The Handbook of Dealing with Workplace Bullying Jul 28 2022 The topic of workplace bullying and abuse gained considerable public and media attention during 2013 when the scandal of events at the BBC was unveiled following an enquiry led by Dinah Rose QC. The Handbook of Dealing with Workplace Bullying, edited by Dr Anne-Marie Quigg, presents the collective wisdom and knowledge of a number of lawyers, management experts and academics from around the world. The key themes include understanding the law in each country represented and the responsibilities of individuals as well as management teams and governors in organizations. The Copernican Revolution in Homeopathy - The New Way of Dealing with Life Energy Jun 02 2020 Homeopathy is not a timeless object of research. Embedding it in today's postmodern culture requires a reflexive historicizing. Classical homeopathy is based on the classical subject. Today, the crisis of the civil subject is conspicuous. Homeopathy must find its answer to this challenge and to the cultural immunodeficiency of society. As a consequence of the crisis of the subject, the significance of life energy is substantially changing. The author speaks of a Copernican

Revolution. The new way of dealing with life energy also demands a metamorphosis of classical homeopathy. The book is oriented towards the energy body philosophy, yet written in a language that is understandable for the interested layman.

Zen and the Art of Dealing with Difficult People Aug 29 2022 This is a unique guide to coping with challenging people using practical Zen and mindfulness tools. It helps readers explore their reactions, break free from knee-jerk response patterns and see if these people may in fact prove to be useful teachers in life - troublesome Buddhas. This is a guide to applying the teachings of mindfulness and Zen to the troublesome or challenging people in our lives. Perhaps you can see there's often a pattern to your behaviour in relation to them and that it often causes pain - perhaps a great deal of pain. The only way we can grow is by facing this pain, acknowledging how we feel and how we've reacted, and making an intention or commitment to end this repeating pattern of suffering. In this book, Mark Westmoquette speaks from a place of profound personal experience. A Zen monk, he has endured two life-changing traumas caused by other people: his sexual abuse by his own father; and his stepfather's death and mother's very serious injury in a car crash due to the careless driving of an off-duty policeman. He stresses that by bringing awareness and kindness to these relationships, our initial stance of "I can't stand this person, they need to change" will naturally shift into something much broader and more inclusive. The book makes playful use of Zen koans - apparently nonsensical phrases or stories - to help jar us out of habitual ways of perceiving the world and nudge us toward a new perspective of wisdom and compassion.
