The Origins of Abnormal Behavior Nov 12 2020

[Annual Reports of the Navy Department..](#) Apr 29 2022 1897/98, [v.2], "Appendix to the Report of the chief of the Bureau of navigation" contains correspondence and documents relating to the conduct of the war with Spain, collected, arranged and edited by Ensign H. H. Ward, under the direction of the bureau

New Perspectives on Enterprise Decision-Making Applying Artificial Intelligence Techniques Sep 03 2022 This book presents different techniques and methodologies that used to help improve the decision-making process and increase the likelihood of success in sector as follows: agriculture, financial services, logistics, energy services, health and others. This book collects and consolidates innovative and high-quality research contributions regarding the implementation techniques and methodologies applied in different industrial sectors. The scope is to disseminate current trends knowledge in the implementation of artificial intelligence techniques and methodologies in different fields as follows: supply chain, business intelligence, e-commerce, social media and others. The book contents are useful for Ph.D., Ph.D. students, master and undergraduate students, and professional and students in industrial engineering, computer science, information systems, data analytics and others.

[Violin Specimen Sight Reading Tests 1-5](#) Sep 10 2020 This volume contains valuable practice material for candidates preparing for ABRSM Violin exams, Grades 15. Includes many specimen tests for the revised sight-reading requirements from 2012, written in attractive and approachable styles and representative of the technical level expected in the exam.

[Adenocarcinoma of the Esophagogastric Junction](#) Oct 12 2020 Among malignant tumors, adenocarcinomas of the esophagogastric junction show the highest increase in incidence over the past three decades in Western industrialized countries. This special volume, with contributions from experts in the field, covers all aspects of the disease. Etiology, pathogenesis, classification, and clinical staging are discussed, and there is special emphasis on state of the art treatment techniques. The latter range from endoscopic mucosal resections or limited surgical resections for early cancers to multimodality treatment options for locally advanced tumors. Emerging quality issues in surgical management are addressed. Detailed attention is also paid to other important recent developments, including molecular response prediction, early metabolic response evaluation by PET and PET-CT, the diagnosis of micrometastases, and the use of sentinel node technology. This volume will be of interest to all clinicians concerned with the diagnosis and management of this malignancy.

[A Tale of Two Narratives](#) Jul 21 2021 Explores the transmission - and perpetuation - of conflict narratives in Israeli-Jewish and Palestinian society since the signing of the Oslo Accords.

Selections from Subh al-A'shā by al-Qalqashandi, Clerk of the Mamluk Court Oct 24 2021 Subh al-A'shā by al-Qalqashandi is a manual for chancery clerks completed in 1412 and a vital source of information on Fatimid and Mamluk Egypt which, for the first time, has been translated into English. The text provides valuable insight into the Mamluk and earlier Muslim eras. The selections presented in this volume describe Cairo, Fustat and the Cairo Citadel and give a detailed picture of the Fatimid (AD 969-1172), Ayyubid (AD

1172-1250) and Mamluk (AD 1250-1412) court customs, rituals and protocols, and depict how the Mamluk Sultanate was ruled. It also contains a wealth of details covering the geography, history and state administration systems of medieval Egypt. An introduction preceding the translation contextualizes al-Qalqashandi's role and manuscript, as well as introducing the man himself, while detailed notes accompany the translation to explain and elaborate on the content of the material. The volume concludes with an extensive glossary of terms which forms a mini-encyclopaedia of the Fatimid and Mamluk periods. This translation will be a valuable resource for any student of medieval Islamic history.

Perspectives in Mammary Gland Development and Breast Cancer Research May 07 2020 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

[Body Image, Eating Disorders, and Obesity in Youth](#) Sep 22 2021 Examines the relationship between body image disturbances and eating disorders in our most vulnerable population: children and adolescents. The editors present a dynamic approach that combines current research, assessment techniques, and suggestions for treatment and prevention. This volume delivers direction for researchers in the field as well as guidance for practitioners and clinicians working with young clients suffering from these disorders.

[Solidification and Casting:](#) May 19 2021 Written by leading experts in their respective fields, Solidification and Casting provides a comprehensive review of topics fundamental to metallurgy and materials science as well as indicates recent trends. From an industrial perspective, the book begins with chapters on the casting techniques most commonly used in industry today. It then d

Handbook of Common Stocks Mar 17 2021

Auslander-Buchweitz Approximations of Equivariant Modules Aug 02 2022 This book focuses on homological aspects of equivariant modules. It presents a new homological approximation theory in the category of equivariant modules, unifying the Cohen-Macaulay approximations in commutative ring theory and Ringel's theory of delta-good approximations for quasi-hereditary algebras and reductive groups. It also provides detailed introduction to homological algebra, commutative ring theory and homological theory of comodules of co-algebras over an arbitrary base. The book is primarily aimed at researchers but will also be suitable for graduate students.

