The New Testament as Canon Dec 30 2019 This wide-ranging collection of essays provides the reader with a critical

introduction to the New Testament as the church's canon. The authors' conviction is that the Bible belongs first of all to the community of believers rather than to the guild of biblical scholars. But that does not make the tools and tasks of modern biblical criticism unimportant. Rather, they are the constructive means by which the scholar discerns the nature of the ongoing conversation between the church and its biblical canon and helps form the church into a community of worship and witness. Whether from a particular composition's point of origin, or from the various properties added to it during the canonizing process, or from its location within the final canonical product, the scholars recover multiple clues from the ancient church's dialogue with its scriptures that help delimit the boundaries and establish the aims of the same dialogue between today's faith community and its biblical canon.

Compounded Topical Pain Creams Dec 10 2020 Pain is both a symptom and a disease. It manifests in multiple forms and its treatment is complex. Physical, social, economic, and emotional consequences of pain can impair an individual's overall health, well-being, productivity, and relationships in myriad ways. The impact of pain at a population level is vast and, while estimates differ, the Centers for Disease Control and Prevention reported that 50 million U.S. adults are living in pain. In terms of pain's global impact, estimates suggest the problem affects approximately 1 in 5 adults across the world, with nearly 1 in 10 adults newly diagnosed with chronic pain each year. In recent years, the issues surrounding the complexity of pain management have contributed to increased demand for alternative strategies for treating pain. One such strategy is to expand use of topical pain medications—medications applied to intact skin. This nonoral route of administration for pain medication has the

potential benefit, in theory, of local activity and fewer systemic side effects. Compounding is an age-old pharmaceutical practice of combining, mixing, or adjusting ingredients to create a tailored medication to meet the needs of a patient. The aim of compounding, historically, has been to provide patients with access to therapeutic alternatives that are safe and effective, especially for people with clinical needs that cannot otherwise be met by commercially available FDA-approved drugs. *Compounded Topical Pain Creams* explores issues regarding the safety and effectiveness of the ingredients in these pain creams. This report analyzes the available scientific data relating to the ingredients used in compounded topical pain creams and offers recommendations regarding the treatment of patients.

EU and International Crime Control Feb 21 2022 In nowadays' globalised society an international exchange of ideas and views is indispensable within the field of social sciences, including criminology and criminal justice studies. The Research Group Governance of Security wants to foster contemporary international discourses on issues of crime and crime control. Therefore, GofS started a Research Paper Series, combining theoretical and

empirical articles on issues reflecting the research activities of GofS. This research group is collaboration between Ghent University and Ghent University College in Belgium. GofS is concentrating its research around the study of administrative and judicial policy that has been developed with respect to new issues of crime and insecurity. Volume 4 focuses on topical issues in EU and International Crime Control. The first five articles deal with intrinsic EU criminal policy aspects, including in its transatlantic cooperation with the US. The remaining three articles deal with anti money laundering control, counter-strategies of criminal organisations and police torture.

Poverty in the Philippines Jun 15 2021 Against the backdrop of the global financial crisis and rising food, fuel, and commodity prices, addressing poverty and inequality in the Philippines remains a challenge. The proportion of households living below the official poverty line has declined slowly and unevenly in the past four decades, and poverty reduction has been much slower than in neighboring countries such as the People's Republic of China, Indonesia, Thailand, and Viet Nam. Economic growth has gone through boom and bust cycles, and recent episodes of moderate economic expansion have had limited impact on the poor. Great inequality across income brackets, regions, and sectors, as well as unmanaged population growth, are considered some of the key factors constraining poverty reduction efforts. This publication analyzes the causes of poverty and recommends ways to accelerate poverty reduction and achieve more inclusive growth. It also provides an overview of current government responses, strategies, and achievements in the fight against poverty and identifies and prioritizes future needs and interventions. The analysis is based on current literature and the latest available data, including the 2006 Family Income and Expenditure Survey.

Little Fires Everywhere Sep 26 2019 NOW A MAJOR TV SERIES ON AMAZON PRIME 'Just read it . . . Outstanding' Matt Haig 'To say I love this book is an understatement . . . It moved me to tears' Reese Witherspoon 'Beautifully written, completely charming, and extremely wise on the subject of adolescence and influence' Nick Hornby Everyone in Shaker Heights was talking about it that summer: how Isabelle, the last of the Richardson children, had finally gone around the bend and burned the house down. In Shaker Heights, a placid, progressive suburb of Cleveland, everything is meticulously planned - from the layout of the winding roads, to the colours of the houses, to the successful lives its residents will go on to lead. And no one embodies this spirit more than Elena Richardson, whose guiding principle is playing by the rules. Enter Mia Warren - an enigmatic artist and single mother- who arrives in this idyllic bubble with her teenage daughter Pearl, and rents a house from the Richardsons. Soon Mia and Pearl become more than just tenants: all four Richardson children are drawn to the mother-daughter pair. But Mia carries with her a mysterious past, and a disregard for the rules that threatens to upend this carefully ordered community. When old family friends attempt to adopt a Chinese-American baby, a custody battle erupts that dramatically divides the town - and puts Mia and Elena on opposing sides. Suspicious of Mia and her motives, Elena

is determined to uncover the secrets in Mia's past. But her obsession will come at an unexpected and devastating cost . . .

A Treatise on Topical Corticosteroids in Dermatology Sep 18 2021 This treatise aims to fill up the lacuna and to contribute significantly to the dissemination of knowledge about the indication/contraindication, mechanism of action, ethical use, side-effects and various other facets related to topical corticosteroid. Topical corticosteroids (TC) have greatly enhanced dermatologists' ability to effectively treat several difficult dermatoses. The available range of formulations and potencies allows them to flexibly treat all groups of patients, different phases of disease, and different anatomic sites. Improper/incomplete knowledge about topical corticosteroids' mechanism of action, indications, classifications, and contraindications has produced a rapid rise in the incidence of improper use of these drugs, which could potentially bring disrepute to this entire group of amazing drugs. Responsibility for disseminating proper knowledge regarding when, where, and how to use TC both to internists and patients primarily rests with dermatologists. In this regard, the benefits of rational and ethical use and the potential harm of overuse and misuse for nonmedical, especially cosmetic purposes, should be clearly conveyed before prescribing TC.

New Realities in Foreign Affairs Jul 17 2021 Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. Zaharna
