

place at first in a mental institution where Susanne is recorded narrating her past escapades; and then later in the streets of Paris after Susanne escapes from her 'house-arrest'. Is their patient truly afflicted with a unique mixture of psychiatric disorders, or is she really a time-traveler who inserted herself diabolically into the lives of two famous Impressionist artists? Readers will believe, then doubt, Susanne's delusional-psychosis diagnosis until they finally reach the unexpected concluding pages of this often-steamy, multi-genre piece of fiction.

The Art and Adventure of Leadership May 31 2022 For the first time, a top leadership scholar and a top leadership practitioner explore the true duties, demands, and privileges of leadership. Intellectual sparks flew when Warren Bennis, the "father" of modern leadership studies and Steven B. Sample, one of the most accomplished university presidents in recent history, came together for candid explorations of the forces that shape successful leaders and unsuccessful ones. The Art and Adventure of Leadership, their final collaboration, reveals the profound insights that the authors gained together over the 16 years in which they co-taught one of the most popular leadership courses in America. Here, each brings his own distinct vantage point as they address the mechanics and mysteries of leadership. The result is a unique examination of the journey of great leaders from momentary setbacks to ultimate success. It offers profound lessons on what determines the difference between failure and redemption for leaders. And it illuminates important and overlooked dimensions of great leaders ranging from Winston Churchill to Steve Jobs. Together, they explore why: A mature leader must grasp when it's healthy to risk failure, and when failure can't be tolerated at any cost Leadership isn't for everyone and requires a particular set of skills and competencies that are often glossed over in most management literature To succeed in an uncertain and fast-changing world, a shrewd leader must understand which aspects of human society change—and which aspects never change A mature, wise leader must seek a balance between high-minded ideals and the gritty realities and compromises that leaders face in their daily lives Above all, meaningful leadership remains a matter of character With incredible insight, this book examines why George Washington, Abraham Lincoln, and other giants were able to recover from failures, learn resilience, and prepare themselves for their moments of destiny. In so doing, it demonstrates and helps cultivate the leadership skills that you need to create your own most meaningful legacy. The Art and Adventure of Leadership is a unique look at leadership, and a critical resource for the leaders of tomorrow.

Ten Bob an Hour Dec 02 2019 When Steve Phillips started as a 15-year-old apprentice with a Birmingham engineering company in 1961, the Beatles were still the Quarrymen and a pint of mild cost one shilling and three pence. Five years of dirt and grind, leg pulls, laughter and sheer hard graft later, Steve was a skilled turner and fitter, schooled the old fashioned way by senior craftsmen who knew how to turn a screw, mill a die or grind a component to half a thousandth of an inch using manually-controlled machine tools, a micrometer and the skill in their fingers. He had also found the time – and saved the money – to marry his teenage sweetheart and buy a house. Steve went on to a varied and successful career in the manufacturing industry. Half a century on, now retired and living in Cyprus, he looks back on an era before computers and CNC machines, when Birmingham and its factories were the backbone of industrial Britain and families and workmates stuck together. Ten bob an hour is a fascinating portrait of an era long gone. Steve says 'Fifty years ago, a 15-year-old Brummie school-leaver called Stephen Phillips walked into the reception area of a big Midland manufacturing company to start an apprenticeship in engineering. That was me. I hadn't a clue what was coming – the dirt and grind, the hard work and the long hours, the leg pulls and laughter, the comradeship and the slow graduation from greenhorn to skilled man. The next five years would prove arduous, difficult and dirty, but at the end of it all, thanks largely to some of the best mates and colleagues I ever had, I managed to emerge a trained and qualified engineer on the 'holy grail' pay rate of 'ten bob an hour' – that's 50p in today's coinage. It doesn't sound like much, but it was a lot of money in those days. It certainly seemed like it. This book is about those never-to-be forgotten years'.

An Hour by Sun Jun 19 2021 "An Hour by Sun" is a trip down lanes of memory, rows of tobacco and corn on a thriving Georgia farm and amid the triumphs and travails of medicine in the last half of the 20th century. It is funny and nostalgic and informative, as Leonard Durrence, a retired country doctor, traces his beginnings on a depression-era farm, through the rigors of medical school and internship and the challenge of a small town medical practice. For him, the joys of retirement are just as vivid a color in the tapestry of his life as the boyhood escapades with his sisters and his curious adventures in scientific understanding. The personal elements are the strongest notes in this account, particularly the spiritual faith that weaves together all his experiences. The adolescent who was born again grows into a thoughtful adult who finds God's solid presence supporting him as he tends the sick in Bangladesh and makes tough decisions in the emergency room and operating room of his Blackshear hospital. This devoted Christian carries the same presence into a series of severe health problems that afflict him, his beloved wife and the father who has been a hero in his life. "An hour by sun" is a ritual phrase his father spoke at the close of every farming day and Dr. Durrence has cherished the meaning of those words through the years. When there is just enough light left to do the important things, one must recognize and use this "hour by sun" to accomplish this task with gratitude for all the hours that came before. He has used his significant hour to record the events of nearly 80 years and underline the way in which God has led him through them. From early childhood, when he kept the woodbox filled and harnessed the pesky mules, to a discovery of the magic of reading and learning, to the important discovery of a life partner and the joy of parenting; from deep satisfaction with healing, civic involvement, gardening and travel, and finally with retirement in a community he loves, through all these stages the good doctor has found deep pleasure, challenge and "peace that passes all understanding."

1500 Miles an Hour Jan 15 2021 "Should these manuscripts chance to fall into the hands of any civilised man, it is my earnest wish, though of German extraction myself, that they should be published - if published at all- in the English tongue. Truth shall prevail, and our return to earth shall scatter, like thistle-down before the autumn winds, the scepticism which I mistake not will encircle them, as soon as man may read them. It is my cherished hope to return to my mother world, and to tell in person of that glorious life and those sublime wonders of a New World. Adieu!" This brief extract must suffice as introduction. The next chapter will begin at once with the story proper, omitting the uninteresting preliminary portion of the manuscripts...

60-Minute CEO Jan 03 2020 Looking toward the C-suite? Take heed. Author and serial CEO Dick Cross pulls back the curtain on this top leadership role, explaining in his new book that being a successful leader, running a business, and doing it extraordinarily well isn't a full-time job. In *60-Minute CEO: The Fast Track to Top Leadership*, Cross makes the case that the single greatest determinant of business success revolves around the job at the top. Cross suggests that the most important, and often overlooked, duty for a CEO is thinking about how to improve his or her business and how to be a leader. Cross also reveals that a mediocre leader can be transformed into an exemplary one simply by refining two key things: thinking and character. In Cross's trademark conversational style, he conveys why strategy and execution, while important, should take a back seat to authenticity and responsibility, and that the essential elements of the CEO role can be accomplished in several 60-minute sessions every week. Executives may fill their time with other tasks, but leading and running a company requires explicit skills different from those needed for any other corporate position. The good news is that those skills are easy to learn, fun to do, and not time-consuming. In an entertaining style, Cross offers executives the fast track to the top leadership position. And while 60 minutes may seem like a quick fix, as Cross sees it, three 60-minute sessions a week devoted solely to considering your business and your role as leader are crucial to business and leadership success. In *60-Minute CEO*, Dick Cross brings over 25 years of experience of transforming companies in various stages of underperformance into industry powerhouses. Cross combines his knowledge and experience with the stories and lessons of preeminent leaders and thinkers including General George Patton and Seattle Seahawks quarterback Russell Wilson.
