belongs to, nor is authorized by a major religious tradition. From the Oprah Winfrey-endorsed Eckhart Tolle to figures like Gangaji and Adhyashanti, there are now countless spiritual teachers who claim and teach variants of instant or immediate enlightenment. American Gurus tells the story of how this phenomenon emerged. Through an examination of the broader literary and religious context of the subject, Arthur Versluis shows that a characteristic feature of the Western esoteric tradition is the claim that every person can achieve "spontaneous, direct, unmediated spiritual insight." This claim was articulated with special clarity by the New England Transcendentalists Bronson Alcott and Ralph Waldo Emerson. Versluis explores Transcendentalism, Walt Whitman, the Beat movement, Timothy Leary, and the New Age movement to shed light on the emergence of the contemporary American guru. This insightful study is

pledges himself to an Iranian Sufi order that Wilson had almost joined, attempts to write the Great American Queer Islamo-Futurist Novel, and even creates his own mosque in the wilderness of West Virginia. He also employs the “cut-up” writing method of Bey’s friend, the late William S. Burroughs, to the Qur’an, subjecting Islam’s holiest scripture to literary experimentation. William S. Burroughs vs. the Qur’an is the struggle of a hero-worshiper without heroes and the meeting of religious and artistic paths, the quest of a writer as spiritual seeker.

a return to the original hermetic path of initiation, following the strict procedures and symbolism as defined in the spiritual practices of Pythagoras and his tradition The main purpose of the hermetic science, as seen by Giuliano Kremmerz (1861-1930), Italian alchemist, hermeticist, philosopher, and member of the Ur Group, is to allow the adept to concentrate on the natural and divine magic that will allow him or her to develop the latent powers innate in every human being. The initiatory path this opens, one the author compares to the Royal Way of Alchemy, transforms the novice not only mentally but also physically, altering even the very fluids of his or her body. For Kremmerz, magic is the supreme science, the highest expression of what exists and what is possible. With this book, first published in Italian in 1897 and available here for the first time in English, Kremmerz sought to redefine magical initiation as well as other key components of the occult sciences. His aim

was to bring the hermetic path of initiation back into alignment with the strict procedures and symbolism that defined the spiritual practices of Pythagoras and the heirs to his tradition. He visualized the initiate as a disciple who has escaped the stagnant water in which the rest of humanity is immersed and entered a state of non-ordinary consciousness, one that allows for the successful pursuit of realization and contact with the magical will. In this transformative initiatory guide, Kremmerz details the occult purification and preparation the path of natural and divine magic requires. The spiritual course advocated by Kremmerz is arduous--to move forward on the path of true realization, one that will allow the initiate to "climb to heaven" while still alive, the aspirant must commit to total severance from everyday life. Yet Kremmerz's words themselves serve to trigger the beginning of transformation within us, making the very act of reading

The Three Stages of Initiatic Spirituality Oct 16 2021 A detailed guide to the three successive initiatic archetypes: Craftsman, Warrior, and Magician • Investigates the symbolism, rituals, and metaphysical aspects of each initiatic archetype, from the alchemy and shamanism of the craftsman, to the subtle energy work of the warrior, to the sex magic practices and Higher Self work of the magician • Shares meditations, practices, and transformational techniques for each archetype • Investigates the similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the "positive thinking" mind metaphysics movement Exploring the craftsman, warrior, and magician archetypes--three vocations that echo the traditional tripartite division of society--Angel Millar reveals how these archetypes represent the three successive stages of spiritual growth in an individual's life.

