Nanotechnology Oct 26 2022 Existing laws have a generality that permits them to be applied to nanotechnology, but eventually it will be necessary to generate legislation targeted to issues specific to nanotechnology. As nanotechnology continues to develop into commercially viable products, legal doctrines are increasingly likely to play an important role in protecting intellectual property, facilitating financial transactions, and handling health, safety, and environmental issues. Nanotechnology: Legal Aspects provides thorough, yet comprehensible overview of different legal doctrines that are relevant to nanotechnology and explains how they may apply in the development, commercialization, and use of nano-products. The book is divided into three parts that correspond to the different phases in the lifecycle of nano-products: Protection, Regulation, and Liability. The in-depth coverage of these topics in a single source sets this work apart from others at the interface of law and nanoscience. Accessible to those without specific training in either nanotechnology or law... Nanotechnology: Legal Aspects offers a reader-friendly and affordable alternative that appeals to nano-aware audiences as well as legal professionals, students, and scientists who wish to build a greater understanding of the legal aspects of nanotechnology.

Calvin, A Biography Mar 27 2020 A major new authoritative and comprehensive biography, shedding new light on the life and personality of the great Reformer - and the milieu in which he lived and worked. Cottret's Calvin is not the 'static' theologian of earlier biographies, but a man of enormous vigour, constantly on the move in his thinking as well as in his life. Professor Cottret introduces the reader to the world into which Calvin was born, and follows him from childhood to humanistic and literary pursuits in Basel, to ministry in Geneva, to the halcyon Strasbourg years and finally back to Geneva. The vital issues of the day are encountered as it were through Calvin's eyes, as the author leads the reader through the dramatic upheavals of sixteenth-century Europe. A classic biography which will be an indispensable resource for students and scholars for years to come. Praise for Calvin: 'A tour de force. . . Cottret has avoided the trap of painting a character who would have had, from the beginning, all of the traits of his

later years, and endeavours to show how Calvin became Calvin. . . Brilliant.' --Le Monde 'This excellent book regards the French Reformer with new eyes. . . Cottret mixes seriousness and welcome humour. For the public interested in a history of Protestantism, this book is full of reflections of the spirit of the Reformation.' --Les Livres du Mois 'Bernard Cottret is an accomplished and successful writer . . . He has an idiosyncratic style that mixes narrative and professional bon mots of a cold philosophical nature . . . Cottret is also the first of recent biographers [. . .] to make extensive use of Calvin's sermons, many of which languished unpublished until recently. Calvin had grave doubts about the publication of such works and thought them fit only for a local and transitory audience; but it is here, in this less guarded medium, that Calvin's skill as a teacher and expositor shines forth with greatest clarity.' --English Historical Review [Humanistica Lovaniensia](#) Oct 22 2019 Volume 60 *Humanistica Lovaniensia: Journal of Neo-Latin Studies*, published annually, is the leading journal in the field of Renaissance and modern Latin. As well as presenting articles on Neo-Latin topics, the journal is a major source for critical editions of Neo-Latin texts with translations and commentaries. Its systematic bibliography of Neo-Latin studies (*Instrumentum bibliographicum Neolatinum*), accompanied by critical notes, is the standard annual bibliography of publications in the field. The journal is fully indexed (names, mss., Neo-Latin neologisms). *Cajetan's Biblical Commentaries* Jun 17 2019 In *Cajetan's Biblical Commentaries*, Michael O'Connor argues that Cajetan's motive was more 'Catholic Reform' than 'Counter-Reformation', and that his method was a bold hybrid of scholasticism and Renaissance humanism, correcting the Vulgate's errors and expounding the text according to the literal sense.

Beyond Devolution and Decentralisation Feb 24 2020 *Beyond devolution and decentralisation* compares the politics, policies and polity-building dynamics of devolution in Wales and decentralisation in the French region of Brittany. Empirically, the book draws conclusions from in-depth fieldwork within two regions and reports the findings of a comparative public opinion survey. Theoretically, it contributes towards our understanding of the comparative study of regions. Perhaps most impressive is how the case studies generally are based on, but also cast light back, to the nuanced theoretical framework on regional capacity established at the outset. The book uncovers the dynamics of devolution in Wales and decentralisation in Brittany through extensive face to face interviews: over 200 interviews were carried out from 2001 to 2004, a formative stage in the development of the devolved institutions in Wales and a period of expectation in Brittany as well. The book will be of interest to the professional research community and to practitioners in Britain, France and beyond, as well as to students on comparative politics, British/Welsh politics, French politics, European studies and public policy courses.

