*These Dividing Walls* Nov 01 2022 Step into Paris as you have never seen it before. . . SHORTLISTED FOR THE HAYES & JARVIS FICTION WITH A SENSE OF PLACE, 2018 EDWARD STANFORD TRAVEL WRITING AWARD 'An engaging debut that throws light on a hidden side of Paris' Woman and Home 'A sensitive, necessary, brave book.' Laura Barnett, author of *The Versions of Us* What building doesn't have secrets? How much does anyone know of what goes on behind their neighbour's doors? On a hot June day, grief-stricken Edward arrives in Paris hoping that a stay in a friend's empty apartment will help him mend. But this is not the Paris he knows: there are no landmarks or grand boulevards, and the apartment he was promised is little more than an attic room. In the apartments below him, his new neighbours fill their flats with secrets. A young mother is on the brink, a bookshop owner buries her past, and a banker takes up a dark and malicious new calling. Before he knows it, Edward will find himself entangled in their web, and as the summer heat intensifies so do tensions within and without the building, leading to a city-wide wave of violence, and a reckoning within the walls of number 37. With a sultry heat to rival *A Year in Provence* and all the sharp perception of Leila Slimani's *Lullaby*, *These Dividing Walls* is a beautifully written and eye-opening novel about the Paris we don't see. 'It'll open your heart and mind. It certainly did mine' *The Pool* 'An unforgettable and unexpected portrait of Paris' Hannah Rothschild \*\*\*\*\* What readers have said about *These Dividing Walls*: 'Totally engrossing - it was a magical pleasure to lose myself in these people's world each night' 'The quality of the writing in *These Dividing Walls* is never short of exquisite' 'This is an outstanding debut novel from an author to watch' 'A delightful glimpse into the lives of a group of people one hot and fearful summer'

**Walls** Jul 29 2022 For thousands of years, humans have built walls and assaulted them, admired walls and reviled them. Great Walls have appeared on nearly every continent, the handiwork of people from Persia, Rome, China, Central America, and beyond. They have accompanied the rise of cities, nations, and empires. And yet they rarely appear in our history books. Spanning centuries and millennia, drawing on archaeological digs to evidence from Berlin and Hollywood, David Frye uncovers the story of walls and asks questions that are both intriguing and profound. Did walls make civilization possible? Can we live without them? This is more than a tale of bricks and stone: Frye reveals the startling link between what we build and how we live, who we are and how we came to be. It is nothing less than the story of civilization.

When Wilhelm tries to warn his own half-brother, Cardinal Gregory Germaine, Gregory wants him dead. What Wilhelm doesn't know is that Germaine is part of a secret Vatican plot to kill the ailing pontiff and seize control of the Church's massive wealth. Wilhelm quickly discovers Germaine is not the only one who will kill to learn the secret of the riddle..." the bearer of this disc holds knowledge of the Temple of Transparent Walls." The final agenda, Protocol ION 20/XX has been activated by the global cabal. With the aid of Taylor Cole, a former Delta Force operative, Wilhelm and his co-conspirators are caught in a tempest of secrecy and lies. **Walls and Bars** Sep 18 2021 Your knowledge of Eugene Victor Debs' activity during and since the First World War will not be complete until you read this book. It includes his speech at Canton, Ohio, that brought about his arrest; his fearless address to the jury; his daring statement to the court, and excellent account of the trial; and a short history of the Socialist Party's Amnesty Campaign. "While still an inmate of the United States Penitentiary at Atlanta, Georgia, the suggestion was made to me by interested publishers that upon my release I write a series of articles describing my prison experience. The suggestion, coming from various sources, appealed to me for the reason that I saw in it an opportunity to give the general public certain information in regard to the prison, based upon my personal observation and experience, that I hoped might result in some beneficial changes in the management of prisons and in the treatment of their inmates."—Eugene Victor Debs, Introduction

**Urban Walls** Dec 22 2021 In recent years, an increasing number of separation walls have been built around the world. Walls built in urban areas are particularly striking in that they have exacted a heavy toll in terms of human suffering. As territorialising devices, walls can be protective, but the protection they grant is never straightforward. This collection invites inquiry into the complexities of the social life of walls, observing urban spaces as veritable laboratories of wall-making – places where their consequences become most visible. A study of the relationship between walls and politics, the cultural meaning of walls and their visibility, whether as barriers or as legible – sometimes spectacular – surfaces, and their importance for social processes, Urban Walls shows how walls extend into media spaces, thus drawing a multidimensional geography of separation, connection, control and resistance. As such, the collection will appeal to scholars of sociology, anthropology, geography, architecture and politics with interests in urban studies and social theory.

