Midnight in Sicily Aug 02 2022 Peter Robb's journey into the dark heart of Sicily uses history, painting, literature and food to shed light on southern Italy's legacy of political corruption and violent crime. Taking the trial of seven-times Prime Minister, Giulio Andreotti, for alleged Mafia involvement as its starting point, Midnight in Sicily combines a searching investigation with an exuberant, sensual appreciation of this beautiful and bewildering island.

Ghosts of the Belle Époque Mar 05 2020 The Grand Hôtel et des Palmes is an icon of Palermo life. Its rooms and public spaces have witnessed the events that have shaped twentieth century Sicily, everything from the suicide of a poet to political intrigues and a clandestine mafia meeting. The hotel has a long and venerable history. It started out as a private residence for the Ingham-Whitakers, the Anglo-Sicilian family of marsala wine fame, before being sold to the hotelier Enrico Ragusa in 1874. Wagner was one of the most eminent early guests, looking for inspiration to finish his last opera, Parsifal. A few days after its completion, a nervous Renoir arrived to paint his portrait. Months later came Guy de Maupassant, who asked to see Wagner's former suite so that he might detect 'a little of his personality'. The novelist and poet, Raymond Roussel, arrived in the 1930s, but was destined to leave in a coffin. Arthur Miller, Sophia Loren and Maria Callas were all guests and when Visconti was filming The Leopard in Sicily, the entire cast - notably Burt Lancaster, Claudia Cardinale and Alain Delon - visited the hotel. Lancaster even dined with a Baron who had made the hotel his home for reasons shrouded in mystery. Less illustrious guests have included the occultist Aleister Crowley, Lucky Luciano and other mafiosi. Even Giulio Andreotti, the former Italian Prime Minister, who stood trial for complicity in the murder of a journalist and mafia association in the '90s opted for the hotel's Belle Époque opulence. A richly researched history of this historic hotel, with a cast of characters ranging from the good to the bad and the decidedly ugly.

Carta straccia (VINTAGE) Sep 03 2022 La faziosità politica. Gli errori a raffica. Le interviste ruffiane. Le vendette tra colleghi. Lo schierarsi in campi contrapposti, divisi da un'ostilità profonda. Dopo cinquant'anni trascorsi nei giornali, lavorando in molte testate con incarichi diversi, Giampaolo Pansa fa di quel mondo un racconto all'arma bianca, implacabile, che non fa sconti a nessuno. Tra passato e presente, mette in scena una quantità di personaggi, tutti attori di una recita spesso ingannevole e deviata: l'informazione stampata e televisiva, di volta in volta commedia o tragedia.

Montalbano's First Case and Other Stories Feb 13 2021 Montalbano's First Case and Other Stories is a brilliant collection of short stories, personally chosen by Andrea Camilleri. It follows Inspector Montalbano from his very first case in Vigàta, in which he stumbles upon a young girl lurking outside a courthouse with a pistol in her handbag. When she is taken in for questioning and won't utter a single word, Montalbano must find another way to learn who she is trying to kill, and why . . . Other cases include a missing woman who has run away from the love of her life; an old married couple who appear to be rehearsing their suicides; and a crime so dark there's only one person the inspector can call for help. With twists and turns aplenty, these short stories have all the wit, mystery and culinary gusto that Camilleri's fans have come to love him for.

Economics, Ethics and Power Apr 17 2021 Economic theory in its neoclassical form is sometimes regarded as free from values; it is simply the theory of economic exchange. This can only hold true if we accept the idea of "Homo Economicus" and the equilibrium economy. But in the real world, away from neoclassical models, there is no intrinsic stability as such. Instead, stability is created by the surrounding social, cultural and political structures. Clearly, it is imperative that ethics features in the analysis of these economic and socio-political structures. Drawing on Aristotle, Kant, Hume and others, this book conceptualizes the analysis of ethics and economic and social structures. It first considers the key philosophical underpinnings and categories which frame the discussion of ethics in economic theory and then considers individual ethics, social action, financial structures and war. Throughout, ethics are examined in a multicultural context with structural complexities, and the difficulties in finding a coherent set of ethics which provides social cohesion and an open society are considered. A key part of this is the comparison of two ethical principles which can be adopted by societies: ius soli or loyalty to constitution, and ius sanguinis or loyalty to "Blood and Soil". The latter is argued to lead to problems of Us and the Other. Introducing the possibility of integrating microscopic ethics into socio-political structures and proposing the eventual existence of a global ethics, this volume is a significant contribution to the emerging literature on economics, social structures and ethics. It will be of particular interest to those working in business and public administration and who have an education in socio-economic areas, but it also has a broad appeal to students and academics in the social sciences.