[Women of God and Arms](#) Feb 06 2021 The religious and political spheres of the later medieval and early modern periods were tightly and indisputably interwoven, as illustrated by the papal schism, the Hundred Years War, the Reconquest of Spain, and the English Reformation. In these events as well as in the larger religiopolitical systems in which they unfolded, female saints, devout lay women, and monastic women

played central roles. In *Women of God and Arms*, Nancy Bradley Warren explores the political dimensions of the religious practices of women ranging from St. Colette of Corbie to Isabel of Castile to English nuns exiled during the reign of Elizabeth I. Just as religious and political systems were bound up with one another, so too were the internal and external politics of England and several continental realms. Blood and marriage connected the English dynasties of Lancaster and York with those of France, Burgundy, Flanders, and Castile, creating tangled networks of alliances and animosities. In addition to being linked through ties of kinship, these realms were joined by frequent textual and cultural exchanges. Warren draws upon a wide variety of sources—hagiography, chronicles, monastic records, devotional treatises, military manuals, political propaganda, and texts traditionally designated as literary—as she examines the ways manifestations of female spirituality operated at the intersections of civic, international, and ecclesiastical politics. Her exploration breaches boundaries separating the medieval and the early modern, the religious and the secular, the material and the symbolic, the literary and the historical, as it sheds new light on well-known figures such as Joan of Arc, Isabel of Castile, and Elizabeth I.

Television and the Legal System Mar 19 2022 This book examines the American television legal series from its development as a genre in the 1940s to the present day. Villez demonstrates how the genre has been a rich source of legal information and understanding for Americans. These series have both informed and put myths in place about the legal system in the US. Villez also contrasts the US to France, which has seen a similar interest in legal series during this period. However, French television representations of justice are strikingly different, as is the role of fiction in offering viewers the possibility of acquiring significant understandings of their legal system. The book will be an important addition to the study of popular culture and law and will interest legal scholars, sociologists, and media scholars.

Cities in Contemporary Europe Feb 18 2022 This book examines the economics of European cities, their social structures, and the modes and processes of governance.

Henry VIII Jan 05 2021 A major new biography of the most infamous king of England.

The Dark Bible Jun 10 2021 The *Dark Bible* explores early modern England's interactions with difficult aspects of the Bible. For the early modern reader, although the Bible was understood to be perfect, sufficient, and transcendent (indeed, the Protestant Reformation required it), it was not always experienced as such. While traditional interpretive precepts, such as the claim that all dark passages could be read in the light of clear ones, were frequently recited by early modern commentators, their actual encounters with the darkness of the Bible suggest that writers, commentators, and translators were often deeply uncomfortable with the disjunction between what the Bible should be, and what it actually was. The *Dark Bible* investigates writers' and translators' attempts to explain, accommodate, circumvent, and repair problematic texts across a range of genres and contexts. It charts early modern English use of biblical scholarship in vernacular culture and investigates how vernacular writing in various genres could give voice to questioning and confused biblical interactions. The *Dark Bible* demonstrates that early modern writers and critics engaged extensively with the Bible's difficulties, attempting to circumvent and repair problematic texts, and otherwise reconcile the darkness of the Bible with theories of the Bible's perfection and clarity.

Comparative Law Dec 04 2020 This book discusses a number of important themes in comparative law: legal metaphors and methodology, the movements of legal ideas and institutions and the mixity they produce, and marriage, an area of law in which culture - or clashes of legal and public cultures - may be particularly evident. In a mix of methodological and empirical investigations divided by these themes, the work offers expanded analyses and a unique cross-section of materials that is on the cutting edge of comparative law scholarship. It presents an innovative approach to legal pluralism, the study of mixed jurisdictions, and language and the law, with the use of metaphors not as an illustration but as a core element of comparative methodology.

Neurobiology of Motor Control Apr 27 2020 A multi-disciplinary look at the current state of knowledge

regarding motor control and movement—from molecular biology to robotics The last two decades have seen a dramatic increase in the number of sophisticated tools and methodologies for exploring motor control and movement. Multi-unit recordings, molecular neurogenetics, computer simulation, and new scientific approaches for studying how muscles and body anatomy transform motor neuron activity into movement have helped revolutionize the field. *Neurobiology of Motor Control* brings together contributions from an interdisciplinary group of experts to provide a review of the current state of knowledge about the initiation and execution of movement, as well as the latest methods and tools for investigating them. The book ranges from the findings of basic scientists studying model organisms such as mollusks and *Drosophila*, to biomedical researchers investigating vertebrate motor production to neuroengineers working to develop robotic and smart prostheses technologies. Following foundational chapters on current molecular biological techniques, neuronal ensemble recording, and computer simulation, it explores a broad range of related topics, including the evolution of motor systems, directed targeted movements, plasticity and learning, and robotics. Explores motor control and movement in a wide variety of organisms, from simple invertebrates to human beings Offers concise summaries of motor control systems across a variety of animals and movement types Explores an array of tools and methodologies, including electrophysiological techniques, neurogenic and molecular techniques, large ensemble recordings, and computational methods Considers unresolved questions and how current scientific advances may be used to solve them going forward Written specifically to encourage interdisciplinary understanding and collaboration, and offering the most wide-ranging, timely, and comprehensive look at the science of motor control and movement currently available, *Neurobiology of Motor Control* is a must-read for all who study movement production and the neurobiological basis of movement—from molecular biologists to roboticists.