Handbook of Polypropylene and Polypropylene Composites, Revised and Expanded Mar 29 2022

Building on the success of its predecessor with completely revised material and six new chapters, the Handbook of Polypropylene and Polypropylene Composites, Second Edition responds to increasing interest and changing global trends in the manufacture and application of polypropylene resin. The authors highlight viable options for the manufacture of polypropylene composites to better accommodate market requirements across various industries. The second edition introduces chapters on high-purity submicron talc fillers with lamellar microstructures, the utilization of Wollastonite fibers for polypropylene reinforcement, and updated material on nanocomposite production using exfoliated clay treated with maleated polypropylene-based materials, among many other topics.

Love Wins Dec 02 2019 Twenty-one years ago when Jim Obergefell walked into a bar in Cincinnati and sat down next to John Arthur, the man who would become the love of his life, he had no way of knowing that following the sad loss of John to Motor Neurone Disease his fight to have their marriage recognised on John's death certificate would lead him from the courthouses of Cincinnati to the steps of the U.S. Supreme Court and ultimately into the history books. Jim Obergefell is representative of the 32 plaintiffs in the case "Obergefell v Hodges", arguably the biggest civil rights case of our time, which in June this year saw same-sex marriage recognised across every US state. Here Jim teams up with long-time friend and Pulitzer Prize-winning journalist Debbie Cenziper of The Washington Post to tell his story. LOVE WINS is a legal thriller and love story focused on ordinary people in game-changing circumstances, part Erin Brockovich, part Milk, part Still Alice. It is a story about marriage, grief, courage and the law, but mostly it's about a promise made to a dying man who needed to know that he would be remembered. Through insider accounts and access to key players, LOVE WINS will reveal the dramatic and previously unreported events behind the Supreme Court case that bears Jim's name. The poignant narrative will chronicle how a grieving man and his small-town lawyer, confronted with overwhelming legal, political and personal setbacks, won the most important gay rights case in U.S. history.

Soil Mechanics and Foundations Engineering Conference Jun 19 2021

Capone Aug 10 2020 In this brilliant history of Prohibition and its most notorious gangster, acclaimed biographer Laurence Bergreen takes us to the gritty streets of Chicago where Al Capone forged his sinister empire. Bergreen shows the seedy and glamorous sides of the age, the rise of Prohibition, the illicit liquor trade, the battlefield that was Chicago. Delving beyond the Capone mythology. Bergreen finds a paradox: a coldblooded killer, thief, pimp, and racketeer who was also a devoted son and father; a self-styled Robin Hood who rose to the top of organized crime. Capone is a masterful portrait of an extraordinary time and of the one man who reigned supreme over it all, Al Capone.

Light Metals 2014 Jun 07 2020 The Light Metals symposia are a key part of the TMS Annual Meeting & Exhibition, presenting the most recent developments, discoveries, and practices in primary aluminum science and technology. Publishing the proceedings from these important symposia, the Light Metals volume has become the definitive reference in the field of aluminum production and related light metal technologies. The 2014 collection includes papers from the following symposia: •Alumina and Bauxite •Aluminum Alloys: Fabrication, Characterization and Applications •Aluminum Processing •Aluminum Reduction Technology •Cast Shop for Aluminum Production •Electrode Technology for Aluminum Production •Light-metal Matrix (Nano)-composites

Political Culture in Libya Dec 26 2021 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs, values, and attitudes towards the government or political leaders, mainly because the regimes have been reluctant to allow opinion to be tested. The significance of this book is that it assesses the influence of state ideology on the new generation

of Libyans, and examines their political culture.

Report of Investigations Apr 05 2020

How Children Learn to Read Nov 05 2022 This book brings together information about the neurobiological, genetic, and behavioral bases of reading and reading disabilities. Research findings and intervention approaches by leaders in the field are presented. The volume provides essential reading for a range of researchers, clinicians, and other professionals interested in reading and reading disability.

Federal Register Aug 29 2019

The Canonization of al-Bukhārī and Muslim Aug 22 2021 Drawing on canon studies, this book investigates the origins, development and functions of the core of the Sunni ḥadīth canon, the 'Authentic' ḥadīth collections of al-Bukhārī and Muslim, from the time of their authors to the modern period.

