A Law Enforcement and Security Officers' Guide to Responding to Bomb Threats Feb 13 2021 This expanded new edition continues to demonstrate that all law enforcement and security officers should have a working knowledge of bombs, explosives, suspicious devices, chemical-biological-radiological incidents and other threats for their own protection. A lack of this working knowledge can be a contributing factor to injury, death, or the inability to mitigate these incidents. The text points out, in a clear and concise format, the critical steps that should be taken by the first arriving personnel in order to allow the general law enforcement and security practitioner to respond to such.

Take Back Your Privacy Aug 22 2021 Curious about surveillance? Wondering about the security of your computer or phone? These are just a couple of starting points. The author, with decades of experience in the field, takes us on a journey through the digital landscape. Exhaustively researched, with hundreds of links, it's nevertheless written in an informal and entertaining style. Do you know the difference between "a web browser" and "the internet"? That's about all you'll need, to start. When you're done with this book, you'll know more than most IT (information technology) professionals do about digital security. You'll be able to analyze the claims made by tech bloggers and those who fog their own products. You'll know much, much more about the risks to your privacy and anonymity--and why they're both so important--in today's fast-moving world. Then, at the end, the author tells how he once went to jail for trying to help protect thousands of college students (including himself). It's a chilling reminder of just how easily "spin" can replace substance. And yet, it's a funny story. Come on in and give this book a try. You'll be glad you did. The Table of Contents: Dedication Who needs this book? What's a Barefoot Anarchist? Chapter 1: Why Privacy? Why Encrypt? K9 Teams Dec 26 2021 A professional development masterclass for K9 detection teams and people who work with them. Explore: Questions, ideas, and opinions from handlers across the United States and around the world. Controversies and sensitive topics such as frauds, glory seekers, and credentials. Methods and practical tips gathered from more than 27 years of training and field work. It has been said that about the only thing two K9 handlers agree about is what a third handler is doing wrong. Whether in search and rescue or cadaver and human remains detection, there's a variety of opinions in how handlers and dogs train and work. K9 Teams: Beyond the Basics of Search and Rescue and Recovery uses solid science and the experience of dozens, if not hundreds, of handlers to explore the issues teams and organizations commonly encounter in training and operations. Vi Hummel Shaffer is a professional K9 handler who has worked in search and rescue and recovery, including mass fatality recovery, for over 27 years. Along the way she's attended dozens of seminars, learned from some of the top trainers in the world, and spent countless hours in the field working with a wide variety of agencies. In K9 Teams, Vi compiles the questions most often asked, the issues handlers struggle with, and some of the best suggestions handlers share with one another. K9 Teams explores dog selection, training methods, professional certification, team dynamics, issues such as post-traumatic stress disorder, and much more. Everyone working with or interested in detection dogs needs this book. Those in law enforcement, fire departments, and other emergency response agencies will also benefit from the book by learning what K9s can—and cannot—reliably do. Get the most from K9 teams in the field.
