Why Jacob Matters: Change Culture and Cultivate Talent by Listening, Leading, and Building Accountability Apr 17 2021 My underlying thesis here is incredibly simple. Great leaders decide what they want. They take the time to determine what great looks like, and then they devise a process to get there. The chapters in this book contain various tools and techniques to help you put this idea into effect and to drive home my central premise, the idea that I hope every reader takes away from this book: "You get what you settle for if you don't know what you want."

Proceedings of the 21st International Symposium on Advancement of Construction Management and Real Estate Apr 05 2020 This book presents the proceedings of CRIOCM_2016, 21st International Conference on Advancement of Construction Management and Real Estate, sharing the latest developments in real estate and construction management around the globe. The conference was organized by the Chinese Research Institute of Construction Management (CRIOCM) working in close collaboration with the University of Hong Kong. Written by international academics and professionals, the proceedings discuss the latest achievements, research findings and advances in frontier disciplines in the field of construction management and real estate. Covering a wide range of topics, including building information modelling, big data, geographic information systems, housing policies, management of infrastructure projects, occupational health and safety, real estate finance and economics, urban planning, and sustainability, the discussions provide valuable insights into the implementation of advanced construction

project management and the real estate market in China and abroad. The book is an outstanding reference resource for academics and professionals alike.

The Everything Guide to Remote Work Jun 27 2019 Discover the secret to being productive and successful no matter where you are with this essential guide to remote work. During COVID-19, working from home became the new normal. Now, both employers and employees find that the remote work they were forced to adjust to may be, well, better—financially, sustainably, and even in terms of overall morale and productivity. But working from home is not without its challenges. It can be difficult to eliminate distractions, strike a solid work/life balance, and maintain social connections that are crucial in the workplace.

Whether you're trying to find and land a job from the comfort of your home, learning to manage a virtual team, or dream of living a digital nomad lifestyle, *The Everything Guide to Remote Work* has everything you need to be successful. You'll learn to optimize your own workplace culture, whether it's in your home office or a constantly changing backdrop. So whether your company continues to work remotely full time or you only have to go to the office a few days a week, you'll be armed with all the tools you'll need to make the most out of this new lifestyle.

Service-Learning to Advance Access & Success Dec 26 2021 Throughout the 90s and early 2000s, service-learning research was intensely focused on the student outcomes. That body of research has effectively brought service-learning from the fringes into the mainstream of institutionalized pedagogies. In the past decade service-learning research has experienced an infusion of exploration in three distinct ways: first, large-scale quantitative methodologies; second, a proliferation of research that has explored how different sub-groups of students experience the pedagogy differently, thusly resulting in variation among outcomes; and third, a focus on the experiences and outcomes associated for communities and community partners engaged in service-learning. In an effort to support these movements, this volume of the *Advances in Service-Learning Research* series, *Service-Learning to Advance Access & Success: Bridging Institutional and Community Capacity*, focuses on how service-learning can advance access and success. Not simply access and success of students, but the ways that service-learning can advance access and success for all through bridging institutional and community capacity building. The chapters in this volume serve as a testament to the ways in which service-learning research continue to be advanced by thoughtful scholar-practitioners. The 12 chapters included in this volume are organized into three sections. The first section focuses on how institutional and community partnerships can be leveraged to build community capacity. The second section focuses on how institutions might build their own capacity to effect change for the good of society. The third and final section focuses on six studies exploring the relationship service-learning pedagogy has with access and success for students. Of the six studies, three are situated within the context of teacher-preparation programs.

SPIN® -Selling Oct 31 2019 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

Quick Training For War Aug 02 2022 Soon after the beginning of the 'Great War', Sir Robert Baden-Powell published his 9th military title, *Quick Training For War*, as his personal contribution to the British war effort. Having previously retired from service in 1910 to promote the Scouting movement, this short manual promoted his ideas for preparing new recruits to be smart and efficient soldiers. In contrast to the long established British army training regime of pomp, stark discipline and 'marching round the square' drill; he urges instead a focus on the "Four C's" : Courage, Common Sense, Cunning, Cheerfulness as a way of more realistically training recruits to better meet the rigors and reality of modern combat. Drawing heavily on his own combat experiences in India and Africa, he outlines a clear and simple course of study to help the new soldier develop his field skills and spirit. His noting of the superior Boer use of earthworks/trench fortifications certainly seem to have been proved topical and forward-thinking considering how trench warfare became the defining characteristic of the World War One battlefield. Each chapter includes many personal anecdotes to illustrate his theories on best training practices. This booklet is well written and interesting for any student of military history, particularly those with an interest in how war-fighting practices and mindset changed radically from the early 1900's and forward. It features 18 illustrations by Baden-Powell as well. It makes a great companion read to his 1899 book on reconnaissance training, *Aids to Scouting*. (also available at Google Play)

Immortalaeism May 19 2021 Vaul Impera investigates the fundamental philosophical aspects of power, demonstrating fundamental aspects of the relationship of power itself, and the relationship of power to human nature. Examining what power is, Vaul proceeds to discuss what power is to people, and in a convincing argument, illustrates how to increase in power, and also to determine if one is powerful. In the second writing of Immortalaeism, Vaul illuminates the philosophy of empire. Concerned with the element of rulership, which was discussed in power, Vaul provides a beginning for the philosophy of empire, which he simply uses as an empirical demonstration of power, indicating it is written to be an appendix, demonstrating power in organisation. Lastly, Vaul relates a spiritual book called Immortalae, which was produced through a spiritual endeavour that lasted thirteen years, from the time Vaul was eighteen. Attempting many religions experiences and philosophies, Vaul communicates his spirituality, which he has founded and established as his own religion, which in eventuality, includes all three written works into a paradigm that Vaul labels, Immortalaeism. Vaul provides spiritual answers that surround the notion of the holy grail in the final book. All three writings are transmitted through his personal experience on the subjects, and are a product of his life circumstances.