Sessional Papers Feb 13 2021

Proceedings of 10th International Kimberlite Conference Oct 04 2022 International Kimberlite Conferences (IKCs) are special events that are held across the world once in four to five years. IKC is the confluence platform for academicians, scientists and industrial personnel concerned with diamond exploration and exploitation, petrology, geochemistry, geochronology, geophysics and origin of the primary diamond host rocks and their entrained xenoliths and xenocrysts (including diamond) to get together and deliberate on new advances in research made in the intervening years. Ever since the organization of first IKC in 1973 and its tremendous success, the entire geological world eagerly look forward to subsequent such conferences with great enthusiasm and excitement. The scientific emanations from IKCs continue to make significant impact on our understanding of the composition, nature and evolution of the planet we live on. The previous conferences were held at Cape Town (1973), Santa Fe, New Mexico (1977), Clermont-Ferrand, France, (1982). Perth, Western Australia (1987), Araxa, Brazil (1991), Novosibirsk, Russia (1995), Cape Town (1998), Victoria, Canada (2003) and Frankfurt, Germany (2008). The tenth IKC was held at Bangalore, India between 5th and 11th February 2012. The conference was organized by the Geological Society of India in association with the government organizations, academic institutions and Indian diamond mining companies. About 300 delegates from 36 countries attended the conference and 224 papers were presented. The papers include 78 oral presentations and 146 poster presentations on following topics: Kimberlite geology, origin, evolution and emplacement of kimberlites and related rocks, petrology and geochemistry of metasomatised lithospheric mantle magmas, diamond exploration, cratonic roots, diamonds, diamond mining and sustainable developments and policies and governance of diamond exploration. Pre- and post-conference field trips were organized to (i) the diamond bearing kimberlites of Dharwar Craton in South India, (ii) lamproites of Bundelkhand Craton in northern India and (iii) diamond cutting and polishing industry of Surat, Gujarat in western India. A series of social and cultural programmes depicting cultural diversity of India were organized during the conference. The Kimberlite fraternity enjoyed yet another socially and scientifically successful conference.

Proofs of Prophecy and the Refutation of the Isma'iliyya Jan 15 2021 Al-Mu'ayyad bi-llah al-Haruni (d. 411/1020) was a representative of the intellectual center of the Zaydiyya in Northern Iran and a student of the leading Mu'tazilite theologians of the time. In his Kitab Ithbat nubuwat al-nabi he presents a proof of prophecy of Muḥammad and a refutation of the Isma'ilyya. The present volume explores the historical and intellectual context of the oeuvre and includes a partial critical edition of the text.

Wettability and Interfacial Phenomena Jul 09 2020 Wettability at the solid/liquid interface, its dynamics, tunability, the influence of operating parameters, surface and interfacial phenomena play an increasingly significant role in a wide variety of applications, for example, material processing, nanotechnology, oil recovery, oil spills, chemical leaching, water management, and disease transmission. Although a mature field, it is experiencing dramatic developments on several fronts with emerging applications in new fields. This book presents a collection of eight chapters on nanoscale wetting phenomena, oil extraction from reservoir rocks, the role of coatings, particle morphology, surface roughness and viscosity in metal processing, and practical applications of superhydrophobic behaviour in cell culturing, isolation, anti-icing, anti-reflective and anti-corrosion coatings in the transportation and optical devices fields.

Energy Technology 2017 Mar 05 2020 This collection focuses on energy efficient technologies including

innovative ore beneficiation, smelting technologies, recycling and waste heat recovery. The volume also covers various technological aspects of sustainable energy ecosystems, processes that improve energy efficiency, reduce thermal emissions, and reduce carbon dioxide and other greenhouse emissions. Papers addressing renewable energy resources for metals and materials production, waste heat recovery and other industrial energy efficient technologies, new concepts or devices for energy generation and conversion, energy efficiency improvement in process engineering, sustainability and life cycle assessment of energy systems, as well as the thermodynamics and modeling for sustainable metallurgical processes are included.

This volume also offers topics on CO2 sequestration and reduction in greenhouse gas emissions from process engineering, sustainable technologies in extractive metallurgy, as well as the materials processing and manufacturing industries with reduced energy consumption and CO2 emission. Contributions from all areas of non-nuclear and non-traditional energy sources, such as solar, wind, and biomass are also included in this volume. Papers from the following symposia are presented in the book: Energy Technologies Advances in Environmental Technologies: Recycling and Sustainability Joint Session Deriving Value from Challenging Waste Materials: Recycling and Sustainability Joint Session Solar Cell Silicon