He shows how they provide structure for the initiatory process to develop one's mental, physical, and spiritual potential. As craftsman, the individual experiences "mnemonic" initiation: the cultivation of memory as well as language. As warrior, "somatic" initiation: development of the physical body and cultivation of the spirit body. And as magician, "gnostic" initiation: cultivation of the self and manifestation of the Higher Self. Investigating the metaphysical aspects of each archetype, the author explores their symbolism, spiritual practices, and rituals. Examining the craftsman archetype, he looks at metallurgy, alchemy, and the "Craft" of Freemasonry, as well as the ancient role of blacksmith as shaman. He explores the idea of God as a "Creator" or "Craftsman," especially in relation to ancient Greek philosophy, Islamic neoplatonism, and the Kabbalah. Examining the warrior archetype, he reveals

affected by religion and mysticism, such as how the Persian martial art of Zoorkhaneh was profoundly shaped by Sufism and why the Buddhist Shaolin temple became synonymous with Kung Fu. The author places special emphasis on the cultivation of subtle energy as practiced in martial arts, especially in relation to Taoist inner alchemy. Examining the magician archetype, he reveals how each individual has two "selves"--a lower self and a Higher Self--and explores the union of opposites studied by the magician, such as in the tantric arts and sacred sex magic. Sharing meditations, practices, and processes associated with each archetype, as well as techniques for transforming one's consciousness, he also investigates similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the "positive thinking" mind metaphysics movement. Perspectives on Initiation

Aug 26 2022 The present volume, first published at the close of World War II, and based on a series of articles on initiation originally written between 1932 and 1938 for *Le Voile d'Isis* (later renamed *Études Traditionnelles*), is unique in giving a comprehensive account both of the conditions of initiation and of the characteristics of organizations qualified to transmit it. Guénon's distinction between the initiatic and the mystical paths—the first requiring a formal relationship with a master, a set of specific contemplative techniques, and a chain-of-transmission stretching back to the origin of the tradition in question, the second generally lacking these elements—led to some controversy between those who accept this distinction and others who believe that initiatory and mystical

same. The book presents such central principles as the dangers and barrenness of syncretism, the often dire consequences of fostering 'psychic powers', and the superiority of sacerdotal initiation (into the Greater Mysteries) over 'royal' initiation (into the Lesser Mysteries), though both are necessary parts of the initiatic path. This last point precisely defines the rift between Guénon and Julius Evola, whose elevation of royal initiation over sacerdotal must be seen, according to Guénon's criteria, as a modern-day echo of the ancient revolt of the warrior caste against the priestly one. Whoever follows Guénon's argument will realize that a romantic warrior mysticism held no fascination for him, and is in fact explicitly contrary to his principles. But pre-eminently, *Perspectives on Initiation* provides indispensable points of reference for anyone attempting to distinguish between 'initiatic', 'pseudo-initiatic', and 'countert-initiatic'

Initiation and Spiritual Realization Jun 24 2022

Initiation and Spiritual Realization is the closest thing to a work on 'spiritual direction' René Guénon ever wrote, touching as it does upon such vital topics as the transmission of initiatic grace, the various types and functions of the spiritual master, obstacles the aspirant is likely to encounter, different modes of contemplation, and the degrees of spiritual realization. A companion volume to Perspectives on Initiation, where Guénon had defined the nature of initiation and of the organizations qualified to transmit it, Initiation and Spiritual Realization was the first thematic collection of Guénon's articles to appear after his death. And one doctrine expressed in this book stands out as particularly timely: that esoterism is not and cannot be a religion in itself, since to take it as such is to reduce it to an 'alternative'

Therefore, some basic knowledge of all these sacred paths may be necessary before the all-inclusive message of their singular purpose becomes clear in the fullness of esoteric wisdom.

traditions and initiatory rituals of the ancient Egyptians and their sophisticated understanding of precession, human evolution, and divine purpose Radically reinterpreting the time line of prehistory, J. S. Gordon shows that Egyptian civilization is 50,000 years older than acknowledged by Egyptology. He explores astrophysical, cosmological, geophysical, linguistic, and anthropological evidence to reveal forgotten civilizations hidden beneath the Mediterranean and along the coast of northwestern Africa. He explains how the "spontaneous" full-fledged appearance of Egyptian and Sumerian civilizations 5,000 years ago represents not the birth of civilization but the remnants of an immensely ancient and sophisticated worldwide culture ranging from Tibet and China to Atlantis and the vastly larger continent of which it once was part. Examining the mystical traditions and initiatory rituals of the ancient Egyptians, Gordon shows that they were