The Flavors of Modernity Aug 10 2020 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in To the Lighthouse, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin

examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. The Arab Spring Between Transformation and Capture Mar 17 2021 The Tunisian revolution raises important questions regarding the articulation of resistance and political subjectivity in the context of global governmentality. By drawing from political theory, philosophy, ethnography and readings of local street art, this book restores the radical significance of the political event as an instance of possible collective action. Using the 2011 Tunisian revolution as a starting point for a broader discussion, this book analyses the processes of Orientalisation of non-Western examples of collective action and critiquing the narrative frame of the 'Arab Spring'. By focusing on the aspect of autonomous mobilities and transformations, occurred within a beyond the Tunisian space, Oana Pärvan is able answer key questions including, how moments of political rupture (such as revolutions) are interpreted by the wider public and how mobility across the Mediterranean rearticulates the distribution and recomposition of political theory categories such as class. She narrates how the Tunisian revolution can be inscribed into a long history of dispossession (colonial, regional, neoliberal) and resistance; and the culture and practices of the Tunisian revolutionaries have spread in the country and abroad (seen as a way to think beyond the methodological framework of the nation-state). This work builds on research fieldwork and the analysis of Tunisian street art (mostly of the *Ahl Al Kahf* collective), drawing from migration-centred ethnographic work in order to suggest a reconstruction of the event. By applying theoretical reflections inspired by continental philosophy, media theory and autonomy of migration theory, this work develops an event-based theoretical reflection able to contribute towards rethinking contemporary Orientalism, self-representation and political subjectivity.

Five Moral Pieces Jan 03 2020 Embracing the web of multi-culturalism that has become a fact of contemporary life from New York to New Delhi, Eco argues that we are more connected to people of other traditions and customs than ever before, making tolerance the ultimate value in today's world. What good, he asks in a talk delivered during the Gulf War, does war do in a world where the flow of goods, services, and information is unstoppable, and the enemy is always behind the lines? What makes news today, who decides how it will be presented and how does the way it is disseminated contribute to the widespread disillusionment with politics in general? In one of the most personal of the essays, Eco recalls experiencing liberation from fascism in Italy as a boy, and examines the various historical forms of fascism, always with an eye toward such ugly manifestations today. And finally, in an intensely personal open letter to an Italian Cardinal, Eco reflects on a question underlying all the reflections in the book - what does it mean to be moral or ethical when one doesn't believe in God? As thoughtful and subtle as they are pragmatic and relevant, these essays present one of the world's most important thinkers at the height of his critical powers.

The Struggle for Development and Democracy Dec 02 2019 In *The Struggle for Development and Democracy* Alessandro Olsaretti proposes a humanist social science as a first step to overcome the flaws of neoliberalism, and to recover a balanced approach that is needed in the wake of the 9/11 attacks.

Civic Continuities in an Age of Revolutionary Change, c.1750-1850 Oct 04 2022 This open access book explores the role of continuity in political processes and practices during the Age of Revolutions. It argues that the changes that took place in the years around 1800 were enabled by different types of continuities across Europe and in the Americas. With historians of modernity tending to emphasise the rise of the new, scholarship has leaned towards an assumption that existing modes of action, thought and practice simply became extinct, irrelevant or at least subordinate to new modes. In contrast, this collection examines continuities between early modern and modern political cultures and organization in Europe and the Americas. Shifting the focus from political modernization, the authors examine the continued relevance of older, often local, practices in (post)revolutionary politics. By doing so, they aim to highlight the role of local political traditions and practices in forging and enabling political change. The book argues that while political change was in fact at the centre of both the old and new polities that emerged in the Age of Revolutions, it coexisted with, and was indeed enabled by, continuities at other levels.

Urban Inequalities Jul 01 2022 This collection brings together leading thinkers on human beings in urban spaces and inequalities therein. The contributors eschew conceptual confusion between equality — of opportunity, of access, of the right to compete for whatever goal one chooses to pursue — and levelling. The discussions develop in the belief that old and emerging forms of inequality in urban settings need to be understood in depth, as does the machinery that, as masterfully elucidated by Hannah Arendt, operates behind oppression to sustain power and inequality.

