[Drive](#) Sep 01 2022 Dans un motel de Phoenix, un homme est assis, le dos au mur d'une chambre, et il regarde une mare de sang qui grandit à ses pieds. Ainsi commence drive, l'histoire, selon James Sallis, d'un homme " qui conduit le jour en tant que cascadeur pour le cinéma, et la nuit pour des truands ". Dans la grande tradition du roman noir, il est " doublé " lors d'un hold-up sanglant, et bien qu'il n'ait jamais auparavant participé aux actions violentes de ses partenaires occasionnels, il se met à traquer ceux qui l'ont trahi et ont voulu le tuer. Dédié à Ed McBain, Richard Stark et Lawrence Sanders, Drive est un roman au style affûté comme un rasoir, qui n'est pas sans rappeler l'écriture sèche et nerveuse de Jean-Patrick Manchette. Un exercice de style éblouissant de la part de James Sallis, créateur du privé Lew Griffin, poète, universitaire, traducteur en Amérique de Raymond Queneau et dont la plupart de ses romans ont été édités en Série noire. Drive a fait l'objet d'une adaptation cinématographique, réalisée par Nicolas Winding Refn (Pusher, Valhalla Rising le guerrier silencieux), qui a d'ores et déjà reçu l'accueil très favorable de la critique ainsi que le Prix de la mise en scène au dernier Festival de Cannes.

Prairie Forge Nov 30 2019 In the wake of Pearl Harbor, President Roosevelt called for the largest arms buildup in our nation's history. A shortage of steel, however, quickly slowed the program's momentum, and arms production fell dangerously behind schedule. The country needed scrap metal. Henry Doorly, publisher of the Omaha World-Herald, had the solution. Prairie Forge tells the story of the great Nebraska

scrap drive of 1942—a campaign that swept the nation and yielded five million tons of scrap metal, literally salvaging the war effort itself. James J. Kimble chronicles Doorly's conception of a fierce competition pitting county against county, business against business, and, in schools across the state, class against class—inspiring Nebraskans to gather 67,000 tons of scrap metal in only three weeks. This astounding feat provided the template for a national drive. A tale of plowshares turned into arms, Prairie Forge gives the first full account of how home became home front for so many civilians.

[The 30th North Carolina Infantry in the Civil War](#) Jul 31 2022 At the outbreak of the Civil War, the men of the 30th North Carolina rushed to join the regiment, proclaiming, "we will whip the Yankees, or give them a right to a small part of our soil—say 2 feet by 6 feet." Once the Tar Heels experienced combat, their attitudes changed. One rifleman recorded: "We came to a Yankee field hospital ... we moved piles of arms, feet, hands." By 1865, the unit's survivors reflected on their experiences, wondering "when and if I return home—will I be able to fit in?" Drawing on letters, journals, memoirs and personnel records, this history follows the civilian-soldiers from their mustering-in to the war's final moments at Appomattox. The 30th North Carolina had the distinction of firing at Abraham Lincoln on July 12, 1864, as the president stood upon the ramparts of Ft. Stevens outside Washington, D.C., and firing the last regimental volley before the surrender of the Army of Northern Virginia.

[The Experience Economy](#) Dec 24 2021 You are what you charge for. And if you're competing solely on the basis of price, then you've been commoditized, offering little or no true differentiation. What would your customers really value? Better yet, for what would they pay a premium? Experiences. The curtain is about to rise, say Pine Gilmore, on the Experience Economy, a new economic era in which every business is a stage, and companies must design memorable events for which they charge admission. With The Experience Economy, Pine Gilmore explore how successful companies-using goods as props and services as the stage-create experiences that engage customers in an inherently personal way. Why does a cup of coffee cost more at a trendy cafe than it does at the corner diner or when brewed at home? It's the value that the experience holds for the individual that determines the worth of the offering and the work of the business. From online communities to airport parking, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating engaging experiences for both consumers and corporate customers. The Experience Economy marks the debut of an insightful, highly original, and yet

eminently practical approach for companies to script and stage compelling experiences. In doing so, all workers become actors, intentionally creating specific effects for their customers. And it's the experiences they stage that create memorable-and lasting-impressions that ultimately create transformations within individuals. Make no mistake, say Pine Gilmore: goods and services are no longer enough. Experiences are the foundation for future economic growth, and The Experience Economy is the playbook from which managers can begin to direct new performances.

Drive Nov 03 2022 Much later, as he sat with his back against an inside wall of a Motel 6 just north of Phoenix, watching the pool of blood lap toward him, Driver would wonder whether he had made a terrible mistake. Later still, of course, there'd be no doubt. But for now Driver is, as they say, in the moment. And the moment includes this blood lapping toward him...

A Branch of a Tree Jun 05 2020 The author tracks his Scots-Irish roots from the Irish Sea kingdom of Dal Riata in the 500's to McGee's Town (Balmaghie), Scotland in the 900's and on to McGee's, Colorado in the 1880's. He writes of his ancestors as they immigrate to America, participate in the Westward Movement, fight in the Civil War, experience the gold rushes of Colorado, the Great Depression, World War II and more recent events. The impact of these events on one family and its descendents is the story of America. History sings to us from the pages of this book.

*Frick** Jun 25 2019 Ford Frick is best known as the baseball commissioner who put the "asterisk" next to Roger Maris's record. But his tenure as commissioner carried the game through pivotal changes—television, continued integration, West Coast expansion and labor unrest. During those 14 years, and 17 more as National League president, he witnessed baseball history from the perspective of a man who began as a sportswriter. This biography of Frick, whose tenure sparked lively debate about the commissioner's role, provides a detailed narrative of his career and the events and characters of mid-20th century baseball.