**The Evolution of the Chinese Internet** Jun 03 2020 Despite widespread consensus that China's digital revolution was sure to bring about massive democratic reforms, such changes have not come to pass. While scholars and policy makers alternate between predicting change and disparaging a stubbornly authoritarian regime, in this book Shaohua Guo demonstrates how this dichotomy misses the far more complex reality. The Evolution of the Chinese Internet traces the emergence and maturation of one of the most creative digital cultures in the world through four

major technological platforms: the bulletin board system, the blog, the microblog, and WeChat. Guo transcends typical binaries of freedom and control, to argue that Chinese Internet culture displays a uniquely sophisticated interplay between multiple extremes, and that its vibrancy is dependent on these complex negotiations. In contrast to the flourishing of research findings on what is made invisible online, this book examines the driving mechanisms that grant visibility to particular kinds of user-generated content. Offering a systematic account of how and why an ingenious Internet culture has been able to thrive, Guo highlights the pivotal roles that media institutions, technological platforms, and creative practices of Chinese netizens have played in shaping culture on- and offline.

*Living in Palestine between tablets, walls, the Bible and the Koran* Mar 13 2021 "Living in Palestine between Tablets, Walls, The Bible and The Koran" is a book that reports the daily life in West Bank through population's direct experiences and the reconstruction of historical facts almost unknown or forgotten. Not only the check points, the Barrier of separation, the huge bureaucratic difficulties are under the lens. In fact the book focuses also on another Palestine, the one that more and more uses the most sophisticated technologies, especially in computer field, the Palestine of the entrepreneurship of the youngest people as well, especially women, who are the majority of the universities students by now. For everybody West Bank means strong laws imposed on Palestinian people, continuous clashes and violences, Jews settlements where settlers live shut in, like prisoners, the oldest refugee camps all around the world where 2/3 of Palestinian people live. Actually it is much more than this, even if international media don't mention it, because they are completely focused on the endless conflict. The book reveals these unsuspected faces of the Palestinian life. "I met Giovanni Verga sitting in a coffee shop, in an Arabic garden near Damascus Gate. He was leaving for his journey towards Palestine's lands and lives. He had already read the poets and the books, memorized the analyses, kept the chronicles. He laked the daily voices, which he found later and tells us in this book: voices essential to those who write about an invisible State with uncertain boundaries, full of colonies, deprived of olive trees. He speaks about a place that has only memory of tragedies (the Nakba) and that invents its own life into a grey, boycotted daily life, ruled by a corrupted political class, where resigned people suffer". (Francesco Battistini, former Jerusalem correspondent for the Italian daily newspaper "Il Corriere della Sera")

**The Boy with the Perpetual Nervousness** Dec 30 2019 A Sunday Times Book of the Year 'Passionate and courageous, insightful and humane, funny and moving, this is a wonderful book' David Nicholls, author of *One Day* Shortlisted for the Portico Prize Graham Caveney was born in 1964 in Accrington: a town in the north of England, formerly known for its cotton mills, now mainly for its football team. Armed with his generic Northern accent and a record collection including the likes of the Buzzcocks and Joy Division, Caveney spent a portion of his youth pretending he was from Manchester. That is, until confronted by someone from Manchester (or anyone who had been to Manchester or anyone who knew anything at all about Manchester) at which point he would give up and admit the truth. In *The Boy with the Perpetual Nervousness*, Caveney describes growing up as a member of the 'Respectable Working Class'. From aspiring altar boy to Kafka-quoting adolescent, his is the story of a teenage boy's obsession with music, a love affair with books, and how he eventually used them to plot his way out of his home town. But this is also a story of abuse. For his parents, education was a golden ticket: a way for their son to go to university, to do better than they did, but for Graham, this awakening came with a very significant condition attached. For years Graham's headteacher, a Catholic priest, was his greatest mentor, but he was also his abuser. As an adult, Graham Caveney is still struggling to understand what happened to him, and he writes about the experience - all of it - and its painful aftermath with a raw, unflinching honesty. By turns, angry, despairing, insightful, always acutely written and often shockingly funny, *The Boy with the Perpetual Nervousness* is an astonishing memoir, startling in its originality.