Small States in a Legal World Dec 16 2021 This book is a unique collection of high quality articles analysing legal issues with particular regard to small states. The small states of the world differ considerably in their geography, history, political structures, legal systems and wealth. Nevertheless, because of their size, small states face a set of common challenges including vulnerability to external economic impacts such as changing trade regimes and limited ability to diversify economic activity; limited public and private sector capacity, including the legal and judicial infrastructure; a need for regional co-operation; a vulnerability to environmental changes as well as a limited ability to engage with supranational bodies and the forces of globalisation. This is the first volume of an exciting and unique new series, *The World of Small States*. In this work, legal experts from small jurisdictions and those with a particular interest in legal issues facing small states explore inter alia ethics in small jurisdictions, legal education and the profession in small states, the challenges facing small states with mixed legal systems, the constitutional arrangements in small states, small states as tax havens, and intellectual property and competition law issues.

Pluralism, Transnationalism and Culture in Asian Law Apr 20 2022 “We owe much of our knowledge of legal diversity in Asia to the work of Barry Hooker, who appears early on to have appreciated its intrinsic interest and potentially global significance. His work in the field is, as the French say, *incontournable*; a nice combination of the unavoidable, the controlling and the greatly respected.” — H.P. Glenn span, SPAN { background-color:inherit; text-decoration:inherit; white-space:pre-wrap } To honour this great scholar, this book gathers essays from admirers and friends who add their own contributions on legal pluralism, transnationalism and culture in Asia. The book opens with an account of M.B. Hooker colourful and prolific career. The authors then approach legal pluralism through legal theory, legal anthropology, comparative law, law and religion, constitutional law, even Islamic art, thus reflecting the broad approaches of Professor Hooker's scholarship. While most of the book focuses mainly on Southeast Asia, it also reaches out to all of Asia up to Israel, and even includes a chapter comparing Indonesia and Egypt.

A Student's Guide to Legal Analysis Mar 07 2021 This concise, accessible text provides law students with a way of organizing and thinking about their coursework and about the cases, laws, and regulations they confront every day. Among the features of this book: - based on the premise that despite the law's complexity, there are three primary questions that recur in different guises throughout legal practice: - Is there a law? - Has it been violated? - What will be done about it? - brings order to the multitude of legal issues that law students confront in the cases and materials they study - introduces the dynamics of legal argument - helps students recognize the basic questions posed in a legal dispute as well as the predictable

reasons lawyers give for reaching one resolution or another - contains a helpful Glossary of Legal Terms and extensive index, as well as a list of suggested readings

The Problem of Herbal Medicines Legal Status Jun 22 2022 The main problem in the use of medicinal plants, discussed in this book, is that citizens are being persuaded that herbal medicine is based on its low or even absent toxicology. A good efficacy is assumed as self-evident, and therapeutic benefit without risks is expected. Many users prefer natural medicine instead of synthetic remedies. However, the number of reports on unwanted side effects of phytomedicines increased in the last years. In some instances, a lack of pharmaceutical quality was found. The unqualified recommendation of herbal medicines may represent a considerable risk to the user. The use of a herbal remedy with unproven efficacy can represent a risk for the user when a more effective and necessary treatment will therefore be stopped or omitted. These circumstances must be taken into account by the governments, inspection services, the doctors and the judges. The present approach to herbal medicines and fraud with these products do not receive the necessary punishment because it is believed that if the product does not have any therapeutic property, it cannot entail any harm either.

John Calvin Student of Church Fathers May 29 2020 A fine study of John Calvin and his relationships with the fathers and medieval scholars, by one of the leading present-day experts in Calvin studies. Specific themes explored include, for example, Calvin's knowledge of the Greek fathers, his use and sources of Bernard of Clairvaux, his use of the fathers in Bondage and Liberation of the Will, and the sources for his Genesis commentary.

King's Sister - Queen of Dissent Jan 25 2020 This study reconstructs for the first time Marguerite of Navarre's leadership of a broad circle of nobles, prelates, humanist authors, and commoners, who sought to advance the reform of the French church along evangelical (Protestant) lines. Hitherto misunderstood in scholarship, they are revealed to have pursued, despite persecution, a consistent reform program from the Meaux experiment to the end of Francis I's reign through a variety of means: fostering local church reform, publishing a large corpus of religious literature, high-profile public preaching, and attempting to shape the direction of royal policy. Their distinctive doctrines, relations with major reformers including their erstwhile colleague Calvin involvement in major Reformation events, and the impact of their unsuccessful attempt are all explored.
