain. In its pages the authors: Establish a vision of the future and the big issues that need to be solved Describe the enabling innovations and technologies that may be leveraged Show you how to develop your strategy--making sure you have a "way to play," that you understand the key success factors, and that you quickly secure a "right to win." In blockchain a few of the leaders have begun to do just this, and they are preparing now for a much more competitive game--which is coming fast.

**Aztec Philosophy** Nov 10 2020 In *Aztec Philosophy*, James Maffie shows the Aztecs advanced a highly sophisticated and internally coherent systematic philosophy worthy of consideration alongside other philosophies from around the world. Bringing together the fields of comparative world philosophy and Mesoamerican studies, Maffie excavates the distinctly philosophical aspects of Aztec thought. *Aztec Philosophy* focuses on the ways Aztec metaphysics--the Aztecs' understanding of the nature, structure and constitution of reality--underpinned Aztec thinking about wisdom, ethics, politics, and aesthetics, and served as a backdrop for Aztec religious practices as well as everyday activities such as weaving, farming, and warfare. Aztec metaphysicians conceived reality and cosmos as a grand, ongoing process of weaving--theirs was a world in motion. Drawing upon linguistic, ethnohistorical, archaeological, historical, and contemporary ethnographic evidence, Maffie argues that Aztec metaphysics maintained a processive, transformational, and non-hierarchical view of reality, time, and existence along with a pantheistic theology. *Aztec Philosophy* will be of great interest to Mesoamericanists, philosophers, religionists, folklorists, and Latin Americanists as well as students of indigenous philosophy, religion, and art of the Americas.

**The Fifth Discipline: The art and practice of the learning organization** Jul 27 2019 Peter Senge, founder and director of the Society for Organisational Learning and senior lecturer at MIT, has found the means of creating a 'learning organisation'. In *The Fifth Discipline*, he draws the blueprints for an organisation where people expand their capacity to create the results they truly desire, where new and expansive patterns of thinking are nurtured, where collective aspiration is set free, and where people are continually learning together. *The Fifth Discipline* fuses these features together into a coherent body of theory and practice, making the whole of an organisation more effective than the sum of its parts. Mastering the disciplines will: \*Reignite the spark of learning, driven by people focused on what truly matters to them. \*Bridge teamwork into macro-creativity. \*Free you from confining assumptions and mind-sets. \*Teach you to see the forest and the trees. \*End the struggle between work and family time. *The Fifth Discipline* is a remarkable book that draws on science, spiritual values, psychology, the cutting edge of management thought and Senge's work with leading companies which employ *Fifth Discipline* methods. Reading it provides a searching personal experience and a dramatic professional shift of mind. This edition contains more than 100 pages of new material about how companies are actually using and benefiting from *Fifth Discipline* practices, as well as a new foreword from Peter Senge about his work with the *Fifth Discipline* over the last 15 years.

**Nightmare in Red** Aug 27 2019 According to newspaper headlines and television pundits, the cold war ended many months ago; the age of Big Two confrontation is over. But forty years ago, Americans were experiencing the beginnings of another era--of the fevered anti-communism that came to be known as McCarthyism. During this period, the Cincinnati Reds felt compelled to rename themselves briefly the "Redlegs" to avoid confusion with the other reds, and one citizen in Indiana campaigned to have *The Adventures of Robin Hood* removed from library shelves because the story's subversive message encouraged robbing from the rich and giving to the poor. These developments grew out of a far-reaching anxiety over communism that characterized the McCarthy Era. Richard Fried's *Nightmare in Red* offers a riveting and comprehensive account of this crucial time. He traces the second Red Scare's antecedents back to the 1930s, and presents an engaging narrative about the many different people who became involved in the drama of the anti-communist fervor, from the New Deal era and World War II, through the early years of the cold war, to the peak of McCarthyism, and beyond McCarthy's censure to the decline of the House Committee on Un-American Activities in the 1960s. Along the way, we meet the familiar figures of the period--Presidents Roosevelt, Truman, and Eisenhower, the young Richard Nixon, and, of course, the Wisconsin Senator Joseph R. McCarthy. But more importantly, Fried

reveals the wholesale effect of McCarthyism on the lives of thousands of ordinary people, from teachers and lawyers to college students, factory workers, and janitors. Together with coverage of such famous incidents as the ordeal of the Hollywood Ten (which led to the entertainment world's notorious blacklist) and the Alger Hiss case, Fried also portrays a wealth of little-known but telling episodes involving victims and victimizers of anti-communist politics at the state and local levels. Providing the most complete history of the rise and fall of the phenomenon known as McCarthyism, *Nightmare in Red* shows that it involved far more than just Joe McCarthy.