He reveals their sophisticated understanding of the precession of the equinoxes and its inextricable connection to human evolution and divine purpose--an understanding that could only have arisen from many millennia of high-level observation. Illustrating in detail the sacred geometry of the Great Pyramid and the Giza site, Gordon explains how the coherence of Egyptian mystico-scientific concepts and their art, architecture, and engineering reveals a mission to achieve a "reflection of Heaven on Earth" through the careful location, orientation, and stellar alignment of their temples. He shows the Egyptian Mystery School and its scientific knowledge and universal spiritual philosophy to be a legacy left to the ancient Egyptians by the "fallen star gods," divine

The Way of Initiation Jul 21 2019 Rudolf Steiner gained initial recognition at the end of the nineteenth century as a literary critic and published philosophical works including 'The Philosophy of Freedom.' At the beginning of the twentieth century, he founded a spiritual movement, anthroposophy, with roots in German idealist philosophy and theosophy; other influences include Goethean science and Rosicrucianism. The first English version of 'The Way of Initiation' first appeared in print in 1904 as two volumes. Steiner was a philosopher, social thinker, architect, and esotericist. His philosophical work, which he termed spiritual science, sought to provide a connection between the cognitive path of Western philosophy and the inner and spiritual needs of the human being. Steiner worked with educators, farmers, doctors, and other professionals to

develop Waldorf education, biodynamic agriculture, anthroposophical medicine as well as new directions in numerous other practical areas. He advocated a form of ethical individualism, to which he later brought a more explicitly spiritual component. He based his epistemology on Johann Wolfgang Goethe's world view, in which 'Thinking ... is no more and no less an organ of perception than the eye or ear. Just as the eye perceives colours and the ear sounds, so thinking perceives ideas.' A consistent thread that runs from his earliest philosophical phase through his later spiritual orientation is the goal of demonstrating that there are no essential limits to human knowledge."Steiner became a well-known and controversial public figure during and after World War I. In response to the catastrophic situation in post-war Germany, he proposed extensive social reforms through the establishment of a Threefold Social Order in which the

realms would be largely independent. Steiner argued that a fusion of the three realms had created the inflexibility that had led to catastrophes such as World War I. In connection with this, he promoted a radical solution in the disputed area of Upper Silesia, claimed by both Poland and Germany; his suggestion that this area be granted at least provisional independence led to his being publicly accused of being a traitor to Germany. Steiner opposed Wilson's proposal to create new European nations based around ethnic groups, which he saw as opening the door to rampant nationalism. Steiner proposed as an alternative "'social territories' with democratic institutions that were accessible to all inhabitants of a territory whatever their origin while the needs of the various ethnicities would be met by independent cultural institutions." In 1919, Steiner's chief work on social reform was released simultaneously in Germany, Austria, and Switzerland and

He looks at the Adept Hierarchy of the Great White Himalayan Brotherhood and considers in detail two much-discussed mysteries: The Jesus-as-Christ mystery and the Maitreya-Buddha mystery. Revealing how advancement--spiritual, scientific, and cultural--erupts out of tension, he explains how the Adepts have been increasing local and global tensions to prepare humanity for the Age of Aquarius, thereby creating the ideal preconditions for spiritual evolution and an eventual restoration of the Mysteries in our own modern era.

categories: the major prophecies that are supposed to have been fulfilled in the destruction of Jerusalem in 70 A.D.; the historical view that Revelation predicts the course of human events from the founding of Christianity to the end of the world; or the futurist view that Revelation predicts events that will occur at the end of the world. It's actually none of the above, writes Zachary F. Lansdowne, a leading expert in the field of spiritual initiation. In the Introduction to this rich and complex interpretation, he writes, "According to its own verses, the Revelation is concerned with the present time, which is whatever time we happen to be reading it, and contains information that we can apply immediately to become blessed." This is not a book about "end times" or Armageddon and when it might come. This is a book written entirely in symbols, concealing a path for early Christians, and for the contemporary reader. Lansdowne has applied a