Anthropologists and fellow ethnographically-committed social scientists examine socio-economic, cultural and political forms of urban inequality in different settings, helping to address comparatively these dynamics.

Berlusconi Sep 10 2020 Before there was real estate tycoon cum President-Elect Donald J. Trump, there was Silvio Berlusconi, the billionaire media mogul turned prime minister who dominated Italian life for the past twenty years. In a candid, warts-and-all portrait of the leader who played hard in office and in private life. From the bunga-bunga parties to his most secret moments with world leaders, this biography is rich in anecdotes and revelations involving Barack Obama, Hillary Clinton, George W. Bush, Vladimir Putin, Mikhail Gorbachev, Tony Blair, Nicolas Sarkozy, Angela Merkel, and many others. Berlusconi's incredible rise to power started from nothing. A self-created man, he was a cruise ship crooner as a young man, became a real estate tycoon in the '70s, started the first commercial television network in history, and turned AC Milan into a world-class soccer club. And that was all before he survived the squalid swampland of Italian politics to become prime minister who has not only served the longest in Italian history, but also has generated the most controversy of arguably any world leader today.

The Viceroy Aug 22 2021 A lost literary classic, written in 1894, *The Viceroy* is one of the most acclaimed masterworks of Italian realism. The novel follows three generations of the aristocratic Uzeda family as it struggles to hold on to power in the face of the cataclysmic changes rocking Sicily. As Garibaldi's triumphs move Italy toward unification, the Uzedas try every means to retain their position. De Roberto's satirical and mordant pen depicts a cast of upper-class schemers, headed by the old matriarch, Donna Teresa, and exemplified by her arrogant and totally unscrupulous son, Consalvo, who rises to political eminence through lip service, double-dealing, and hypocrisy. *The Viceroy* is a vast dramatic panorama: a new world fighting to shrug off the viciousness and iniquities of the old.

The Leopard Nov 05 2022 In the spring of 1860, Fabrizio, the charismatic Prince of Salina, still rules over thousands of acres and hundreds of people, including his own numerous family, in mingled splendour and squalor. Then comes Garibaldi's landing in Sicily and the Prince must decide whether to resist the forces of change or come to terms with them.

Italy's 'Southern Question' Jul 09 2020 The 'Southern Question' has been a major topic in Italian political, economic and cultural life for a century and more. During the Cold War, it was the justification for heavy government intervention. In contemporary Italy, a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North, even to the point of secession. The South also remains a resonant theme in Italian literature. This interdisciplinary book endeavours to answer the following: - When did people begin to think of the South as a problem? - Who - intellectuals, statisticians, criminologists, political exiles, novelists (among them some important southerners) - contributed to the discourse about the South and why? - Did their view of the South correspond to any sort of reality? - What was glossed over or ignored in the generalized vision of the South as problematic? - What consequences has the 'Question' had in controlling the imaginations and actions of intellectuals and those with political and other forms of power? - What alternative formulations might people create and live by if they were able to escape from the control of the 'Question' and to imagine the political, economic and cultural differences within Italy in some other way? This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of 'Orientalism'. In situating the devaluation of Southern Italian culture in relation to the recent emergence of 'anti-mafia' ideology in the South and the threat posed to national unity by the Lombard League, it also illuminates the world's stiff inter-regional competition for investment capital.

La vita quotidiana in Italia ai tempi del Silvio Feb 25 2022 Ancora un attimo prima che accadesse, sembrava impossibile. Invece è successo. Se non sono miracoli questi, di cosa mai sapremo ancora provare meraviglia? «Quando il Silvio, raccontatore di miracoli impareggiabile, si affacciò sulla scena politica, ancora si ripeteva in giro che la televisione era lo specchio della società. Era un'interpretazione ormai inadeguata: presto la società italiana sarebbe entrata dentro quello strano specchio, tutta intera come Alice e, come lei, sarebbe partita per il viaggio più colorato e spaventoso della propria Storia.» Enrico Brizzi racconta con ironia l'Italia dagli anni Ottanta a oggi. Nell'agra commedia nazionale c'è posto per passioni e amicizie, Pertini e Supergulp, Berlinguer e Drive in, gli anni del Pentapartito e lo strano destino di un narratore esordiente. E poi il Silvio, l'ascesa al potere, i pubblici scandali, la fine del mito. La Prima e la Seconda Repubblica del nostro Paese sempre in attesa di un'altra primavera.