**Build Your Fortune in the Fifth Era** Jul 31 2022 The Internet didn't even exist 30 years ago, and now billions of people are connected to the web every day, and remarkable new technologies have been invented that will dramatically change the way humans exist on our planet. This emerging playing field is not well understood and not everyone who was successful in the past will be able to benefit from this momentous shift. In *Build Your Fortune in the Fifth Era*, Silicon Valley insiders Matthew C. Le Merle and Alison Davis provide insights, based on 30 years of leading, investing in and advising new technology companies, on the rules of this game, and outline options for how readers can participate and prosper in the coming Fifth Era. In these pages, through plain language and inspiring stories, you'll: -Understand this Age of Unprecedented Change. A time of transition to a new age unlike anything we have experienced before -Discover the Greatest Wealth Creation Opportunity Ever. Every industry is being transformed and wealth is shifting to new disruptive players and those who back them -Explore 9 Options to Build Your Fortune. The nine options to build your fortune and prosper in an age of unprecedented innovation

**The Acts of the Apostles** Apr 15 2021 Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James

**The Fifth Season** Jun 05 2020 At the end of the world, a woman must hide her secret power and find her kidnapped daughter in this "intricate and extraordinary" Hugo Award winning novel of power, oppression, and revolution. (The New York Times) This is the way the world ends. . . for the last time. It starts with the great red rift across the heart of the world's sole continent, spewing ash that blots out the sun. It starts with death, with a murdered son and a missing daughter. It starts with betrayal, and long dormant wounds rising up to fester. This is the Stillness, a land long familiar with catastrophe, where the power of the earth is wielded as a weapon. And where there is no mercy. Read the first book in the critically acclaimed, three-time Hugo award-winning trilogy by NYT bestselling author N. K. Jemisin.

**The Five Ages of the Universe** Feb 11 2021 As the twentieth century closed, Fred Adams and Greg Laughlin captured the attention of the world by identifying the five ages of time. In *The Five Ages of the Universe*, Adams and Laughlin demonstrate that we can now understand the complete life story of the cosmos from beginning to end. Adams and Laughlin have been hailed as the creators of the definitive long-term projection of the evolution of the universe. Their achievement is awesome in its scale and profound in its scientific breadth. But *The Five Ages of the Universe* is more than a handbook of the physical processes that guided our past and will shape our future; it is a truly epic story. Without leaving earth, here is a fantastic voyage to the physics of eternity. It is the only biography of the universe you will ever need.

**The Fifth Sacred Thing** Sep 08 2020 An epic tale of freedom and slavery, love and war, and the potential futures of humankind tells of a twenty-first century California clan caught between two clashing worlds, one based on tolerance, the other on repression. Declaration of the Four Sacred Things The earth is a living, conscious being. In company with cultures of many different times and places, we name these things as sacred: air, fire, water, and earth. Whether we see them as the breath, energy, blood, and body of the Mother, or as the blessed gifts of a Creator, or as symbols of the interconnected systems that sustain life, we know that nothing can live without them. To call these things sacred is to say that they have a value beyond their usefulness for human ends, that they themselves became the standards by which our acts, our economics, our laws, and our purposes must be judged. no one has the right to appropriate them or profit from them at the expense of others. Any government that fails to protect them forfeits its legitimacy. All people, all living things, are part of the earth life, and so are sacred. No one of us stands higher or lower than any other. Only justice can assure balance: only ecological balance can sustain freedom. Only in freedom can that fifth sacred thing we call spirit flourish in its full diversity. To honor the sacred is to create conditions in which nourishment, sustenance, habitat, knowledge, freedom, and beauty can thrive. To honor the sacred is to make love possible. To this we dedicate our curiosity, our will, our courage, our silences, and our voices. To this we dedicate our lives. Praise for *The Fifth Sacred Thing* "This is wisdom wrapped in drama."—Tom Hayden, California state senator "Starhawk makes the jump to fiction quite smoothly with this memorable first novel."—Locus "Totally captivating . . . a vision of the paradigm shift that is essential for our very survival as a species on this planet."—Elinor Gadon, author of *The Once and Future Goddess* "This strong debut fits well against feminist futuristic, utopic, and dystopic works by the likes of Charlotte Perkins Gilman, Ursula LeGuin, and Margaret Atwood."—Library Journal

**An Introduction to Political Communication** Jan 31 2020 An Introduction to Political Communication explores the relationship between politics, the media and democracy in the UK, the USA and other contemporary societies. Brian McNair examines how politicians, trade unions, pressure groups, non-governmental organizations and terrorist organizations make use of the media. Separate chapters look at political media and their effects, the work of political advertising, marketing and public relations and the communication practices of organizations at all levels, from grassroots campaigning through to governments and international bodies. Recent developments covered in the new edition include: \* the re-election of New Labour in 2001 \* the changes in government information and communication policy introduced by the Blair administration since 1997 \* the 2000 election of George W. Bush in the United States \* the NATO interventions in Kosovo and the former Yugoslavia \* the implications for international political communication of September 11 \* the emergence of Al-Qaida and the war on terror.

