A History of Women's Prisons in England Jul 19 2021 This book presents a revisionist prison history which brings to the forefront the relationship between gender and policy. It examines women's prisons in England from the late 18th century to the beginning of the 20th century, drawing attention to the detrimental effect the orthodox closed prison has on penal reform. The text investigates the clash between what was conceptualised as desirable prison policy and the actual implementation and implications of such a penalty on the prisoner. It challenges previous claims made about the invisibility of women prisoners in historical penal policy, and provides an original analysis of the open prison, taking HMP Askham Grange as a case study, where the history of such an initiative is explored and debated.

Sites of Discourse - Public and Private Spheres - Legal Culture Jul 27 2019 The present collection of essays grew out of a conference, held in Dresden in December 2001, exploring the relationship between the public sphere and legal culture. The conference was held in connection with the ongoing research undertaken by the Sonderforschungsbereich 537 'Institutionalisation and Historical Change' and, in particular, by the project 'Circulation of Legal Norms and Values in British Culture from 1688 to 1900'. The conference papers include essays on the theory of the public sphere from a systematic and historical point of view by Gert Melville, by Peter Uwe Hohendahl and by Jürgen Schlaeger, all of whom try to re-evaluate and/or improve upon Jürgen Habermas' seminal contribution to the discussion of the emergence of modernism. Alastair Mann's contribution investigates the situation in Scotland, particularly censorship and the oath of allegiance; Annette Pankratz focuses on the king's body as a site of the public sphere; Heinz-Joachim Müllenbrock looks into the widespread 'culture of contention' at the beginning of the eighteenth century; and Eckhart Hellmuth considers the reform movement at the end of the century and the radical democrats' insistence on the right to discuss the constitution. Ian Bell, who took part in the conference, suggested the inclusion of part of the first chapter of his seminal study *Literature and Crime in Augustan England* (1991). Beth Swan, Anna-Christina Giovanopoulos, and Christoph Houswitschka respectively analyse the ideologies of justice, the interrelation between journalism and crime, and the juridical evaluation of the crime of incest and its representation in public. Greta Olson

investigates keyholes as liminal spaces between the public and the private, Juliet Wightman focuses on theatre and the bear pit, Uwe Böker examines the court room and prison as public sites of discourse, and York-Gothart Mix discusses the German emigrant culture in North America.

This book documents and analyzes these shifts and focuses upon the changing relations between legal authority and the English people.

Understanding Risk In Criminal Justice Aug 08 2020 "the Crime & Justice series has become a key resource for universities in teaching criminology and criminal justice... Professor Kemshall has established herself as a leading figure in the concepts of risk, risk management and public protection issues... an invaluable read for those entering Criminal Justice or moving to work in projects or teams at the forefront of public protection" Vista How significant is risk to the formation and implementation of penal policy? To what extent are the tasks and activities of frontline criminal justice workers informed by concerns to assess and manage risk? Has there been a significant 'sea-change' in the delivery of criminal justice, and if so, what are the future implications of this? This illuminating text examines the significance of the concept of risk in criminal justice policy, and in the role of criminal justice agencies and crime prevention initiatives. Particular features of the book include its use of practical examples, coverage of previously unpublished research, and a full review of current risk assessment tools for use with offenders. It is designed with undergraduate courses in mind, providing frequent summaries, lists of further reading, and a glossary. The identification, assessment and management of risk has become a central theme of criminal justice policy. For some penal policy commentators this represents a 'sea-change' in crime management to a new era of

'actuarial justice', that is the management of crime opportunities and risk distribution rather than the management of individual offenders. By drawing on key areas of criminal justice practice such as policing, probation and crime prevention, this book examines the actual extent of this change and reviews the case for a new risk-based penology. The book combines a review of current theories on actuarial justice with a detailed examination of current practices in key frontline agencies. The result is an essential text for criminology students and trainee professionals in criminal justice.

[The Punishment Response](#) Oct 10 2020 Punishment occupies a central place in our lives and attitudes. We suffer a profound ambivalence about its moral consequences. Persons who have been punished or are liable to be punished have long objected to the legitimacy of punishment. We are all objects of punishment, yet we are also its users. Our ambivalence is so profound that not only do we punish others, but we punish ourselves as well. We view those who submit too willingly to punishment as obedient verging on the groveling coward, and we view those who resist punishment as disobedient, rebels. In *The Punishment Response* Graeme Newman describes the uses of punishment and how these uses change over time. Some argue that punishment promotes discrimination and divisiveness in society. Others claim that it is through punishment that order and legitimacy are upheld. It is important that punishment is understood as neither one nor the other; it

