[A Prepper's Guide to Rifles](#) Aug 02 2022 Know which rifles can defend you and your family. In the chaos of a survival situation, firearms will be important tools for protecting yourself, your family, and your supplies as well as for hunting animals for food. In *A Prepper's Guide to Rifles*, Robert K. Campbell discusses the best rifles to have with you in any confrontation—including the end of the world as we know it. Rifles that are easy to carry and lightweight and that shoot accurately and reliably at close ranges are ideal candidates for personal protection. He covers the fairly standard AR family but also pistol calibers, .22s, and more nontraditional choices. In *A Prepper's Guide to Rifles*, Campbell explores specific rifles that are appropriate for urban, rural, and suburban environments, with tips on how to use them in each context. Whether at home or in a survival scenario, these rifles are the best for defense. *A Prepper's Guide to Rifles* not only reviews the specific features of defensive rifles but how to use them—whether on the move, in a defensive situation, while retreating, or in other circumstances. Campbell also offers expert tips on how to

improve your marksmanship, how to maintain your firearms, crucial gun safety rules, what ammo and optics to purchase, and more.

[The Future of the Gun](#) Sep 03 2022 The history of the American gun is intricately entwined with the history of America itself. Promising developments in gun technology could change not only America's future, but the future of the world. Unfortunately, the radical anti-gun lobby is standing between innovation and the American people.

Bestselling author Frank Miniter details the amazing breakthroughs waiting to happen in gun technology that could make today's firearms

exponentially safer and smarter—if the anti-gun lobby weren't halting progress in its tracks. In *The Future of the Gun*, you will learn: Why anti-gun groups often oppose gun safety features How guns—and gun education for young people—cut crime How federalism could save your gun rights New trends in gun technology that will make guns safer and more effective Why most talk about “assault rifles” is bogus How military and civilian gun technology have always advanced in tandem—for the benefit of soldiers and private citizens What guns could look like in just a few years Want to know about the future of guns? There is no better place to start than here.

Steve applies his 25+ years as a full-time firearms instructor to guide the reader through the selection, function, and use of centerfire rifles. The information contained within is detailed, covering far more than just the firearm itself, leaving the reader confident in his/her plan to learn the about the gun in a reasoned, logical way. He uses eight guidelines for centerfire selection: In widespread use A reputation for dependability Easy to operate Readily Available Parts Readily Available Ammunition Easy to Maintain Accommodate Practical Accessories Represent a Good Value Steve takes the reader through action types, ammunition, sighting systems, rifle choices, accessories, range work and training, and accuracy and distance, cleaning and maintenance. Given the wide popularity of the AR-15 system, Steve also devotes an entire second section specific to the AR covering everything the beginning and intermediate shooter needs to know about ARs: ammunition options, sighting systems, choosing an AR-15, AR possibilities, accessories, and tips. His in-depth knowledge and no-nonsense writing style makes this book a joy to read. Complemented with many photographs, this is a must have on the bookshelf of any firearms enthusiast.

The text is supplemented by more than one hundred detailed photographs that illustrate the various types of rifles and cartridges available for varmint hunters. Varmint Rifles and Cartridges presents information about the history of varmint hunting and how those original rifles differ from the most popular rifles and cartridges available for varmint hunters on the market today. Each chapter of the book is dedicated to a particular cartridge, including the: .204 Ruger .223 Remington .220 Swift .243 Winchester .257 Roberts At the end of each chapter, author C. T. Richards demonstrates how each cartridge and rifle performs through the results of range tests and trajectory tests he conducted himself. A varmint hunter since the 1950s, Richards is more than qualified to grade these products and offer advice on varmint hunting in general. The content of Varmint Rifles and Cartridges will appeal to readers considering varmint hunting for the first time, as well those who have previously acquired some experience in using these tools. Endgame Sep 30 2019 Exploding onto the eschatological scene with a deafening roar, Endgame shatters the status quo with respect to endtime Bible prophecy, detonating centuries' worth of assumption and subjective "fact." By providing the Bible space to interpret itself, the key which unlocks the mysteries of Revelation is revealed to have been within the possession of mankind all along, hidden for millennia in "plain sight." Although Man has long preferred to lean upon his own understanding, the logic of mortals is not equal to the task of assembling the pieces of a Divinely-constructed image, a fact which accounts for the numerous conflicting views and failed predictions of establishment experts. The true account has been set down in God's own hand, scattered throughout His Word which the prophets were inspired to utter, and which holy men of old were moved to record. Custom Rifles of Great Britain Aug 29 2019 If you are contemplating buying a custom rifle, or if you already own one and wish to make further modifications, then this is the book for you. Bruce Potts takes you on the journey of choosing, building, owning and shooting a custom rifle. The three major types of custom rifle are covered: the factory custom (special or limited editions); the semi-custom (a factory rifle that is customized by the addition of upgraded parts requested by the owner); and the full-blown custom (a complete rifle designed in accordance with the customer's specific requirements and utilizing the very best precision parts and the highest quality materials to produce a unique rifle). On a chapter-by-chapter basis each of the constituent parts of the custom rifle is considered and the reader is made fully aware of all of the choices that have to be made, and the issues involved. Bruce Potts has been lucky enough to meet some of the best custom rifle makers in Britain and test many of their rifles, and this book showcases their work and demonstrates what is available to the British shooter. Aimed at all those shooters who are interested in customizing a part, or several parts, of their rifles, or who would like information regarding the purchase of a new, completely customized rifle, and superbly illustrated with nearly 400 colour photographs.

Prepper Guns Dec 26 2021 Food, water, and shelter are very important to survival. But you must also be ready to protect what is yours, because if somebody stronger, better prepared, and better equipped takes it all away, you will die. Your family will die. The only way to protect them is with firearms. Written with the law-abiding civilian in mind, Prepper Guns covers the firearms and tools needed to survive, not only for defense, but also for foraging. It is a comprehensive look at the realities of the firearms a prepper should have. Written by Bryce M. Towsley, a firearms expert and a full-time gun writer with thirty years of experience, it steps away from the "conventional wisdom" that is often spouted by prepper publishing and takes a hard, honest, look at the reality of the firearms, ammo, tools and training needed to survive at home and on the road. Prepper Guns takes a careful look at each category of firearms, ammo, sights, and accessories. Other topics include gun care and maintenance, as well as some simple gunsmithing and reloading to keep firearms repaired and ammo on hand. Finally, Prepper Guns has training suggestions and drills, plus a look at the psychology of survival, using the expertise of some of the top people in the world in these fields. If you are worried that bad things are coming and are trying to prepare, this book is the most important piece of gear you can buy. Because if you can't protect your family, your food and your home, nothing else really matters.