**The Principles of Nature, as Discovered in the Development & Structure of the Universe...** Oct 29 2019

**Historiography of B??a Bha??a** Sep 28 2019 The book 'Historiography of B??a Bha??a', is important to understand events and lifestyle of seventh century. Today history is not only chronology. Now a day history means the description of life of people, their socio-economic scenario, cultural and religious aspect, beliefs and opinions of people. These aspects of life are more important than chronology. B??a has exposed every important aspects related to life of people. His descriptions are also proved by contemporary historical sources. Clearly it can be said that India of seventh century could not be understood without descriptions of B??a . Thus B??a is not only writer but also a historian.

**Optical Communications in the 5G Era** Nov 22 2021 "Optical Communications in the 5G Era provides an up-to-date overview of the emerging optical communication technologies for 5G wireless networks. It outlines the emerging applications of optical networks in supporting future wireless networks, state-of-the-art optical communication technologies, and explores new R&D opportunities in the field of converged fixed-mobile networks. This book is an ideal reference for university researchers, graduate students, and industry R&D engineers in optical communications, photonics, and wireless communications who need a broad and deep understanding of modern optical communication technologies, systems, and networks that are fundamental to 5G and beyond." • Describes 5G wireless trends and technologies such as cloud radio access networks (C-RAN), massive multiple-input and multiple-output (MIMO), and coordinated multipoint (CoMP) • Gives an insight into recent advances on the common public radio interface (CPRI), the evolved CPRI (eCPRI), and the open radio access networks (O-RAN) interface • Presents X-haul technologies and how transportation technologies can satisfy the mobile network requirements • Describes recent technological advances in access, aggregation, metro, data center, backbone, and undersea optical networks • Discusses the vision and use cases of the 5th generation fixed network (F5G) to help realize a fully connected, intelligent world for the benefit of our global society

**Sandworm** Nov 30 2019 "With the nuance of a reporter and the pace of a thriller writer, Andy Greenberg gives us a glimpse of the cyberwars of the future while at the same time placing his story in the long arc of Russian and Ukrainian history." —Anne Applebaum, bestselling author of *Twilight of Democracy* The true story of the most devastating act of cyberwarfare in history and the desperate hunt to identify and track the elite Russian agents behind it: "[A] chilling account of a Kremlin-led cyberattack, a new front in global conflict" (Financial Times). In 2014, the world witnessed the start of a mysterious series of cyberattacks. Targeting American utility companies, NATO, and electric grids in Eastern Europe, the strikes grew ever more brazen. They culminated in the summer of 2017, when the malware known as NotPetya was unleashed, penetrating, disrupting, and paralyzing some of the world's largest businesses—from drug manufacturers to software developers to shipping companies. At the attack's epicenter in Ukraine, ATMs froze. The railway and postal systems shut down. Hospitals went dark. NotPetya spread around the world, inflicting an unprecedented ten billion dollars in damage—the largest, most destructive cyberattack the world had ever seen. The hackers behind these attacks are quickly gaining a reputation as the most dangerous team of cyberwarriors in history: a group known as Sandworm. Working in the service of Russia's military intelligence agency, they represent a persistent, highly skilled force, one whose talents are matched by their willingness to launch broad, unrestrained attacks on the most critical infrastructure of their adversaries. They target government and private sector, military and civilians alike. A chilling, globe-spanning detective story, Sandworm considers the danger this force poses to our national security and stability. As the Kremlin's role in foreign government manipulation comes into greater focus, Sandworm exposes the realities not just of Russia's global digital offensive, but of an era where warfare ceases to be waged on the battlefield. It reveals how the lines between digital and physical conflict, between wartime and peacetime, have begun to blur—with world-shaking implications.