is both. This point, simple though it seems, has never really been addressed. This is why Newman claims we wax and wane in our uses of punishment; why punishing institutions are clogged by bureaucracy; why the death penalty comes and goes like the tide. Graeme Newman emphasizes that punishment is a cultural process and also a mechanism of particular institutions, of which criminal law is but one. Because academic discussions of punishment have been confined to legalistic preoccupations, much of the policy and justification of punishment have been based on discussions of extreme cases. The use of punishment in the sphere of crime is an extreme unto itself, since crime is a minor aspect of daily life. The uses of punishment, and the moral justifications for punishment within the family and school have rarely been considered, certainly not to the exhaustive extent that criminal law has been in this outstanding work.

Criminal Justice During the Long Eighteenth Century Jan 31 2020 This book applies three overlapping bodies of work to generate fresh approaches to the study of criminal justice in England and Ireland between 1660 and 1850. First, crime and justice are interpreted as elements of the "public sphere" of opinion about government. Second, "performativity" and speech act theory are considered in the context of the Anglo-Irish criminal trial, which was transformed over the course of this period from an unmediated exchange between victim and accused to a fully lawyerized performance. Thirdly, the authors apply recent scholarship on the history of emotions, particularly

relating to the constitution of "emotional communities" and changes in "emotional regimes".

The Police and Social Conflict Aug 20 2021 Policing remains one of the most controversial areas of criminal justice. Recent years have seen major changes in every aspect of policing: new constructions of the police mission, new ways of delivering police services and new arrangements for police accountability. The police have had to respond to international terrorism, international organized crime, the new faces of migration and asylum, globalization and the reconstitution of societies in the post-Communist and Islamic world. This completely revised second edition argues that through these changes enduring and fundamental divisions can be traced. The book is relevant to those studying criminology, police studies, sociology, social policy and law, wherever their interests touch on the police.

CliffsNotes on Fielding's Joseph Andrews Jan 25 2022 Ordinarily a moralist writer, in this novel Fielding creates a comedy of romance, by superimposing the positive act of the imagination on the raw material of the real world. Print Culture, Crime and Justice in 18th-Century London Sep 20 2021 In the first half of the 18th century there was an explosion in the volume and variety of crime literature published in London. This was a 'golden age of writing about crime', when the older genres of criminal biographies, social

policy pamphlets and 'last-dying speeches' were joined by a raft of new publications, including newspapers, periodicals, graphic prints, the Old Bailey Proceedings and the Ordinary's Account of malefactors executed at Tyburn. By the early 18th century propertied Londoners read a wider array of printed texts and images about criminal offenders - highwaymen, housebreakers, murderers, pickpockets and the like - than ever before or since. *Print Culture, Crime and Justice in 18th-Century London* provides the first detailed study of crime reporting across this range of publications to explore the influence of print upon contemporary perceptions of crime and upon the making of the law and its administration in the metropolis. This historical perspective helps us to rethink the relationship between media, the public sphere and criminal justice policy in the present.

[Preventive Justice](#) Apr 03 2020 This book arises from a three-year study of Preventive Justice

directed by Professor Andrew Ashworth and Professor Lucia Zedner at the University of Oxford. The study seeks to develop an account of the principles and values that should guide and limit the state's use of preventive techniques that involve coercion against the individual. States today are increasingly using criminal law or criminal law-like tools to try to prevent or reduce the risk of anticipated future harm. Such measures include criminalizing conduct at an early stage in order to allow authorities to intervene; incapacitating suspected future wrongdoers; and imposing extended sentences or indefinite on past wrongdoers on the basis of their predicted future conduct - all in the name of public protection and security. The chief justification for the state's use of coercion is protecting the public from harm. Although the rationales and justifications of state punishment have been explored extensively, the scope, limits and principles of preventive justice have attracted little doctrinal or conceptual analysis. This book re-assesses the foundations for the range of coercive measures that states now take in the name of prevention and public protection, focussing particularly on coercive measures involving deprivation of liberty. It examines whether these measures are justified, whether they distort the proper boundaries between criminal and civil law, or whether they signal a larger change in the architecture of security. In so doing, it sets out to establish a framework for what we call 'Preventive Justice'.

The Real History of Tom Jones Feb 23 2022 *The Real History of Tom Jones* revivifies historical materials from which Henry Fielding constructed the greatest comic novel of the eighteenth century. This study recovers and explores the contexts necessary to understand Fielding's subtle art, such as the bloody conflict for the throne between Stuarts and Hanoverians, a contradictory class system, game laws that both protected and flouted individual property rights, and a justice system that proclaimed hanging for many crimes but let most criminals go. Drawing on evidence such as the peculiar appearance of eighteenth-century money, the fraudulent autobiography of a gypsy king, and a magical prayer book illustration, the book offers new readings of both *Tom Jones* and the political and legal landscape of Georgian England.

