Italian Science Fiction Jul 17 2021 This book explores Italian science fiction from 1861, the year of Italy's unification, to the present day, focusing on how this genre helped shape notions of Otherness and Normalness. In particular, Italian Science Fiction draws upon critical race studies, postcolonial theory, and feminist studies to explore how migration, colonialism, multiculturalism, and racism have been represented in genre film and literature. Topics include the role of science fiction in constructing a national identity; the representation and self-representation of "alien" immigrants in Italy; the creation of internal "Others," such as southerners and Roma; the intersections of gender and race discrimination; and Italian science fiction's transnational dialogue with foreign science fiction. This book reveals that though it is arguably a minor genre in Italy, science fiction offers an innovative interpretive angle for rethinking Italian history and imagining future change in Italian society.

Game of Love in Sermoneta Nov 20 2021 Cultural Association ""From Ischia The Art - DILA"" GAME OF LOVE IN SERMONETA by ANGELA MARIA TIBERI Vice President of the Association New Cenacle of Poetry of Aprilia PREFACE Entering in the world of the writer Angela Maria Tiberi and how to desecrate a tabernacle and lay bare her thoughts, her heart, her soul. Her world is inner made of dreamed and realistic relationships where passion and love intertwine to sciorination a great connection from she is lived and then lost in the street we do not know how and why. Her prose and her poems gather in a whirlwind of expressive desires that can never be reached for a great, timeless but unambiguous love. The poetics of Angela Maria Tiberi is not recommended to all those who have cold hearts escaped the sense of love. Failing to make it their own, they would think, foolishly, that these are utopian transpositions in verses of obsolete ideals, without realizing that the real ""old"" are only those who no longer know how to believe in love. Opere complete: XI: Recensioni di libri (1950-1959) Oct 08 2020 Questo volume - che inaugura la pubblicazione in formato elettronico delle Opere complete di Bruno Leoni - include tutte le 408 recensioni scritte per la rivista "Il Politico" nel corso di un decennio (1950-1959). A sorprendere non è soltanto l'elevato numero di recensioni, ma anche la diversità degli argomenti trattati: dalla psichiatria all'arte, dalla religione alla letteratura, dall'archeologia alle civiltà orientali, dalla storia all'architettura, oltre naturalmente alla politica, all'economia e al diritto. Si tratta di un testo utile per due motivi in particolare. Da un lato per capire meglio il pensiero di Leoni, poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica, della filosofia e della società. Dall'altro esso consente di farsi un'idea sugli argomenti di cui (non) si discuteva in Italia negli anni Cinquanta. "Il Politico" - fondato dallo stesso Leoni nel 1950 - fu infatti un mirabile tentativo di innovare la cultura italiana e in queste

recensioni, che sono per la maggior parte di libri stranieri, l'Autore suggerisce traduzioni e propone idee e argomenti in Italia allora poco conosciuti, o spesso conosciuti male. Le recensioni non sono mai banali, e anzi vi emerge con chiarezza quali siano le valutazioni, le idee e in generale il pensiero di Leoni. Fare esplorazioni in campi così diversi e saperne trarre vantaggio nell'elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un'intelligenza e una cultura fuori dall'ordinario. Ma questo era il suo approccio metodologico: le scienze umane gli apparivano intimamente connesse e solo da una loro trattazione comune era convinto di poter trovare la soluzione ai problemi sociali.

Codification of Maritime Law Oct 20 2021 This book is the first of its kind to explore the problems inherent in the unification of maritime law. Featuring contributions from leading experts at European maritime law research centres, it considers international conventions, current maritime practice, standard forms and recently adopted or drafted national codifications of maritime law from the codification point of view. The book is divided into four parts which represent different views on the main topic. Part I gathers chapters dedicated to different aspects and methods of unification of maritime law on a global scale, as well as several specific issues of maritime law from the regulatory point of view. Part II of the book consists of those papers that centre around the issue of transport of goods. Part III is dedicated to codifications of carriage of passengers, cruise law and leisure navigation. Finally, Part IV addresses national codifications of maritime law. Codification of Maritime Law: Challenges, Possibilities and Experience seeks to provide common ground for future unification of maritime law, which makes the book useful both for private and public maritime lawyers and states' maritime administrations worldwide.

Primo Levi's Narratives of Embodiment Jan 23 2022 This innovative reading of Primo Levi's work offers the first sustained analysis in English of his representations of bodies and embodiment. Discussion spans the range of Levi's works — from testimony to journalism, from essays to science fiction stories — identifying and tracing multiple narratives of embodiment and disembodiment across his oeuvre. These narratives range from the abject, disembodied condition of prisoners in Auschwitz, to posthuman or cyborg individuals, whose bodies merge with technological devices. Levi's representations of bodies are explored in relation to theories of embodiment and posthumanism, bringing his work into new dialogue with critical discourses on these issues. Taking inspiration from Levi's definition of the human being as a constructor of containers, as well as from the recurring references to both material and metaphorical containing structures in his work, the book suggests that for Levi, embodiment involves constant negotiations of containment. He depicts the complex relationships between physical and social bodies, the material and the immaterial self, the conscious and unconscious subject, the organic and the technologically-enhanced body, engaging with evolving understandings of the boundaries of the body, the self, and the human.

