[Agriculture Heritage](#) Jan 03 2020 Agricultural heritage is an important book not only for the students pursuing a career in agriculture, but it is also for the people who have a keen interest in agriculture. The book sequentially explains the heritage of agriculture as it evolved. It describes the agriculture from the period it started and the conditions at that period, from Stone Age time. The book includes the insight of the global importance of the agricultural heritage system (GIAHS) journey of agriculture in India is an interesting story since it has a vast division of stages in it. This text is written to increase the understanding and significance of agriculture. It starts with the introduction of agriculture and the historical facts of it. Chapters maintain a continuous natural flow the information. The book is framed in the manner in which all the topics are covered in a compact form to reduce the exaggerated reading efforts.

[Rural Planning in Developing Countries](#) Jul 21 2021 This book provides an international perspective on rural planning, focused on developing countries. It examines conventional development planning and innovative local planning approaches, drawing together lessons from recent experience of rural planning and land use. The authors examine past and current practice and ways that land use planning and management of natural resources can underpin sustainable local livelihoods. They draw on case studies from Africa, Asia and Latin America to present findings relevant throughout the developing world.

The Art of Getting Computer Science PhD Oct 24 2021 The Art of Getting Computer Science PhD is an autobiographical book where Emdad Ahmed highlighted the experiences that he has gone through during the past 25 years (1988-2012) in various capacities both as Computer Science student as well as Computer Science faculty at different higher educational institutions in USA, Australia and Bangladesh. This book will be a valuable source of reference for computing professional at large. In the 150 pages book Emdad Ahmed tells the story in a lively manner balancing computer science hard job and life.

[Washback of Second/Foreign Language Tests. An Appraisal](#) Nov 12 2020 Research Paper from the year 2014 in the subject Speech Science / Linguistics, grade: A, Jahangirnagar University (Jahangirnagar University, Dhaka, Bangladesh), language: English, abstract: An external test or public examination, particularly in a second/foreign language such as IELTS, TOEFL, HSC examination in English, etc might have considerable impact on the stakeholders including teachers, learners, parents, administrators, the institution, the educational system and society as a whole. The effect a test has on the different components of the educational process of a second/foreign language is termed 'washback', either beneficial or harmful at both the micro and macro level. The current paper, firstly, purports to be an appraisal of the concept of 'washback', secondly, examines its nature and functions as revealed by different proponents and researchers, and, finally, ascertains its role in second/foreign language education.

[Ipv4 Ipv6 Technology and Implementation](#) Sep 03 2022 Internet has greater contribution towards modern civilization. Next generation will share this contribution of technological knowledge. Internet protocol is the necessary things for computer networking. Computer networking totally depends on this protocol. In this book I have written about total descriptions of Internet Protocol version 4 and 6. I have also shown the relations, advantages, disadvantages between Ipv4 and 6 and the difference between these two technologies. I have also shown the implementations of these technologies by analyzing the technology, network designing and testing the some part of this technology. I hope you will read my book and write a good review about my book.

ODE TO A NIGHTINGALE Jun 27 2019 This eBook edition of "Ode to a Nightingale" has been formatted to the highest digital standards and adjusted for readability on all devices. "Ode to a Nightingale" is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in Annals of the Fine Arts the following July. "Ode to a Nightingale" is a personal poem that describes Keats's journey into the state of Negative Capability. The tone of the poem rejects the optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795-1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analyzed in English literature.

[The Routledge Handbook of English Language Education in Bangladesh](#) Apr 17 2021 This Handbook is a comprehensive overview of English language education in Bangladesh. Presenting descriptive, theoretical, and empirical chapters as well as case studies, this Handbook, on the one hand, provides a comprehensive view of the English language teaching and learning scenario in Bangladesh, and on the other hand comes up with suggestions for possible decolonisation and de-elitisation of English in Bangladesh. The Handbook explores a wide range of diverse endogenous and exogenous topics, all related to English language teaching and learning in Bangladesh, and acquaints readers with different perspectives, operating from the macro to the micro levels. The theoretical frameworks used are drawn from applied linguistics, education, sociology, political science, critical geography, cultural studies, psychology, and economics. The chapters examine how much generalisability the theories have for the context of Bangladesh and how the empirical data can be interpreted through different theoretical lenses. There are six sections in the Handbook covering different dynamics of English language education practices in Bangladesh, from history, policy and practice to assessment, pedagogy and identity. It is an invaluable reference source for students, researchers, and policy makers interested in English language, ELT, TESOL, and applied linguistics.

