Getting to Maybe Mar 25 2022 Professors Fischl and Paul explain law school exams in ways no one has before, all with an eye toward improving the reader's performance. The book begins by describing the difference between educational cultures that praise students for "right answers," and the law school culture that rewards nuanced analysis of ambiguous situations in which more than one approach may be correct. Enormous care is devoted to explaining precisely how and why legal analysis frequently produces such perplexing situations. But the authors don't stop with mere description. Instead, *Getting to Maybe* teaches how to excel on law school exams by showing the reader how legal analysis can be brought to bear on examination problems. The book contains hints on studying and preparation that go well beyond conventional advice. The authors also illustrate how to argue both sides of a legal issue without appearing wishy-washy or indecisive. Above all, the book explains why exam questions may generate feelings of uncertainty or doubt about correct legal outcomes and how the student can turn these feelings to his or her advantage. In sum, although the authors believe that no exam guide can substitute for a firm grasp of substantive material, readers who devote the necessary time to learning the law will find this book an invaluable guide to translating learning into better exam performance. "This book should revolutionize the ordeal of studying for law school exams! Its clear, insightful, fun to read, and right on the money." — Duncan Kennedy, Carter Professor of General Jurisprudence, Harvard Law School "Finally a study aid that takes legal theory seriously! Students who master these lessons will surely write better exams. More importantly, they will also learn to be better lawyers." — Steven L. Winter, Brooklyn Law School "If you can't spot a 'fork in the law' or a 'fork in the facts' in an exam hypothetical, get this book. If you don't know how to play 'Czar of the Universe' on law school exams (or why), get this book. And if you do want to learn how to think like a lawyer—a good one—get this book. It's, quite simply, stone cold brilliant." — Pierre Schlag, University of Colorado School of Law (Law Preview Book Review on The Princeton Review website) Attend a *Getting to Maybe* seminar! Jumpstart Torts Apr 25 2022 JumpStart is a new study aid series covering the first-year course areas. Each title is a short book, roughly 170 pages, that addresses a problem students experience as they navigate their first year courses. Often first year students are expected to learn substantive law by reading judicial opinions without a framework or process to help them comprehend what they are reading. The JumpStart series supplies the context and prepares students to apply the rules in a litigation context. Titles in the series can be used as a general introduction to law school or as an introduction to torts. The books are most useful early in the first semester as well as in orientation courses or as summer reading for students entering their first year of law school. The series will appeal to academic success/support coordinators as well as the course-area professors. Ross Sandler is the series editor. His JumpStart: Torts is the first title in the series. JumpStart: Torts offers a detailed step-by-step approach to the stages of litigation, beginning with stating a theory of the case, moving through determining facts and making motions to receiving the holding of the case. Legal reasoning and the litigation process are taught via numerous judicial opinions with full analysis of each. Judicial opinions and analyses are made comprehensible without in-class explanation in a straightforward, clear, and informal writing style. Class-tested for success, JumpStart: Torts features pedagogical elements that support learning and facilitate use. As with each book in the series, the opening chapter provides a glossary of the terms, idioms, and procedures encountered in reading cases in tort law. Many judicial opinions are accompanied by an artist-drawn "cartoon" that illustrates the conflict or issue of the case. Short, easy-to-read opinions focus on ordinary situations with simple fact patterns that apply settled rules of law and principles. The book ends with a Practice Exam: a clear explanation of how to approach the typical torts essay exam question as well as insight into how professors grade exams. The chapter ends with a practice essay question. Two sample answers are included: a strong answer and a weaker answer. Each answer includes notes that point out where students did well and where they could improve their answers. Focuses on law school and bar exams rather than the kind of assignments seen in legal writing class. As such, the book helps students improve their grades in all of their substantive courses, not just in their first year legal writing class. Provides readers with a proven and easy-to-implement means of maximizing points on a law school exam. Rather than repeating vague generalities about grammar and style or providing simple bullet-point lists as other writing guides do, this text breaks the well-known IRAC method of legal writing into comprehensible segments and gives students the tools needed to master their law exams. Provides readers with detailed student-written examples of the IRAC method in action. Annotated with line-by-line critiques, these sample essays show readers exactly what can go wrong in a law school exam and how to fix those problems before they appear on a graded paper. Combining in-depth analysis, easy-to-understand writing, and innovative design features, How to Write Law Exams: IRAC Perfected is the answer to every law student's exam questions.

Steve Emanuel's First Year Questions and Answers Feb 21 2022 Steve Emanuel's First Year Questions and Answers consists of 1,144 short-answer questions, covering the six subjects usually taken by first year law students. Each question gives you a fact pattern, and then asks you to make a conclusion, usually a yes/no conclusion (e.g., "Is there an enforceable contract?"). Within each subject, the questions are arranged in approximately the order that the topics they cover occur in the Emanuel Law Outlines for that subject. Thus the Civil Procedure questions begin with questions involving personal jurisdiction, proceed to subject matter jurisdiction, then to pleading, and so on.