Justice Henry Fielding'S Influence on Law and Literature Sep 01 2022 This book presents and analyzes Magistrate (Justice of the Peace) Henry Fieldings impact on law and literature through his pamphlets, periodicals and novels, in the context of laws, legal affairs, legal administration, and the

social-economic political and legal environment present in 18th century England. I demonstrate and argue that among novels of all timethe most extensive and diversified coverage of laws, Justices of Peace, lawyers, crimes, and the socio-economic environment, particularly rural 18th century England. Of all the noteworthy 18th century novelists or fiction writers, Justice Henry Fielding is the only one who was also a jurist. This book is also focused on demonstrating how extensively Fielding was consumed throughout his life and the area of law, from his early age to his death, but with a far broader spectrum, education, and experience than anyone except perhaps Lord High Chancellor Hardwicke and Sir William Blackstone. Justice Henry Fielding traveled a long and diversified path in the legal arena to reach the level of expertise, which he deployed in providing his public with Tom Jones, Amelia, and Joseph Andrews as well as his journals and political pamphlets.

Crime, Policing and Punishment in England, 1660-1914 Apr 15 2021 Crime, Policing and Punishment in England, 1660-1914 offers an overview of the changing nature of crime and its punishment from the Restoration to World War 1. It charts how prosecution and punishment have changed from the early modern to the modern period and reflects on how the changing nature of English society has affected these processes. By combining extensive primary material alongside a thorough analysis of historiography this text offers an invaluable resource to students and academics alike. The book is arranged in two sections: the first looks at the evolution and development of the criminal justice system and the emergence of the legal profession, and examines the media's relationship with crime. Section two examines key themes in the history of crime, covering the

emergence of professional policing, the move from physical punishment to incarceration and the importance of gender and youth. Finally, the book draws together these themes and considers how the Criminal Justice System has developed to suit the changing nature of the British state.

[Professionalizing the Police](#) Jun 05 2020 Professionalizing the Police is a timely reassessment of the development of British police training and its contribution to the furtherance of the police professionalism agenda. The police have long struggled with the concept of professionalism. The Victorians veered from regarding police as servants to sanctifying policing as a special calling, while the supposed Golden Age of Policing was riven by divisions of class as sharp as those of the social diversity that poses one of contemporary policing's harshest tests. Police training has reflected these ambiguities and uncertainties. The ground its curriculum covers, pedagogy it employs, and structures through which it operates have been contested, troublesome to manage, and blamed for policing's failures. Behind these frictions lie large issues of governance, policing's place in society and what it means to be professional. Late modernity is marked by uncertainty and scepticism. In 'post-truth' times, professionalism must accommodate ambiguities of class, ethnicity and sexuality. The police languish as last believers in a monochrome vision of society while the norms that make for contemporary sociality have moved on to a multiplex of diversities that harbour new extremes both of tolerance and intolerance. True professionalism alerts practitioners to other ways of delivering social control and just societies: empowering citizens and encouraging autonomy; supporting new modes of social relationships and lifestyle; fitting provision to cases; pluralizing services. This yardstick is used to assess and challenge the recruit and in-service curriculum and to tease out the options around which professionalism can be configured and embedded such that it plays its part in a humane, coherent, and accountable framework of police governance. The book will

appeal to academics and postgraduate students in police research (across criminology, sociology, psychology, socio-legal studies) and the professions (sociology, political science), as well as senior police managers and trainers in the police service and other applied government bodies.

Law, Crime and English Society, 1660-1830 Aug 27 2019 This book examines how the law was made, defined, administered, and used in eighteenth-century England. A team of leading international historians explore the ways in which legal concerns and procedures came to permeate society and reflect on eighteenth-century concepts of corruption, oppression, and institutional efficiency. These themes are pursued throughout in a broad range of contributions which include

studies of magistrates and courts; the forcible enlistment of soldiers and sailors; the eighteenth-century 'bloody code'; the making of law basic to nineteenth-century social reform; the populace's extension of law's arena to newspapers; theologians' use of assumptions basic to English law; Lord Chief Justice Mansfield's concept of the liberty intrinsic to England; and Blackstone's concept of the framework of English law. The result is an invaluable account of the legal bases of eighteenth-century society which is essential reading for historians at all levels.