**Quantum Marketing** May 05 2020 Raja Rajamannar, Chief Marketing Officer of Mastercard, shares breakthrough, frontier strategies to navigate the challenges that result from today's unprecedented disruption. As technology has continually evolved in the last several decades, marketing has had to change with it, evolving through four significant stages that build on the strategies and tools of the previous era. What happens next in the fifth stage, or Fifth Paradigm, will not be an evolution, but a revolution. Almost everything about how marketing is done today, including the very notion of a brand itself, will require a complete re-imagining. As Chief Marketing Officer of Mastercard, one of the world's most recognizable and decorated brands, Raja Rajamannar shares the forward-thinking ways all businesses must rethink their entire marketing landscape to remain relevant and be successful. In *Quantum Marketing*, readers will: Understand the evolution of marketing and how to be at the forefront of future change. Get clarity on the right marketing strategies and tactics to pursue amidst an ever-evolving industry. Achieve breakthroughs in innovative thinking to compete in modern business. Gain perspective from top marketers across industries. *Quantum Marketing* is for all business people who seek to understand how rapidly marketing is evolving, what marketers are doing to get ready for this shift, and what the new world will look like for companies, consumers, and society as the race to develop revolutionary marketing strategies reaches a whole new level.

**The Fourth Industrial Revolution** Mar 27 2022 The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In *The Fourth Industrial Revolution*, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.

**Aztec Religion and Art of Writing** Mar 03 2020 Laack's study presents an innovative interpretation of Aztec religion and art of writing. She explores the Nahua sense of reality from the perspective of the aesthetics of religion and analyzes Indigenous semiotics and embodied meaning in Mesoamerican pictorial writing.

**Build Your Fortune in the Fifth Era** Jun 29 2022 The Internet didn't even exist 30 years ago, and now billions of people are connected to the web every day. New technologies are being invented that will dramatically change the way humans exist. The authors, Silicon Valley insiders, provide insights on the new rules of this game, and reveal how readers can prosper in the coming Fifth Era.

**The Train of the Fifth Era** Sep 01 2022 Soulsmiths, Mystery Spot, Reiki, Timeline, Huna, Neuro-linguistic Programming? With humankind anxiously standing on the threshold of a new millennium, the quest we see before us is for the path to a more soulful life. This book narrates an adventure from California and New Mexico to Bangkok in pursuit of the elusive spiritual secret to life. Disappointed by the lack of direction plaguing our times, a group of Western knowledge seekers attend a cultural event in Bangkok conducted by a wise Asian. For seven days they hang on his every word while learning the Seven Secrets of the Lotus, with many erotic and exotic experiences in a tapestry of Thailand as background. The seekers leave Bangkok convinced they are ready to meet the challenges and opportunities of the 21st Century. But are they? The return flight becomes a turnaround flight and crash lands at a train station at the moment of the departure of the last train, the "Train of the Fifth Era."

**The Fifth Tiger** Jan 13 2021 Thailand's dynamic economic development has earned it a reputation as the "Fifth Tiger" (following on the heels of the superperforming "Four Tigers" - South Korea, Taiwan, Singapore and Hong Kong). This is a study of Thailand's development experience since 1955.

**The Fifth Era of Man** Sep 20 2021 Career grifter and perennial loser Cal Reeger is a dead man. He owes a lot of money to crimelord Jaefor, and the only thing he owns are his pair of revolvers. Not even the jacket on his back belongs to him. To repay this debt, he must infiltrate the Archaeology Guild's site at Natx Hollow. As Cal schemes to steal the find of a lifetime from the aeons-old site, the ruin's true nature is revealed. Within a cryogenic coffin belowground sleeps Centurion Prae Ganvelt, a member of the first civilization, the original race of humans who flourished millions of years ago. Still looking for a way out of his debt and with a mercenary hot on his tail, Cal joins the awakened warrior Prae and archaeologist Peter Mathester to investigate the fate of Prae's kind. Within the mysterious, ancient compound of Ala'ydin, they learn that progenitor scientist, Erudatta, altered the cycle of dormancy for Prae's people. What they still must discover are his reasons for doing so. *The Fifth Era of Man* examines the dangers of unearned achievements and the desperation that drives those who are prey to their own bad decisions.

**The Intelligent Investor - Silicon Valley** Aug 20 2021 From the bestselling authors of *The Fifth Era*, *Corporate Innovation in the Fifth Era* and *Blockchain Competitive Advantage* comes a new book full of practical wisdom for investors and entrepreneurs from 50 leading Silicon Valley angels and venture capitalists Contributions from more than 50 of Silicon Valley's leading backers of early stage companies: What they have learned about early stage investing The secrets they wish they had known before they got started The wisdom and advice they want to share with you.