[Songs of Innocence](#) Jul 09 2020 This book evokes a childlike view of the world that is simple, pastoral and protected.

Postcolonial Interpretation of G. Lamming's the Pleasures of Exile Nov 24 2021 George Lamming (born 8 June 1927) is a Barbadian novelist, essayist and poet and an important figure in Caribbean literature. In 1951 he became a broadcaster for the BBC Colonial Service. His collection of essays, *The Pleasures of Exile* (1960), is a pioneering non-fiction that attempts to define the place of the West Indian in the post-colonial world, re-interpreting Shakespeare's *The Tempest* and the characters of Prospero and Caliban in terms of personal identity and the history of the Caribbean. In fact, this literary work is a postcolonialist, postrealist and postnationalist counter-discourse because it gives us Lamming's glimpse of the complex issues of identity contained within the Caribbean island-states that were largely shaped by the European colonial practice from the late-fifteenth century up to the late twentieth century. My research questions in this critical study are-"How are the nations of the Caribbean and/or the West Indies originated? How are they represented by canonical discourses and how is their identity constructed? What about its impact throughout different times and spaces? Is it possible to deconstruct and reconstruct their identity through counter-discourse?"-with a view to exploring George Lamming's endeavor in *The Pleasures of Exile* from postcolonial perspective to answer these questions with fact and fiction. In fact, the uprooting of the natives and importation of the African slaves to toil in sugar plantations, the introduction of the Indian and the Chinese indentured laborers to replace the African slaves after the abolition of slavery, as well as the presence of the European colonizers led to the creation of hybrid Caribbean communities of immigrants or exiled people, all with broken cultures and history. I have tried to establish that as the canonical discourses like *The Tempest*, the then media BBC etc. construct the Caribbean's mythologized identities negatively with biased perspectives for their colonial 'civilizing mission', Lamming has tried to deconstruct or decentralize their canonical position counter-discursively to reconstruct his national identity. I have also focused on the problems of the Caribbean hyphenated identities that imply double heredity. So, the region seems to be a no man's land where people lack an autonomous and homogenous identity. At the end of my interpretation, I have tried to establish that-by reviewing colonial history, dismantling the textual unconscious of *The Tempest* as a poststructuralist critic and rejecting the stereotype identities created by other legitimizing Western discourses, Lamming's *The Pleasures of Exile* functions as a counter-discursive signifier of the post-colonial Caribbean's metamorphosis into some cross-cultural identities, identities that are experienced between the Caribbean and the West.

Fundamental of API Based Financial Engineering Aug 02 2022 Financial Engineering is now a versatile word in the banking domain and more programmers are now very attracted to it as it has lot to offer to them. Due to these new API's the financial tasks and economic operations have now become a very trivial process than it used to be. The background of the book are not just one but many. To make apps from API are usually not very easy and also not so cost effective. Specially, in the financial sector it is really difficult to make apps to make easy transactions and manage finance in very controlled way. Though, there are some APIs but they are not so much cost effective. At this crisis hour of the financial sectors, a concept came to the author to do some research on how can an API can be free, cost effective and at the same time beneficial to make life easier in the financial sectors. So the author thought he could try and do some researches on some open source APIs likes of OpenMAMA and SMART API. Basically, Open MAMA is more preferred on this matter than the SMART API. And also that it is very compatible with any system and also the direct approach OpenMAMA is very attractive for any developer. Also, it really helps the system to be very cost effective is also a very important characteristics of OpenMAMA. On the other hand to work with something which is not tried out yet has also come into the author mind. As a result author has chosen SMART API which is mostly used in health and medical tasks to be in the author research list. And during the research author has found much relevant evidence that SMART API has the potential to be used in the financial sector if fallen into the right hands. These research really motivated author a lot to have a go in this analysis. The analysis also believe if we can really try then the cost of financial sectors and also money transactions process can be really kept under control by the help of these API's. The analysis has given a lot of examples and also give a financial model in these book so it can demonstrate how easy and cost friendly can these open source API's can be. Besides, it was also motivated to think what blessings it can bring to the financial engineering sectors. Also that the author friends and well wiser did help him with all the things needed to be done like helping him with new concepts, providing him with slides and lectures. They also gave the author some videos as well as some valuable suggestions regarding the book. So, that was the main reason behind writing this book. The expectation of the author of this book is given below: "In this book I have discussed about the financial engineering based on APIs system. I have also discussed about financial modeling, Detail information about OpenMAMA and SMART APIs etc. I have tried hard to proof the connections of this two APIs in the financial engineering and financial transaction modeling. Besides I have provided OpenMAMA and SMART APIs features, advantages, disadvantages, their usability and compatibility etc in the financial engineering task. The most important thing of the book is API based financial transaction modeling system development which I have design and discussed in the "3.0 Main body of the analysis" section. I have written this book in project based book writing process. I don't follow traditional technical book writing process. Because I think project based technical book writing process is helpful for article, report & research paper etc writing. And this process makes a book easy to understand to its reader. So by reading my book a reader can easily understand the topics of the book and he/she can easily gather the ideas about how to write academic, non-academic project report, research paper, article etc. I hope my book will be helpful for the future research about this API based financial engineering. So I can say that this book is beneficial for the long run development of API based financial engineering."