**The Wall Between Us** Mar 25 2022 "The biology of Israel/Palestine simply and beautifully revealed," from the author of *Down and Out Today: Notes from the Gutter* (Jon Snow, journalist and presenter). Writer Matthew Small traveled to the Holy Land to further his understanding of the enduring conflict between Israel and Palestine. While there, he discovered beauty, fear and suffering like nowhere else in the world. In these honest and evocative reflections, Small retells his experiences of crossing into the West Bank to work the olive harvest with Palestinian farmers. He relates his encounters with organizations that are determinedly working to sow the seeds of peace in soils that are deeply scarred by suffering and war. While reliving these unforgettable experiences, through his writing he struggles to find why the wall between these two groups of people

exists. Deciding to join a group of international and Israeli volunteers, Small attempts to show that, despite the ongoing occupation, peace is not lost, but still to be discovered. “Matthew Small, despite the horror of both the war, and the wall, works and travels both sides of the divide, and brings us to an understanding of where the seeds of peace can yet be found.”—Jon Snow, journalist and presenter “What is really refreshing about this book is the way Small writes from a very personal perspective, often admitting in his diary entries that he’s unsure what to write or how he feels about the situation. His emotion surrounding his visit and the people living amongst the occupation every day is portrayed in a gritty, raw way.”—The Bookbag

**My Own Four Walls** Jul 17 2021 Don Rose came to the U.S. from England in 1908, when he was 18, entering through Ellis Island like countless other immigrants. By 1941 he was one of Philadelphia's best-known newspaper columnists. That year he published his gentle, funny memoir *My Own Four Walls*, the story of the ramshackle farmhouse he and Marjorie, his wife, bought in 1918 for themselves and their 12 children. One of his grandsons, Neil Genzlinger, himself a journalist at the *New York Times*, here brings that book back to life, with the original illustrations, a century after his grandfather had signed the deed. Part diary, part DIY manual, Rose's unsung classic is a tale of smoky fireplaces, leaky ceilings and unruly gardens, at a time when refrigerators were newfangled and suburban homes were furnished at country auctions. Most of all it is a story of how one man, with persistence, slowly put down roots in his adopted country.

*How to Walk on Water and Climb up Walls* Apr 13 2021 Discovering the secrets of animal movement and what they can teach us Insects walk on water, snakes slither, and fish swim. Animals move with astounding grace, speed, and versatility: how do they do it, and what can we learn from them? In *How to Walk on Water and Climb up Walls*, David Hu takes readers on an accessible, wondrous journey into the world of animal motion. From basement labs at MIT to the rain forests of Panama, Hu shows how animals have adapted and evolved to traverse their environments, taking advantage of physical laws with results that are startling and ingenious. In turn, the latest discoveries about animal mechanics are inspiring scientists to invent robots and devices that move with similar elegance and efficiency. Hu follows scientists as they investigate a multitude of animal movements, from the undulations of sandfish and the way that dogs shake off water in fractions of a second to the seemingly crash-resistant characteristics of insect flight. Not limiting his exploration to individual organisms, Hu describes the ways animals enact swarm intelligence, such as when army ants cooperate and link their bodies to create bridges that span ravines. He also looks at what scientists learn from nature's unexpected feats—such as snakes that fly, mosquitoes that survive rainstorms, and dead fish that swim upstream. As researchers better understand such issues as energy, flexibility, and water repellency in animal movement, they are applying this knowledge to the development of cutting-edge technology. Integrating biology, engineering, physics, and robotics, *How to Walk on Water and Climb up Walls* demystifies the remarkable mechanics behind animal locomotion.

**Black Girl Civics** Jul 25 2019 What does it mean to be a civic actor who is Black + Young + Female in the United States? Do African American girls take up the civic mantle in the same way that their male or non-Black peers do? What media, educational, or social platforms do Black girls leverage to gain access to the political arena, and why? How do Black girls negotiate civic identity within the context of their racialized, gendered, and age specific identities? There are scholars doing powerful work on Black youth and civics; scholars focused on girls and civics; and scholars focused on Black girls in education. But the intersections of African American girlhood and civics have not received adequate attention. This book begins the journey of understanding and communicating the varied forms of civics in the Black Girl experience. *Black Girl Civics: Expanding and Navigating the Boundaries of Civic Engagement* brings together a range of works that grapple with the question of what it means for African American girls to engage in civic identity development and expression. The chapters collected within this volume openly grapple with, and disclose the ways in which Black girls engage with and navigate the spectrum of civics.