The Oxford Handbook of the Phoenician and Punic Mediterranean Feb 09 2021 The Phoenicians created the Mediterranean world as we know it-yet they remain a shadowy and poorly understood group. The academic study of the Phoenicians has come to an important crossroads; the field has grown in sheer content, sophistication of analysis, and diversity of interpretation, and we now need a current overview of where the study of these ancient seafarers and craftsman stands and where it is going. Moreover, the field of Phoenician studies is particularly fragmented and scattered. While there is growing interest in all things Phoenician and Punic, the latest advances are mostly published in specialized journals and conference volumes in a plethora of languages. This Handbook is the first of its type to appear in over two decades, and the first ever to appear in English. In these chapters, written by a wide range of prominent and promising scholars from across Europe, North America, Australia, and the Mediterranean world, readers will find summary studies on key historical moments (such as the history of Carthage), areas of culture (organized around language, religion, and material culture), regional studies and areas of contact (spanning from the Levant and the Aegean to Iberia and North Africa), and the reception of the Phoenicians as an idea, entangled with the formation of other cultural identities, both ancient and modern.

The European Company - all over Europe Feb 21 2022 Ab Oktober 2004 soll die Europäische Aktiengesellschaft in allen Mitgliedsstaaten umgesetzt sein. Das Handbuch gibt für jeden Mitgliedsstaat einen Überblick über die geplanten gesetzlichen Umsetzungen, insbesondere zu den Regelungen zur Gründung der Europäischen Aktiengesellschaft, zum Management System, zur Sitzverlegung und zur Einbeziehung der Arbeitnehmer.

Dante's Plurilingualism Nov 08 2020 Dante's conception of language is encompassed in all his works and can be understood in terms of a strenuous defence of the volgare in tension with the prestige of Latin. By bringing together different approaches, from literary studies to philosophy and history, from aesthetics to queer studies, from psychoanalysis to linguistics, this volume offers new critical insights on the question of Dantes language, engaging with both the philosophical works characterized by an original project of vulgarization, and the poetic works, which perform a new language in an innovative and self-reflexive way. In particular, Dantes Plurilingualism explores the rich and complex way in which Dantes linguistic theory and praxis both informs and reflects an original configuration of the relationship between authority, knowledge and identity that continues to be fascinated by an ideal of unity but is also imbued with a strong element of subjectivity and opens up towards multiplicity and modernity.

The Just Culture Principles in Aviation Law Aug 18 2021 This book reviews and critically analyzes the current legal framework with regard to a more just culture for the aviation sector. This new culture is intended to protect front-line operators, in particular controllers and pilots, from legal action (except in the case of willful misconduct or gross negligence) by creating suitable laws, regulations and standards. In this regard, it is essential to have an environment in which all incidents are reported, moving away from fears of criminalization. The approach taken until now has been to seek out human errors and identify the individuals responsible. This punitive approach does not solve the problem because frequently the system itself is (also) at fault. Introducing the framework of a just culture could ensure balanced accountability for both individuals

and complex organizations responsible for improving safety. Both aviation safety and justice administration would benefit from this carefully established equilibrium.

The book illuminates and analyzes dance in contexts of oppression and its subversion, as well as in situations promoting access to dance, and those encouraging healing from human rights abuses through movement.

Archeologia e Calcolatori, 30, 2019 Jun 27 2022 Il volume 30 di «Archeologia e Calcolatori» si apre con un inserto speciale, dedicato al trentennale della rivista. Alle introduzioni di F. Djindjian e di P. Moscati, che delineano un quadro dell'informatica archeologica nel suo divenire, seguono gli articoli dei membri del Comitato di Redazione, a testimoniare l'attività di ricerca e di sperimentazione che ha caratterizzato il cammino editoriale della rivista, e il contributo di una giovane laureata dell'Università Bocconi, che ha lavorato a stretto contatto con il team di «Archeologia e Calcolatori». Nella parte centrale sono pubblicati gli articoli proposti annualmente dagli autori. Ne emerge un quadro che rappresenta gli aspetti applicativi più qualificanti dell'informatica archeologica (le banche dati, i GIS, le analisi statistiche, i sistemi multimediali), ma che guarda oggi con sempre maggiore interesse agli strumenti di visualizzazione scientifica e di comunicazione delle conoscenze. Il volume si chiude con gli Atti del XII Workshop ArcheoFOSS (Free, Libre and Open Source Software e Open Format nei processi di ricerca archeologica), un'iniziativa lodevole, nata nel 2006, cui si è più volte dato spazio nelle pagine della rivista.