Differential and Integral Calculus Sep 10 2020 The classic introduction to the fundamentals of calculus Richard Courant's classic text *Differential and Integral Calculus* is an essential text for those preparing for a career in physics or applied math. Volume 1 introduces the foundational concepts of "function" and "limit", and offers detailed explanations that illustrate the "why" as well as the "how". Comprehensive coverage of the basics of integrals and differentials includes their applications as well as clearly-defined techniques and essential theorems. Multiple appendices provide supplementary explanation and author notes, as well as solutions and hints for all in-text problems.

Challenging the Injustice of Poverty May 31 2022 This book explores issues related to poverty in South Asia in a two-pronged manner-by focusing on injustice created and perpetuated by the unjust nature of a social order as its source and by providing concrete suggestions about how policymakers may move to challenge these injustices. Drawing on research inputs from studies across various South Asian countries, the book redefines poverty as a process which excludes certain segments of the society from equitable participation in development opportunities as well as decision-making. It further identifies a variety of operational ideas which can be used by policymakers, political activists, and civil society advocacy groups committed to build a more just, inclusive and poverty free society in South Asia.

Bangladesh Education Sector Review Aug 22 2021 This Education Sector Review covers many major educational topics in Bangladesh. Six actions are needed to realize Bangladesh's vision in 2020: build a stronger, wider and deeper foundation of basic education; reorient and establish secondary education on a more equitable footing; transfer vocational skill training to non-government providers; rationalize, reform and revitalize higher education; vastly increase public financing of education; and manage the system better. Volume 1: addresses the above six actions as well as socioeconomic development, implications for education, and education finance. Volume 2 examines in depth primary and pre-primary education; early childhood care and education for development; non-formal education; secondary; and higher secondary education. Volume 3: focuses on technical vocational education and training; and higher education.

Supermarket Management Practices Feb 13 2021 Supermarket business is now a popular business in most of the countries of the world. Every year there are lots of new supermarkets starting their business in the different parts of the universe. But managing the business in this changing economic environment is always difficult for the owners and top management. So they need to develop and implement effective management practice to operate the business smoothly. The book explains the connection between economic environment and the supermarket's management practices. For this reason, the author has been conducted a research on the two popular supermarkets of UK namely Tesco and ASDA. These two shops are the most popular supermarkets in the UK and operating their business in the different parts of the world as well. The management system of these two supermarket chain corporations and effect of economic environment in these two business organizations are nicely discussed in this book. The book presents how the companies are effectively sustain their management practices in this changing economic environment. The author also tries to analyze the economic condition of these two supermarket chain corporations and tries to use the theoretical concepts of economics and business in the practical sense. Thus, most of the major concepts and theories are discussed in this book based on the real life scenario. Some basic concepts and theories are discussed in the first part. It will clear the idea of the readers to understand the practical implementation of the concepts and theories.

A Few Youths in the Moon Oct 12 2020

Engaging in Educational Research Feb 25 2022 This book reflects the paradigm shift now manifesting in Bangladesh's education system by highlighting recent empirical research. It shares essential insights by presenting research conducted on diverse aspects of current day education in Bangladesh, including policy and governance, equity, access and participation, curriculum and pedagogy, assessment, and education programs and projects run by NGOs. Further, it offers a platform for these unique studies to be showcased and disseminated to scholars and researchers from developing and developed countries alike, and represents a unique reference resource for the education research community in Bangladesh, Asia and all over the world. With Foreword from Professor Serajul Islam Choudhury.