interpretation that takes each symbol as depicting some aspect of human consciousness rather than an eternal event, thus showing that the Revelation is actually a detailed instruction for the spiritual journey--a map to the wakening of higher consciousness. Moreover, while the Revelation appears in the great lineage of Judeo-Christian tradition, Lansdowne shows that its instruction can be appreciated and applied to seekers from any tradition. Lansdowne's line-by-line and verse-by-verse interpretation--presented here in an easy-to-read side-by-side format--is a manual for the true seeker who would follow teachings of Jesus as they were and are laid out, rather than as they have been interpreted by theologians and biblical historians. The Revelation of St. John, when unlocked by the key of psychological methodology, is revealed to contain ideas from many diverse wisdom traditions and philosophies--archangels in Judaism, chakras and kundalini in Hinduism,

Michael Muhammad Knight embarks on a quest for an indigenous American Islam in a series of interstate odysseys. Traveling 20,000 miles by Greyhound in sixty days, he squats in run-down mosques, pursues Muslim romance, is detained at the U.S.-Canadian border with a trunkload of Shia literature, crashes Islamic Society of North America conventions, stink-palms Cat Stevens, and limps across Chicago to find the grave of Noble Drew Ali, filling dozens of notebooks along the way. The result is this semi-autobiographical book, with multiple histories of Fard and the landscape of American Islam woven into Knight's own

The Initiation of the World

Mar 09 2021 In this outline of the secret wisdom of the divine plan, Vera Stanley Alder uses her rare gift for condensing and synthesizing the essentials of esoteric teachings to reveal the many aspects of Ancient Wisdom and its relationship to present-day scientific knowledge. What makes this classic work so popular is Alder's simple and unimposing presentation of the various forms of personal initiation. According to Alder, we each hold the key to Ancient Wisdom if we open ourselves to recognize the universal knowledge that resides within. This book is a guide to the conscious realization of the wholeness of life as we evolve throughout a lifetime.

Oct 28 2022 A tradition of intentional and initiatic dreaming connects the sufism of Ibn Arabi and the Owaysi Order, medieval Kabbala, Taoist scriptures, Afro-Brazilian spirit-cults, Siberian shamanism, and early Christian "angel alphabets." This book deals with specific methods for inducing prophetic or "veridical" dreams, because this book has a purpose: the experimental achievement of non-ordinary consciousness through autonomous openings ("Initiations") to the world of the imagination.

In an astonishing series of lectures on the science of spiritual knowledge, Rudolf Steiner begins by addressing an audience in Dornach, Switzerland - where, only months earlier, his architectural masterpiece, the first Goetheanum, had been destroyed by fire. He discusses

the nature of our planetary system, revealing the planets that are characterised by freedom and those that determine destiny. The spirits of the moon live in seclusion, preserving 'original wisdom' and reflecting powers connected to sexuality, whereas the sun creates harmony. Jupiter is 'the thinker', whilst the spirits on Saturn act as 'living memory'. Speaking in London, Steiner states that the things that happen to people in sleep are more important than anything that occurs during waking hours! Human beings, he says, must learn to see themselves as an image of spirits and spiritual activities on earth. In a break from the theme, and returning to Dornach, Rudolf Steiner reports on his recent visit to England and Wales, where he attended an educational conference in Ilkley, a Summer School in Penmaenmawr and a school for the disadvantaged in the East End of London. Steiner speaks of the particular atmosphere he

and North Wales, where remnants of Druid spirituality live in the surroundings. The latter theme emerges strongly in the next lectures, which examine the Druid priest's sun initiation and perception of moon spirits. The Druids investigated the secrets of the universe, influencing both social and religious life. Steiner also describes the mythic being of Woden, who signified the birth of intellectuality and the subsequent fear of death - which, he asserts, can be healed by the Mystery of Golgotha. In the final section, Rudolf Steiner discusses: 'The past, present and future development of the human mind'. Again, he references the importance of Druid culture, noting that the ground plans of the stone circles in Penmaenmawr are similar to that of the first Goetheanum. He also points to the crucial roles of the ancient Mysteries and Christ's deed in human development.