Printed Media in Fin-de-siecle Italy Nov 24 2021 "The Unification of Italy in 1870 heralded a period of unprecedented change. While successive Liberal governments pursued imperial ventures and took Italy into World War One on the Allied side, on the domestic front technological advance, the creation of a national transport network, the expansion of state education, internal migration to cities and the rise of political associations all contributed to the rapid expansion of the print industry and the development of new and highly diversified reading publics. Drawing on publishers'archives, letters, diaries, and printed material, this book provides the most up-to-date research into the printed media - books, magazines and journals - in Italy between 1870 and 1914. With essays on publishers and reading communities, the professionalization of the role of journalist and writer, children's literature, book illustrations, and printed media in colonial territories among others, this book is intended for those with interests in cultural production and consumption and questions of nation-formation and nationhood in and outside Italy. L'impresa moda responsabile Jun 19 2021 Un viaggio esplorativo sui legami tra moda e responsabilità d'impresa: con questa intenzione si dipana il

percorso del libro. L'idea di fondo è che anche per le aziende del settore fashion l'equilibrio di lungo termine possa essere raggiunto solo integrando obiettivi economici di breve - irrinunciabili per la remunerazione di capitale e lavoro - con altri, non economici ma capaci di generare valore, che fanno riferimento al rapporto con l'ambiente, la società, la cultura, l'arte e il territorio, i media, le istituzioni, la legislazione e soprattutto la dimensione etica. La tesi si inserisce nel dibattito sul ruolo sociale dell'impresa, alla luce del fallimento di un modello di sviluppo che ha posto enfasi esclusivamente sui risultati finanziari immediati, a scapito di ogni attenzione alla compatibilità con il contesto ambientale e sociale. L'impresa moda responsabile trae per contro ispirazione e attinge risorse proprio da questi due macrocontesti, per poi restituire compensi e contributi in una logica di scambio. Programmi di riduzione dell'impatto ambientale, la promozione del territorio, la garanzia di ambienti di lavoro salutari e stimolanti, la qualità dei prodotti, la promozione della cultura attraverso azioni filantropiche, l'avvio di collaborazioni artistiche con finanziamenti e donazioni, la realizzazione di musei aziendali sono tutti aspetti illustrati attraverso l'esempio concreto di aziende che da anni hanno deciso di perseguire la difficile sfida di integrare etica, estetica ed economicità nella filiera. Nella moda stiamo infatti assistendo a quanto si è già verificato nel settore enogastronomico: prodotti artigianali e di alta qualità stanno cambiando radicalmente il modello di consumo, con un ritorno a valori, significati e metodi di produzione dell'era preindustriale, senza nostalgie per il passato ma anzi incorporando nel prodotto, nella comunicazione e nella distribuzione nuove tecnologie e nuove esigenze, immateriali ed emozionali, in grado di generare utili.

[European International Law Traditions](#) Oct 24 2021 ?International Law is usually considered, at least initially, to be a unitary legal order that is not subject to different national approaches. Ex definition it should be an order that transcends the national, and one that merges national perspectives into a higher understanding of law. It gains broad recognition precisely because it gives expression to a common consensus transcending national positions. The reality, however, is quite different. Individual countries' approaches to International Law, and the meanings attached to different concepts, often diverge considerably. The result is a lack of comprehension that can ultimately lead to outright conflicts. In this book, several renowned international lawyers engage in an enquiry directed at sorting out how different European nations have contributed to the development of International Law, and how various national approaches to International Law differ. In doing so, their goal is to promote a better understanding of theory and practice in International Law. /divChapter "What Are and to What Avail Do We Study European International Law Traditions?" is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

[The Rhetoric of Reaction](#) Oct 31 2019 With engaging wit and subtle irony, Albert Hirschman maps the diffuse and treacherous world of reactionary rhetoric in which conservative public figures, thinkers, and polemicists have been arguing against progressive agendas and reforms for the past two hundred years. He draws his examples from three successive waves of reactive thought that arose in response to the liberal ideas of the French Revolution and the Declaration of the Rights of Man, to democratization and the drive toward universal suffrage in the nineteenth century, and to the welfare state in our own century. In each case he identifies three principal arguments invariably used--the theses of perversity, futility, and jeopardy. He illustrates these propositions by citing writers across the centuries from Alexis de Tocqueville to George Stigler, Herbert Spencer to Jay Forrester, Edmund Burke to Charles Murray. Finally, in a lightning turnabout, he shows that progressives are frequently apt to employ closely related rhetorical postures, which are as biased as their reactionary counterparts.
