Medical Terminology Online for the Language of Medicine (User Guide, Access Code and Textbook Package) Jul 01 2022

Medical Terminology Online offers a wide range of auditory, visual, and interactive elements designed to reinforce concepts presented in Chabner's *The Language of Medicine*, 8th Edition. Organized by body system to correspond with the textbook, it actively involves students in the learning process and strengthens their understanding of the material using a variety of engaging exercises and activities. The program's media-rich online environment demonstrates the practical applications of medical language with video clips, animations, and slide shows with audio narration. Course management software available in WebCT, Blackboard, or Evolve that provides the platform for deploying online features such as real-time chat, calendar, e-mail connections, bulletin board, grade book, and instructor syllabus. Interactive exercises such as word building, spelling, pronunciation, matching, labeling, multiple choice, case studies, and more. Over 650 disease and disorder illustrations, over 450 anatomical illustrations, and many new drawings and graphics on each screen. Over 50 animations and slide shows with audio narration demonstrate physiologic processes. Helpful icons alert users to unique elements within the program, such as Factoids, Discussion Board, and Learning Links. Hypertext links direct users to related areas and to other resources for further study. Bold and hyperlinked terms within the text connect students to definitions and audio pronunciations. A glossary link on each screen provides access to the glossary from anywhere in the program for quick reference. Includes an extensive glossary of over 5,000 terms in both

English and Spanish, including definitions, listed in alphabetical order. Student can click on a term and hear it pronounced correctly. Students can evaluate their mastery of module content by completing the Self-Mastery Quiz at the end of each module before taking the Self-Mastery Exam. The exam is automatically scored and reported to instructor. New design based on the new book design enhances the program's overall interface. New terms and abbreviations reflecting advances in technology and changes in health care delivery are included to reflect this new material in the text. More medical records activities familiarize students with report formats by requiring them to locate answers to questions in mock medical reports. A new tutoring feature in self-assessment quizzes prompts students to review relevant content and then try again to answer a question when it is answered incorrectly. New exercises and games engage students and hold their interest in the lessons. New animations, video clips, and rollovers demonstrate more processes and procedures, including rollovers that clarify anatomy illustrations by prompting a box to open with a short text explanation of that portion of the illustration.