initiatic archetype, from the alchemy and shamanism of the craftsman, to the subtle energy work of the warrior, to the sex magic practices and Higher Self work of the magician • Shares meditations, practices, and transformational techniques for each archetype • Investigates the similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement Exploring the craftsman, warrior, and magician archetypes--three vocations that echo the traditional tripartite division of society-- Angel Millar reveals how these archetypes represent the three successive stages of spiritual growth in an individual’s life. He shows how they provide structure for the initiatory process to develop one’s mental, physical, and spiritual potential. As craftsman, the individual experiences “mnemonic” initiation: the cultivation of memory as well as language. As warrior, “somatic” initiation:

development of the physical body and cultivation of the spirit body. And as magician, “gnostic” initiation: cultivation of the self and manifestation of the Higher Self. Investigating the metaphysical aspects of each archetype, the author explores their symbolism, spiritual practices, and rituals. Examining the craftsman archetype, he looks at metallurgy, alchemy, and the “Craft” of Freemasonry, as well as the ancient role of blacksmith as shaman. He explores the idea of God as a “Creator” or “Craftsman,” especially in relation to ancient Greek philosophy, Islamic neoplatonism, and the Kabbalah. Examining the warrior archetype, he reveals how the way of the warrior was affected by religion and mysticism, such as how the Persian martial art of Zoorkhaneh was profoundly shaped by Sufism and why the Buddhist Shaolin temple became synonymous with Kung Fu. The author places special emphasis on the cultivation of

martial arts, especially in relation to Taoist inner alchemy. Examining the magician archetype, he reveals how each individual has two “selves”—a lower self and a Higher Self—and explores the union of opposites studied by the magician, such as in the tantric arts and sacred sex magic. Sharing meditations, practices, and processes associated with each archetype, as well as techniques for transforming one’s consciousness, he also investigates similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement. Structured to parallel the three archetypal stages of the initiatic process, this comprehensive guide offers a literary initiation through three degrees of esoteric knowledge.

How does the phenomenon of prophecy occur, and what is the true symbolism of the images present in the Revelation? Only a master of wisdom such as Ramatis could clarify such matters, revealing the hidden sidereal planetary planning behind of the "Final Judgment" label, detailing the process and describing the physical and spiritual transformation on Earth after the transition. This book lifts the veil on the meaning of an ancient initiatory symbol of Ancient Egypt, it is the ka, generally represented by the hands raised above the head, as indicated by the Statue of the ka of king Hor (XIIIth dynasty) currently kept at the Egyptian Museum in Cairo as illustrated on the first cover of this book. Ka symbolizes an invisible part of the human being which once developed by the practices confer on the initiate enormous spiritual powers. The man who manages to awaken the energy of ka in its totality can live in the light and the eternal wisdom. The fear of death will no longer paralyze him, in that death for him will only be a door to another dimension, a continuity towards a brighter life. Brotherhood is the body of Ascended Masters guiding this system of worlds. Working with earnest seekers in every field of human endeavor, the Brotherhood is setting forth the progressive revelations of God for the Aquarian cycle and expanding the dimensions of consciousness in all who aspire to self-mastery. Behind the culture, history, and religion of America lies the Spirit of the Great White Brotherhood; for by the unseen hand and the very specific guidance of the Ascended Masters, America was born, her independence was declared, her constitution was written. America is the land created as a repository of

freedom that millions of souls might realize their potential to become one with God. It is the place where freedom of religion, freedom of speech, freedom of the press, and freedom to assemble provide the foundation for the individual pursuit of cosmic consciousness. Elizabeth Clare Prophet is the anointed Messenger of the Great White Brotherhood. Through their dictations and the instruction given through her, the Ascended Masters lovingly extend their consciousness to those who would follow in their footsteps. "What man has done, man can do " is their message of inspiration to all who seek the victory of immortal life.