**The Fifth Quadrant** Jun 17 2021 In the 33rd century, unbridled pleasure and unparalleled peace make the world go round—under the watch of a vast corporate order that includes living goddess Gloria VanDeen, a powerful player as gutsy as she is gorgeous. More popular and more ambitious than ever, Gloria is entertaining two tempting offers: to become Empress, or to rise through the ranks of the Department of Extraterrestrial Affairs and take out some bad guys along the way—if they don't get her first. . . . When someone takes a potshot at Gloria with a weapon unseen since the Empire's last great war, it's clear that success won't come without a price. For among power brokers, warriors, and rebels lies a dirty secret that could crack the Empire wide open. And Gloria is determined to get to the bottom of it—even if it means going to the top.

**The Fifth Book of Peace** May 29 2022 A long time ago in China, there existed three Books of Peace that proved so threatening to the reigning powers that they had them burned. Many years later Maxine Hong Kingston wrote a *Fourth Book of Peace*, but it too was burned—in the catastrophic Berkeley-Oakland Hills fire of 1991, a fire that coincided with the death of her father. Now in this visionary and redemptive work, Kingston completes her interrupted labor, weaving fiction and memoir into a luminous meditation on war and peace, devastation and renewal.

**The Fifth Risk** Apr 27 2022 'Will set your hair on end' Telegraph, Top 50 Books of the Year 'Life is what happens between Michael Lewis books. I forgot to breathe while reading *The Fifth Risk*' Michael Hofmann, TLS, Books of the Year The phenomenal new book from the international bestselling author of *The Big Short* 'The election happened ... And then there was radio silence.' The morning after Trump was elected president, the people who ran the US Department of Energy - an agency that deals with some of the most powerful risks facing humanity - waited to welcome the incoming administration's transition team. Nobody appeared. Across the US government, the same thing happened: nothing. People don't notice when stuff goes right. That is the stuff government does. It manages everything that underpins our lives from funding free school meals, to policing rogue nuclear activity, to predicting extreme weather events. It steps in where private investment fears to tread, innovates and creates knowledge, assesses extreme long-term risk. And now, government is under attack. By its own leaders. In *The Fifth Risk*, Michael Lewis reveals the combustible cocktail of wilful ignorance and venality that is fuelling the destruction of a country's fabric. All of this, Lewis shows, exposes America and the world to the biggest risk of all. It is what you never learned that might have saved you.

**Fifth Wave of the Feminist Movement: Coochie Power 5.0 Era** Feb 23 2022 In *Fifth-Wave of the Feminist Movement: Coochie Power 5.0 Era*, Marie-Antoinette Tichler acknowledges the growth of femininity from the oppressive force it was to the empowering force it became. She honors the women who questioned their position and fought for their rights. Tichler highlights 21 iconic game-changers in history that made a vital impact on feminism, teaching society that it's okay to be a woman. She encourages women not to be a victim, but to draw strength and courage from the triumphs and resilience of those who laid the path. She points out conversations that need to be addressed for women to build better camaraderie, work well together, and secure the community of sisterhood so that women can better embrace each other's ideals, share their dreams, and make a difference in this world. Women will learn from each other's stories, past and present, and pass on their wisdom to the next generation. This is the best time to be a woman and the possibilities are endless.

**The Indonesian Economy in Transition** Apr 03 2020 By any indicator, Indonesia, the fourth most populous nation on earth, is a development success story. Yet 20 years after a deep economic and political crisis, it is still in some respects an economy in transition. The country recovered from the 1997–98 crisis and navigated the path from authoritarian to democratic rule surprisingly quickly and smoothly. It survived the 2008–09 global financial crisis and the end of the China-driven commodity super boom in 2014 with little difficulty. It is now embarking on its fifth round of credible national elections in the democratic era. It is in the process of graduating to the upper middle-income ranks. But, as the 25 contributors to this comprehensive and compelling volume document, Indonesia also faces many daunting challenges — how to achieve faster economic growth along with more attention to environment sustainability, how to achieve more equitable development outcomes, how to develop and nurture stronger institutional foundations, and much else. “This is a timely and much-needed book. There are very few recent books on Indonesia with such a comprehensive analysis of not just mainstream economic policies, but also most importantly the key issues of human capital, inequality, social welfare, labour, food security and natural resource management. This book will not only be crucial for policy discourse but for all stakeholders who care about Indonesia making the transition not only to a high-income economy, but an inclusive one.” — Mari Pangestu, Faculty of Economics and Business, University of Indonesia “The Indonesian Economy in Transition: Policy Challenges in the Jokowi Era and Beyond is one of the most important books that discusses the Indonesian economy post–Asian Financial Crisis. A must-read for anyone who wants to understand contemporary Indonesian economy.” — M. Chatib Basri, former Minister of Finance of Indonesia
