**Dumb Criminals and Overeager Cops** May 03 2020 Usually students learning criminal law and procedure are confronted with several dusty cases presented through obtruse legal prose. Obtruse? What does that even mean? In "Dumb Criminals and Overeager Cops," Professor Zachariah B. Parry tells the story of how the U.S. criminal system was developed through the actions of, well, dumb criminals and overeager cops. Paralegals using this book will learn why the U.S. Supreme Court overturned Ernesto Miranda's conviction for kidnapping and rape because the police did not properly inform him of his rights. Now, police across the country are required to inform all arrestees, "You have the right to remain silent. Anything you say can and will be used against you in a court of law ...." Paralegals will learn the elements of dozens of crimes, along with potential defenses to these crimes using a variety of examples from real life and pop culture. This book has the primary goal of instilling in paralegal candidates a knowledge of the language and basic tenets of substantive and procedural criminal law. Recognizing that to learn, one must be engaged, the book conveys information in an easy-to-follow format with entertaining anecdotal examples so the law comes to life.

[Criminal Procedure and the Supreme Court](#) Jul 05 2020 In any episode of the popular television show Law and Order, questions of police procedure in collecting evidence often arise. Was a search legal? Was the evidence obtained lawfully? Did the police follow the rules in pursuing their case? While the show depicts fictional cases and scenarios, police procedure with regard to search and seizure is a real and significant issue in the criminal justice system today. The subject of many Supreme Court decisions, they seriously impact the way police pursue their investigations, the way prosecutors proceed with their cases, and the way defense attorneys defend their clients. This book answers these questions and explains these decisions in accessible and easy to follow language. Each chapter explores a separate case or series of cases involving the application of the Fourth Amendment to current police investigatory practices or prosecutorial conduct of the criminal trial. The police-related cases involve topics such as searches of suspects (both prior and incident to arrest), pretext stops, the knock-and-announce rule, interrogation procedures, and the parameters of an individual's reasonable expectation of privacy. The prosecutor-related cases involve topics such as jury selection, the right to counsel, and sentencing. This important overview serves as an introduction to the realities and practicalities of police investigation and the functioning of the criminal justice system when search and seizure becomes an issue.
